Aga Khan University Examination Board

Notes from E-Marking Centre on SSC-I Pakistan Studies Examination April/ May 2019

Introduction

This document has been produced for the teachers and candidates of the Secondary School Certificate (SSC) Part I (Class IX) subject in Pakistan Studies. It contains comments on candidates' responses to the 2019 SSC-I Examination, indicating the quality of the responses and highlighting their relative strengths and weaknesses.

E-Marking Notes

This includes overall comments on students' performance on every question and *some* specific examples of students' responses which support the mentioned comments. Please note that the descriptive comments represent an overall perception of the better and weaker responses as gathered from the e-marking session. However, the candidates' responses shared in this document represent some specific example(s) of the mentioned comments.

Teachers and candidates should be aware that examiners may ask questions that address the Student Learning Outcomes (SLOs) in a manner that require candidates to respond by integrating knowledge, understanding and application skills they have developed during the course of study. Candidates are advised to read and comprehend each question carefully before writing the response to fulfil the demand of the question.

Candidates need to be aware that the marks allocated to the questions are related to the answer space provided on the examination paper as a guide to the length of the required response. A longer response will not in itself lead to higher marks. Candidates need to be familiar with the command words in the SLOs which contain terms commonly used in examination questions. However, candidates should also be aware that not all questions will start with or contain one of the command words. Words such as 'how', 'why' or 'what' may also be used.

General Comments

This year Pakistan Studies of SSC I was assessed based on the revised syllabus of 2017 in which the following concepts were examined: Ideological Basis of Pakistan, Historical Background 1857-1935, Emergence of Pakistan 1936-1948, Land, Climate and People of Pakistan and Resources of Pakistan.

It was generally observed that candidates were unable to perform well in responding to the questions from the component of history as compared to the questions related to geography because they were unable to make connections from one event to other. Moreover, it has been noticed that candidates who were able to comprehend the questions well have shown sound performance than those candidates who were unable to understand the given questions. In addition, it seemed that this time some of the candidates were able to answer opinion based questions and hence, were able to perform comparatively well from the past years. Still in some cases, candidates wrote general responses without taking into account the demand of the question.

It was also identified during e-marking sessions that teachers are using SLOs as questions which perhaps is decreasing the thinking and creative abilities of the candidates. They are unable to understand the demand of the question as these candidates are missing key words while reading a question and hence, trying to respond to questions in their own way.

It is indeed an important point to be made that Pakistan Studies cannot be taught in isolation. It needs to be connected with the real life situations so that candidates' thinking and critical skills can be flourished and can be used in an effective manner while responding to the questions.

Note: Candidates' responses reproduced in this report have not been corrected for grammar, spelling, format or factual information.

Detailed Comments:

Constructed Response Questions (CRQs)

Question 1:

"I am not making any particular reference to you but now, that I have had the opportunity of talking to you, I must warn you not to allow your actions to be guided by ill-digested information or slogans and catch-words. Do not take them to heart or repeat them parrot-like. Take advantage of your period of training that this institution offers you, by equipping yourself to become leaders of the future generation. There is a common fault with the students against which I must warn you. The students believe that no one can tell them anything which they do not already know. That mentality is harmful and often leads to quite a lot of mischief. But if you want to learn by your own experience, and not by the experience of your elders, let me tell you that as you become older, you will be more ready to learn from your costly experiences and the knock that you shall have received during your lifetime, which will harm you more than anybody else."

