AGA KHAN UNIVERSITY EXAMINATION BOARD

Notes from E-Marking Centre SSC-II Business Studies Annual Examinations 2023

Introduction

This document has been prepared for the teachers and candidates of Secondary School Certificate (SSC) Part II (Class X) Business Studies. It contains comments on candidates' responses to the 2023 SSC-II Examination indicating the quality of the responses and highlighting their relative strengths and weaknesses.

E-Marking Notes

This includes overall comments on candidates' performance on every question and *some* specific examples of candidates' responses which support the mentioned comments. Please note that the descriptive comments represent an overall perception of the better and weaker responses as gathered from the e-marking session. However, the candidates' responses shared in this document represent some specific example(s) of the mentioned comments.

Teachers and candidates should be aware that examiners may ask questions that address the Student Learning Outcomes (SLOs) in a manner that requires candidates to respond by integrating knowledge, understanding and application skills they have developed during the course of study. Candidates are advised to read and comprehend each question carefully before writing the response to fulfil the demand of the question.

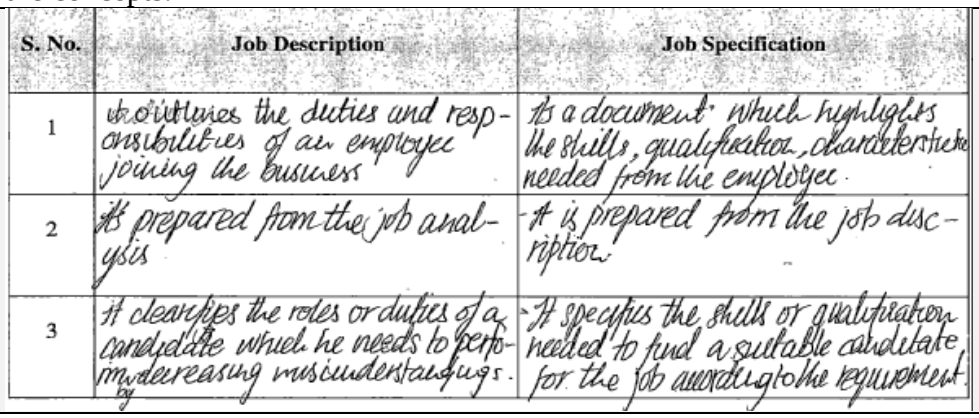

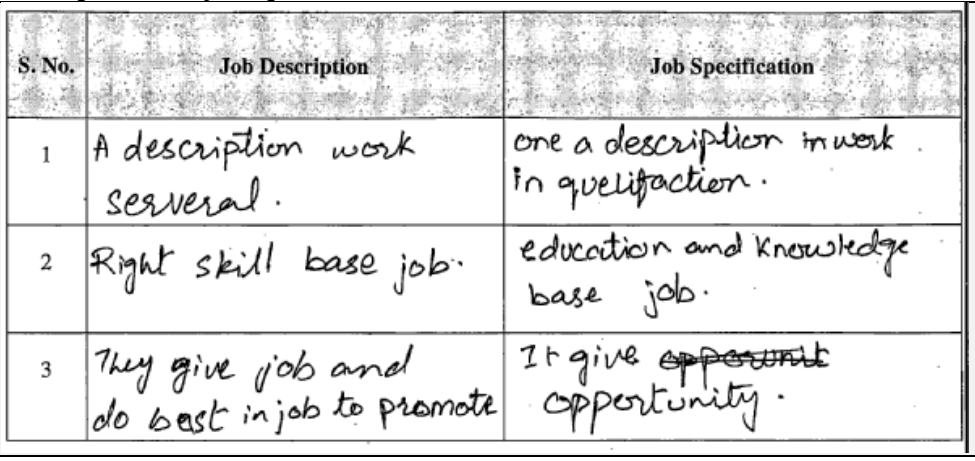

Candidates need to be aware that the marks allocated to the questions are related to the answer space provided on the examination paper as a guide to the length of the required response. A longer response will not in itself lead to higher marks. Candidates need to be familiar with the command words in the SLOs which contain terms commonly used in examination questions. However, candidates should also be aware that not all questions will start with or contain one of the command words. Words such as 'how', 'why' or 'what' may also be used.

General Observations

Overall performance was well, and most candidates performed better. Topics related to business activity and business organisation were well attempted. However, responses regarding accounting and finance and marketing need further attention as candidates struggled while attempting the questions. Topics related to market research will require more attention during teaching and learning as most of the candidates struggled in connecting their understanding in scenario-based questions.

Note: Candidates' responses shown in this report have not been corrected for grammar, spelling, format or factual information.

DETAILED COMMENTS
Constructed Response Questions (CRQs)

