Q.6. (Total 3 Marks)

Despite possessing fertile land, ample freshwater, and the world's largest canal network, Pakistan, classified as an agrarian economy, has been unable to fully leverage these resources. Over the past 75 years, the improvement in exports, primarily based on agricultural products, has been notably limited.

With reference to the given statement, analyse THREE reasons for backwardness in the agricultural sector of Pakistan.

Q.7. (Total 4 Marks)

Pakistan's irrigation system is one of the most delegate and efficient system of the world, which enables the free flow of waters to the vast area of fertile lands.

With reference to the given statement, what role do dams and barrages play in the irrigation system of Pakistan (Mention FOUR points).

1.

2.

3.

4.

AKU-EB Annual Examinations 2024 for Teaching & Learning only

Q.8. (Total 3 Marks)

Pakistan's energy sector remains a key hindrance to economic growth. Despite increased power generation since 2013, challenges such as expensive fuel sources, dependence on imported energy, chronic natural gas shortages, substantial debt in the power sector, and outdated transmission and distribution systems have impeded sectoral growth and modernisation.

In the light of the given problem, which THREE major potential areas of renewable power resources Pakistan can opt for?

Q.9. (Total 3 Marks)

Imagine a small town with several local businesses producing goods like furniture and clothing.

Analyse any TWO positive and ONE negative impact of improved roads or a new railway system on these businesses and the town's overall economic growth.

AKU-EB Annual Examinations 2024 for Teaching & Learning only

Q.10. (Total 7 Marks)

EITHER

a. Azeem, an entrepreneur, is seeking the expertise of a business analyst to assess the feasibility of establishing a confectionery or ready-made garments factory.

In the role of a business analyst, explain any FOUR crucial factors to be considered while selecting a location for an industrial establishment. (7 Marks)

OR

b. Pakistan has the highest rate of urbanisation in South Asia. According to the 2017 Population Census, 36.4% of the population lives in urban areas. The UN Population Division estimates that, by 2025, nearly half the country's population will be living in cities.

In 2023, Urban population is 37.73% of total population and the rate of urbanisation is 3% annually.

(Source: https://www.undp.org/pakistan/urbanisation-pakistan)

The given information reflects that Pakistan's rate of urbanisation is rising rapidly. Discuss any FIVE effects it will have on the economy. (7 Marks)