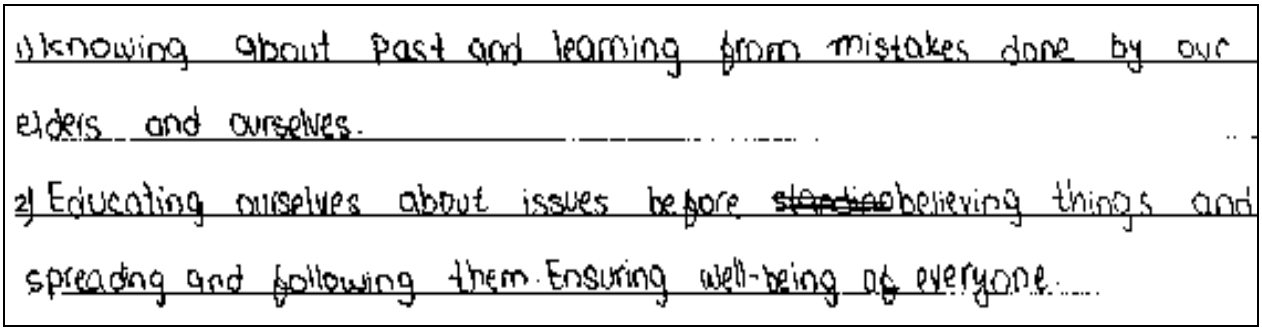

Quaid-e-Azam's Speech at Islamiya College, Peshawar

Extract any TWO components from the given excerpt that you think are of utmost important for you as a student to support the ideology of Pakistan.

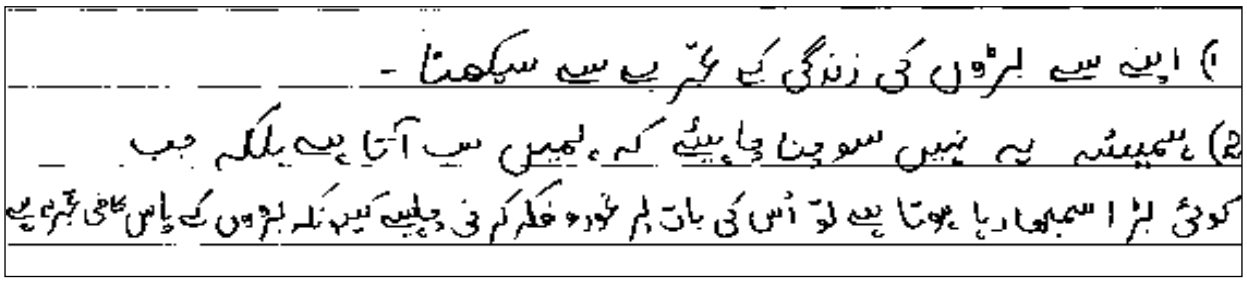

Candidates were expected to comprehend the given passage and extract the components of ideology in their own words or by using the words from the speech with special reference to being a student.

Better responses were those in which the candidates mentioned the important components of ideology of Pakistan as a student with reference to the given excerpt of Quaid-e-Azam. For example, we should equip ourselves with the trainings offered to us by our institutions and take it as an opportunity to become future leaders/ we should not indulge ourselves into negative politics/ we should learn from the experiences of our elders.

Example in English Medium:

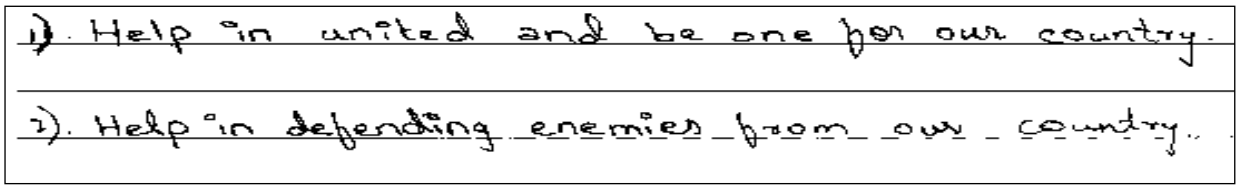

Example in Urdu Medium:

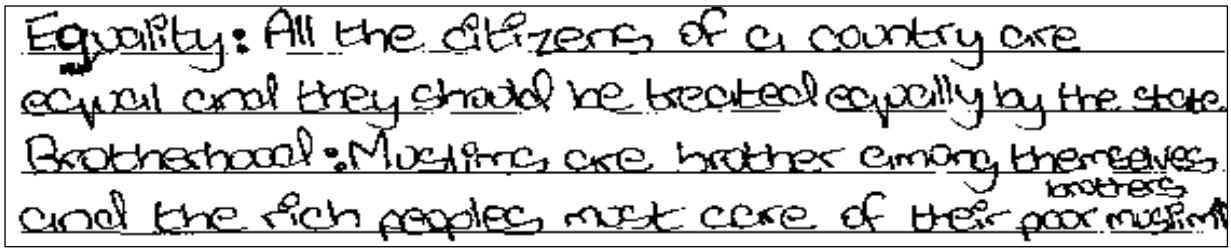

Weaker responses comprised of the components of Pakistan's ideology in general such as Pakistan is based on the religion Islam/ it has its own territory and it will follow democratic system. Moreover, some candidates wrote the elements of Islamic ideology such as brotherhood, fraternity, equality and sovereignty. Some candidates mentioned ways of building our country. Candidates also wrote about the philosophies behind the ideology of Pakistan including the concept of Two Nation theory without understanding the demand of the question. These responses highlighted that the candidates were not equipped with the skills to answer questions based on different excerpt.