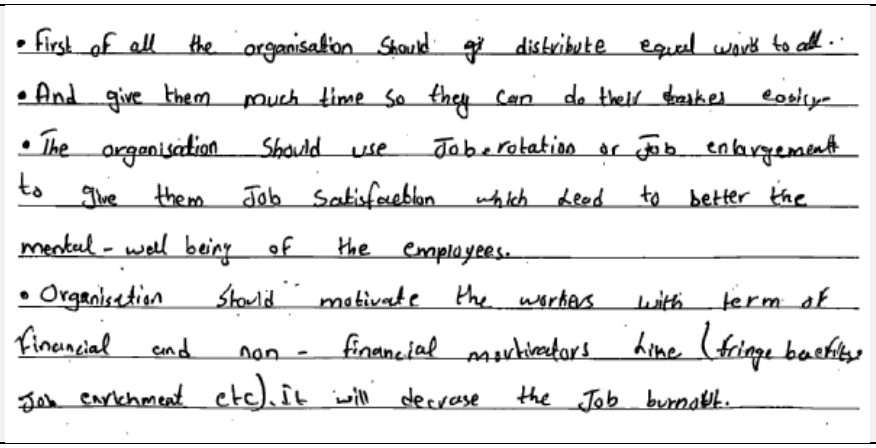

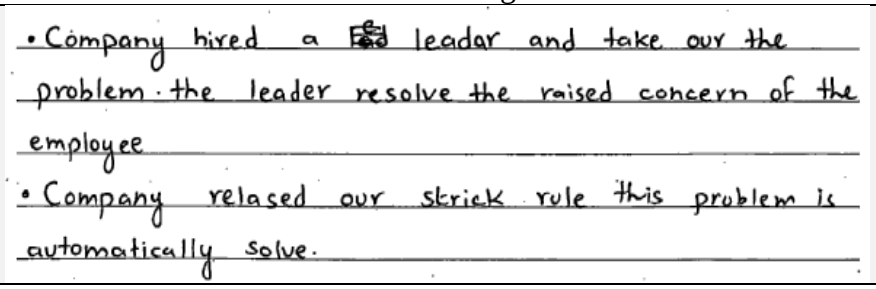

<table>
<tr><th colspan="2">Question No. 1</th></tr>
<tr><td>Question Text</td><td>Differentiate between job description and job specification in any THREE points.</td></tr>
<tr><td>SLO No.</td><td>6.1.4</td></tr>
<tr><td>SLO Text</td><td>Differentiate between job description and job specification.</td></tr>
<tr><td>Max Marks</td><td>3</td></tr>
<tr><td>Cognitive Level</td><td>U*</td></tr>
<tr><td>Checking Hints</td><td>Give ONE mark for each correct differentiation (THREE required).</td></tr>
<tr><td>Overall Performance</td><td>The question posed a slight challenge for the candidates, as it required them to differentiate between job description and job specification. While these concepts are sometimes viewed as overlapping, they do have distinct differences. The question aimed to assess whether candidates understood these differences. This level of complexity helped gauge their comprehension of the subject matter and their ability to discern between closely related terms.</td></tr>
<tr><td>Description of Better Responses</td><td>Better responses were observed to correctly identify the differences between the two concepts. Their logical and organised responses, complete with appropriate business terminologies showcased a clear distinction between the concepts.</td></tr>
<tr><td>Image of Better Response</td><td> 
<table>
<tr><th>S. No.</th><th>Job Description</th><th>Job Specification</th></tr>
<tr><td>1</td><td>It outlines the duties and responsibilities of an employee joining the business</td><td>Its a document which highlights the skills, qualification, characteristic needed from the employee.</td></tr>
<tr><td>2</td><td>It prepared from the job analysis</td><td>It is prepared from the job description.</td></tr>
<tr><td>3</td><td>It clearifies the roles or duties of a candidate which he needs to perform decreasing misunderstandings.</td><td>It specifies the skills or qualification needed to find a suitable candidate for the job according to the requirement</td></tr>
</table></td></tr>
<tr><td>Description of Weaker Responses</td><td>Weaker responses demonstrated the challenge faced by candidates to offer relevant responses that effectively differentiated the two concepts of job description and job specification.</td></tr>
<tr><td>Image of Weaker Response</td><td> 
<table>
<tr><th>S. No.</th><th>Job Description</th><th>Job Specification</th></tr>
<tr><td>1</td><td>A description work serveral.</td><td>one a description in work in quelifaction.</td></tr>
<tr><td>2</td><td>Right skill base job.</td><td>education and knowledge base job.</td></tr>

Suggestions for Improvement (Highlighted part)

How to Approach SLO	Pedagogy** Used for that SLO	Assessment Strategies
• Understand the expectations of the command words • Identify the content that is required to answer that question (both in terms of understanding of concepts and any skills that may be required like analysing or evaluating) • Refer to the resource guide for extra resources	• Story Board • Concept Mapping • Fish and Bone • Audio Visual resources • Knowledge Platform videos • Practical Demonstration • Questioning Technique (Socratic approach) • Think, Pair and Share ** For description of each pedagogy, refer to Annexure A	• Knowledge Platform real time assessment • Past paper questions • Discussion on E-Marking Notes
Any Additional Suggestion: **Comparative Analysis:** Compare the job description and job specification, use the business organisation example to elaborate and understand that concept more accurately.		

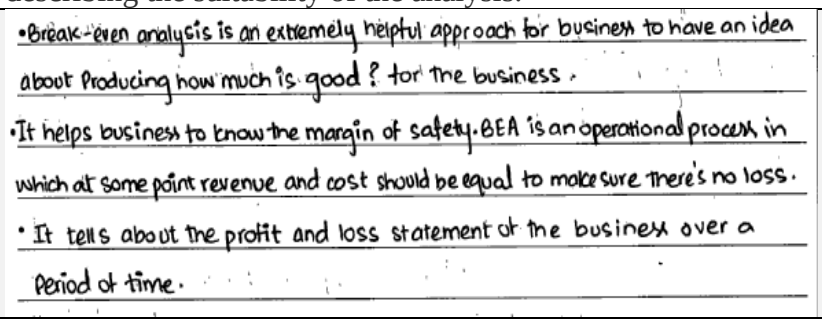

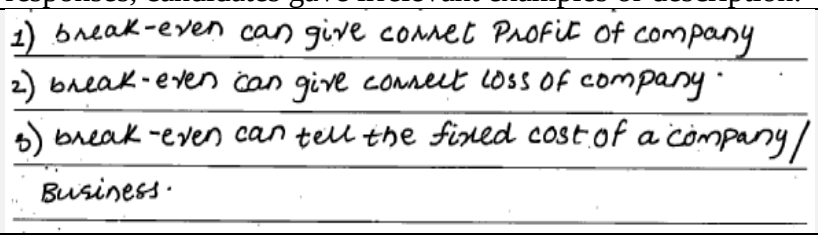

*K = Knowledge U = Understanding A = Application and other higher-order cognitive skills

Question No. 2	
Question Text	A business organisation is facing the issue of 'job burnout'. Most of the employees complain of unsatisfactory working conditions. This includes unequal distribution of work, unrealistic deadlines, and a non-collaborative working environment which is threatening the mental well-being of the employees. Explain any TWO ways through which the organisation can resolve the raised concerns of the employee to overcome the threat.
SLO No.	6.3.8
SLO Text	Explain the methods of motivation for workers or employees, i.e. financial and non-financial rewards.
Max Marks	4
Cognitive Level	U
Checking Hints	Give one mark for identification of each way (TWO required). Give one mark for explanation of each way (TWO required).
Overall Performance	The question posed a slight challenge for the candidates, as it required them to find out the two ways to overcome job burnout issue in the organisation, reflecting that they were unable to connect theory with organisational issues.
Description of Better Responses	In better response, candidates were able to demonstrate clear understanding of the concept of motivation while relating to the case provided. Candidates correctly explained financial and non-financial motivators for resolving the raised concerns of the employees.

Image of Better Response	
Description of Weaker Responses	In the weaker responses, it was observed that candidates were unable to comprehend the scenario and were not able to suggest ways to resolve the situation. The candidates were unable to connect their theoretical knowledge to the given situation. The candidates mentioned more about financials or economic benefits rather than focusing on working environment and human factor which were not related with the given scenario.
Image of Weaker Response	

Suggestions for Improvement (Highlighted part)

How to Approach SLO	**Pedagogy Used for that SLO**	**Assessment Strategies**
• Understand the expectations of the command words • Identify the content that is required to answer that question (both in terms of understanding of concepts and any skills that may be required like analysing or evaluating) • Refer to the resource guide for extra resources	• Story Board • Concept Mapping • Fish and Bone • Audio Visual resources • Knowledge Platform videos • Practical Demonstration • Questioning Technique (Socratic approach) • Think, Pair and Share	• Knowledge Platform real time assessment • Past paper questions • Discussion on E-Marking Notes
Any Additional Suggestion:		

