AGA KHAN UNIVERSITY EXAMINATION BOARD

HIGHER SECONDARY SCHOOL CERTIFICATE

CLASS XII

ANNUAL EXAMINATION (THEORY) 2023

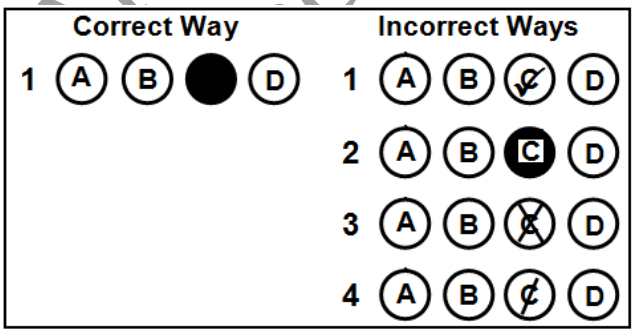

Computer Studies Paper I

Time: 1 hour 10 minutes Marks: 40

AKU-EB Annual Examination 2023 for Teaching and Learning only

INSTRUCTIONS

1. Read each question carefully.
2. Answer the questions on the separate answer sheet provided. DO NOT write your answers on the question paper.
3. There are 100 answer numbers on the answer sheet. Use answer numbers 1 to 40 only.
4. In each question, there are four choices A, B, C, D. Choose ONE. On the answer grid, black out the circle for your choice with a pencil as shown below.

Candidate's Signature

5. If you want to change your answer, ERASE the first answer completely with a rubber, before blacking out a new circle.
6. DO NOT write anything in the answer grid. The computer only records what is in the circles.
7. You may use a scientific calculator if you wish.

1. An example of productivity software is

   A. Norton.
   B. Windows.
   C. MS Excel.
   D. Media player.

2. The last stage of data processing cycle is

   A. input.
   B. output.
   C. storage.
   D. process.

3. In laptops, mouse is replaced by

   A. joystick.
   B. trackball.
   C. light pen.
   D. touchpad.

4. On converting 2 KB into bits, we get

   A. 2000
   B. 2048
   C. 16000
   D. 16384

5. Consider the following characteristics of a printer.

   - Its printing speed is very fast.
   - Its implementation cost is high.
   - Its print resolution is commonly around 600 to 1200 dots per inch (DPI).

   The printer with the given characteristics is identified as

   A. laser printer.
   B. inkjet printer.
   C. thermal printer.
   D. electrostatic printer.

6. The phase of system development life cycle (SDLC) in which all the aspects of system are checked for functionality and performance is

   A. analysis.
   B. maintenance.
   C. testing and debugging.
   D. design and development.

AKU-EB Annual Examination 2023 for Teaching and Learning only

7. With respect to a consumer, which of the following is a potential drawback of e-commerce?

   A. Availability of reviews and feedback about the product
   B. Requirement of a website but not the infrastructure
   C. Comparison of prices among several providers
   D. Experience of product before purchasing

8. All of the following are uses of computer in education EXCEPT

   A. social networking.
   B. teaching and learning.
   C. school administration.
   D. testing and evaluation.

9. A CPU register that holds the address of next instruction to be executed is

   A. memory address register.
   B. memory buffer register.
   C. program counter.
   D. accumulator.

10. Consider the given characteristics.

   - It is fast in execution.
   - The data stored is easily accessible.
   - It performs read and write operations.
   - It can store data as long as power is supplied.

   The type of memory identified from the given characteristics is

   A. RAM.
   B. ROM.
   C. cache.
   D. register.

11. The shortcut key in MS Word to cut the text is

   A. Ctrl+C
   B. Ctrl+V
   C. Ctrl+X
   D. Ctrl+Z

Annual Examination 2023 for AKU-EB Teaching and Learning only

12. Consider the given image of an excel sheet.

	A	B
1	**Job Title**	**Number of Staff**
2	Director	3
3	Engineer	12
4	Analyst	5
5	Sales officer	9
6	Clerk	12

To calculate the total number of staff, the MS Excel formula used will be

A. Add (B2:B6)
B. Sum (B2:B6)
C. =Sum (B2:B6)
D. =Add (B2:B6)

13. Consider the given image.

The layout of the MS PowerPoint in the given image can be classified as

A. Comparison.
B. Two Content.
C. Title and Content.
D. Content with Caption.

14. Which of the following is a database object?

A. Field
B. Record
C. Primary key
D. Relationship

Annual Exam 2023 for CBSE-EB Teaching & Learning only

15. Arman has applied a database relationship on two tables **A** and **B**. In this relationship, each row of table **A** is linked with one or more row(s) of table **B**, each row in table **B** relates to more than one row of table **A**.

