AGA KHAN UNIVERSITY EXAMINATION BOARD

SECONDARY SCHOOL CERTIFICATE

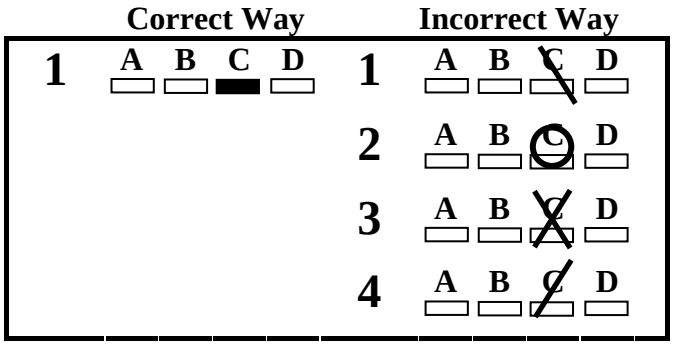
CLASS IX EXAMINATION 2010

Computer Science Paper I

Time allowed: 35 minutes Marks 25

INSTRUCTIONS

1. Read each question carefully.
2. Answer the questions on the separate answer sheet provided. DO NOT write your answers on the question paper.
3. There are 100 answer numbers on the answer sheet. Use answer numbers 1 to 25 only.
4. In each question there are four choices A, B, C, D. Choose ONE. On the answer grid black out the box for your choice with a pencil as shown below.



5. If you want to change your answer, ERASE the first answer completely with a rubber, before blacking out a new box.
6. DO NOT write anything in the answer grid. The computer only records what is in the boxes.

1. All of the following were the characteristics of the early computers EXCEPT

   A. they performed calculations faster than humans.
   B. they worked on stored programs.
   C. they used logical instructions.
   D. they were randomly accessed.

2. All of the following are the ways a computer processes information EXCEPT

   A. sequentially.
   B. automatically.
   C. randomly.
   D. accurately.

3. The largest, most expensive, and most powerful computer is the

   A. micro computer.
   B. mini computer.
   C. mainframe computer.
   D. super computer.

4. Which of the following is the best characteristic to define the Assembly language?

   A. It is easy to learn.
   B. It uses reserve words.
   C. It saves address locations.
   D. It produces efficient code.

5. A language other than high level language is translated by

   A. a compiler.
   B. an assembler.
   C. an interpreter.
   D. an algorithm.

6. Data buses are connected with

   A. CPU and Memory.
   B. ALU and peripherals.
   C. memory and peripherals.
   D. peripherals and the CPU.

7. Which of the following input device is like a lever that moves in all directions?

   A. A mouse
   B. A joystick
   C. A trackball
   D. A light pen

8. Which of the following keys is also referred to as ‘return key?’

   A. End
   B. Enter
   C. Home
   D. Tab

9. Optical mark reading is an input technique suitable for

   A. medical record testing.
   B. traffic signal controlling.
   C. hotel and airline booking.
   D. multiple-choice exam marking.

10. All of the following are examples of magnetic storage media EXCEPT

    A. hard disk.
    B. floppy disk.
    C. magnetic tape.
    D. compact disk.

11. Which is the smallest of these units of computer storage?

    A. Bit
    B. Byte
    C. Nibble
    D. Word

12. In the Octal system, the decimal number 8 is written as

A. 7
B. 8
C. 10
D. 1000

13. A number "CD3E8" belongs to the

A. binary number system.
B. hexa decimal number system.
C. decimal number system.
D. octal number system.

14. Which line is the value of x, y and z if the difference of two binary values is 10?

$$\begin{array}{r} 1\ \ x\ \ y \\ -\ y\ \ 0\ \ z \\ \hline 1\ \ 0 \end{array}$$

	x	y	z
A.	0	0	0
B.	0	0	1
C.	1	1	0
D.	1	1	1

15. What should be added to 1000_2 to make it a perfect square?

A. 1_2
B. 10_2
C. 11_2
D. 100_2

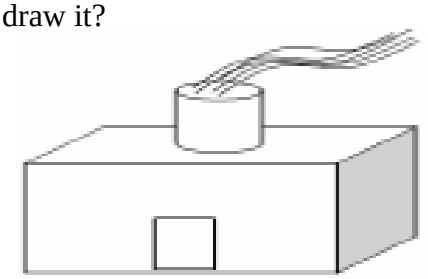
16. All hardware and software is under the control of

A. a processor.
B. an input device.
C. an operating system.
D. a control unit.

17. Words that may be mispelled in a document are indicated by a

A. green wavy line.
B. red wavy line.
C. blue wavy line.
D. purple dotted line.

18. Sarah made this drawing in MS Word. Which tools did she use to draw it?



A. The text box
B. The table tool
C. The Clip Art
D. The AutoShapes

19. Identify the given bar that is used in the Windows environment.

A. Menu bar.
B. Title bar.
C. Format bar.
D. Taskbar.

20. A person needs to insert charts in his project assignment. Which software will support him in creating charts?

A. Word processor
B. Spread sheet
C. Presentation
D. Database

21. Which of the following activates the spread sheet to perform calculations on the required data?

A. An equal to sign
B. A cell address
C. A function key
D. A calculator

22. An organization requires its sales persons to display their marketing strategies and the output in front of other colleagues. Which software must they use?

A. Word processing
B. Graphics
C. Presentation
D. Database

23. DOS internal commands reside in the

A. secondary storage.
B. cache memory.
C. random access memory.
D. buffer.

24. A fun-fair pamphlet contains a title, attractive pictures and a program table.

Most probable software to be used to create this pamphlet is a

A. word processor.
B. presentation graphics.
C. hypertext markup.
D. desktop publishing.

25. What is the command for removing a file name “Ali.txt” in DOS?

A. Dir Ali.txt
B. Del Ali.txt
C. Remove Ali.text
D. Delete “Ali.txt”
