CLASS XII

ANNUAL EXAMINATIONS (THEORY) 2024

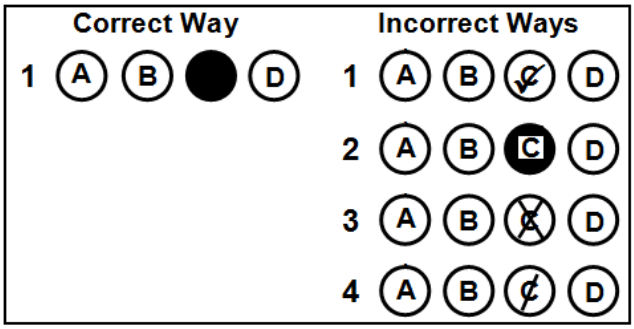

Commercial Geography Paper I

Time: 1 hour 10 minutes Marks: 40

AKU-EB Annual Examinations 2024 for Teaching & Learning only

INSTRUCTIONS

1. Read each question carefully.
2. Answer the questions on the separate answer sheet provided. DO NOT write your answers on the question paper.
3. There are 100 answer numbers on the answer sheet. Use answer numbers 1 to 40 only.
4. In each question, there are four choices A, B, C, D. Choose ONE. On the answer grid, black out the circle for your choice with a pencil as shown below.

Candidate's Signature

5. If you want to change your answer, ERASE the first answer completely with a rubber, before blacking out a new circle.
6. DO NOT write anything in the answer grid. The computer only records what is in the circles.

1. Physical Geography studies the physical phenomena on Earth's surface, that is environment in which human beings live.

   With reference to the given statement, all of the following elements are studied under the branch of physical geography EXCEPT

   A. climate.
   B. minerals.
   C. landforms.
   D. population.

2. The famous traveler who used the renowned and the ancient trade route, i.e. silk route in his travelogue is

   A. Marco Polo.
   B. Ibn-e-Batuta.
   C. Vasco da Gama.
   D. Xuanzang or Hsuan-Tsang.

3. The plateau region of Pakistan is situated in

   A. Swat.
   B. Makran.
   C. Potwar.
   D. Cholistan.

4. The factor that is NOT included in the weather of a particular place is the

   A. quality of sunlight.
   B. precipitation level.
   C. temperature.
   D. wind speed.

5. Which of the following features reflects a non-physical environment?

   A. Religion
   B. Sky Scrapers
   C. Bridges
   D. Lakes

6. All of the following are the indicators of economic growth of a country EXCEPT

   A. decrease in general living standards.
   B. increase in labour productivity.
   C. decrease in unemployment.
   D. increase in real GDP.

AKU-EB Annual Examinations 2024 for Teaching & Learning only

7. The LARGEST mangrove forest in the world is

A. Sundarbans mangroves.
B. Pichavaram mangroves.
C. Florida mangroves.
D. Bahia mangroves.

8. Referring to the given map of Pakistan, the predominant forested region in the country is located in

(**Note**: The shaded area in the map depicts the foested area.)

A. Sindh.
B. Punjab.
C. Balochistan.
D. Khyber Pakhtunkhwa.

9. Following are the features of a type of forest.

- Located near the equator
- Receives high temperatures and abundant rainfall throughout the year
- Very dense, lush forest with canopies preventing sunlight from getting to the floor
- Vital storehouse of biodiversity; sustaining millions of different animals, birds, algae and fish species

Based on the given characteristics, the forest identified is

A. Coniferous forest.
B. Mediterranean forest.
C. Temperate forest.
D. Tropical forest.

Annua... 24
for Teachi... g only

10. Review the following picture of a forest.

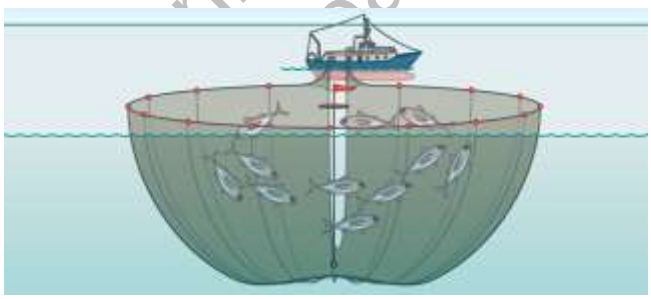

The forest depicted in the given image is classified as

A. Mangrove forest.
B. Tropical forest.
C. Rain forest.
D. Temperate forest.

11. The province of Pakistan in which livestock farming is most prevalent is

A. Punjab.
B. Sindh.
C. Balochistan.
D. Khyber Pukhtunkhwa.

12. The fishing method depicted in the given image is

A. trawling.
B. dredging.
C. hoke and line.
D. purse seinr nets.

AKU-EB Annual Examinations 2024
Teaching & Learning only

13. The export of fishes contributes to 6% of the foreign exchange of Pakistan which can be increased by exporting canned fish.

The European countries hardly import any canned fish from Pakistan because of

A. unhygienic conditions.
B. inavailability of caning facility.
C. poor cold storage warehousing.
D. lack of fishing equipment.

14. Pakistan is renowned as one of the world's premier destinations for hunting, and it issues very costly licenses for hunting.

The MOST expensive licence is issued for hunting

A. Sind Ibex.
B. Punjab Urial.
C. Karakoram Markhor.
D. Punjab Chinkara Gazelle.

A. pulses.
B. grains.
C. wheat.
D. sugarcane.

17. Ahmed lives in an area where the average temperature is between 15 - 22 ^{o}C with an average rainfall of 10 - 30 inches. He sows a crop in late autumn and it ripens in summer.