Question No. 3	
Question Text	Assume you are running a business. Your break-even point is equal to your fixed costs, divided by your average selling price and minus variable costs. It is the point at which revenue is equal to costs and anything beyond that makes the business profitable. Describe the suitability of the break-even analysis in your business in THREE points.
SLO No.	7.1.5
SLO Text	Explain the concept 'break-even' (comparing cost with revenues).
Max Marks	3
Cognitive Level	U
Checking Hints	Give ONE mark for describing each point (THREE required).
Overall Performance	The question was about business break-even point analysis point. The candidates required to gauge that how much it is suitable for the business decision of shutdown or keep moving on. Mostly candidates scored better but some were unable to connect with the given scenario.
Description of Better Responses	The better responses were able to demonstrate good understanding of the concept of suitability of break-even analysis. They explained how the analysis helps a business to make decisions to shut operations or going on. Many candidates responded using specific business terminologies while describing the suitability of the analysis.
Image Of Better Response	
Description of Weaker Responses	In weaker responses, most of the candidates were unable to comprehend the question and wrote a description of break-even analysis. Some of them tried to explain what a break-even point or its conditions. In few weaker responses, candidates gave irrelevant examples or description.
Image of Weaker Response	

Suggestions for Improvement (Highlighted part)

How to Approach SLO	Pedagogy Used for that SLO	Assessment Strategies
• Understand the expectations of the command words • Identify the content that is required to answer that question (both in terms of understanding of concepts and any skills that may be	• Story Board • Concept Mapping • Fish and Bone • Audio Visual resources • Knowledge Platform videos • Practical Demonstration	• Knowledge Platform real time assessment • Past paper questions • Discussion on E-Marking Notes

required like analysing or evaluating) • Refer to the resource guide for extra resources	• Questioning Technique (Socratic approach) • Think, Pair and Share	
Any Additional Suggestion: **Critical Thinking Exercises:** Pose thought-provoking questions that encourage students to critically analyse the break-even analysis. Encourage them to consider potential consequences and unintended effects of cost revenue and profitability.		

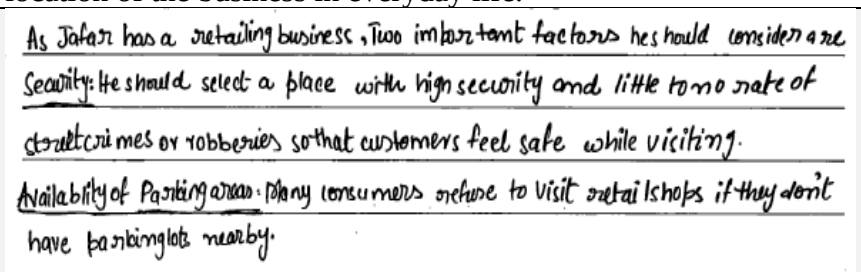

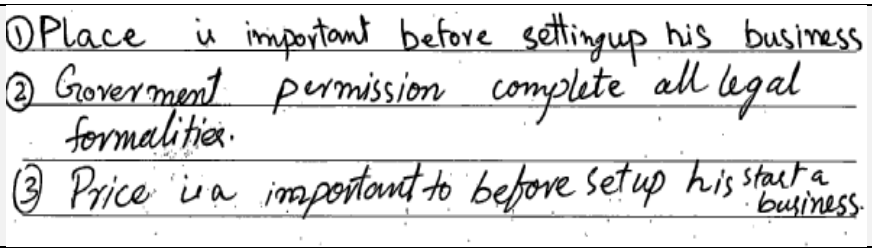

Question No. 4	
Question Text	Jafar would like to set a cosmetic store in his town. State any TWO important factors he should consider before setting up his business.
SLO No.	7.3.1
SLO Text	Describe the factors affecting the location of a manufacturing business: • production methods and location decision • market • raw material / components • external economies of scale • availability of labour • government influence • power and water supply • climate.
Max Marks	2
Cognitive Level	U
Checking Hints	ONE mark for stating each factor (any TWO required). Note: Any other VALID factor should be awarded marks
Overall Performance	This question was very well attempted. The question was asking about the factors affecting setting up of a store in a locality. The candidates were required to state two factors of locating business.
Description of Better Responses	In better responses candidates were able to provide insightful and well-articulated responses showing clear understanding of the concept of factors for locating a retail business. They elaborated factors of location with reference to near to the source of purchase. Some of them mentioned the perspective of accessibility of customers and facilitation to the customers. Overall, better responses mentioned almost all relevant aspects to the location of the business in everyday life.
Image of Better Response	
Description of Weaker Responses	Weaker responses were mostly unable to understand the factors that influence the setting up of store as they were writing about availability of finance or capital investment. Some of them also mentioned about getting a loan from any resource or financial institution which was totally not the required response. Candidates should comprehend the question first and then connect it with the theory they have studied.

Image of Weaker Response	

Suggestions for Improvement (Highlighted part)

How to Approach SLO	**Pedagogy Used for that SLO**	**Assessment Strategies**
• Understand the expectations of the command words • Identify the content that is required to answer that question (both in terms of understanding of concepts and any skills that may be required like analysing or evaluating) • Refer to the resource guide for extra resources	• Story Board • Concept Mapping • Fish and Bone • Audio Visual resources • Knowledge Platform videos • Practical Demonstration • Questioning Technique (Socratic approach) • Think, Pair and Share	• Knowledge Platform real time assessment • Past paper questions • Discussion on E-Marking Notes

Any Additional Suggestion:
Use of Case Studies: Present case studies that showcase the factors which business should need to consider before deciding about it is location. Discuss the economies of scale and other aspects.

Question No. 5

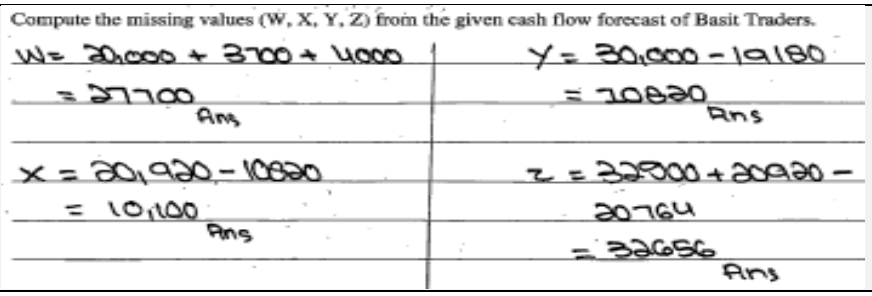

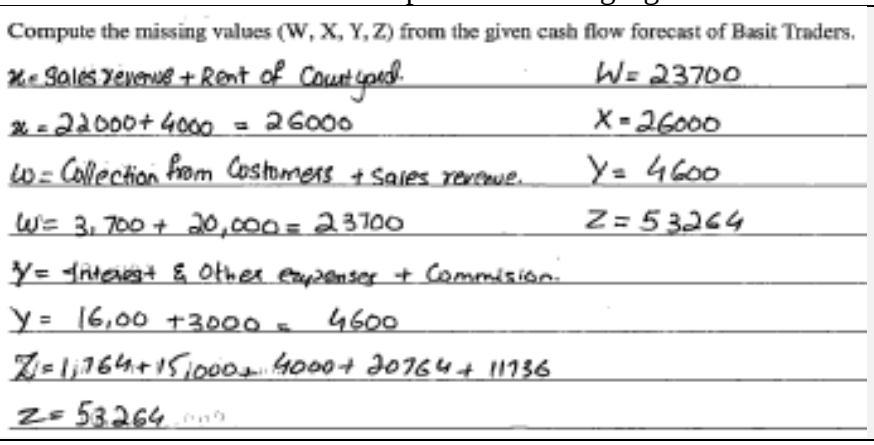

Question Text

The following details are related to cash flow forecast of Basit Traders, as on February 01, 2018 for the upcoming quarter.