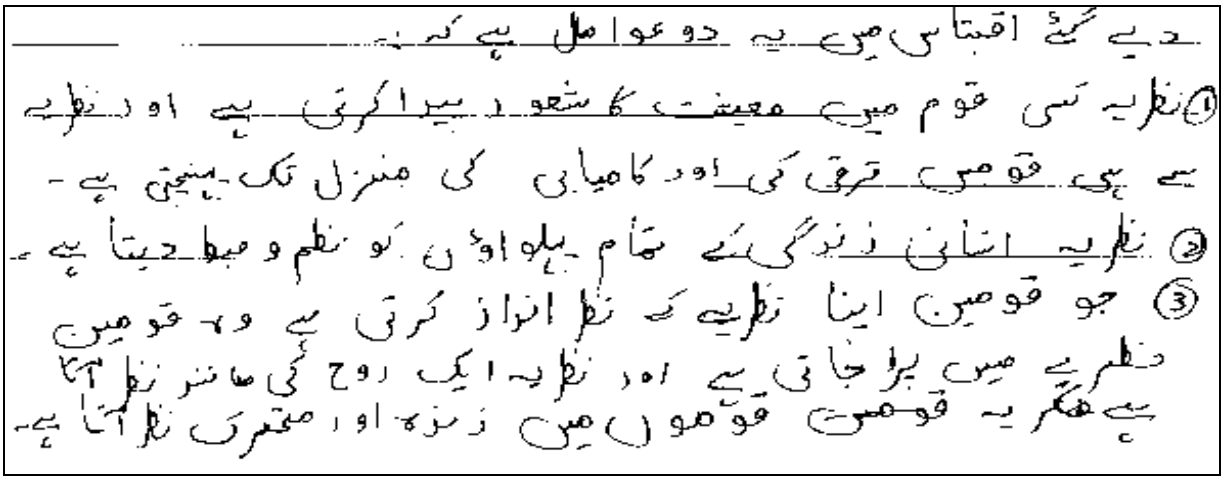

Example 1 in English Medium:

Example 2 in English Medium:

Example 1 in Urdu Medium:

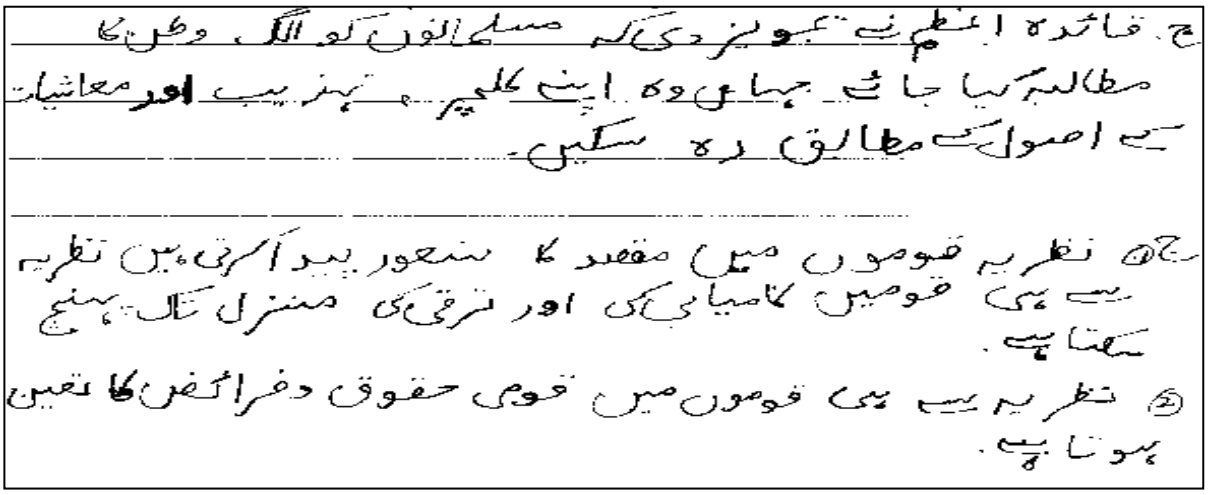

دیے گئے اقتباس میں یہ دو عوامل ہے کہ:

