آغا خان یونیورسٹی ایگزامینیشن بورڈ

AGA KHAN UNIVERSITY EXAMINATION BOARD

Notes from E-Marking Centre on HSSC-I Principles of Accounting Annual Examinations 2024

Introduction

This document has been produced for the teachers and candidates of Higher Secondary School Certificate (HSSC) Part I POA. It contains comments on candidates' responses to the 2024 HSSC-I Examination indicating the quality of the responses and highlighting their relative strengths and weaknesses.

E-Marking Notes

This includes overall comments on candidates' performance on every question and *some* specific examples of candidates' responses that support the mentioned comments. Please note that the descriptive comments represent an overall perception of the better and weaker responses as gathered from the e-marking session. However, the candidates' responses shared in this document represent some specific example(s) of the mentioned comments.

Teachers and candidates should be aware that examiners may ask questions that address the Student Learning Outcomes (SLOs) in a manner that requires candidates to respond by integrating knowledge, understanding and application skills they have developed during the course of study. Candidates are advised to read and comprehend each question carefully before writing the response to fulfill the demand of the question.

Candidates need to be aware that the marks allocated to the questions are related to the answer space provided on the examination paper as a guide to the length of the required response. A longer response will not in itself lead to higher marks. Candidates need to be familiar with the command words in the SLOs which contain terms commonly used in examination questions. However, candidates should also be aware that not all questions will start with or contain one of the command words. Words such as 'how', 'why' or 'what' may also be used.

General Observations

Overall, candidates demonstrated a thorough understanding of specific concepts and constructed better responses. They excelled in areas involving calculations and computations. However, teachers need to focus on questions related on theoretical comprehension.

A prevalent trend among candidates who achieved lower scores was their struggle in grasping the stimulus of question prompts, frequently leading to misinterpretations of command word and provided information. In accounting, it is important to correctly turn the financial information into the right accounting details. This skill is very important and needs to be learned well and focused while teaching and learning.

Note: Candidates' responses shown in this report have not been corrected for grammar, spelling, format, or information.

DETAILED COMMENTS

Constructed Response Questions (CRQs)