Particulars	**February Amount (Rs)**	**March Amount (Rs)**	**April Amount (Rs)**
Opening cash balance	Nil	**X**	20,920
Cash inflows:			
Sales revenue (cash)	20,000	22,000	24,200
Collection from customers	3,700	4,000	4,300
Rent of courtyard	4,000	4,000	4,000
Total cash inflows	**W**	30,000	32,500
Cash outflows:			
Commission	1,600	1,680	1,764
Payment to suppliers	13,000	14,000	15,000
Interest and other expenses	3,000	3,500	4,000

Total cash outflows	17,600	19,180	20,764
Net cash flow	10,100	**Y**	11,736
Closing cash balance	10,100	20,920	**Z**

Compute the missing values **(W, X, Y, Z)** from the given cash flow forecast of Basit Traders.

SLO No.	8.1.8
SLO Text	Prepare cash flow forecast for a period of business organisation.
Max Marks	4
Cognitive Level	A
Checking Hints	Give ONE mark for calculating each missing value (FOUR required).
Overall Performance	The question was related to business finance and required to prepare a cash flow. The question was not very well attempted, and it was observed that most of the candidates did not have firm understanding of the concept of cash flow, mostly candidate faced challenge in computing missing values. In few of the weaker response candidate computed wrong figures by applying inadequate computations.
Description of Better Responses	Candidates in better responses were able to correctly compute all four missing values from the given cash flow forecast. Many candidates also clearly demonstrated all steps and formulae for computing the missing values.
Image of Better Response	 Compute the missing values (W, X, Y, Z) from the given cash flow forecast of Basit Traders. W= 20,000 + 3700 + 4000 = 27700 Ans X = 20,920 - 10820 = 10,100 Ans Y = 30,000 - 19180 = 10820 Ans Z = 32000 + 20920 - 20764 = 32656 Ans
Description of Weaker Responses	In weaker responses, it is depicted that they were unaware of the basic concept of the topic. Some of the weaker responses used the data to draw income statement and lose marks. In few of the weaker responses candidates used submission method to compute the missing figures.
Image of Weaker Response	 Compute the missing values (W, X, Y, Z) from the given cash flow forecast of Basit Traders. x = Sales revenue + Rent of Courtyard x = 22000 + 4000 = 26000 W = Collection from Customers + Sales revenue. W = 3,700 + 20,000 = 23700 y = Interest & Other expenses + Commission. y = 16,00 + 3000 = 4600 Z = 1,764 + 15,1000 + 4000 + 20764 + 11736 Z = 53264 W = 23700 X = 26000 Y = 4600 Z = 53264

Suggestions for Improvement (Highlighted part)

How to Approach SLO	Pedagogy Used for that SLO	Assessment Strategies

• Understand the expectations of the command words • Identify the content that is required to answer that question (both in terms of understanding of concepts and any skills that may be required like analysing or evaluating) • Refer to the resource guide for extra resources	• Story Board • Concept Mapping • Fish and Bone • Audio Visual resources • Knowledge Platform videos • Practical Demonstration • Questioning Technique (Socratic approach) • Think, Pair and Share	• Knowledge Platform real time assessment • Past paper questions • Discussion on E-Marking Notes
Any Additional Suggestion:		

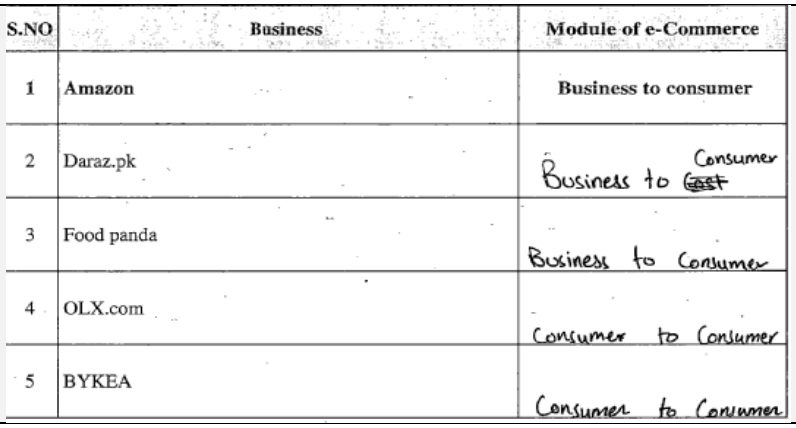

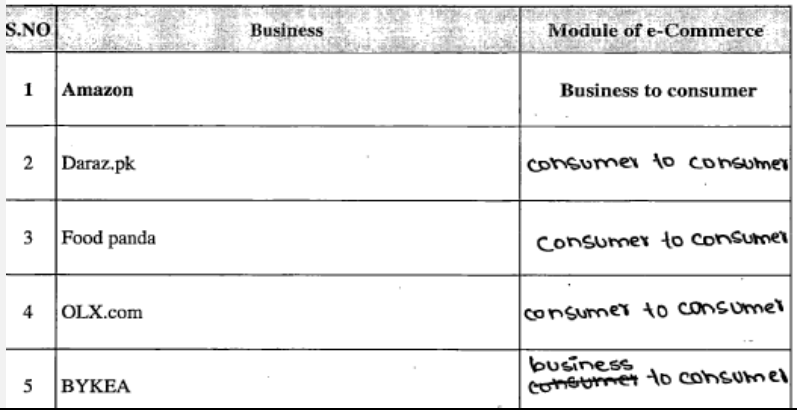

Question No. 6

Question Text

Identify the forms (module) of e-commerce for the given businesses.

S.NO	Business	Module of e-Commerce
1	**Amazon**	**Business to consumer**
2	Daraz.pk	
3	Food panda	
4	OLX.com	
5	BYKEA	

SLO No.	10.5.2
SLO Text	Explain the forms (module) of e-commerce: a. business-to-business (B2B) b. business-to-consumer (B2C) c. consumer-to-consumer (C2C) d. consumer-to-business (C2B) e. government (administration)-to-business (G2B) f. business-to-government (administration) (B2G) g. government (administration)-to-citizen (G2C).
Max Marks	4
Cognitive Level	U
Checking Hints	Give one mark for each correct module of the business. (FOUR required)
Overall Performance	Most of the candidates correctly identified commonly business organisations with reference to the given e-modules. Overall, candidates performed better.
Description of Better Responses	Candidates were able to correctly identify the four modules of e-Commerce and demonstrated good comprehension of the concept as well as the question. It was evident that candidates were familiar with names of these e-business, so they were able to easily identify the module of e-business referred of the business.