① نظریہ کسی قوم میں معیشت کا شعور پیدا کرتی ہے اور نظریہ سے ہی قومیں ترقی کی اور کامیابی کی منزل تک پہنچتی ہے۔

② نظریہ انسانی زندگی کے تمام پہلوؤں کو نظم و ضبط دیتا ہے۔

③ جو قومیں اپنا نظریہ کو نظر انداز کرتی ہے وہ قومیں نظریے میں پڑا جاتی ہے اور نظریہ ایک روح کی مانند نظر آتا ہے مگر یہ قومیں قوموں میں زندہ اور مضبوط نظر آتا ہے۔

Example 2 in Urdu Medium:

ج. فائدہ اعظم نے کہا کہ مسلمانوں کو الگ وطن کا مطالبہ کیا جائے جہاں وہ اپنے کلچر، تہذیب اور معاشیات کے اصولوں کے مطابق رہ سکیں۔

ج① نظریہ قوموں میں مقصد کا شعور پیدا کرتی ہیں نظریہ سے ہی قومیں کامیابی کی اور ترقی کی منزل تک پہنچ سکتا ہے۔

② نظریہ سے ہی قوموں میں قومی حقوق و فرائض کا تعین ہوتا ہے۔

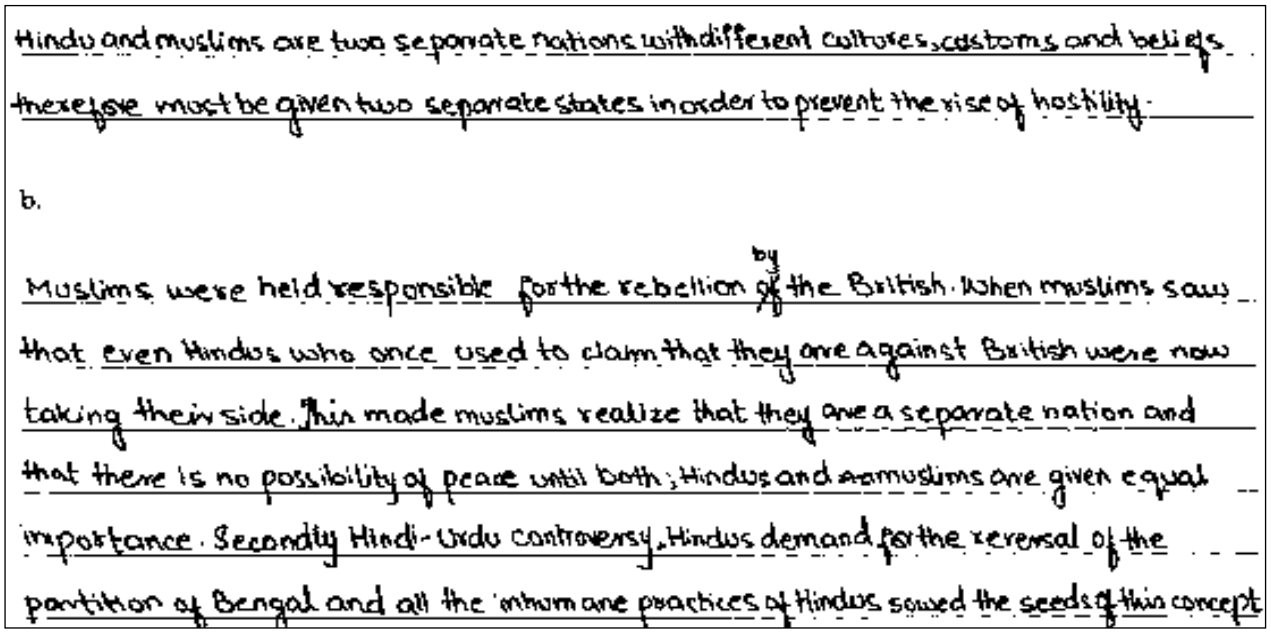

Question 2:

a. State the 'Two Nation Theory'.

b. Describe any TWO reasons that led to the development of the concept of Two Nation Theory in the subcontinent after the War of Independence 1857.