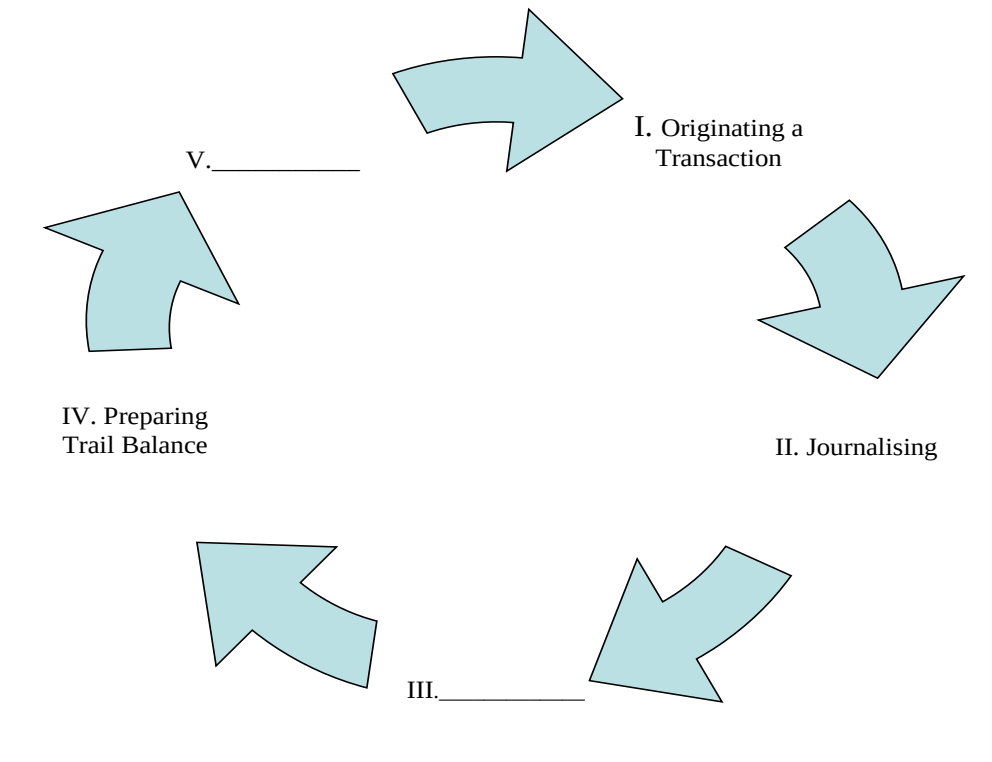

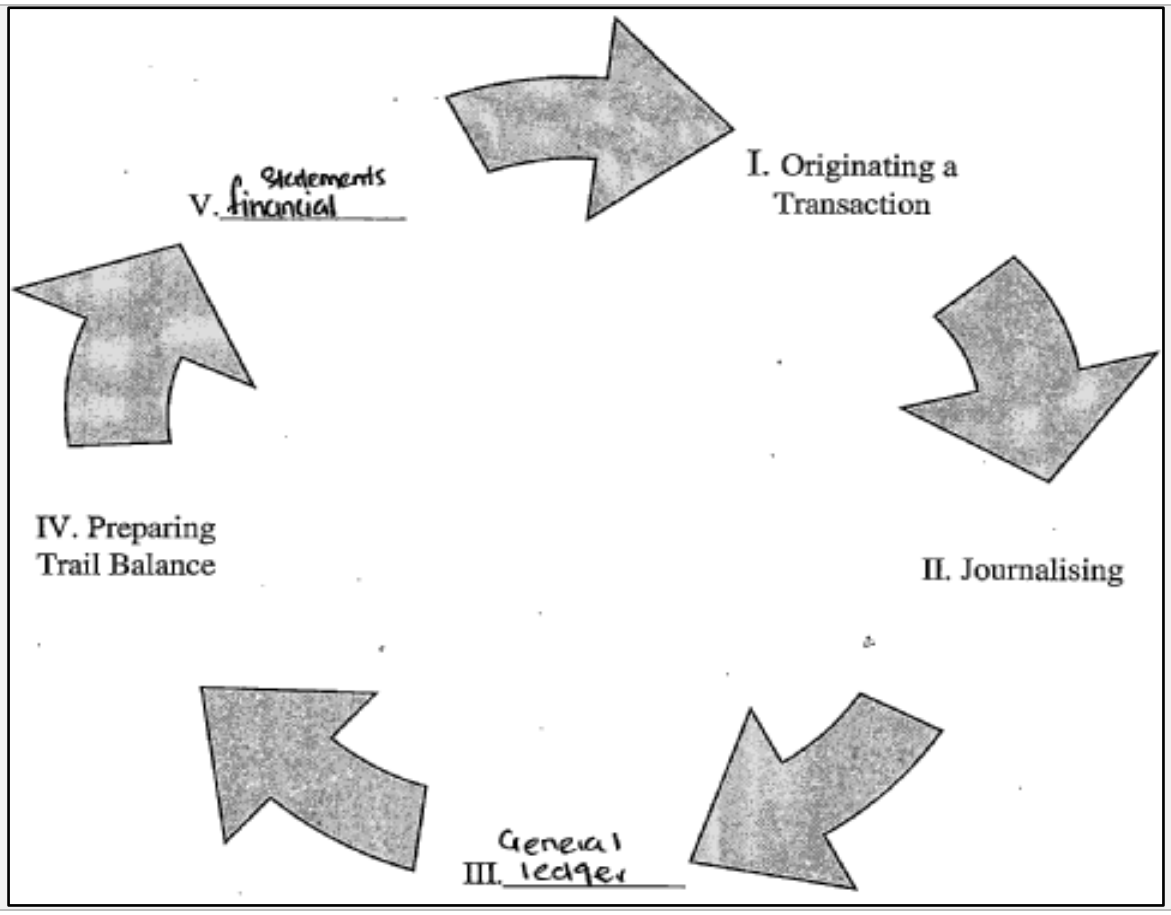

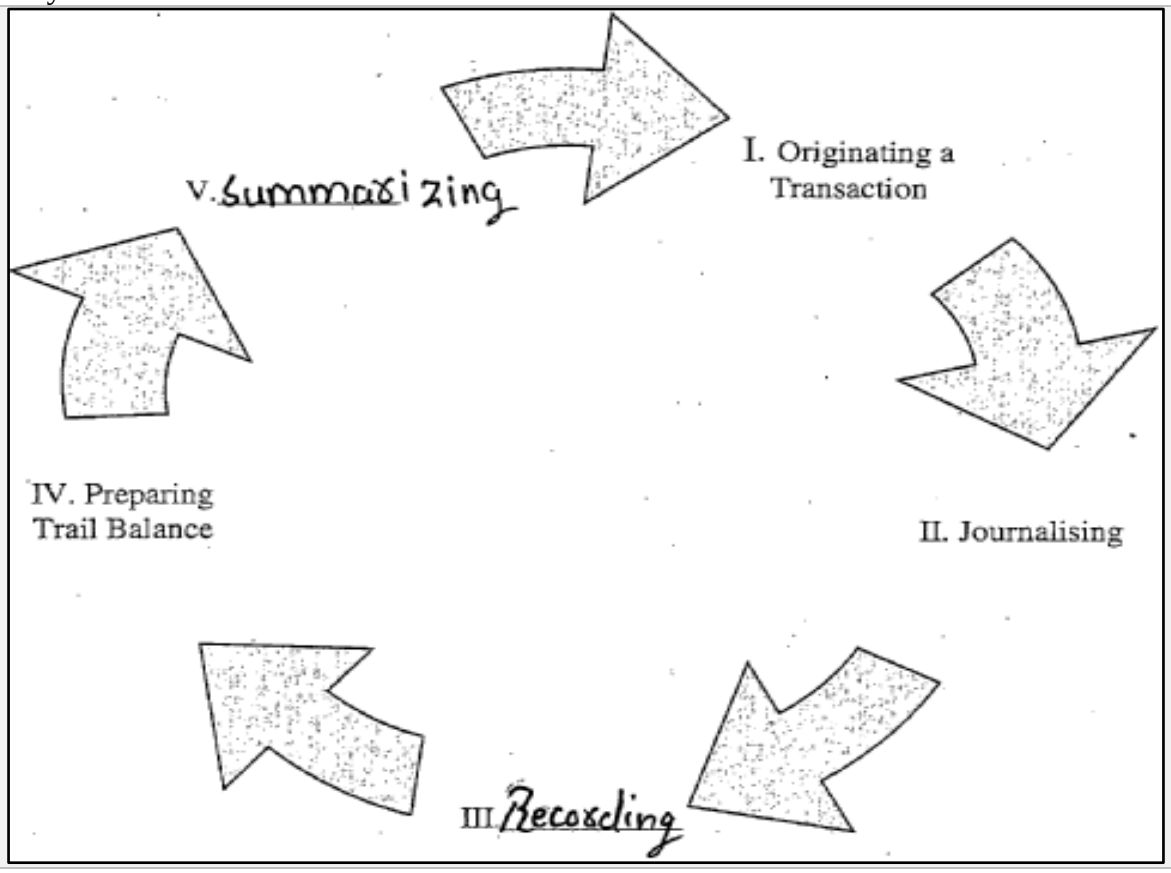

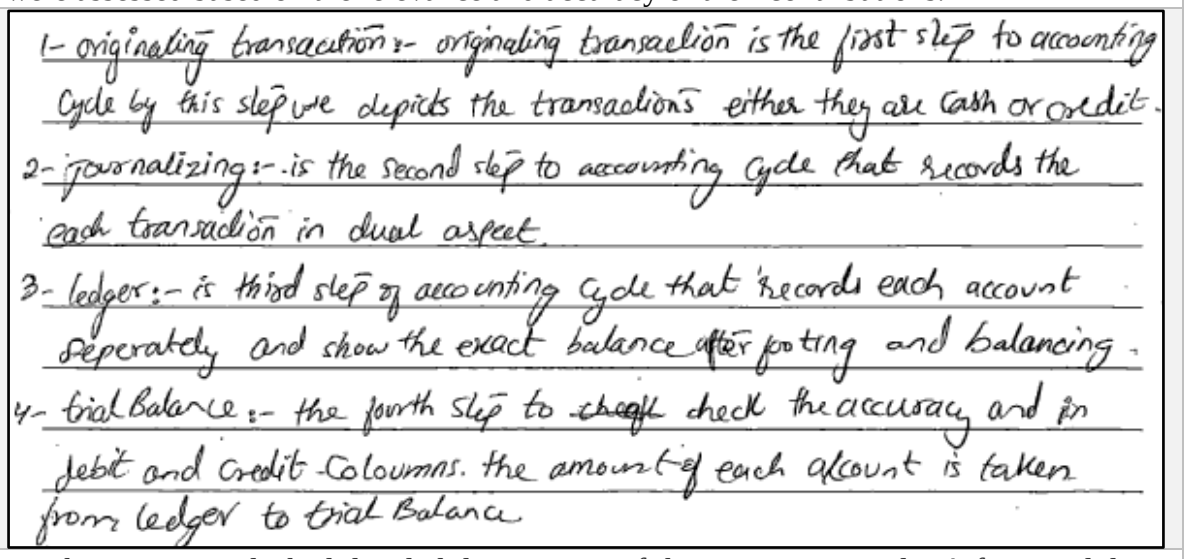

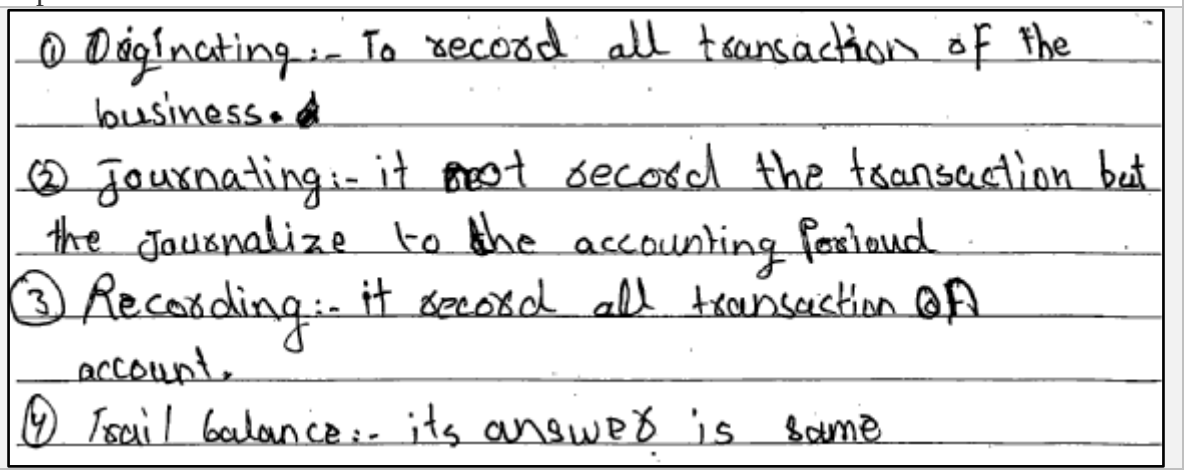

Question No. 1	
Question Text	Complete the given accounting cycle. 
SLO No.	1.1.9
SLO Text	Explain the elements of accounting (accounting process/ accounting cycle): a. origination of transaction b. recording the transaction in the journal c. posting to the ledger d. preparation of trial balance e. preparation of financial statement
Max Marks	2
Cognitive Level	U*
Checking Hints	1 mark for each process (2 required)
Overall Performance	Overall, the performance was brilliant on this question. Most of the candidates demonstrated a thorough understanding of the accounting cycle. Their knowledge of the topic was comprehensive and accurate.
Description of Better Responses	Better responses had a solid understanding of the accounting cycle. They used various terms such as financial statements, final accounts, income statements, and balance sheets.

Image of Better Response	
Description of Weaker Responses	Weaker responses struggled to identify the correct accounting cycle. Instead of mentioning ledger posting, they referred to steps like recording and analysing. In step five, they incorrectly mentioned terms like worksheet, adjusting entries, only income statement and only balance sheet.
Image of Weaker Response	

Suggestions for improvement (Highlight all that apply)

Maximising SLO Achievement	Preferred Pedagogy** Used for this SLO	Assessment Strategies
• Identify the expectation of command words (use Command Word Guide) • Ensure the content is taught at the relevant cognitive level • Identify necessary content required (skills + concepts) • Review past paper questions on the concept • Utilise the resource guide for additional materials	• Story Board • Cause and Effect • Fish and Bone • Concept Mapping • Audio Visual Resources • Think, Pair and Share • Questioning Technique (Socratic approach) • Practical Demonstration ** For description of each Pedagogy, refer to Annexure A	• Past paper questions • Discussion on E-Marking Notes.
Any Additional Suggestion:		

*K = Knowledge U = Understanding A = Application and other higher-order cognitive skills

Question No. 2	
Question Text	Describe any FOUR steps of accounting cycle.
SLO No.	1.2.1
SLO Text	Describe elements of accounting cycle and accounting period types;
Max Marks	4
Cognitive Level	U
Checking Hints	1 mark for each process (4 required)
Overall Performance	Overall, the performance was unsatisfactory. While a few candidates performed very well and demonstrated a thorough understanding of the accounting cycle, many others only listed the points without providing detailed descriptions. Some candidates simply copied the points from question 1 without any additional explanation.
Description of Better Responses	Better responses accurately described the steps given in question 1. They provided clear and thorough descriptions of each step and their responses demonstrated a solid understanding of the material. Additionally, those who included alternative steps from the accounting cycle were assessed based on the relevance and accuracy of their contributions.
Image of Better Response	 1- originating transaction :- originating transaction is the first step to accounting cycle by this step we depicts the transactions either they are cash or credit. 2- journalizing :- is the second step to accounting cycle that records the each transaction in dual aspect. 3- ledger :- is third step of accounting cycle that records each account seperately and show the exact balance after footing and balancing. 4- trial Balance :- the fourth step to ~~check~~ check the accuracy and in debit and credit Colourmns. the amount of each account is taken from ledger to trial Balance
Description of Weaker Responses	Weaker responses lacked detailed descriptions of the accounting cycle. A few candidates only listed the names of the steps as provided in question 1, without providing further explanations.
Image of Weaker Responses	 ① Originating :- To record all transaction of the business. ② Journating :- it not record the transaction but the journalize to the accounting period ③ Recording :- it record all transaction of account. ④ Trail balance :- its answer is same

Suggestions for improvement (Highlight all that apply)

Maximising SLO Achievement	Preferred Pedagogy Used for this SLO	Assessment Strategies

• Identify the expectation of command words (use Command Word Guide) • Ensure the content is taught at the relevant cognitive level • Identify necessary content required (skills + concepts) • Review past paper questions on the concept • Utilise the resource guide for additional materials	• Story Board • Cause and Effect • Fish and Bone • Concept Mapping • Audio Visual Resources • Think, Pair and Share • Questioning Technique (Socratic approach) • Practical Demonstration	• Past paper questions • Discussion on E-Marking Notes
Any Additional Suggestion: To effectively teach the accounting cycle, break it down into clear stages journalising, posting to ledger, trial balance, adjustments, financial statements and closing teaching each step individually. Use real-life examples to illustrate transactions and provide hands-on exercises to reinforce learning.		