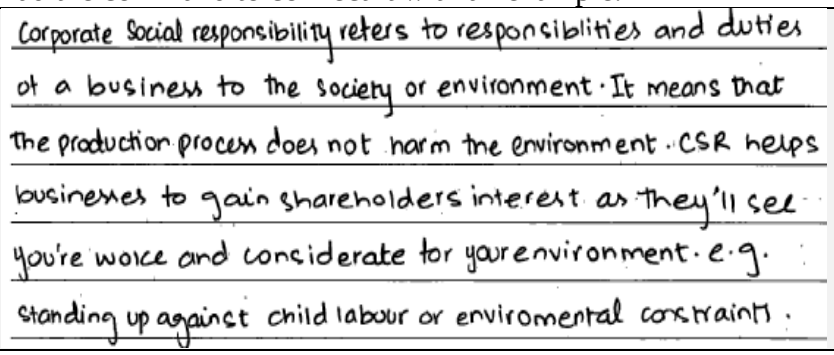

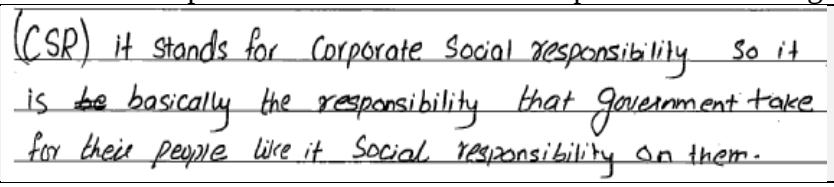

Image of Better Response	
Description of Weaker Responses	In weaker responses, candidates were not able to correctly identify most of the modules of e-commerce. In few responses it was evident that they perceived this business from only the consumer perspective and did not have a broader aspect of the e-commerce industry.
Image of Weaker Response	

Suggestions for Improvement (Highlighted part)

How to Approach SLO	Pedagogy Used for that SLO	Assessment Strategies
• Understand the expectations of the command words • Identify the content that is required to answer that question (both in terms of understanding of concepts and any skills that may be required like analysing or evaluating) • Refer to the resource guide for extra resources	• Story Board • Concept Mapping • Fish and Bone • Audio Visual resources • Knowledge Platform videos • Practical Demonstration • Questioning Technique (Socratic approach) • Think, Pair and Share	• Knowledge Platform real time assessment • Past paper questions • Discussion on E-Marking Notes

Any Additional Suggestion:

Real-Life Examples: Share current e-commerce business operating locally and top ten international e-commerce business, to give them better understanding about the topic.

Question No. 7	
Question Text	Describe the concept of corporate social responsibility (CSR) with an example.
SLO No.	10.4.3
SLO Text:	Explain the concept of corporate social responsibility.
Max Marks	3
Cognitive Level	U
Checking Hints	Give ONE mark for describing the concept. Give ONE mark for describing its factors. Give ONE Mark for example.
Overall Performance	This question remained average and most of the candidates faced challenge in the explanation of concept for corporate social responsibility (CSR).
Description of Better Responses	The concept of CSR is relatively a new concept in the Business Studies and thus, it was evident that the candidates faced a little challenge to explain them. Even the better responses were not able to demonstrate a very clear understanding of the concept of CSR. However, only few candidates correctly described and those who were able to do so remarkably described the concept along with example. This shows that those who knew the concept had the command to connect it with an example.
Image of Better Response	
Description of Weaker Responses	Candidates have shown misconceptions for the concept of CSR. Candidates wrongly attributed the concept as a responsibility of the government. Many candidates demonstrated confusion for the concept and related it with the concept of NGOs. In most of the weaker responses, they merged or mixed it with the concept of Public Private Partnership which was wrong.
Image of Weaker Response	

Suggestions for Improvement (Highlighted part)

How to Approach SLO	Pedagogy Used for that SLO	Assessment Strategies
• Understand the expectations of the command words • Identify the content that is required to answer that question (both in terms of understanding of concepts and any skills that may be	• Story Board • Concept Mapping • Fish and Bone • Audio Visual resources • Knowledge Platform videos • Practical Demonstration	• Knowledge Platform real time assessment • Past paper questions • Discussion on E-Marking Notes

required like analysing or evaluating) • Refer to the resource guide for extra resources	• Questioning Technique (Socratic approach) • Think, Pair and Share	

Any Additional Suggestion:
This topic needs to be discussed in class with the help of examples, so the understanding of CSR is properly understood. Examples to be shared from the corporate world so that the candidates can relate it to the real life.