Better responses of part 'a' clearly stated the facts about Two Nation Theory that Hindus and Muslims were considered as two separate nations due to the difference in their culture, religion etc. In part 'b', candidates highlighted the reasons behind the initiation of Two Nation Theory with reference to the event of War of Independence 1857. Candidates were able to clearly mention the events that led Muslims to think that they are a separate nation in the sub-continent such as Urdu-Hindi controversy/ Muslims were deprived of their social and political rights, British adopted discriminatory policy between Muslims and Hindus.

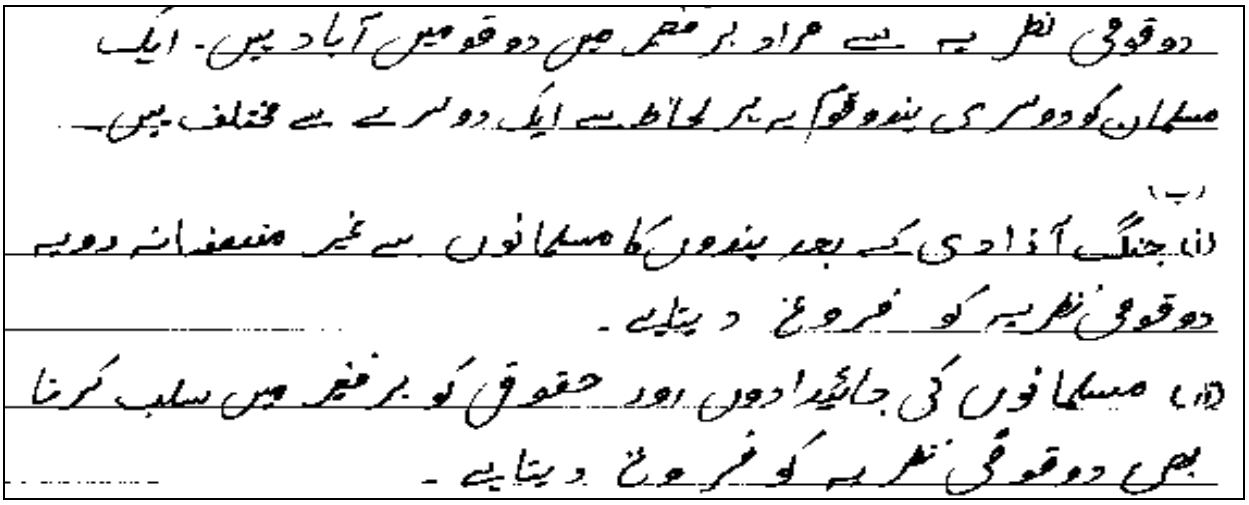

Example in English Medium:

Hindu and muslims are two separate nations with different cultures, customs and beliefs therefore must be given two separate states in order to prevent the rise of hostility.

b.