Question No. 3

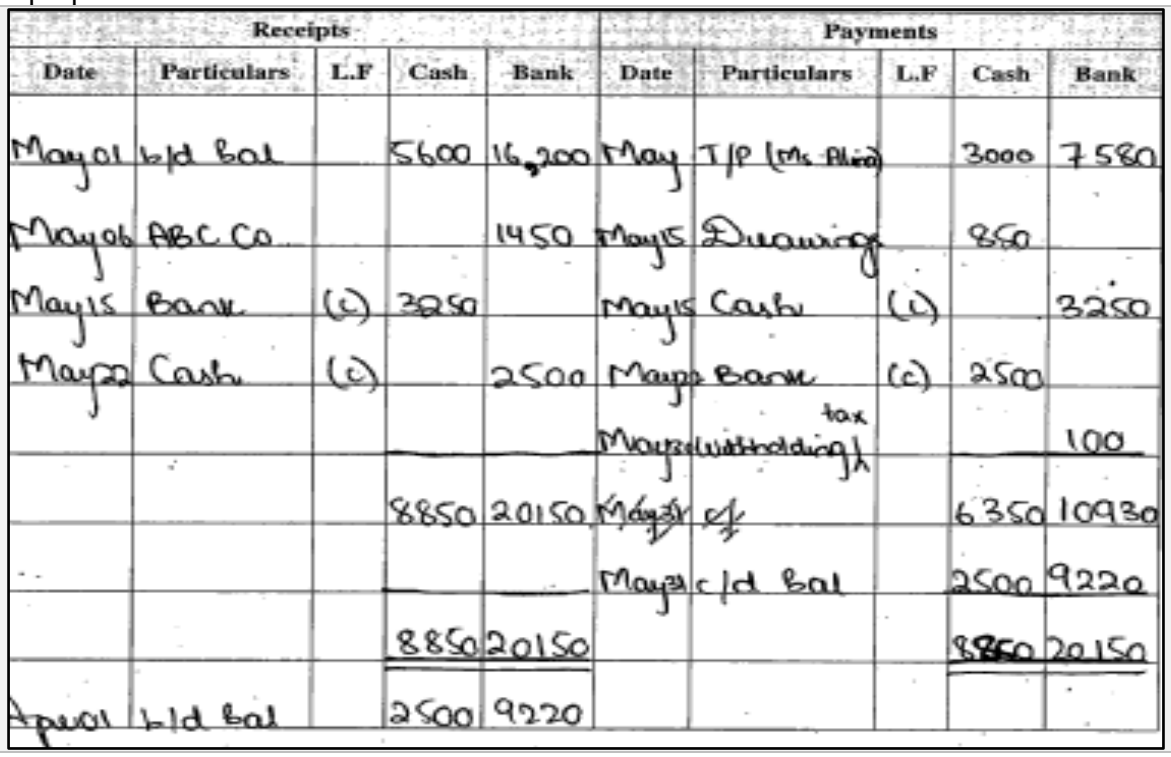

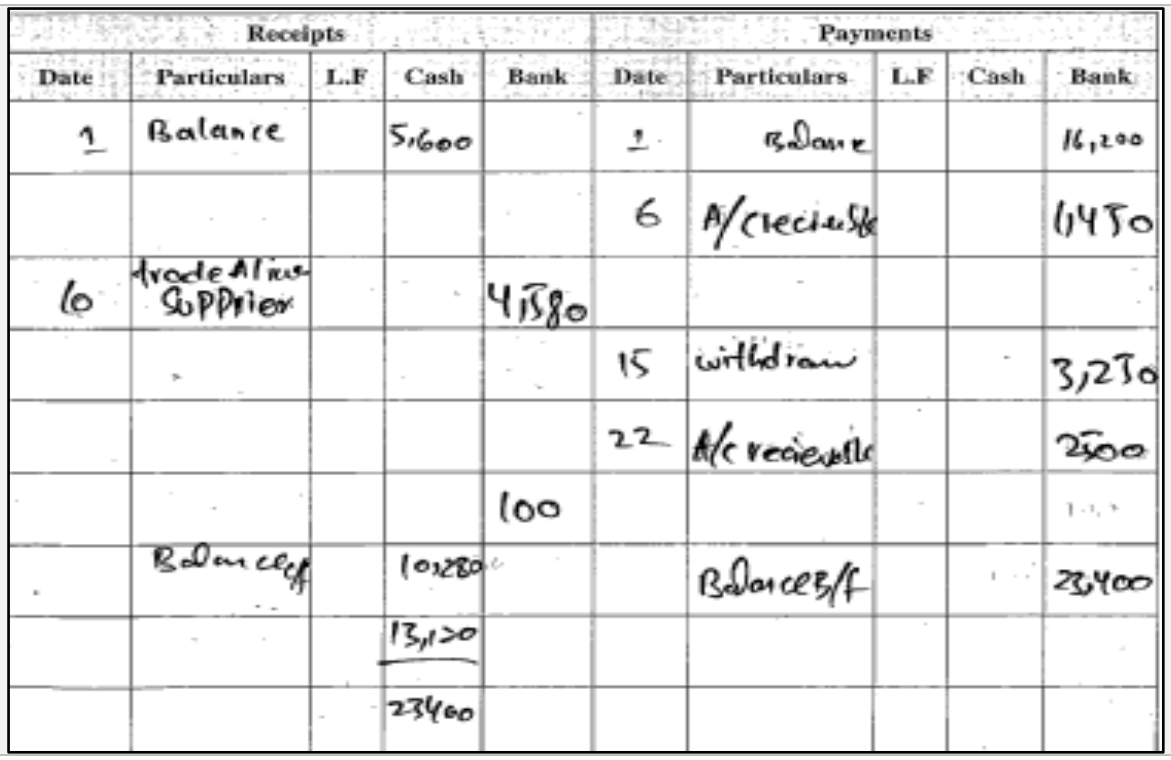

Question Text

During the month of May, Ghulam Traders completed the following transactions.
May 01, opening balance of cash in hand Rs 5,600 and cash in bank Rs 16,200.
May 06, received cheque from ABC Co. of Rs 1,450 and deposited the same into the bank.
May 10, issued a cheque to Ms Alina (trade supplier) of Rs 7,580 and paid her cash Rs 3,000.
May 15, withdrew cash Rs 850 from office for personal use and withdrew Rs 3,250 from the bank for office use.
May 22, deposited previously received cheque of Rs 2,500 into the bank.
May 30, deducted withholding tax of Rs 100 from the bank account.

Prepare the two-column cash book in the given format.

Receipts					**Payments**				
Date	**Particulars**	**L.F**	**Cash**	**Bank**	**Date**	**Particulars**	**L.F**	**Cash**	**Bank**

SLO No.	2.2.5
SLO Text	Prepare the following kinds of cash book: a. two column cash book b. three column cash book;
Max Marks	8
Cognitive Level	A
Checking Hints	1 mark for each transaction (6 required) 1 mark for footing 1 mark for balancing
Overall Performance	Overall, the performance on this question was excellent. Most of the candidates performed very well and demonstrated a thorough understanding of the cash book. However, a few candidates were confused about contra entries and made errors in handling them.

Description of Better Responses	Better responses handled the question with ease. They correctly placed the transactions on the appropriate side of the accounts. Additionally, their footing and balancing were done in a proper and accurate manner.
Image of Better Response	
Description of Weaker Responses	Weaker responses exhibited several common errors. They incorrectly placed the opening balance on the wrong side of the accounts. They also treated contra entries as if they had a single effect and made errors when recording single entries as contra entries. Another common error was the use of incorrect account titles, which led to reduction in marks.

Question No. 4

Question Text

The following transactions are extracted from the books of A &A Associates.

Date	Transactions
01.	Invested cash in the business Rs 105,000
02.	Purchased merchandise for Rs 5,000 on cash
03.	Purchased merchandise for Rs 15,000 on account from Alpha Traders
04.	Sold goods for Rs 3,500 on cash
05.	Withdrew cash Rs 2,500 for office use from bank and Rs 1,500 for personal u
06.	Cash counter sales worth Rs 1,500.

Post the given transactions to the respective ledger accounts and perform footing and balancing in each ledger account.
(**Note**: Ignore account receivable and account payable ledgers.)

SLO No.	2.4.9
SLO Text	Post the transactions in a general ledger in all three types: a. T-form (skeleton form) b. Standard form (columnar form) c. Self-balancing (running balance form);
Max Marks	6
Cognitive Level	A
Checking Hints	1 mark for posting and balancing each transaction (6 required) If the candidates do not balance the account, deduct 2 marks.
Overall Performance	Overall, candidates showed ample understanding of the general ledger. However, some candidates struggled with transaction 5, often making the mistake of using incorrect account titles in their ledger postings.
Description of Better Responses	Better responses correctly performed the posting, footing and balancing tasks as required. These candidates demonstrated a better understanding of those concepts and executed them accurately.

Suggestions for improvement (Highlight all that apply)

Maximising SLO Achievement	Pedagogy Used for that SLO	Assessment Strategies
• Identify the expectation of command words (use Command Word Guide) • Ensure the content is taught at the relevant cognitive level • Identify necessary content required (skills + concepts) • Review past paper questions on the concept • Utilise the resource guide for additional materials	• Story Board • Cause and Effect • Fish and Bone • Concept Mapping • Audio Visual Resources • Think, Pair and Share • Questioning Technique (Socratic approach) • Practical Demonstration	• Past paper questions • Discussion on E-Marking Notes
Any Additional Suggestion: To effectively teach general ledger, introduce the T-form (skeleton form) as a simple way to visualise debits and credits, ideal for beginners to understand balancing accounts. Move to the Standard form (columnar form), emphasising its common use in practice with structured columns for date, particulars, debit, credit, and balance, encouraging students to focus on accuracy when recording transactions. Finally, explain the Self-balancing (running balance form), which includes a running total after each entry, useful for real-time account verification. Encourage students to practice all three forms and understand their applications in accounting.		

Question No. 5

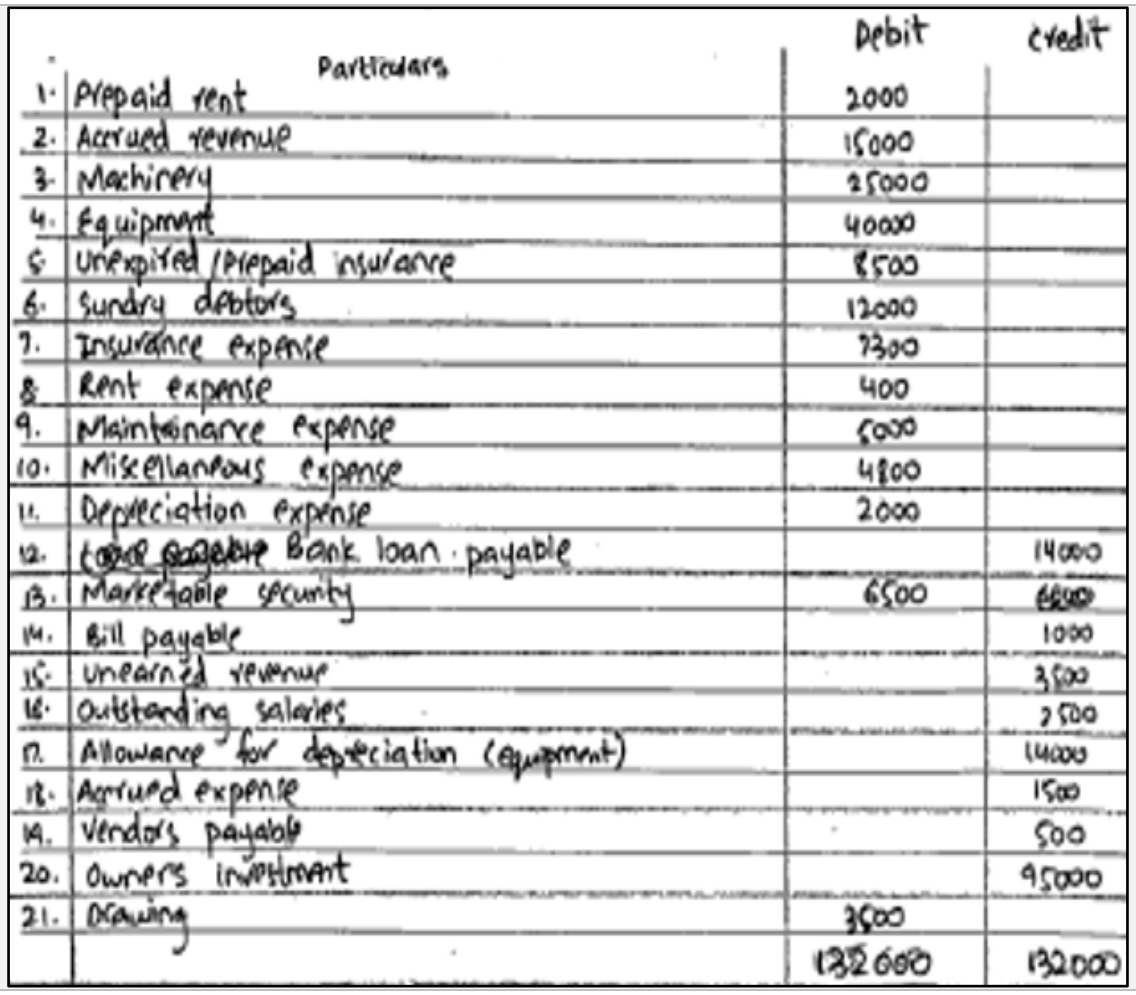

Question Text

The following has been data extracted from the ledgers of Maaz Traders.

