   Complete your answer in the allocated space only. DO NOT write outside the answer box.

4. The marks for the questions are shown in brackets ( ).

Q.1. (Total 5 Marks)

a. Name any TWO computer language translators. (1 Mark)

_____

_____

b. What is the need for having various types of language translators? (2 Marks)

_____

_____

_____

_____

c. State any TWO advantages of using a high level language rather than a low level language to write programs. (2 Marks)

_____

_____

_____

_____

Q.2. (Total 5 Marks)

a. Write the most suitable optical input device for the given tasks. (2 Marks)

S. No	Tasks	Device
1.	Groceries checkout in supermarkets and department stores	
2.	Marking of multiple choice answer sheets	
3.	Storing of text or graphic documents	
4.	Converting a scanned document into text that can be edited	

b. What do you consider to be more important in the processing speed of a computer, a hard disk or a Random Access Memory (RAM)? (1 Mark)

_____

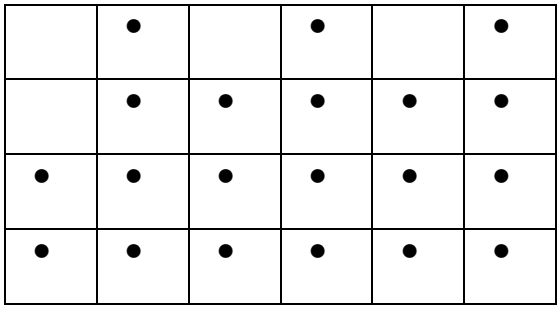

_____

c. The table shows a number of statements about internal memory. Tick one box in each row to show whether the following statements refer to RAM or ROM. (2 Marks)

Statement	RAM	ROM
Stores the data being processed		
Data can be changed		
Instruction is fixed when the chip is made		
Data is lost when the computer is switched off		

Q.3. (Total 4 Marks)

The figure shows a binary clock.

The clock is setup in an array with numbers represented in the following structure.

Hours		**Minutes**		**Seconds**	
	8		**8**		**8**
	4	**4**	**4**	**4**	**4**
2	**2**	**2**	**2**	**2**	**2**
1	**1**	**1**	**1**	**1**	**1**

The lights are illuminated at any given time to determine the hour, minute and seconds. The illustration below represents 10 hours, 37 minutes and 49 seconds.

H	**H**	**M**	**M**	**S**	**S**
	●		●		○
	●	●	○	○	●
●	●	○	○	●	●
○	●	○	○	●	○

a. What time does the following binary clock tell? (3 Marks)

H	**H**	**M**	**M**	**S**	**S**
	●		●		●
	○	●	●	○	○
●	●	○	○	●	○
●	○	●	●	○	○

HH _____ MM_____ SS _____

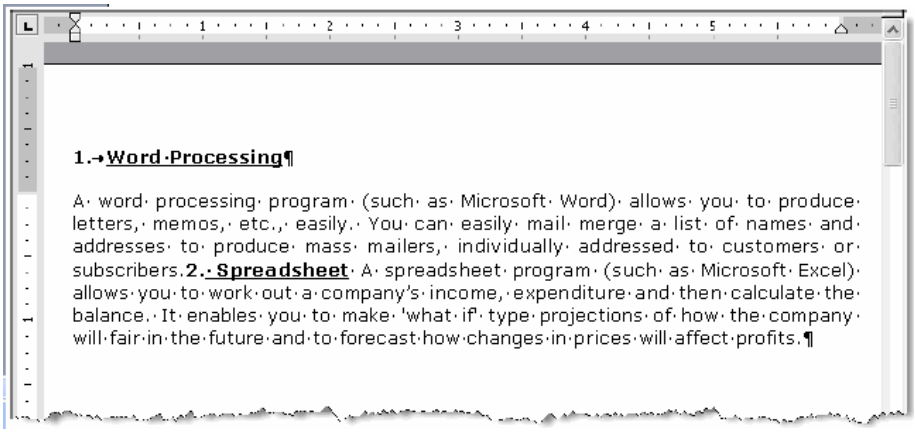

b. Write ONE disadvantage of using a digital clock. (1 Mark)

_____

_____

Q.4. (Total 6 Marks)

Eliza typed the following text.

1. Word Processing

A word processing program (such as Microsoft Word) allows you to produce letters, memos, etc., easily. You can easily mail merge a list of names and addresses to produce mass mailers, individually addressed to customers or subscribers. **2. Spreadsheet** A spreadsheet program (such as Microsoft Excel) allows you to work out a company's income, expenditure and then calculate the balance. It enables you to make 'what if' type projections of how the company will fair in the future and to forecast how changes in prices will affect profits.

a) Eliza wants to highlight the word "**Subscribers**" in the fourth line. How can she do it using the format options in the word processing? (2 Marks)

_____

_____

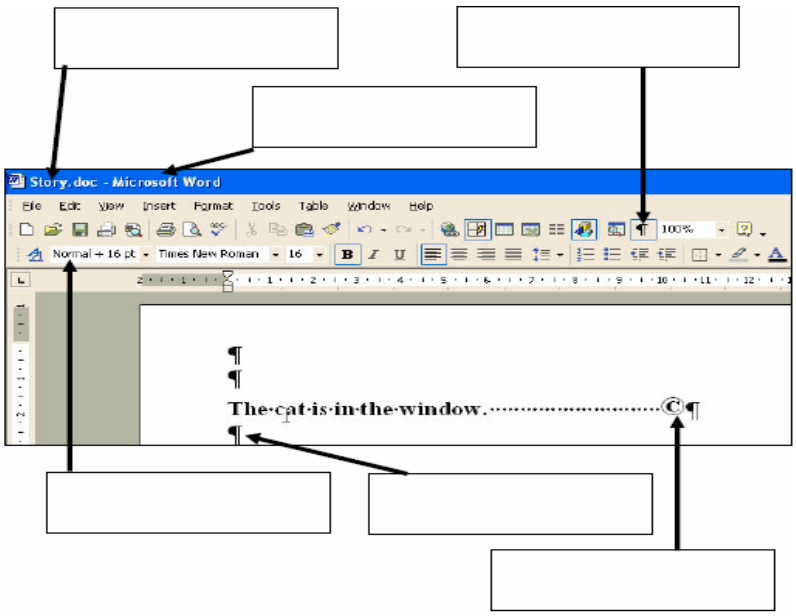

b) Write the type of alignment used in the document. (1 Mark)

Heading:_____

Paragraph:_____

c) Use the number of the given terms to label the diagrams. (3 Marks)

1. Program Used	2. Special Character	3. Show/Hide Button
4. Style	5. Non-Printing Character	6. File Name

Q.5. (Total 5 Marks)

a. Describe any TWO major features you would find in a 'Database Package.' (2 Marks)

_____

_____

_____

_____

b. Your supervisor has assigned you the following tasks on DOS. Write down the required commands to achieve the desired results. (3 Marks)

i. Create a directory 'Tree' in the hard disk.

_____

ii. Create a sub-directory 'Stem'.

_____

iii. Copy a file with BASIC extension in the sub-directory.

_____

Q.6. (Total 7 Marks)

EITHER

a. Advanced electronic technology has resulted in more efficient computers. Discuss the electronic components that have contributed most in the advancement of computers.

OR

b. Discuss the important role of high level languages in making computers popular in various areas of life.

Q.7. (Total 8 Marks)

EITHER

a. 'The spread sheet is a great asset for accountants only.' Whether you agree with this statement or not, express your views with reference to the use of application software in various organizations.

OR

b. Discuss the role of integrated software packages in making computers user-friendly.