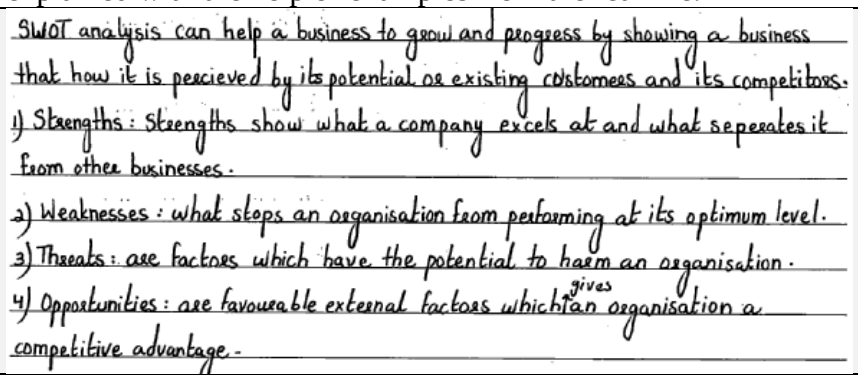

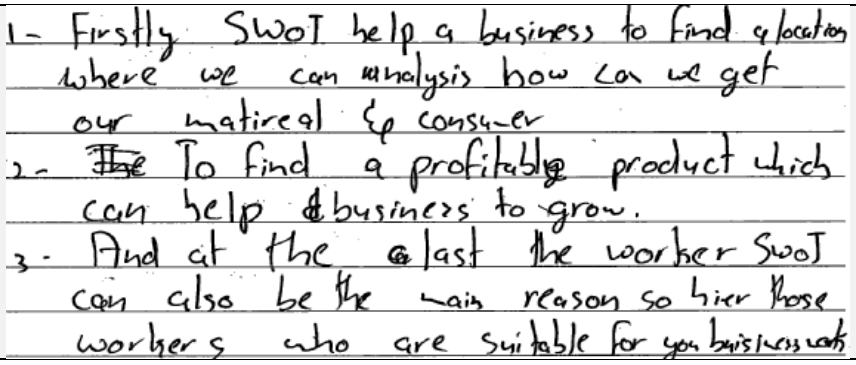

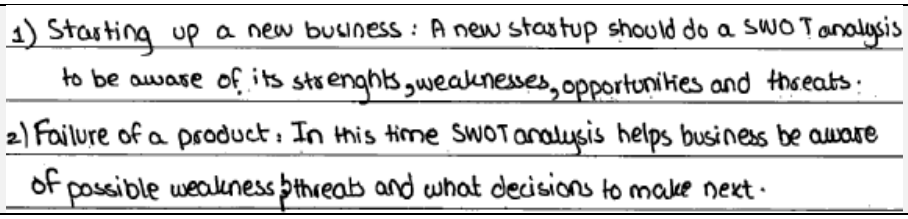

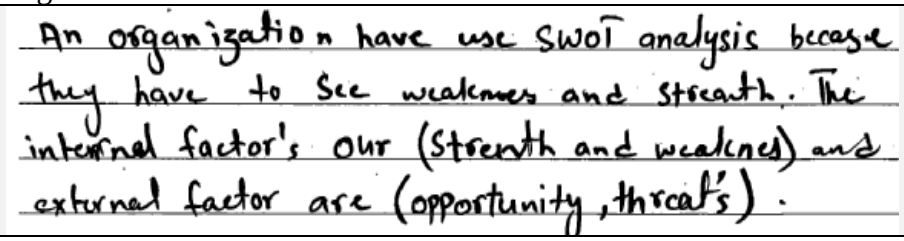

Question No. 8	
Question Text	A SWOT (Strength, Weakness, Opportunity, Threat) analysis is a useful tool for brainstorming and strategic planning. A SWOT analysis is conducted with a specific objective or question in mind. How can SWOT analysis help a business to grow and progress? (Mention any THREE areas of SWOT analysis).
SLO No.	9.1.2
SLO Text	Discuss the importance of SWOT (strengths, weaknesses, opportunities and threats) analysis
Max Marks	3
Cognitive Level	U
Checking Hints	Give ONE mark for describing the SWOT (any THREE required).
Overall Performance	This question was based upon how a SWOT analysis helps a business to grow and progress. Mostly candidates performed well and scored good marks.
Description of Better Responses	Better responses correctly identified and explained three areas of SWOT analysis. They also explained how these areas are useful in helping a business grow and progress. Many candidates used correct business terminologies for explaining the areas of SWOT. In some of the better responses, candidates explained with the help of examples from the real life.
Image of Better Response	
Description of Weaker Responses	In most of the weaker responses, candidates were unable to explain the concept and wrote irrelevant statements. Some of the weaker responses wrote more about factor of production and their role in manufacturing industry.

Image of Weaker Response	

Suggestions for Improvement (Highlighted part)

How to Approach SLO	Pedagogy Used for that SLO	Assessment Strategies
• Understand the expectations of the command words • Identify the content that is required to answer that question (both in terms of understanding of concepts and any skills that may be required like analysing or evaluating) • Refer to the resource guide for extra resources	• Story Board • Concept Mapping • Fish and Bone • Audio Visual resources • Knowledge Platform videos • Practical Demonstration • Questioning Technique (Socratic approach) • Think, Pair and Share	• Knowledge Platform real time assessment • Past paper questions • Discussion on E-Marking Notes
Any Additional Suggestion:		

Question No. 9	
Question Text	Mention any TWO business situations in which SWOT analysis can be useful.
SLO No.	9.1.2
SLO Text	Discuss the importance of SWOT (strengths, weaknesses, opportunities and threats) analysis
Max Marks	2
Cognitive Level	U
Checking Hints	Give ONE mark for mentioning the situation of SWOT analysis (any TWO required).
Overall Performance	This question was in progression to the previous question and candidate required to mention two business situations where the SWOT analysis can be applicable.
Description of Better Responses	In better responses candidates correctly identified the two business situations where SWOT analysis can be useful. Candidate mostly wrote business situation regarding initiation of a new business or launch of a product, penetrating market moves and few of them also mentioned examples of the phase of shutdown.

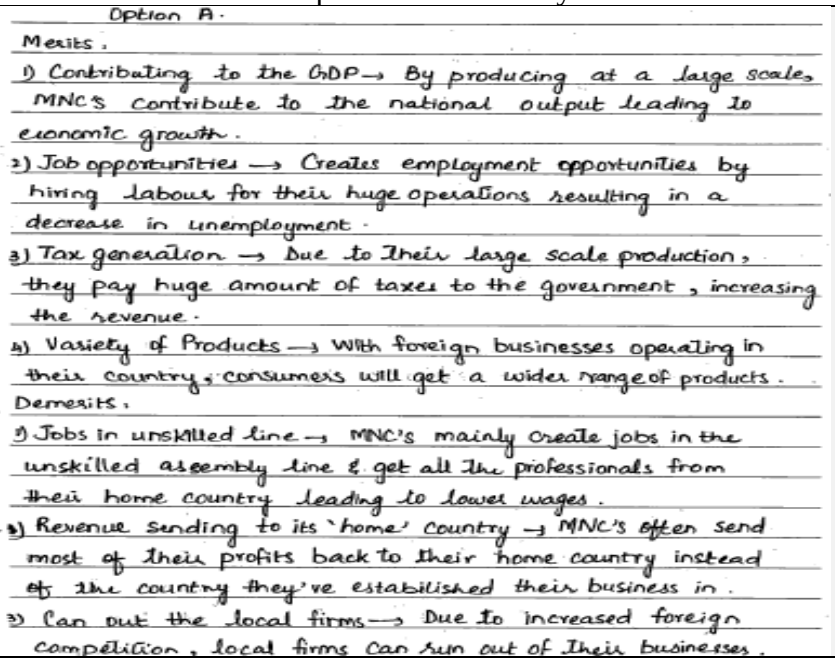

Image of Better Response	
Description of Weaker Responses	Candidates gave examples of businesses rather than the situation where SWOT analysis can be useful. Some candidates gave examples of SWOT analysis for businesses rather than identifying the situations. They were unable to comprehend the demand of the questions and write irrelevant and vague statements.
Image of Weaker Response	

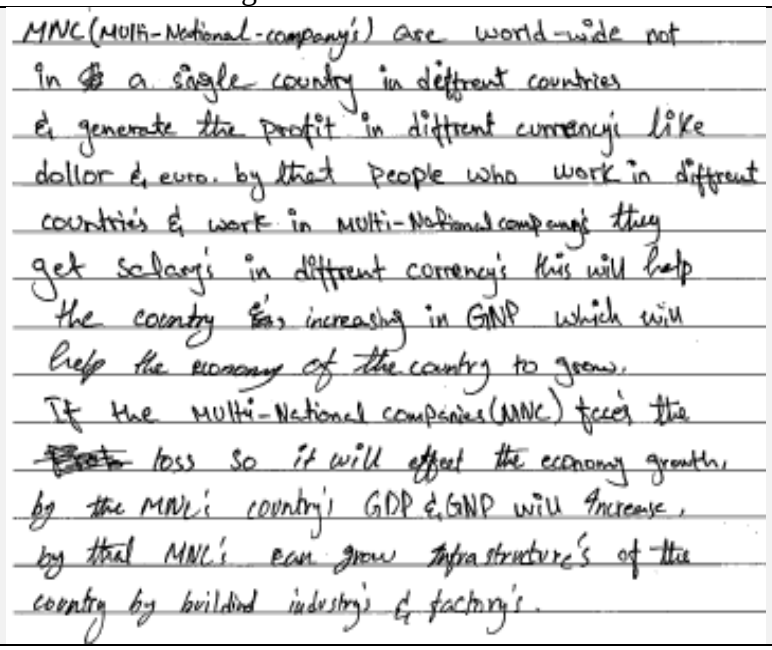

Suggestions for Improvement (Highlighted part)

How to Approach SLO	**Pedagogy Used for that SLO**	**Assessment Strategies**
• Understand the expectations of the command words • Identify the content that is required to answer that question (both in terms of understanding of concepts and any skills that may be required like analysing or evaluating) • Refer to the resource guide for extra resources	• Story Board • Concept Mapping • Fish and Bone • Audio Visual resources • Knowledge Platform videos • Practical Demonstration • Questioning Technique (Socratic approach) • Think, Pair and Share	• Knowledge Platform real time assessment • Past paper questions • Discussion on E-Marking Notes
Any Additional Suggestion: **Group Activities:** Divide students into groups and assign them specific situation to do SWOT analysis and present their findings to the class. This approach encourages collaboration and deeper understanding of SWOT analysis in various scenario.		