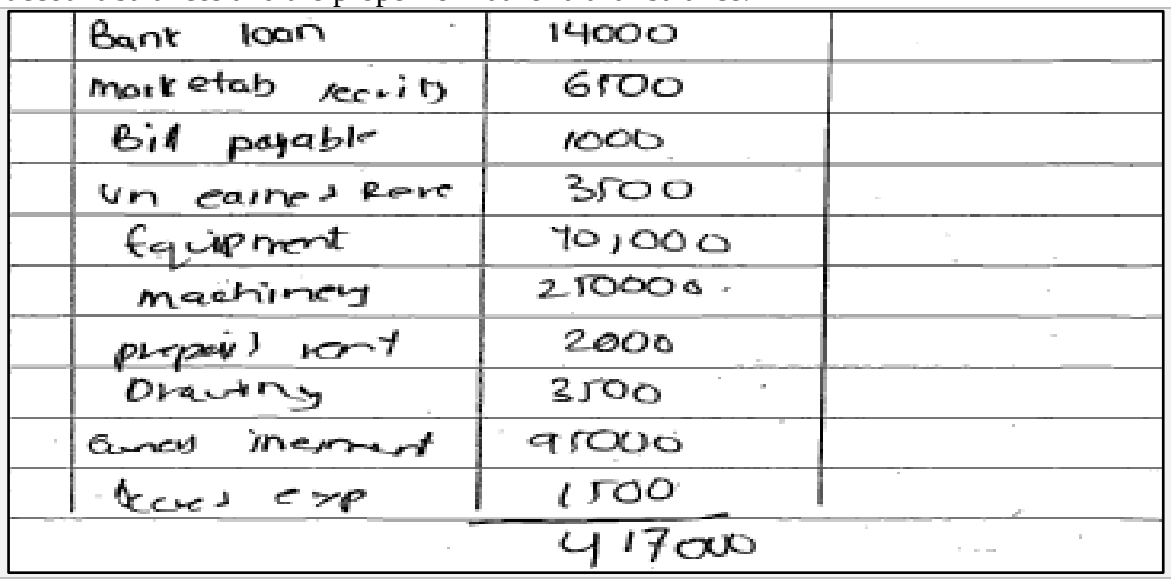

Description	Amount	Description	Amount	Description	Amount
Bank loan	14,000	Insurance expense	7,300	Equipment	40,000
Marketable security	6,500	Owner's investment	95,000	Maintenance expenses	5,000
Bill payable	1,000	Rent expenses	400	Miscellaneous expenses	4,800
Unearned revenue	3,500	Allowance for depreciation equipment	14,000	Accrued expense	1,500
Sundry debtors	12,000	Accrued revenue	15,000	Depreciation expense equipment	2,000
Outstanding salaries	2,500	Machinery	25,000	Unexpired insurance	8,500
Prepaid rent	2,000	Drawing	3,500	Vendors payable	500

Prepare the trial balance for the given data.

SLO No.	2.4.13
SLO Text	Prepare trial balance by extracting the balances (data) from general ledger;
Max Marks	4
Cognitive Level	A
Checking Hints	1 mark for correct identification of asset accounts 1 mark for correct identification of liability and equity accounts 1 mark for correct identification of revenues and expenses accounts 1 mark for totalling and balancing
Overall Performance	Overall, the performance on this question was excellent. Most of the candidates make proper trail balance and did balancing accurately.
Description of Better Responses	Better responses accurately displayed the correct side of the given account balances. They skillfully made use of the available space to their advantage, while some referred to the last page for rough work to help finalise their answers which we discourage to do.

Image of Better Response	

Particulars	Debit	Credit
1. Prepaid rent	2000	
2. Accrued revenue	15000	
3. Machinery	25000	
4. Equipment	40000	
5. Unexpired / Prepaid insurance	8500	
6. Sundry debtors	12000	
7. Insurance expense	7300	
8. Rent expense	400	
9. Maintenance expense	5000	
10. Miscellaneous expense	4800	
11. Depreciation expense	2000	
12. ~~Loan payable~~ Bank loan payable		14000
13. Marketable security	6500	6500
14. Bill payable		1000
15. Unearned revenue		3500
16. Outstanding salaries		2500
17. Allowance for depreciation (equipment)		14000
18. Accrued expense		1500
19. Vendors payable		500
20. Owners investment		95000
21. Drawing	3500	
	132600	132000

Description of Weaker Responses	Weaker responses merely copied the provided data rather than preparing a proper trial balance. This reflected a lack of understanding regarding the correct management of account balances and the proper format for a trial balance.
Image of Weaker Response	

	Bank loan	14000	
	marketab security	6500	
	Bill payable	1000	
	Un earned Rent	3500	
	Equipment	40,000	
	machinery	25000	
	prepaid rent	2000	
	Drawing	3500	
	owners investment	95000	
	Accrued exp	1500	
		417000

Question No. 6

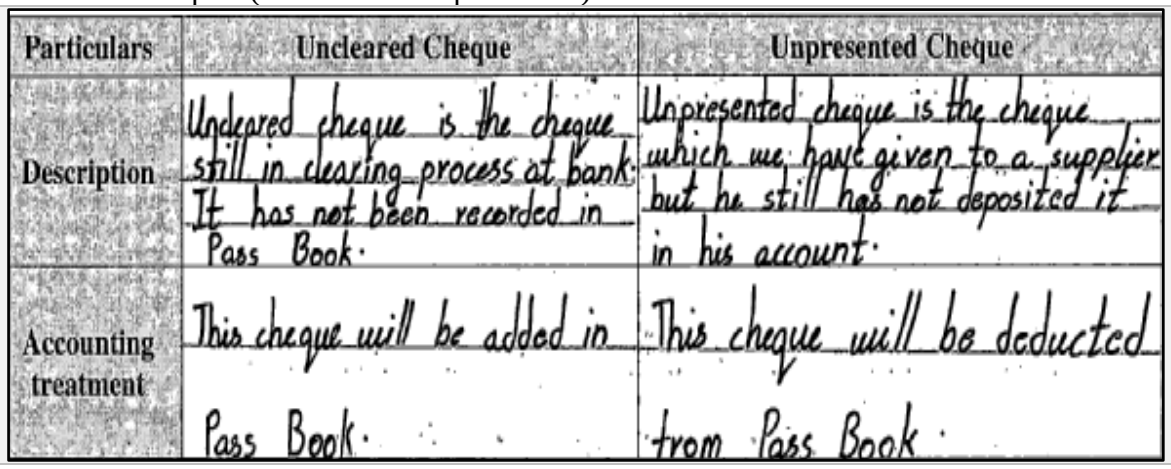

Question Text

Differentiate between uncleared and unpresented cheque.

Particulars	Uncleared Cheque	Unpresented Cheque
Description		
Accounting Treatment		

SLO No.	3.3.1
SLO Text	Differentiate among types of cheques - bearer cheques, crossed cheques and order cheques;
Max Marks	2
Cognitive Level	U
Checking Hints	1 mark for each correct difference (2 required)
Overall Performance	Overall, candidates demonstrated a thorough understanding of the concept. They showed a clear grasp of the concept of types of cheques and applied it correctly in their differentiations.
Description of Better Responses	Better responses reflected better understanding of bank reconciliation and its basics. These responses showed a clear grasp of how to handle unpresented (added in pass book) and uncleared cheques (deducted from pass book) in a bank reconciliation statement.

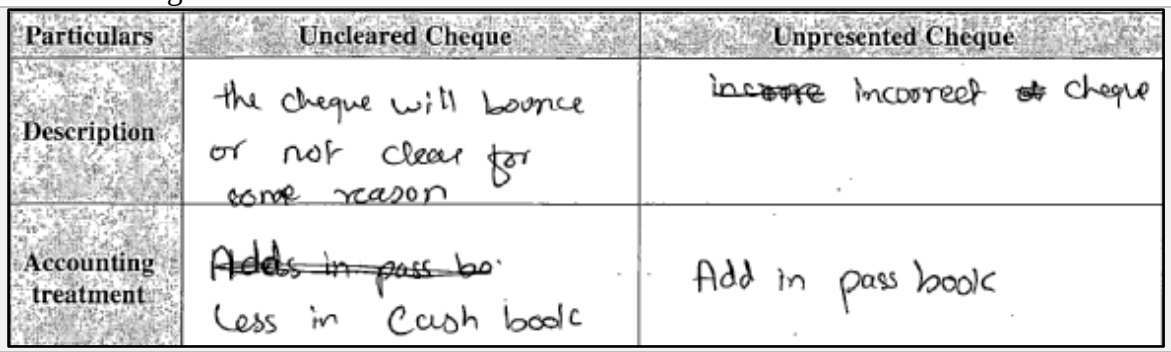

Image of Better Response

Particulars	Uncleared Cheque	Unpresented Cheque
Description	Undeared cheque is the cheque still in clearing process at bank. It has not been recorded in Pass Book.	Unpresented cheque is the cheque which we have given to a supplier but he still has not deposited it in his account.
Accounting treatment	This cheque will be added in Pass Book.	This cheque will be deducted from Pass Book.

Description of Weaker Responses	Weaker responses had difficulty distinguishing between unpresented and uncleared cheques. Some responses incorrectly handled accounting treatments on the debit and credit sides or made entries instead of properly adjusting the amounts in the passbook by adding or subtracting them.

Image of Weaker Response

Particulars	Uncleared Cheque	Unpresented Cheque
Description	the cheque will bounce or not clear for some reason	~~incorre~~ Incorreet ~~of~~ cheque
Accounting treatment	~~Adds in pass bo~~ Less in Cash book	Add in pass book

Suggestions for improvement (Highlight all that apply)

Maximising SLO Achievement	**Preferred Pedagogy Used for this SLO**	**Assessment Strategies**
• Identify the expectation of command words (use Command Word Guide) • Ensure the content is taught at the relevant cognitive level • Identify necessary content required (skills + concepts) • Review past paper questions on the concept • Utilise the resource guide for additional materials	• Story Board • Cause and Effect • Fish and Bone • Concept Mapping • Audio Visual Resources • Think, Pair and Share • Questioning Technique (Socratic approach) Practical Demonstration	• Past paper questions • Discussion on E-Marking Notes
Any Additional Suggestion:		