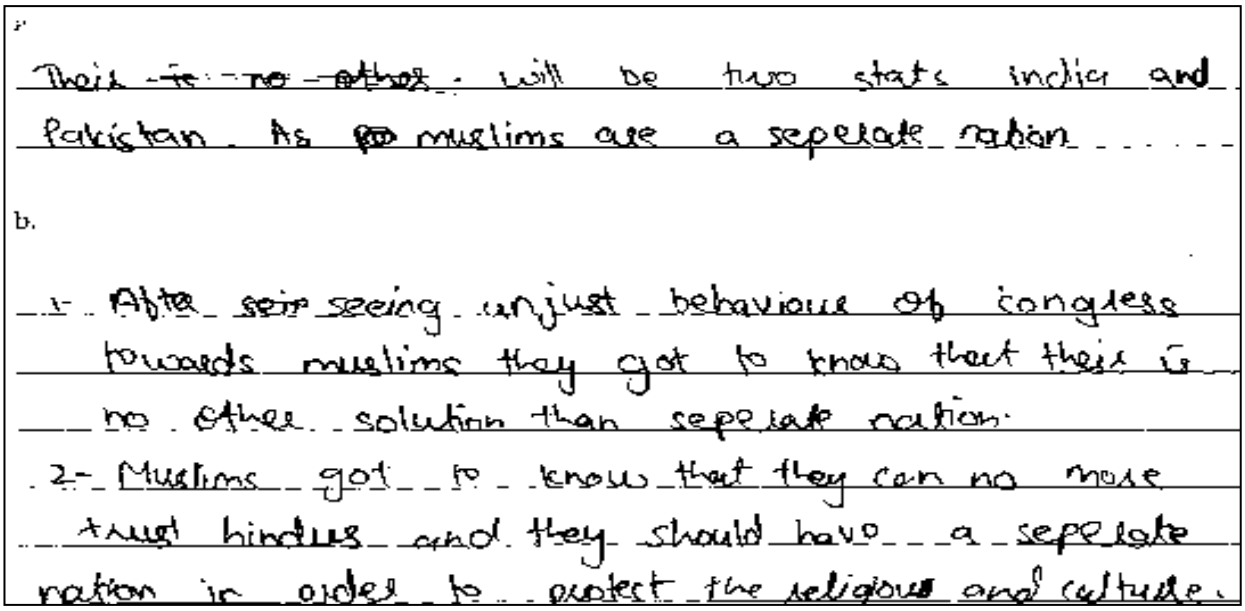

Muslims were held responsible by the rebellion of the British. When muslims saw that even Hindus who once used to claim that they are against British were now taking their side. This made muslims realize that they are a separate nation and that there is no possibility of peace until both, Hindus and muslims are given equal importance. Secondly Hindi-Urdu controversy, Hindus demand for the reversal of the partition of Bengal and all the inhuman practices of Hindus sowed the seeds of this concept

Example in Urdu Medium:

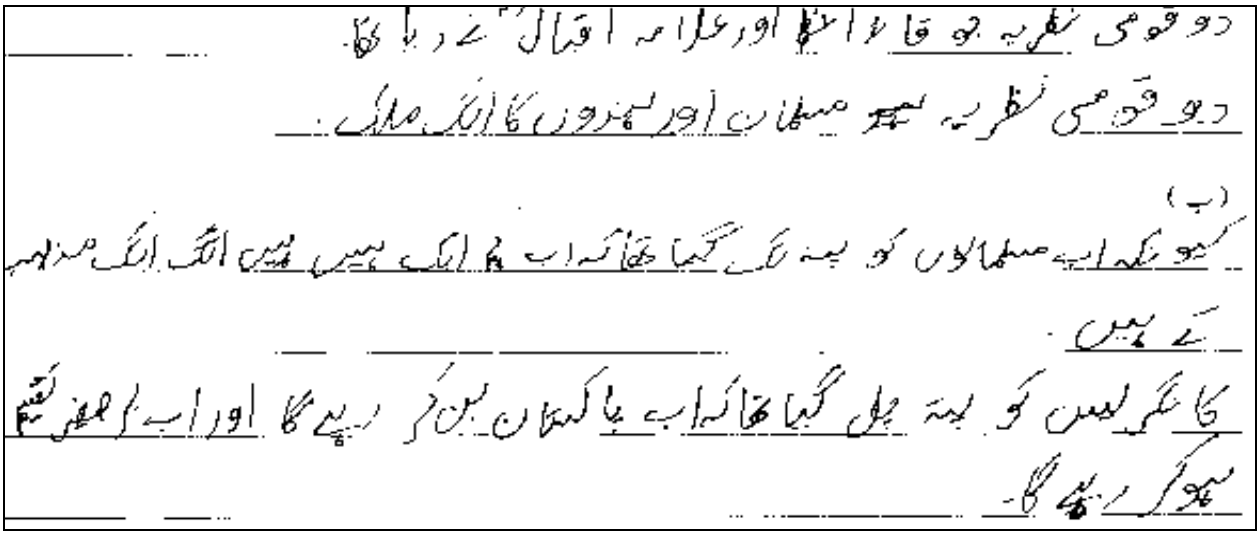

Weaker responses of part 'a' merely focused firstly that Sir Syed Ahmed Khan developed this theory; secondly, they also quoted the statements of Quaid-e-Azam and Allama Iqbal with reference to the Two Nation theory. Thirdly, candidates considered Pakistan and India as two different states; hence, they were unable to attempt this part of the question. In part 'b', candidates explained the notion of Sir Syed Ahmed Khan behind the Two Nation Theory and did not understand the demand of the question well. Candidates did not mention valid reasons that led to the development of this theory with reference to the War of Independence. Most of the candidates wrote general comments such as behaviour of Hindus was not good with the Muslims/ after the elections of 1936-37, Muslims realised that they cannot live with Hindus/ the event of partition of Bengal led Muslims to think to get their separate homeland.

