AGA KHAN UNIVERSITY EXAMINATION BOARD

HIGHER SECONDARY SCHOOL CERTIFICATE

CLASS XII

ANNUAL EXAMINATIONS 2022

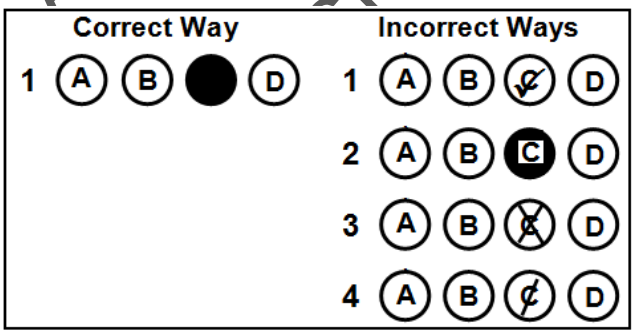

Commercial Geography

Time: 1 hour 40 minutes Marks: 50

Annual Examinations 2022 for Learning & Teaching Only

INSTRUCTIONS

1. Read each question carefully.
2. Answer the questions on the separate answer sheet provided. DO NOT write your answers on the question paper.
3. There are 100 answer numbers on the answer sheet. Use answer numbers 1 to 50 only.
4. In each question, there are four choices A, B, C, D. Choose ONE. On the answer grid, black out the circle for your choice with a pencil as shown below.

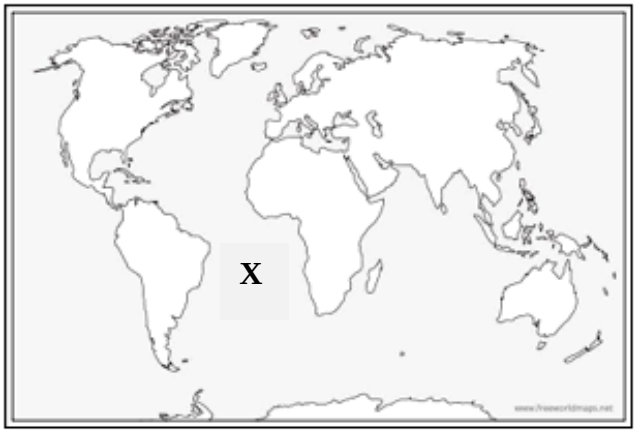

Candidate's Signature

5. If you want to change your answer, ERASE the first answer completely with a rubber, before blacking out a new circle.
6. DO NOT write anything in the answer grid. The computer only records what is in the circles.
7. The marks obtained on the 50 MCQs will be equated to the total marks of 75 for the theory examination results.

1. The branch of geography that studies population and economics is

   A. biogeography.
   B. human geography.
   C. physical geography.
   D. political geography.

2. The ocean labelled as '**X**' in the given map is the

   A. Arctic Ocean.
   B. Atlantic Ocean.
   C. Indian Ocean.
   D. Pacific Ocean.

3. Huma got an assignment to prepare a brief report on the scope of studying commercial geography. She divided the assignment into following categories:

   I. Trade and trade routes
   II. Agricultural and mineral resources
   III. Transportation and communication
   IV. Business cycles and economic trends

   The categories that BEST describe the scope of commercial geography would be

   A. I, II and III.
   B. I, III and IV.
   C. I and IV.
   D. II and IV.

4. The compilation of Ibn-e-Batuta (1304-1369) travelling is known as

   A. *Muqadama.*
   B. *Nuzhatul Mushtaq.*
   C. *Rihila.*
   D. *Surat al-Ardh* (صورت الارض).

Annual Examinations 2022 for Teaching & Learning Only

5. Read the following information:

- The range maintains a physical and cultural division between South and Central Asia.
- It extends to 200 miles (320 km).
- It spreads from Central Asia (Waghan territory) to Kashmir.

The mountainous ranges identified from the given information are

A. Karakoram, Himalaya and Hindukush.
B. Khairthar Ranges and Kairana Hills.
C. Koh-e-Sulaiman, Margala Hills and Salt Ranges.
D. Toba Kakar and Makran Ranges.

6. The number of climatic zones in which Pakistan has been divided into are

A. six.
B. five.
C. four.
D. three.

7. This soil is formed from recent and present-day deposits along the rivers. Part of this soil is flooded each year, adding depositional layers of silt loam and silty clay loam. The organic content of this soil is low, but is usually free of salts.