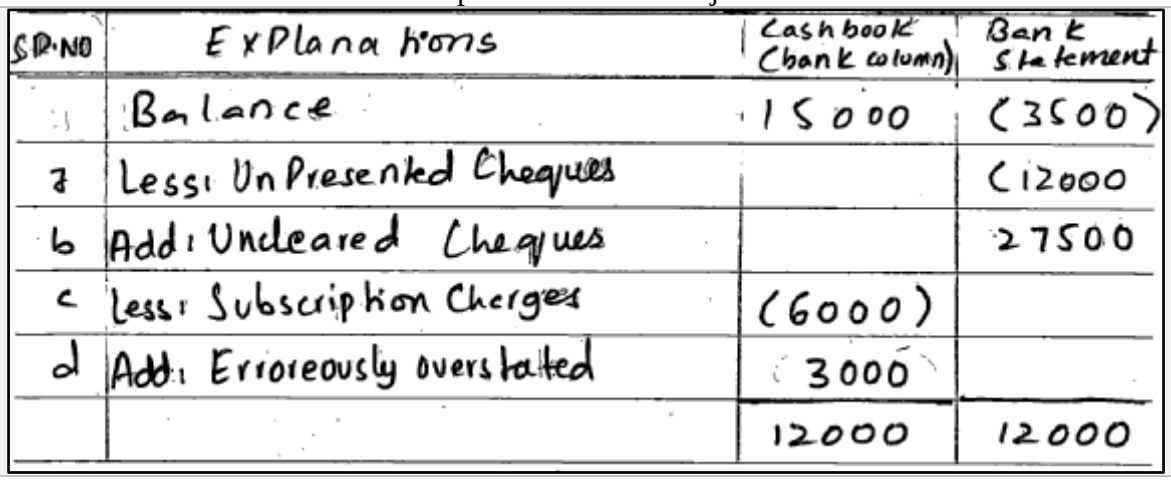

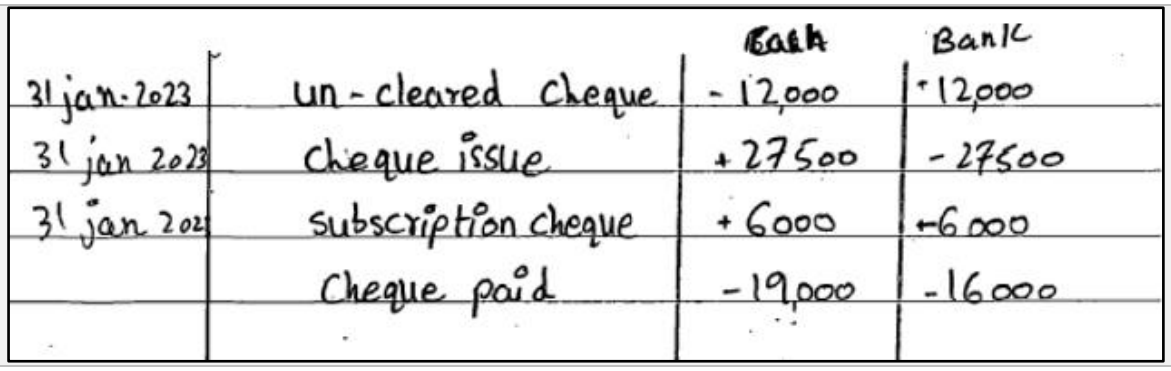

Question No. 7	
Question Text	The cash book of Afzal and Brothers showed a bank balance of Rs 15,000 on January 31, 2023. On the same date, the bank statement showed the balance of Rs 3,500 overdrawn. The differences accounted for as follows: a. Cheques of Rs 12,000 sent to creditors on January 31, 2023, were not paid by the bank until February 08, 2023. b. Cheques amounting to Rs 27,500 deposited to the bank on January 31, 2023 were not credited by the bank until February 02, 2023. c. A standing order for a charitable subscription of Rs 6,000 had been paid by the bank on January 21, 2023 but no entry had been made in the cash book. d. A cheque paid by Afzal and Brothers for rent on January 15, 2023 of Rs 16,000 had been entered in their cash book as Rs 19,000. Prepare the bank reconciliation statement.
SLO No.	3.4.3
SLO Text	Prepare a bank reconciliation statement.
Max Marks	4
Cognitive Level	A
Checking Hints	1 mark for each adjustment (4 required)
Overall Performance	Most of the candidates performed well, accurately preparing the bank reconciliation statement. These candidates correctly identified all differences and made the necessary adjustments, demonstrating a thorough understanding of the process.
Description of Better Responses	Better responses reflected a clear understanding of how to prepare a bank reconciliation statement. These responses correctly displayed unadjusted balances, made appropriate additions and subtractions and computed the correct adjusted balance.
Image of Better Response	
Description of Weaker Responses	Weaker responses showed a lack of knowledge regarding the preparation of a bank reconciliation statement. A few responses also showed incorrect placement of balances in the debit and credit columns. Additionally, these responses were unable to rectify the errors made when recording entries in the cash book column.

Image of Weaker Response	

		Cash	Bank
31 jan. 2023	un-cleared cheque	-12,000	+12,000
31 jan 2023	cheque issue	+27500	-27500
31 jan 202	subscription cheque	+6000	-6000
	cheque paid	-19,000	-16000

Suggestions for improvement (Highlight all that apply)

Maximising SLO Achievement	Preferred Pedagogy Used for this SLO	Assessment Strategies
• Identify the expectation of command words (use Command Word Guide) • Ensure the content is taught at the relevant cognitive level • Identify necessary content required (skills + concepts) • Review past paper questions on the concept • Utilise the resource guide for additional materials	• Story Board • Cause and Effect • Fish and Bone • Concept Mapping • Audio Visual Resources • Think, Pair and Share • Questioning Technique (Socratic approach) Practical Demonstration	• Past paper questions • Discussion on E-Marking Notes
Any Additional Suggestion: To teach bank reconciliation start in this way, explain its purpose: matching the bank statement balance with the cash book balance by adjusting for timing differences like outstanding cheques or deposits in transit. Guide students through identifying discrepancies and systematically adjusting both balances. Reinforce with examples to ensure accuracy and understanding.		

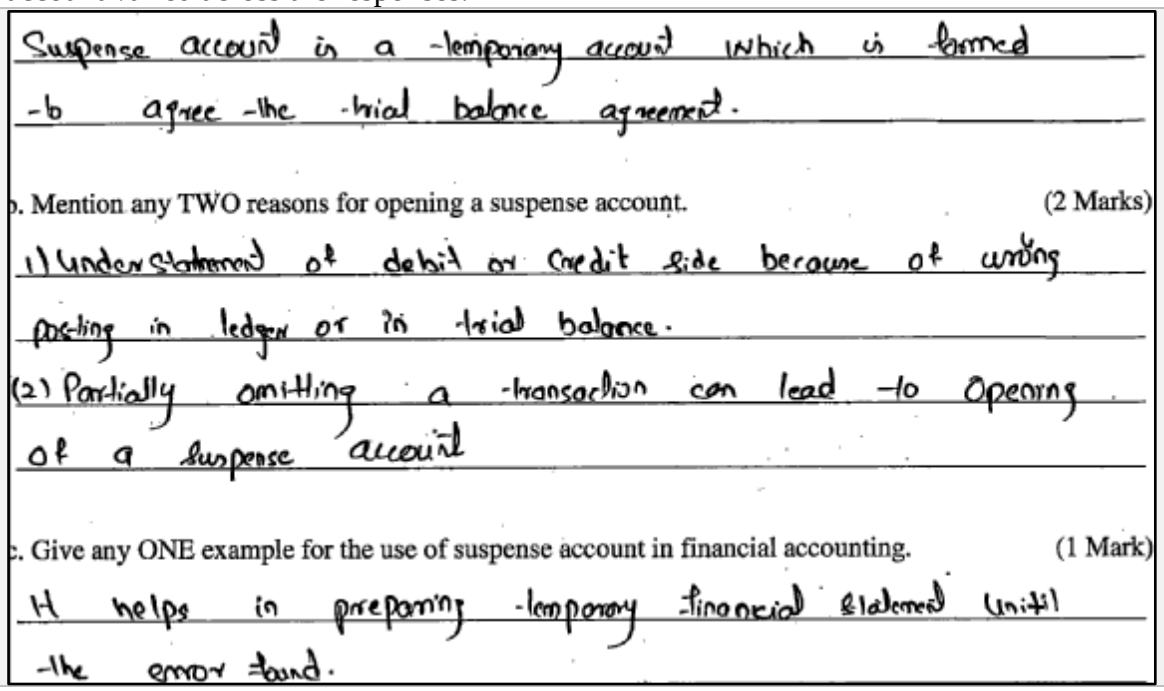

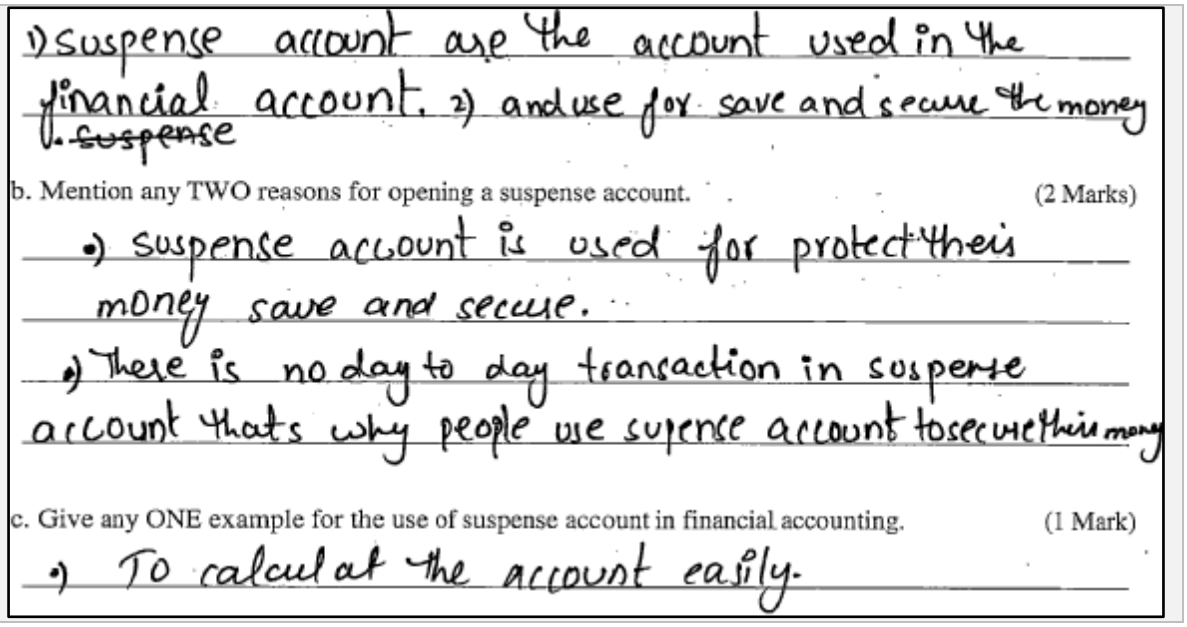

Question No. 8	
Question Text	a. Define suspense account. b. Mention any TWO reasons for opening a suspense account. c. Give any ONE example for the use of suspense account in financial accounting.
SLO No.	4.3.2
SLO Text	Illustrate the working of a suspense account;
Max Marks	4
Cognitive Level	U
Checking Hints	1 mark for definition. 1 mark for each reason (2 required) 1 mark for the example
Overall Performance	Overall, the performance on this question was unsatisfactory. Most of the candidates confused the different parts of the question and were unable to write the reasons for opening a suspense account along with appropriate examples.
Description of Better Responses	Better responses correctly defined the purpose of a suspense account as a temporary account opened to balance the trial balance. However, the examples of how to use a suspense account varied across the responses.
Image of Better Response	
Description of Weaker Responses	Weaker responses showed confusion over parts of the question. Many candidates incorrectly stated that a suspense account is a financial account used to save money or hide it from the final accounts. Additionally, most candidates struggled to accurately identify the reasons for opening a suspense account and to provide relevant examples.

Image of Weaker Response	

Suggestions for improvement (Highlight all that apply)

Maximising SLO Achievement	**Preferred Pedagogy Used for this SLO**	**Assessment Strategies**
• Identify the expectation of command words (use Command Word Guide) • Ensure the content is taught at the relevant cognitive level • Identify necessary content required (skills + concepts) • Review past paper questions on the concept • Utilise the resource guide for additional materials	• Story Board • Cause and Effect • Fish and Bone • Concept Mapping • Audio Visual Resources • Think, Pair and Share • Questioning Technique (Socratic approach) Practical Demonstration	• Past paper questions • Discussion on E-Marking Notes
Any Additional Suggestion: To teach suspense account, explain that it is a temporary account used to record discrepancies when debits and credits do not balance. Highlight its role in holding unidentified transactions until errors are resolved, allowing the trial balance to proceed. Demonstrate posting entries to the suspense account and how to correct them once identified. Encourage students to practice resolving suspense accounts to emphasize their importance in maintaining financial accuracy.		