Extended Response Questions (ERQs)

Extended response questions offered a choice between part 'a' and 'b'

Question No. 10a	
Question Text	Describe FOUR merits and THREE demerits of MNC (multi-national companies).
SLO No.	10.6.4
SLO Text	Discuss the merits and demerits of operating a MNC in an economy.
Max Marks	7
Cognitive Level	U
Checking Hints	Give ONE mark for each correct merit. (FOUR required) Give ONE mark for each correct demerit. (THREE required)
Overall Performance	Majority of candidates opted this question and it was about merits and demerits of operating MNC and most of the candidates performed well and scored good marks.
Description of Better Responses	Better responses demonstrated effective understating of the question, command words and concept. They responded with the correct merits and demerits of MNCs using proficient business terminologies. The better responses in this context demonstrated a deep understanding of the scenario and its implications, underpinned by well-justified reasoning for each point discussed. Better responses emphasised on merits such as increased investment and capital inflow, technological transfer, innovation, increased exports, and the transfer of skills from developed to underdeveloped regions due to globalisation. Furthermore, some candidates delved into the demerits, particularly highlighting resource exploitation and the growing dependency and dominance of developed countries. Some candidates went even further, touching upon the cultural and social merits and demerits of MNCs, showcasing an in-depth understanding of the subject matter. Notably, a few outstanding responses also stressed the importance of balancing these merits and demerits in the overall assessment of MNCs' impact on an economy.
Image of Better Response	

Description of Weaker Responses	Weaker responses demonstrated miscomprehension of the concept and question. Candidates provided irrelevant content for the question. In most of the weaker responses, candidates described a MNC which was not required. Some of them mentioned vague or incomplete statements which were not connecting as merit or a demerit
Image of Weaker Response	 MNC (Multi-National-company's) are world-wide not in a single country in diffrent countries & generate the profit in diffrent currency's like dollor & euro. by that people who work in diffrent countrie's & work in multi-National company's they get salary's in diffrent currency's this will help the country 's increasing in GNP which will help the economy of the country to grow. If the multi-National companies (MNC) faces the loss so it will effect the economy growth, by the MNC's country's GDP & GNP will increase, by that MNC's can grow infrastructure's of the country by building industry's & factory's.

Suggestions for Improvement (Highlighted part)

How to Approach SLO	Pedagogy Used for that SLO	Assessment Strategies
• Understand the expectations of the command words • Identify the content that is required to answer that question (both in terms of understanding of concepts and any skills that may be required like analysing or evaluating) • Refer to the resource guide for extra resources	• Story Board • Concept Mapping • Fish and Bone • Audio Visual resources • Practical Demonstration • Questioning Technique (Socratic approach) • Think, Pair and Share	• Knowledge Platform real time assessment • Past paper questions • Discussion on E-Marking Notes

Any Additional Suggestion:

Interactive Class Discussions: Engage students in class discussions where they can share their initial understanding of MNC. Encourage them to ask questions, clarify doubts, and present their viewpoints and impact on the local market and society.

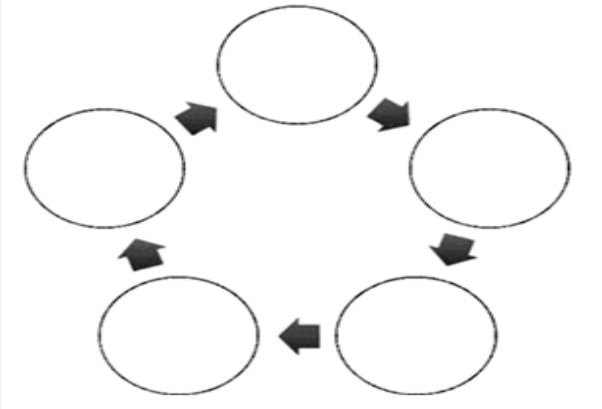

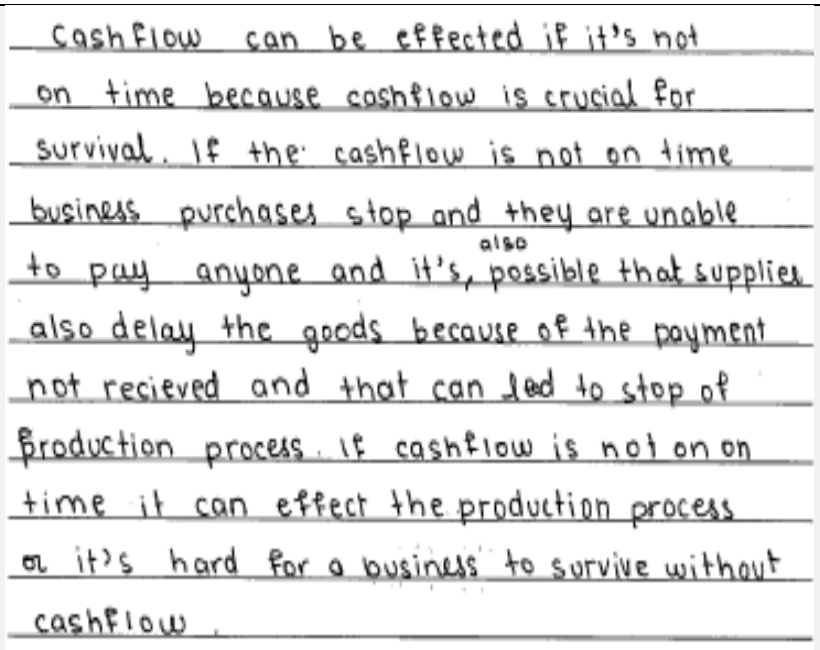

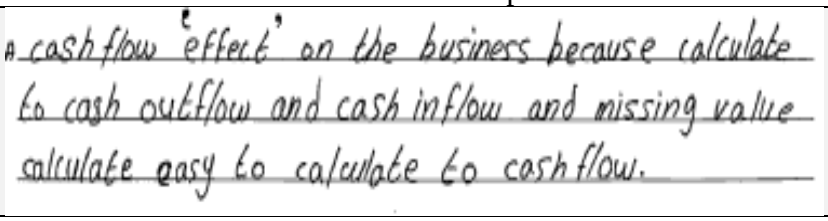

Question No. 10b	
Question Text	i. Fill the given cash flow cycle along with description. ii. With reference to the given cashflow cycle, mention any ONE 'impact' of time factor and its 'effect' on the business. 
SLO No.	8.1.3
SLO Text	Explain the term 'cashflow cycle'.
Max Marks	7
Cognitive Level	U
Checking Hints	Give ONE mark for describing each stage of cash flow cycle (FIVE required) Give ONE mark for mentioning the impact. Give ONE mark for analysing its effect on the business. (NOTE: Any of the given analytical point with reference to time with the cycle (ONE impact and its effect on the business is required).
Overall Performance	The question was about the cashflow statement. The candidates required to complete the given cycle and mention the 'impact' of time factor and its 'effect' on the business.
Description of Better Responses	Better response demonstrated good comprehension for the concept of cash flow analysis. Most of the candidates correctly completed the cash flow cycle with the correct steps. Candidates also correctly mentioned the impact and effect of time factor on the business. In these responses, candidates mentioned how timely payments and receipts impact the business financial decisions and how this will improve the financial positioning of the business.