The given description of soil is TRUE for

A. bongar soil.
B. coastal estuarine.
C. khaddar soil.
D. silty soil.

8. Aleem has joined an NGO as an environmental analyst to explore the impact of global warming on coastal areas of Pakistan. His responsibilities include exploring and researching the impacts of rising sea levels on the coastal belt of Makran.

With reference to economic activities, his employment is classified under

A. quaternary activities.
B. quinary sector.
C. secondary activities.
D. tertiary activities.

Annual Examinations 2022 for Teaching & Learning Only

D. increase in per capita income.

11. Which of the following commercial activities of a region is MOSTLY affected by the change in weather conditions?

A. Agriculture
B. Manufacturing
C. Small scale industry
D. Insurance

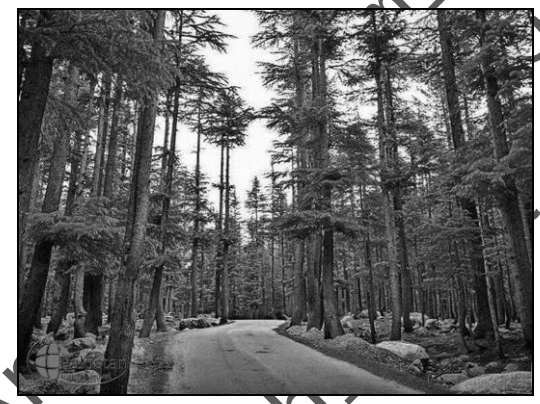

Annual Examinations 2022 for Teaching & Learning Only

12. The forest marked as dotted region in the given map is the

A. tropical rainforest.
B. mangroves.
C. grasslands.
D. temperate forest.

13. The given image shows the *Ushu* forest of Kalam Valley situated in Pakistan.

This forest is classified as a/ an

A. deciduous forest.
B. mangrove forest.
C. riverine forest.
D. alpine forest.

14. As per the data collected by the globaleconomy.com (2020), the percentage of total area of Pakistan covered by forests is

(Source: https://www.theglobaleconomy.com/rankings/forest_area/)

A. 3.2%.
B. 4.8%.
C. 5.2%.
D. 9.5%.

Annotation Teacher Learning Only

15. Pakistan reaps the following economic benefits from its forests EXCEPT that they are a source of

A. fuel for domestic use.
B. natural defence fence with its neighbouring countries.
C. scenic beauty for the tourism industry.
D. timber for the manufacturing of furniture.

16. Which of the following region's forest is considered as a 'tropical deciduous forest'?

A. Equatorial
B. Monsoon
C. Subtropical
D. Temperate

17. Following are the features of a forest:

- Trees with stunted growth
- Found on high altitude areas
- Essential in obtaining fuel wood
- Upward branches attain maximum sunlight

The type of forest identified by the given features is

A. alpine forests.
B. temperate forests.
C. sub-tropical scrub forests.
D. tropical thorn forests.

18. The largest fishing ground of the world is the

A. Arabian Sea.
B. Atlantic Ocean.
C. Gulf of Mexico.
D. North Sea.

19. In the year 2020, the largest milk producing country of the world was
(https://www.fao.org/dairy-production-products/production/en/)

A. Brazil.
B. China.
C. India.
D. USA.

20. In the year 2021, the country that has the highest poultry production of the world was
(https://www.statista.com/statistics/237597)

A. Australia.
B. USA.
C. Spain.
D. Brazil.

Annual Examinations 2022 for Teaching & Learning Only

21. In Pakistan, the regions that are famous hunting grounds for internationally protected Houbara bustard (a rare species of Siberian migrating bird) are in the district of

A. Rahim Yar Khan and Rajanpur.
B. Swat and Mingora.
C. Tharparkar and Mithi.
D. Zhob and Turbat.

22. Which of the following countries is the largest producer of goat meat in the world?
(https://www.fao.org/dairy-production-products/production/en/)

A. China
B. India
C. Brazil
D. USA

23. In terms of fish catching percentage, the second largest country in Europe in 2020 was

A. Norway.
B. Spain.
C. Italy.
D. France.

24. All of the following animals are used in dairy farming EXCEPT

A. buffalo.
B. camel.
C. chicken.
D. goat.

25. In the year 2021, the crop that had the highest yield in Pakistan was

A. cotton.
B. rice.
C. sugarcane.
D. wheat.

26. Ahmed lives in an area where the average temperature is between 15-22°C with an average rainfall of 10-30 inches. He sows a crop in late autumn and it ripens in summer.