    The relationship that Arman has applied is

    A. one-to-one.
    B. one-to-many.
    C. many-to-one.
    D. many-to-many.

16. An example of valid field name in MS Access is

    A. Marks]Obtained
    B. Marks.Obtained
    C. Marks!Obtained
    D. Marks Obtained

17. Haris wants to set the primary key to a field. The type of view he should use to perform this task is

    A. Design view.
    B. Datasheet view.
    C. PivotChart view.
    D. PivotTable view.

18. Which of the following database controls is used to get data from user?

    A. Form
    B. Table
    C. Query
    D. Report

19. There are four different types of forms in MS Access.

    The given type of form is

    A. tabular form.
    B. justified form.
    C. datasheet form.
    D. columnar form.

AKU-EB Annual Examination 2023 for Teaching and Learning only

20. Consider the given flowchart symbol.

This symbol is used to represent the

A. decision in a flowchart.
B. processing in a flowchart.
C. off-page connector in a flowchart.
D. starting and ending in a flowchart.

21. Consider the given algorithm.

```
Step 1: Start
Step 2: L = 13
Step 3: M = 5
Step 4: N = L%M-2
Step 5: Output N
Step 6: Stop
```

The output of this algorithm is

A. 0
B. 1
C. 2
D. 3

22. The step of problem solving in which different methods are implemented to check all the possible solutions is

A. analysing the problem.
B. planning solutions of the problem.
C. selecting the best solution of the problem.
D. preparing candid solutions of the problem.

23. Following are features of programming languages.

I. It uses mnemonics.
II. It is machine-independent.
III. It deals with registers, memory locations, etc.

Low level programming is known for

A. I only.
B. II only.
C. I and III.
D. II and III.

AKU-EB Annual Examination 2023 for Teaching and Learning only

24. The shortcut key to run a program in Turbo C IDE is

A. Ctrl+F9
B. Alt+F9
C. F9
D. F8

25. All of the following are advantages of C language over other programming languages EXCEPT that it

A. supports object-oriented programming.
B. communicates directly with hardware.
C. is an efficient language.
D. is a portable language.

26. In C programming, the function body contains the

A. statement.
B. header file.
C. function name.
D. function argument.

27. In C language, the program before compilation is called

A. machine code.
B. source code.
C. binary code.
D. object code.

28. Which of the following is the file extension of a source code in a C program?

A. .c
B. .lib
C. .obj
D. .exe

29. The CORRECT syntax for a single line comment in a C program is

A. /Comment
B. //Comment
C. /*Comment
D. /*Comment*/

30. A function that takes all kinds of input is

A. getc
B. getch
C. scanf
D. getchar

AKU-EB Annual Examination 2023 for Teaching and Learning only

31. The data type that is MOST suitable to store the smallest decimal value is

A. int
B. long
C. float
D. double

32. An escape sequence used to produce a beep is

A. \r
B. \a
C. \b
D. \0

33. The CORRECT input statement to take a string as an input is

A. scanf("%f", var_1)
B. scanf("%s", var_1)
C. scanf("%c", var_1)
D. scanf("%d", var_1)

34. All of the following operators are used to compare values EXCEPT

A. !=
B. ++
C. >=
D. = =

35. Consider the given C program.

```
#include <stdio.h>
int main() {
  int a = 14;
  int b = 4;
  printf ("Result = %d", 6 + a / 10 * b);
return 0;
}
```

The output of this program is

A. 8
B. 10
C. 22
D. 40

AKU-EB Annual Examination 2023 for Teaching and Learning only

36. The number of repetition due to the given **for loop** statement is

for (i = 1; i < 11; i +=2)

A. 5
B. 6
C. 10
D. 11

37. Consider the given syntax.

```
if (condition)
{
   if (condition)
   {
      //statement;
   }
}
```

The given syntax is an example of

A. if-else structure.
B. if-else-if structure.
C. nested if structure.
D. simple if structure.

38. A control statement in which the loop is immediately terminated and the program control is resumed at the next statement following the loop is a

A. break.
B. switch.
C. continue.
D. do-while.

39. The CORRECT syntax to declare a user-defined function named Factorial that takes one integer argument is

A. int Factorial (int a);
B. int Factorial (void);
C. integer Factorial (void);
D. integer Factorial (integer a);

Annual Examination 2023 for AKU-EB Teaching and Learning only

40. Consider the following properties.

I. It reduces the readability of code.
II. It increases the reusability of code.
III. It allows the division of complex code.

The property(ies) that is/ are TRUE about function is/ are

A. I only.
B. III only.
C. I and II.
D. II and III.