Example in English Medium:

Example in Urdu Medium:

Question 3:

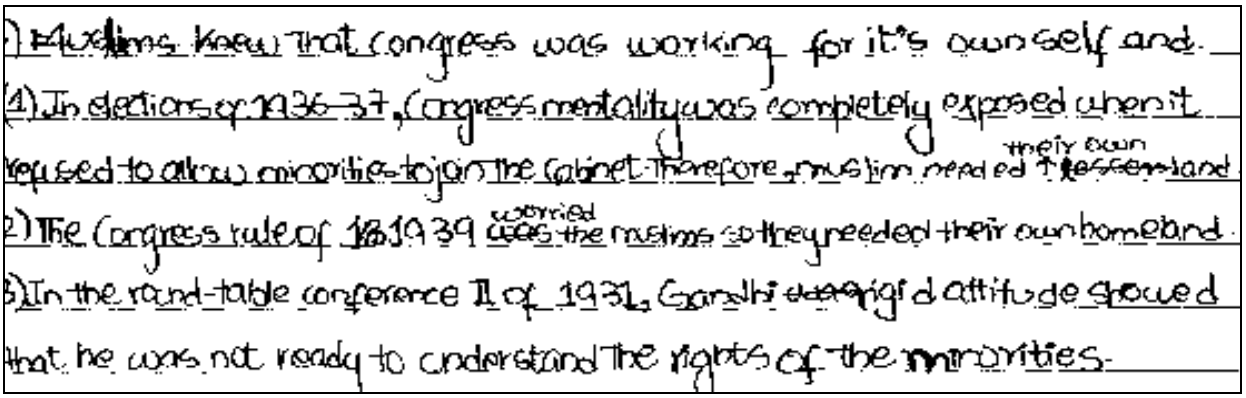

During the period of 1930s, the demand put forward from the platform of All India Muslim League was of Indian Federation with provincial autonomy. This was retracted in Lahore Resolution 1940 when the demand of a separate homeland was put forward.

Mention any THREE reasons that led All India Muslim League to change its stance and move towards the demand of a separate homeland.

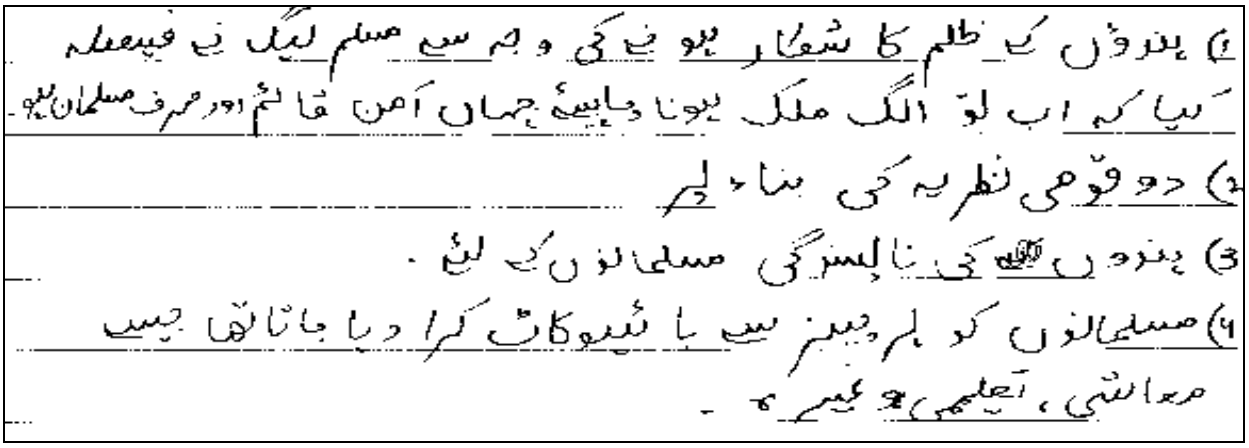

This question was based on one of the revised SLO which connected past and future events around Pakistan Resolution 1940. Majority of the candidates were not able to understand the demand of the question nor were able to connect the events with that of the timeline given.