Question No. 9

Question Text

The extract of the trial balance of Sameer Traders showed a salary expense of Rs 25,000.
Conditions for adjustment

Case 1 Salaries expenses for the year were Rs 36,000.

Case 2 Prepaid salaries on December 31, 2023 were Rs 18,000.

Case 3 Salaries expenses for the year were Rs 15,000.

(Note: Consider each of the given conditions separately.)

Prepare the adjusted entries that will be made on December 31, 2023.

S. No.	Particular	P.R	DR	CR
Case 1				
Case 2				
Case 3				

	Statement of Affairs		Income Statement
	Prepaid Salary	**Salary Payable**	**Salary Expense**
Case 1			
Case 2			
Case 3			

SLO No.	4.5.2
SLO Text	Illustrate the recording of adjusting entries for: a. prepaid or accrued (payable/ outstanding) of an expense b. unearned or revenue receivable (commission/ rent/ interest);
Max Marks	6

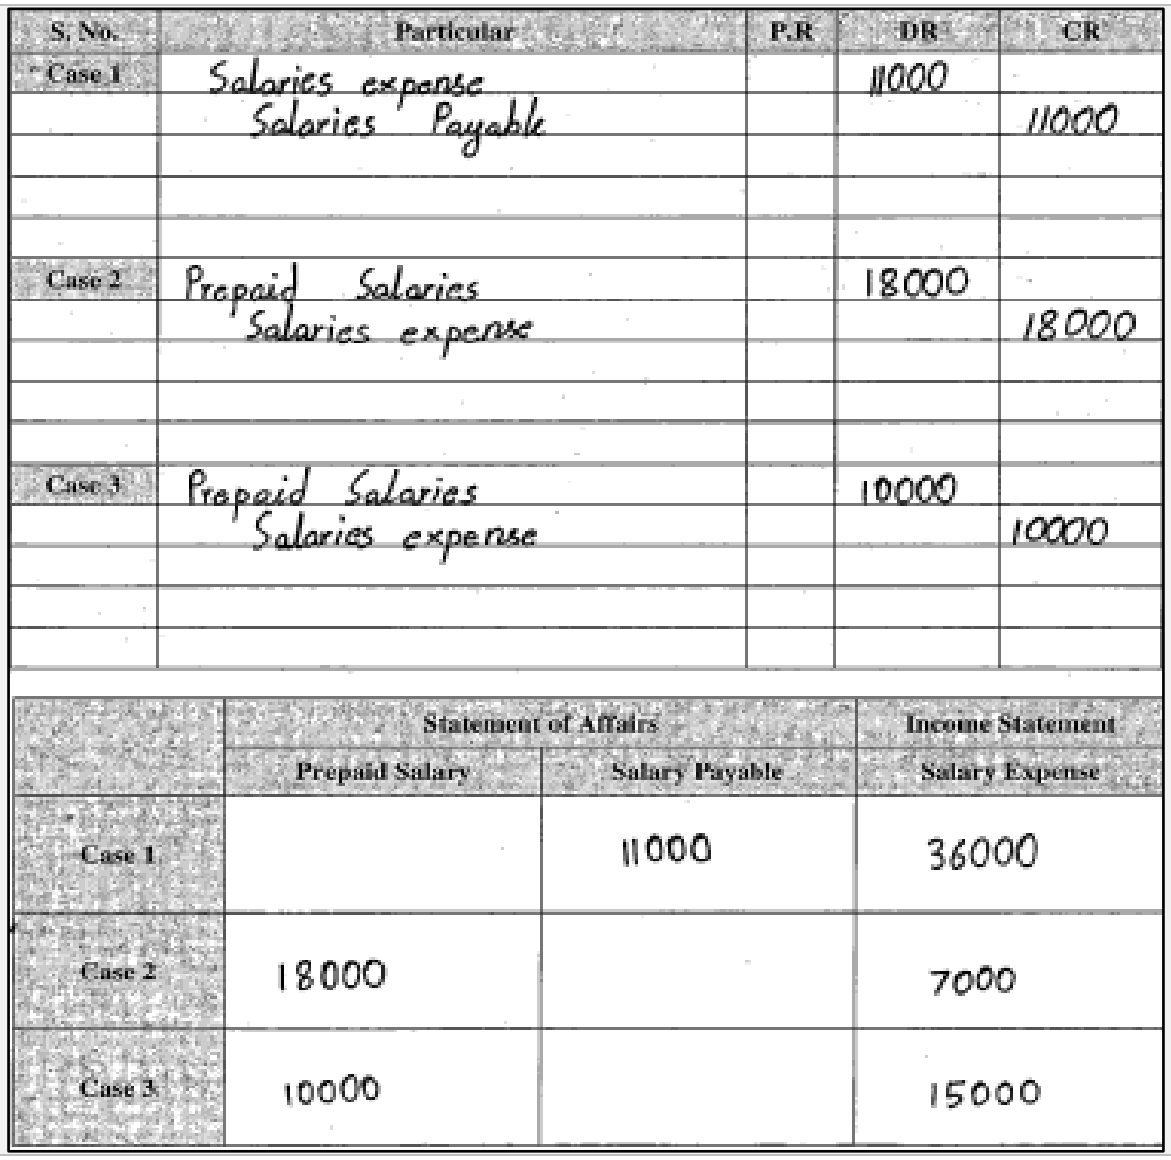

Cognitive Level	A
Checking Hints	1 mark for each correct aspect (i.e. debit and credit) general journal entries (6 required)
Overall Performance	Overall, the performance was unsatisfactorily. Most candidates struggled with handling accrued and prepaid expenses. In the second part of the question, where they were required to present the adjusted amounts, they only noted increases or decreases and debits or credits, without accurately reflecting the adjusted figures.
Description of Better Responses	Candidates who performed better on these questions demonstrated a strong understanding of accrued, prepaid, and adjusted amounts. These candidates clearly stated the correct adjusted amounts that needed to be reflected in the Income Statement and the Statement of Financial Position.
Image of Better Response	
Description of Weaker Responses	Most of the candidates lacked understanding of adjusting entries they wrongly debit prepaid salaries, salary expense and wrongly credit salary payable accounts and their impact on the Income Statement and the Statement of Financial Position. Many candidates unable to reflect proper amount in statement of affairs and income statement.

Image of Weaker Response

Question No. 10

Question Text

Following extract is the list of accounts for Jan Ltd. for the year 2023.

S. No.	Particulars	Debit	Credit
1	Cash	50,000	
2	Bank	250,000	
3	Account receivable	150,000	
4	Account payable		125,000
5	Opening stock	145,000	
6	Ending stock	185,000	
7	Sales revenue		450,000
8	Purchases	225,000	
9	Purchase discount		15,000
10	Purchase returns		10,000
11	Advertisement expense	35,000	
12	Transportation inwards	45,000	
13	Salary expense	15,000	
14	Insurance expense	55,000	
15	Commission income	35,000	

Prepare the Income Statement for the year 2023.

SLO No.	4.6.6
SLO Text	Prepare income statement including adjustments in classified form;
Max Marks	10
Cognitive Level	A
Checking Hints	1 mark for calculating each part (10 required) Net sales Opening stock Add transportation in Goods available for sold Ending stock Cost of goods sold Gross profit Total operating expense Income Net income
Overall Performance	Overall, the performance on this question was positive. Most of the candidates demonstrated a clear grasp Income Statement format. However, many candidates were unaware that purchase discounts should be recorded under other income rather than as part of net purchases.