Image of Better Response	 Cashflow can be effected if it's not on time because cashflow is crucial for survival. If the cashflow is not on time business purchases stop and they are unable to pay anyone and it's also possible that supplies also delay the goods because of the payment not recieved and that can led to stop of production process. If cashflow is not on on time it can effect the production process or it's hard for a business to survive without cashflow.
Description of Weaker Responses	Weaker responses demonstrated poor underrating of the concept while filling the cash flow cycle and faced challenges. Some of the weaker responses did not fill the grid and wrote on the second part of the question addressing the time factor. This depicts that they did not have knowledge of the major components of cash flow statement. As a result of this, they wrote general statement and comments in the second part which results in losing marks.
Image of Weaker Response	 a cashflow 'effect' on the business because calculate to cash outflow and cash inflow and missing value calculate easy to calculate to cash flow.

Suggestions for Improvement (Highlighted part)

How to Approach SLO	**Pedagogy Used for that SLO**	**Assessment Strategies**
• Understand the expectations of the command words • Identify the content that is required to answer that question (both in terms of understanding of concepts and any skills that may be required like analysing or evaluating) • Refer to the resource guide for extra resources	• Story Board • Concept Mapping • Fish and Bone • Audio Visual resources • Knowledge Platform videos • Practical Demonstration • Questioning Technique (Socratic approach) • Think, Pair and Share	• Knowledge Platform real time assessment • Past paper questions • Discussion on E-Marking Notes
Any Additional Suggestion:		

Annexure A: Pedagogies Used for Teaching the SLOs

Pedagogy: Storyboard
Description: A visual pedagogy that uses a series of illustrated panels to present a narrative, encouraging creativity and critical thinking. It helps learners organise ideas, sequence events, and comprehend complex concepts through storytelling.
Example: In a Literature class, students are tasked with creating storyboards to visually retell a novel. They draw key scenes, write captions, and present their stories to the class, enhancing their reading comprehension and fostering their imagination.

Pedagogy: Cause and Effect
Description: This pedagogy explores the relationships between actions and consequences. By analysing cause-and-effect relationships, learners develop a deeper understanding of how events are interconnected and how one action can lead to various outcomes.
Example: In a History class, students study the causes and effects of the Industrial Revolution. They research and discuss how technological advancements in manufacturing led to significant societal changes, such as urbanisation and labour reform movements.

Pedagogy: Fish and Bone
Description: A method that breaks down complex topics into main ideas (the fish) and supporting details (the bones). This visual approach enhances comprehension by highlighting essential concepts and their relevant explanations.
Example: During a Biology class on human anatomy, the teacher uses the fish and bone technique to teach about the human skeletal system. Teacher presents the main components of the human skeleton (fish) and elaborates on each bone's structure and function (bones).

Pedagogy: Concept Mapping
Description: An effective way to visually represent relationships between ideas. Learners create diagrams connecting key concepts, aiding in understanding the overall structure of a subject and fostering retention.
Example: In a Psychology assignment, students use concept mapping to explore the various theories of personality. They interlink different theories, such as Freud's psychoanalysis, Jung's analytical psychology, and Bandura's social-cognitive theory, to see how they relate to each other.

Pedagogy: Audio Visual Resources
Description: Incorporating multimedia elements like videos, images, and audio into lessons. This approach caters to different learning styles, making educational content more engaging and memorable.
Example: In a General Science class, the teacher uses a documentary-style video to teach about the solar system. The video includes stunning visual animations of the planets, interviews with astronomers, and background music, enhancing students' interest and understanding of space.

Pedagogy: Think, Pair, and Share
Description: A collaborative learning technique where students ponder a question or problem individually, then discuss their thoughts in pairs or small groups before sharing with the entire class. It fosters active participation, communication skills, and diverse perspectives.
Example: In a Literature in English class, the teacher poses a thought-provoking question about a novel's moral dilemma. Students first reflect individually, then pair up to exchange

their opinions, and finally participate in a lively class discussion to explore different viewpoints.

Pedagogy: Questioning Technique (Socratic Approach)
Description: Based on Socratic dialogue, this method stimulates critical thinking by posing thought-provoking questions. It encourages learners to explore ideas, justify their reasoning, and discover knowledge through a process of inquiry.
Example: In an Ethics class, the instructor uses the Socratic approach to lead a discussion on the meaning of justice. By asking a series of probing questions, the students engage in a deeper exploration of ethical principles and societal values.

Pedagogy: Practical Demonstration
Description: A hands-on approach where learners observe real-life applications of theories or skills. Practical demonstrations enhance comprehension, skill acquisition, and problem-solving abilities by bridging theoretical concepts with real-world scenarios.
Example: In a Food and Nutrition class, the instructor demonstrates the proper technique for filleting a fish. Students observe and then practice the skill themselves, learning the practical application of knife skills and culinary precision.

(Note: The examples provided in this annexure serve as illustrations of various pedagogies. It is important to understand that these pedagogies are versatile and can be applied across subjects in numerous ways. Feel free to adapt and explore these techniques creatively to enhance learning outcomes in your specific context.)

Acknowledgements

The Aga Khan University Examination Board (AKU-EB) acknowledges with gratitude the invaluable contributions of all the dedicated individuals who have played a pivotal role in the development of the Business Studies SSC-II E-Marking Notes.

We extend our sincere appreciation to Mr Muhammad Affan, Specialist in Commerce at AKU-EB, for taking subject lead during the entire process of e-marking.

We particularly thank to Mr Muhammad Adil Fattani, Principal E-Marker, Fozia Faisal from Habib Girls School and Fozia Haider from Gulaman-e-abbas school as senior E-Marker for evaluating each question's performances, delineating strengths and weaknesses in candidates' responses, and highlighting instructional approaches along with recommendations for better performance.

Additionally, we express our gratitude to the esteemed team of reviewers for their constructive feedback on overall performance, better and weaker responses, and validating teaching pedagogies along with suggestions for improvement.

These contributors include:

- Rahim Daudani, Lead Specialist in Commerce, AKU-EB
- Sania Iqbal Siddiqui, Specialist in English, Curriculum Development, AKU-EB