The given conditions are feasible for the cultivation of

A. maize.
B. rice.
C. sugarcane.
D. wheat.

Annual Examinations 2022 for Teaching & Learning Only

27. A nomadic farmer in northern regions normally clears a land and cultivates crops in a short period of time. The farmer leaves for another place as the weather changes. Meanwhile, the land is allowed to revert to its normal and natural vegetation.

The type of farming indicated from the given description is

A. mixed farming.
B. plantation farming.
C. shift farming.
D. subsistence farming.

28. Following are the conditions required for the cultivation of a crop:

- dry weather for ripening and harvesting season
- deep, fertile and well-drained soil
- plenty of water supply with at least 100 cm of rainfall
- ideal temperature ranges from 18°C to 30°C throughout cultivation

The given conditions are feasible for the cultivation of

A. barley.
B. cotton.
C. rice.
D. sugarcane.

29. The rabi crop that has witnessed positive growth during the year 2018-19 in Pakistan was

A. jawar.
B. maize.
C. tobacco.
D. wheat.

30. The CORRECT seasons for the cultivation and harvesting of rice respectively are

	Cultivation Season	Harvesting Season
A	summer	autumn
B	summer	winter
C	winter	autumn
D	autumn	spring

31. The barrage that has the LARGEST irrigation network in the Pakistan is the

A. Chashma barrage.
B. Guddu barrage.
C. Jinnah barrage.
D. Sukkur barrage.

Annual Examination 2022 for Teaching & Learning Only

32. Following are the characteristics of a canal in Pakistan:

- Water sources are either dams or barrages
- Water flows throughout the year
- Built on River Indus and its tributaries

The canal identified from the given characteristics is the

A. feeder canal.
B. inundation canal.
C. *karez*.
D. perennial canal.

33. Read the following features of a dam in Pakistan:

- Created as the largest earth-filled dam by structural volume in the world
- Designed to store water from Indus River for irrigation, generation of hydroelectric power and flood control

The given features are of

A. Bhasha Dam.
B. Hub Dam.
C. Mangla Dam.
D. Tarbela Dam.

34. In terms of water management, the MOST efficient method of irrigation on a large area is the

A. bucket irrigation system.
B. drip irrigation system.
C. *shaduf* irrigation system.
D. sprinkler irrigation system.

35. Read the following features of an irrigation system:

- Requires less manual labour than hose spraying or shifting hose
- Efficient in covering a large plot of land in a shorter time
- Not as negatively influenced by winds or sediments as other systems

The given features are of the

A. drip irrigation system.
B. *karez* irrigation system.
C. subsurface irrigation system.
D. sprinkler irrigation system.

Annual Examination 2022
for
Teaching & Learning Only

36. The method of irrigation depicted in the given image is

A. drip irrigation.
B. furrow irrigation.
C. sprinkler irrigation.
D. surface irrigation.

37. In 2021, the largest sugar producing country was

A. China.
B. Brazil.
C. Russia.
D. USA.

38. In 2020, the MAJOR textile manufacturing hub of Pakistan was

A. Faisalabad.
B. Gujranwala.
C. Karachi.
D. Multan.

39. The industrial sector that engages the largest number of labour force in Pakistan is the

A. fertiliser industry.
B. sports goods industry.
C. sugar industry.
D. textile industry.

40. Read the following features:

- Causes socio-economic upsurge of the rural community and provides part-time employment opportunities.
- Source of power generation and energises the rural landmass by burning of bagasse.

The industry that is identified from the given features is the

A. fertiliser industry.
B. cement industry.
C. sugar industry.
D. textile industry.

Annual Examinations 2021 for Teaching & Learning Only

41. In order to boost the economic and commercial activity, the Government of Pakistan is emphasising on the construction industry and has launched the 'Apna Ghar Housing Scheme'.