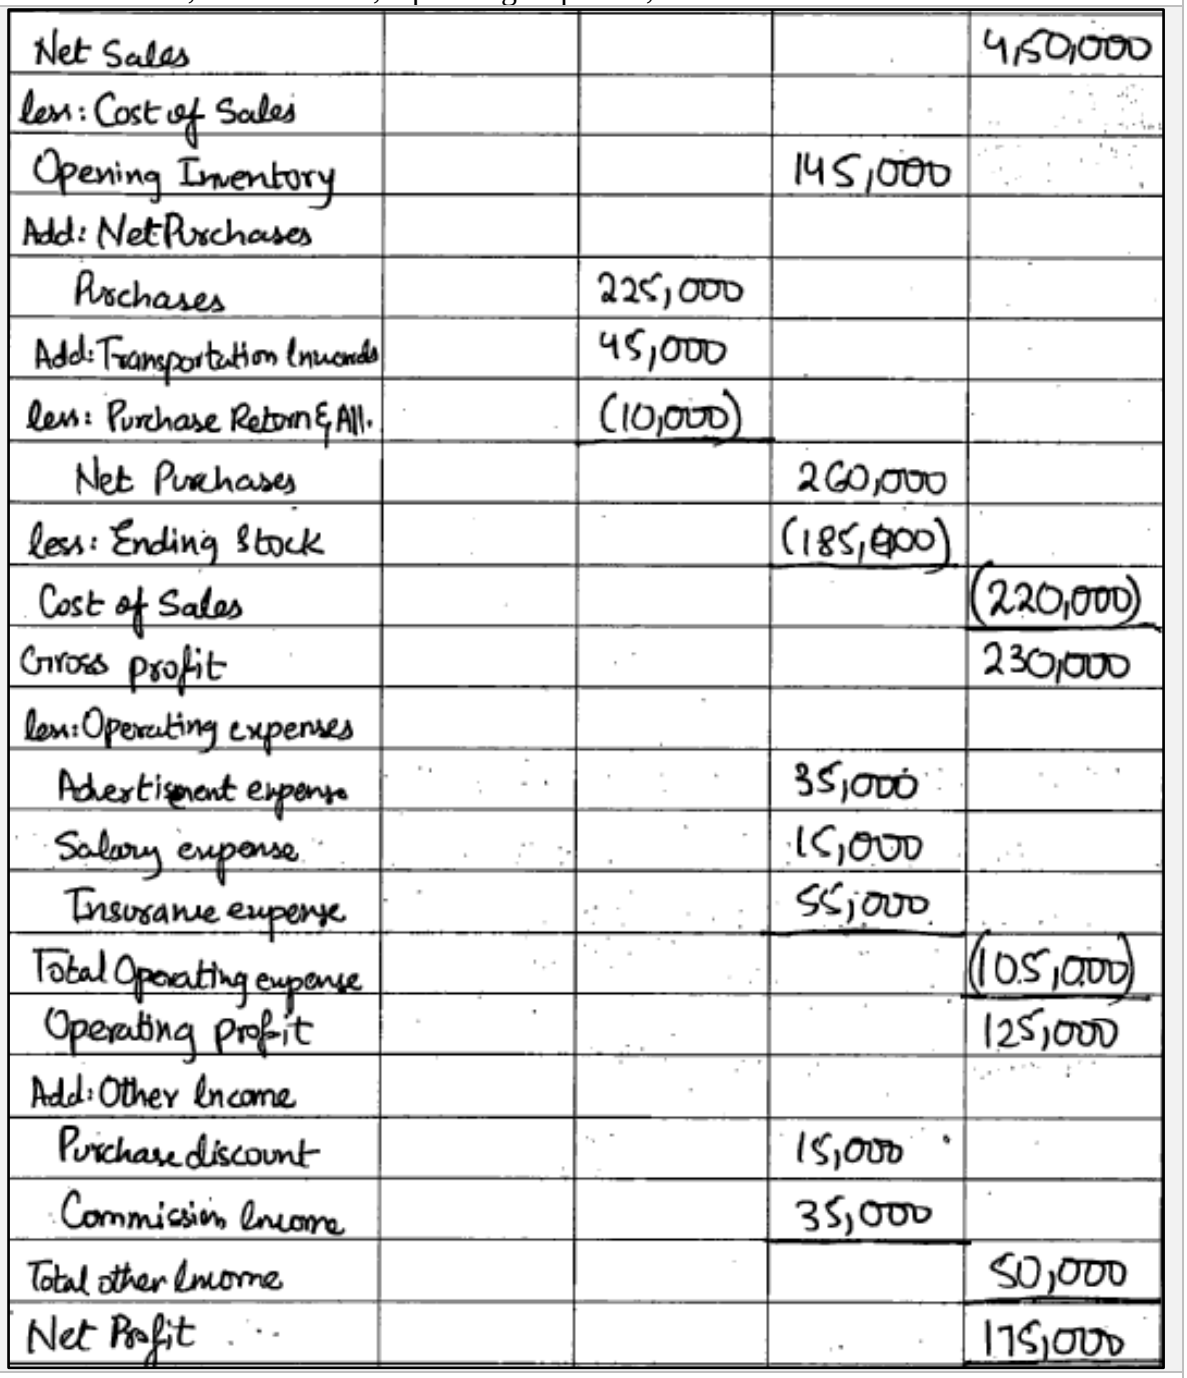

Description of Better Responses	Better responses reflected a clear and thorough understanding of how to prepare an Income Statement. These responses accurately allocated amounts to the correct headings, including Net Purchases, Cost of Sales, Operating Expenses, and Other Income.
Image of Better Response	
Description of Weaker Responses	Weaker responses revealed several misconceptions and errors. Most of the candidates were unaware that purchase discounts should be recorded under Other Income rather than Net Purchases. A few responses included a trial balance and a worksheet, showing debits and credits, and prepared a Trading Account.

Image of Weaker Response

Particulars	Debit	Credit	Income Statement Debit	Income Statement Credit
Cash	50,000			
Bank	250,000			
A/c receivable	150,000

	1,190,000	600,000	475,000	240,000
		590,000	190000	
	1,190,000	1,190,000	660,000	660,000

Suggestions for improvement (Highlight all that apply)

Maximising SLO Achievement	Preferred Pedagogy Used for this SLO	Assessment Strategies
• Identify the expectation of command words (use Command Word Guide) • Ensure the content is taught at the relevant cognitive level • Identify necessary content required (skills + concepts) • Review past paper questions on the concept • Utilise the resource guide for additional materials	• Story Board • Cause and Effect • Fish and Bone • Concept Mapping • Audio Visual Resources • Think, Pair and Share • Questioning Technique (Socratic approach) Practical Demonstration	• Past paper questions • Discussion on E-Marking Notes
Any Additional Suggestion:		

Question No. 11

Question Text

The following records have been extracted from the non-current (fixed) assets register of Al-Ayan Associates as on January 01, 2022.

S. No.	Account Title	Cost (Rs)	Date of Purchase	Accumulated Depreciation (Rs)	Depreciation Method
1	Computers	750,000	January 01, 2020	450,000	Straight line @ 15%
2	Van	800,000	January 01, 2021	462,500	Diminishing balance 25%

On June 31, 2023, the business decided to dispose of computers at a scrap value of Rs 100,000.

Perform the following tasks for the given scenario:

- Compute the depreciation of computers for 2022 and 2023.
- Compute the gain or loss on disposal of computers (non-current assets).
- Draw the general journal entry to record given transaction in the case.

SLO No.	5.3.5/5.3.7
SLO Text	Compute and record disposal of non-current assets (fixed assets): a. by sales b. by exchange c. by discard as well;
Max Marks	5
Cognitive Level	A
Checking Hints	1 mark for substituting the values in the formula of straight-line method 1 mark for calculating book value 1 mark for calculating loss on disposal 1 mark for correct posting for debit side 1 mark for correct posting for credit side
Overall Performance	Overall, the performance on this question was inadequate. Only a few candidates carefully read the question and provided the correct solution. Majority of the candidates misinterpreted the question and failed to consider the specified date.
Description of Better Responses	Only a few candidates accurately addressed the question by carefully reading it and providing the appropriate solution. They showed an understanding of how to calculate book value, determine the gain or loss on disposal, and record the entry for the disposal.

Image of Better Response

D.E=(750,000 - Scrap value) × Rate
D.E(750,000 - 100,000) × 15%
D.E = 97,500
D.E 2022 = 97,500
D.E for 2023 = (97,500 × 6/12)
D.E for 2023 = 48,750

Cost		750,000
Less: Accumulated Dep		(596,250)
Book Value		153,750
Less: Selling Price		(100,000)
Loss on asset		53,750

Date	Particulars	P.R.	Debit	Credit
June 31	Computers Accumulated Depreciation		596,250	
	Loss on Sale		53,750	
	Cash		100,000	
	Computers			750,000
	(To record disposal			
	of computers by sale)			

Description of Weaker Responses

Most of the candidates handled the question incorrectly and overlooked the provided date. They computed depreciation using the Straight-Line Method (SLM) without applying the correct rate or used the rate on the cost of the computer instead of the depreciable cost. Additionally, some candidates calculated depreciation from the date of purchase instead of using the dates for 2022 and 2023. While they demonstrated the correct method for calculating book value, they did not properly record the disposal entry. Additionally, a few responses disregarded the accumulated depreciation mentioned in the question.

Image of Weaker Response

750,000 - 450,000 ÷ 15
300000 = 450000 Net Book value
loss on disposal computer = 300000

Date	Particulars	P.R.	Debit	Credit
1	Allowance for Dep		300,000	
	Dep			300,000
(2)	Dep exp		45000	
	Allow for Dep			45000

Suggestions for improvement (Highlight all that apply)

Any Additional Suggestion:		

Question No. 12

Question Text

The following records have been extracted from the non-current (fixed) assets register of Al-Ayan Associates as on January 01, 2022.

S. No.	Account Title	Cost (Rs)	Date of Purchase	Accumulated Depreciation (Rs)	Depreciation Method
1	Computers	750,000	January 01, 2020	450,000	Straight line @ 15%
2	Van	800,000	January 01, 2021	462,500	Diminishing balance 25%

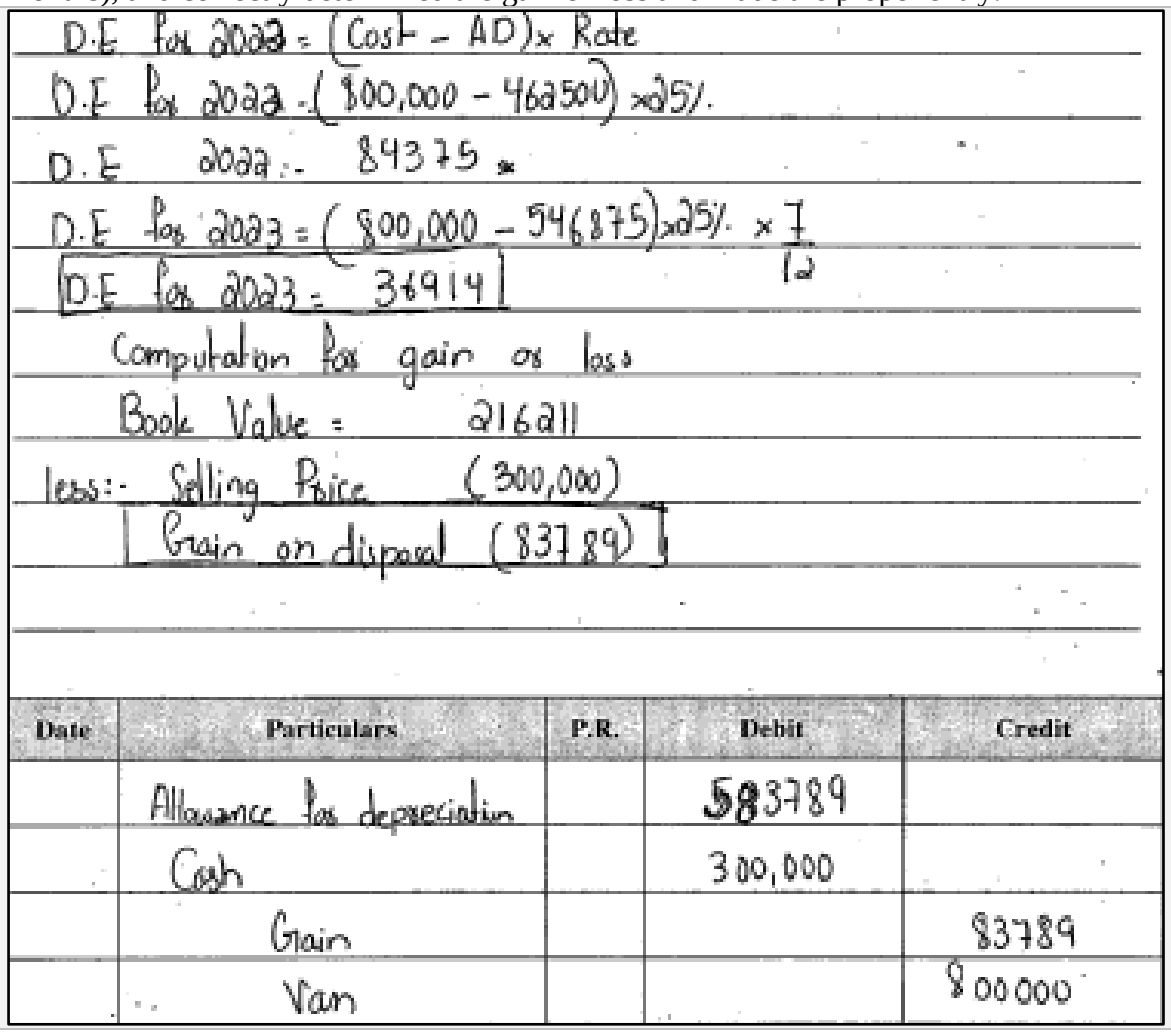

On June 31, 2023, the business decided to dispose of computers at a scrap value of Rs 100,000.

On August 01, 2023, the business sold the van for Rs 300,000 cash.

Perform the following tasks for each of the given case:

- Compute the depreciation for 2023.
- Compute the gain or loss on disposal of van (non-current assets).
- Draw the general journal entry to record given transaction in the case.