The given conditions are feasible for the cultivation of

A. maize.
B. rice.
C. sugarcane.
D. wheat.

AKU-EB Annual Examinations 2024 for Teaching & Learning only

18. A nomadic farmer in northern areas of Pakistan normally clears a land and cultivates crops in a short period of time. He leaves for another place as weather changes. Meanwhile, the land is allowed to revert to its normal and natural vegetation.

The given features indicate

A. mixed farming.
B. plantation farming.
C. shift farming.
D. subsistence farming.

19. The province that contributes the MOST to the total yield of wheat annually is

A. Sindh.
B. Punjab.
C. Balochistan.
D. Khyber Pakhtunkhwa.

20. Which of the following season is CORRECTLY classified for Rabi and Kharif crops?

	Rabi	**Kharif**
A	Summer	Winter
B	Summer	Autumn
C	Winter	Spring
D	Winter	Summer

21. Following are the characteristics of a surface water irrigation system in Pakistan

- Water sources are dams or barrages
- Water flows throughout the year
- Built on river Indus and its tributaries

This irrigation system can be identified as

A. feeder canal.
B. inundation canal.
C. non-perennial canal.
D. perennial canal.

AKU-EB Annual Examinations 2024 for Teaching & Learning only

22. Read the following features of a water reservoir:

- one of the largest freshwater lakes of South Asia
- water reservoir for drinking and irrigation
- the largest source of freshwater fishing area
- it is located to west of the Indus River in Sindh

The given features are of

A. Mancher Lake.
B. Kancher Lake.
C. Lake Saif-ul-Mulk.
D. Rawal Lake.

23. The Indus Water Treaty (IWT) 1960 was signed between India and Pakistan. The treaty allocates the Indus River and its tributaries to the two countries.

According to the treaty, the distribution of river Indus water was awarded as

	Pakistan	**India**
A	20%	80%
B	80%	20%
C	40%	60%
D	60%	40%

24. Read the following features:

- It is a process of accessing precious geological material, like coal, by cutting into the side of the Earth, rather than tunneling directly downwards.
- The mines have flat entries into the coal seam from a hillside.

The type of mining described in the given description is classified as

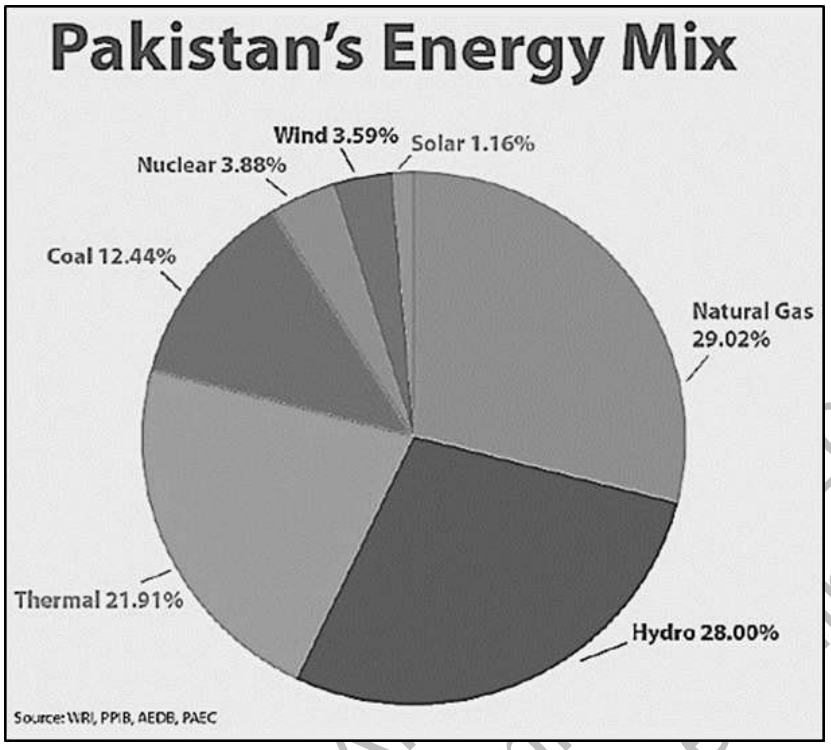

A. surface mining.
B. underground or drift mining.
C. mountaintop removal mining.
D. solution mining.

25. All of the following are classified as non-metallic minerals EXCEPT

A. coal.
B. gypsum.
C. granite.
D. uranium.

AKU-EB Annual Examinations 2024 for Teaching & Learning only

26. Review the given pie-chart of utilisation of various forms of energy in Pakistan.

Based on the given information, the total percentage of power generation from renewable sources is

A. 32.75%.
B. 29.16%.
C. 31.59%.
D. 26.66%.

27. With reference to economic survey (2022-23) of Pakistan, the industrial sector that engages the LARGEST number of labour force in Pakistan is the

A. fertiliser industry.
B. sports goods industry.
C. sugar industry.
D. textile industry.

Annual Exam 2024
for Teaching & Learning only

28. As per Economic Survey of Pakistan, the contribution of Pakistan's industrial sector to the country's GDP in 2022-23 was

A. 19.82%.
B. 22.25%.
C. 32.35%.
D. 51.55%.

29. Read the following tourist points of Pakistan

- Kalam Forest
- Balasoor Top
- Jaroga Waterfall
- Malan jabba

Given tourist points are located in

A. Ziarat valley.
B. Swat valley.
C. Hunza Valley.
D. Kaghan valley.

30. Which of the following is NOT considered as natural raw material to the textile industry in Pakistan?

A. Yarn
B. Thread
C. Cotton
D. Synthetic fiber

31. In order to boost the economic and commercial activities, the government emphasised on the construction industry by launching the public Housing Scheme.

The scheme helped to initiate economic activity directly and indirectly in all of the following sectors EXCEPT