The scheme helps to initiate direct and indirect economic activities, in all of the following industries EXCEPT the

A. banking industry.
B. cement industry.
C. iron and steel industry.
D. textile industry.

42. Following are some of the tourist attractions points of Pakistan:

- Upper Kachura Lake
- Shigar Valley
- Khaplu Valley

The given tourist points are of

A. Gohrakh hills.
B. Hunza.
C. Skardu.
D. Muree hills.

43. The MOST important factor for establishing a cement industry is the

A. accessibility to the tele-communication networks.
B. availability of skilled labour.
C. distance from the city or residential areas.
D. dry and humid climate.

44. Pakistan's industrial sector's contribution to the country's GDP in 2020 was
(Source: https://www.statista.com/statistics/383256)

A. 9.69%.
B. 17.69%.
C. 22.69%.
D. 52.69%.

45. Based on the economic survey of Pakistan 2020, its manufacturing sector's contribution to the country's GDP was

A. 7-9%.
B. 13-14%.
C. 20-22%.
D. 30-35%.

Annual Examinations 2022 for Teaching & Learning Only

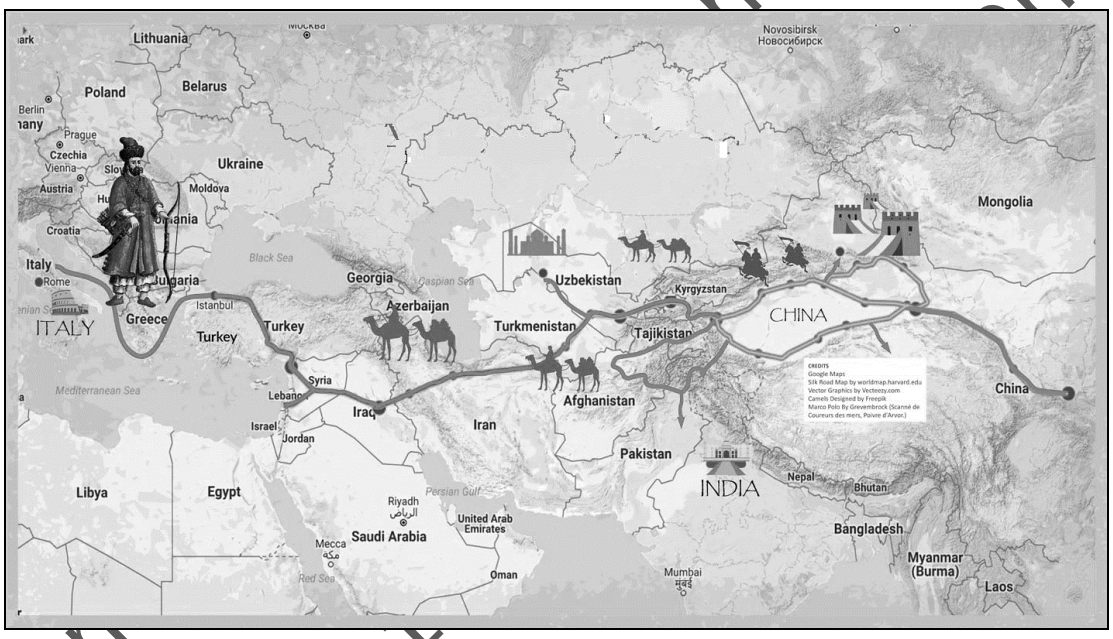

46. A pre requisite factor for the establishment of the iron and steel industry is the supply of

A. coal.
B. labour.
C. power.
D. water.

47. All of the following operational railway tracks connect Pakistan to its neighbouring countries EXCEPT

A. Atari-Amritsar.
B. Khokrapar-Munabao.
C. Peshawar-Jalalabad.
D. Quetta-Zahedan.

48. The famous historical trade route depicted in the given map is the

A. Incense Route.
B. Indian Spice Trade Route.
C. Silk Route.
D. Trans-Saharan Route.

49. The port is directly connected via roads or railways to a seaport working as trans-shipment, where all customs and trade tariff are applied.

The port identified from the given description is a/ an

A. airport.
B. dry port.
C. free port.
D. seaport.

50. Read the following features of a canal:

- Artificial waterway located in Egypt that connects the Red Sea to the Mediterranean Sea
- Allows ships to sail between Europe and Asia by avoiding Africa

The given features indicate

A. Panama canal.
B. Stockholm canals.
C. Suez canal.
D. Suzhou canals.