SLO No.	5.3.5/5.3.7
SLO Text	Compute and record disposal of non-current assets (fixed assets): a. by sales b. by exchange c. by discard as well;
Max Marks	5
Cognitive Level	A
Checking Hints	1 mark for substituting the values in the formula of diminishing balance method 1 mark for computing the amount of depreciation

	1 mark for calculating book value 1 mark for calculating loss on disposal Give ONE mark for every TWO correct posting
Overall Performance	Overall, the performance on this question was average due to the question's complexity. Consequently, most candidates only calculated depreciation for 2023, rather than for both 2022 and the first seven months of 2023. Some responses included calculations starting from the purchase date. Many candidates also lacked an understanding of the Diminishing Balance Method, which affected their ability to accurately calculate depreciation.
Description of Better Responses	Only a few candidates read the question carefully and provided the correct solution. They calculated depreciation using the Diminishing Balance Method for 2022 and 2023 (7 months), and correctly determined the gain or loss and made the proper entry.
Image of Better Response	

D.E for 2022 = (Cost − AD) × Rate

D.E for 2022 = ($100,000 − 46250) ×25%

D.E 2022 = 84375 ✱

D.E for 2023 = ($100,000 − 94(875) ×25% × 7/12

D.E for 2023 = 36914

Computation for gain or loss

Book Value = 216211

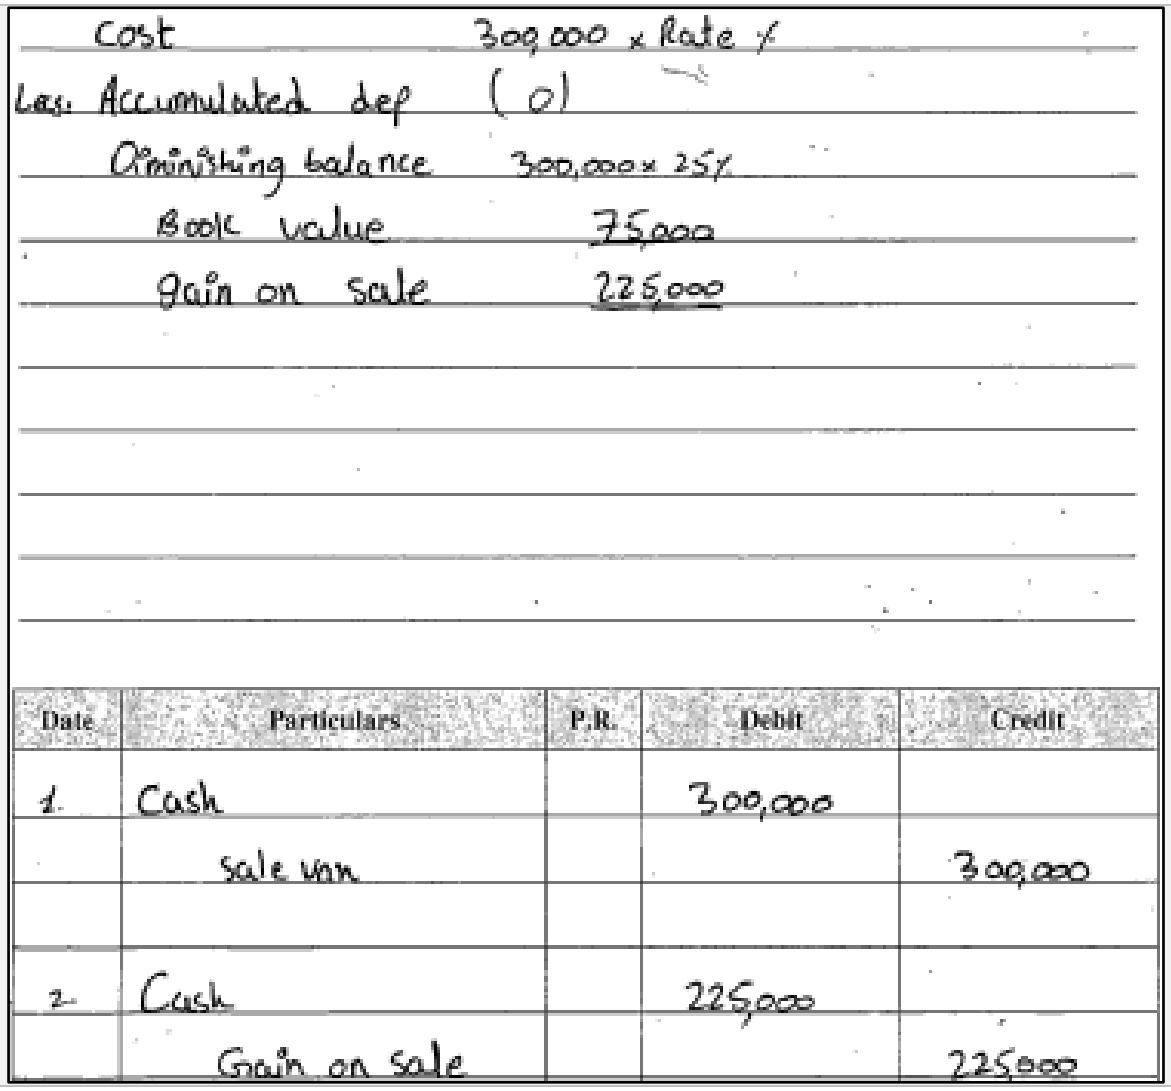

less:- Selling Price (300,000)

Gain on disposal ($3789)

Date	Particulars	P.R.	Debit	Credit
	Allowance for depreciation		583789	
	Cash		300,000	
	Gain			$3789
	Van			$00000

Description of Weaker Responses	In weaker responses, candidates were confused about the calculation of depreciation and failed to include the accumulated depreciation amount or entered it incorrectly. Additionally, there was a lack of proper entries for the disposal of assets

Image of Weaker Response

Cost 300,000 x Rate %

Less: Accumulated dep (0)

Diminishing balance 300,000 x 25%

Book value 75,000

Gain on sale 225,000

Date	Particulars	P.R.	Debit	Credit
1.	Cash		300,000	
	sale van			300,000
2.	Cash		225,000	
	Gain on sale			225,000

Suggestions for improvement (Highlight all that apply)

Maximising SLO Achievement	**Preferred Pedagogy Used for this SLO**	**Assessment Strategies**
• Identify the expectation of command words (use Command Word Guide) • Ensure the content is taught at the relevant cognitive level • Identify necessary content required (skills + concepts) • Review past paper questions on the concept • Utilise the resource guide for additional materials	• Story Board • Cause and Effect • Fish and Bone • Concept Mapping • Audio Visual Resources • Think, Pair and Share • Questioning Technique (Socratic approach) Practical Demonstration	• Past paper questions • Discussion on E-Marking Notes

Any Additional Suggestion: To teach the disposal of non-current assets, explain how to calculate the carrying amount by subtracting accumulated depreciation from the asset's original cost. Then, determine the proceeds from disposal, whether through sale or scrapping. Emphasize recording the transaction in the general ledger: any gain is credited to the income statement, while any loss is debited.

Annexure A: Pedagogies Used for Teaching the SLOs

Pedagogy: Storyboard
Description: A visual pedagogy that uses a series of illustrated panels to present a narrative, encouraging creativity and critical thinking. It helps learners organise ideas, sequence events, and comprehend complex concepts through storytelling.
Example: In a Literature class, students are tasked with creating storyboards to visually retell a novel. They draw key scenes, write captions, and present their stories to the class, enhancing their reading comprehension and fostering their imagination.

Pedagogy: Cause and Effect
Description: This pedagogy explores the relationships between actions and consequences. By analysing cause-and-effect relationships, learners develop a deeper understanding of how events are interconnected and how one action can lead to various outcomes.
Example: In a History class, students study the causes and effects of the Industrial Revolution. They research and discuss how technological advancements in manufacturing led to significant societal changes, such as urbanisation and labour reform movements.

Pedagogy: Fish and Bone
Description: A method that breaks down complex topics into main ideas (the fish) and supporting details (the bones). This visual approach enhances comprehension by highlighting essential concepts and their relevant explanations.
Example: During a Biology class on human anatomy, the teacher uses the fish and bone technique to teach about the human skeletal system. Teacher presents the main components of the human skeleton (fish) and elaborates on each bone's structure and function (bones).

Pedagogy: Concept Mapping
Description: An effective way to visually represent relationships between ideas. Learners create diagrams connecting key concepts, aiding in understanding the overall structure of a subject and fostering retention.
Example: In a Psychology assignment, students use concept mapping to explore the various theories of personality. They interlink different theories, such as Freud's psychoanalysis, Jung's analytical psychology, and Bandura's social-cognitive theory, to see how they relate to each other.

Pedagogy: Audio Visual Resources
Description: Incorporating multimedia elements like videos, images, and audio into lessons. This approach caters to different learning styles, making educational content more engaging and memorable.
Example: In a General Science class, the teacher uses a documentary-style video to teach about the solar system. The video includes stunning visual animations of the planets, interviews with astronomers, and background music, enhancing students' interest and understanding of space.

Pedagogy: Think, Pair, and Share
Description: A collaborative learning technique where students ponder a question or problem individually, then discuss their thoughts in pairs or small groups before sharing with the entire class. It fosters active participation, communication skills, and diverse perspectives.
Example: In a Literature in English class, the teacher poses a thought-provoking question about a novel's moral dilemma. Students first reflect individually, then pair up to exchange their opinions, and finally participate in a lively class discussion to explore different viewpoints.

Pedagogy: Questioning Technique (Socratic Approach)

Description: Based on Socratic dialogue, this method stimulates critical thinking by posing thought-provoking questions. It encourages learners to explore ideas, justify their reasoning, and discover knowledge through a process of inquiry.
Example: In an Ethics class, the instructor uses the Socratic approach to lead a discussion on the meaning of justice. By asking a series of probing questions, the students engage in a deeper exploration of ethical principles and societal values.

Pedagogy: Practical Demonstration
Description: A hands-on approach where learners observe real-life applications of theories or skills. Practical demonstrations enhance comprehension, skill acquisition, and problem-solving abilities by bridging theoretical concepts with real-world scenarios.
Example: In a Food and Nutrition class, the instructor demonstrates the proper technique for filleting a fish. Students observe and then practice the skill themselves, learning the practical application of knife skills and culinary precision.

(**Note:** The examples provided in this annexure serve as illustrations of various pedagogies. It is important to understand that these pedagogies are versatile and can be applied across subjects in numerous ways. Feel free to adapt and explore these techniques creatively to enhance learning outcomes in your specific context.)

Acknowledgements

The Aga Khan University Examination Board (AKU-EB) acknowledges with gratitude the invaluable contributions of all the dedicated individuals who have played a pivotal role in the development of the POA HSSC-I E-Marking Notes.

We extend our sincere appreciation to Mr Muhammad Affan Siddiquie, Specialist in Commerce at AKU-EB, for taking subject lead during the entire process of e-marking.

We particularly thank to Mr Imran khan, Aga Khan Higher Secondary School, Karachi, Mr Akif Siddiqui, IISAR Foundation School Karachi, and Mr Adil Fatani, for evaluating each question's performances, delineating strengths and weaknesses in candidates' responses, and highlighting instructional approaches along with recommendations for better performance.

Additionally, we express our gratitude to the esteemed team of reviewers for their constructive feedback on overall performance, better and weaker responses, and validating teaching pedagogies along with suggestions for improvement.

These contributors include:

• Dur Nasab, Associate, Curriculum and Examination Development, AKU-EB

• Munira Muhammad, Lead Specialist, Assessment, AKU-EB

• Zain Muluk, Manager, Examination Development, AKU-EB

• Raabia Hirani, Manager, Curriculum Development, AKU-EB

• Dr Naveed Yousuf, CEO, AKU-EB