Better responses were those which had tried to mention the reasons that led All India Muslim League to alter its standpoint and move towards the concept of a separate homeland. Candidates stated about the powers of Indian National Congress in the sub-continent. They also highlighted the attitude of the Hindus towards Muslims that led them to think seriously about the demand of a separate homeland rather than the demand of a separate electorate. Some of the candidates wrote that Rule of Indian National Congress during 1937-1939 was an eye opener for the Muslims of the subcontinent which had clearly given Muslims the directions to work towards a separate homeland. However, some of them have repeatedly talked about Hindus behaviour with the Muslims.

Example in English Medium:

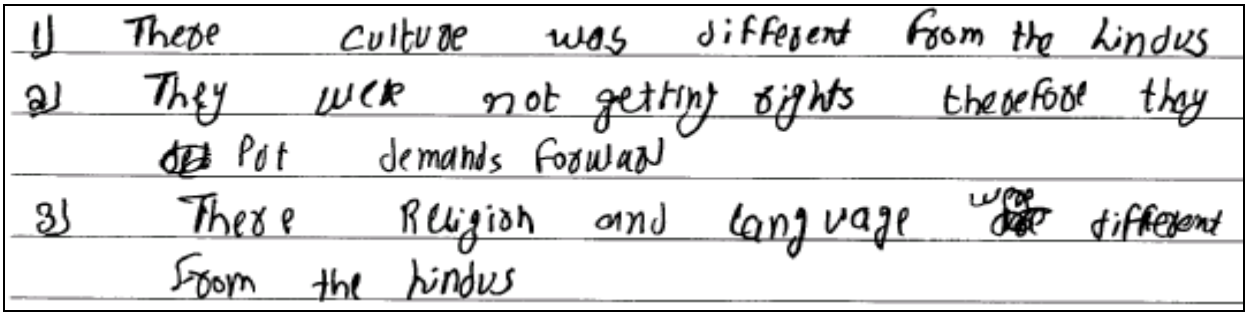

Example in Urdu Medium:

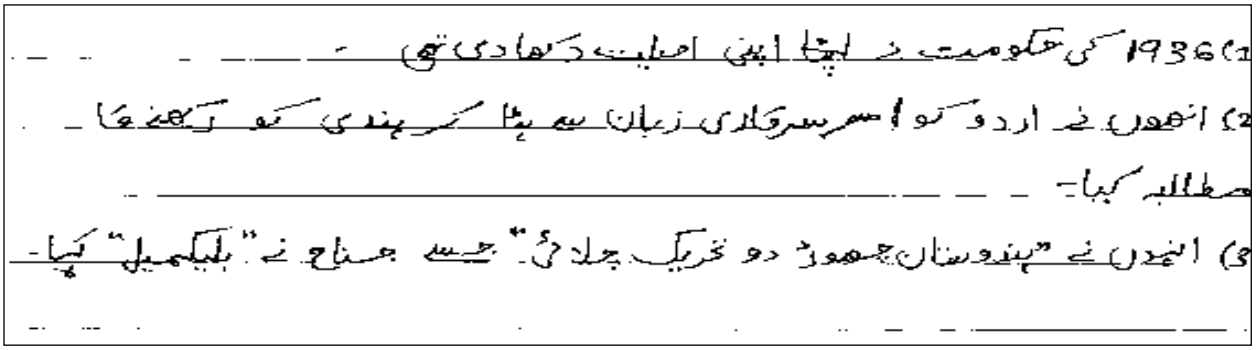

Weaker responses generally mentioned the atrocities of congress rule during 1937-1939 on the Muslims. Some of the students mentioned the events that took place after 1940 such as Quit India Movement 1942/ Gandhi Jinnah talks 1944, which were beyond the time frame mentioned in the question. Moreover, some of the candidates mentioned the difference between the Muslims and Hindus which was not the demand of the question.

Example in English Medium:

Example in Urdu Medium:

Question 4:

In 1947, Pakistan faced two major problems:

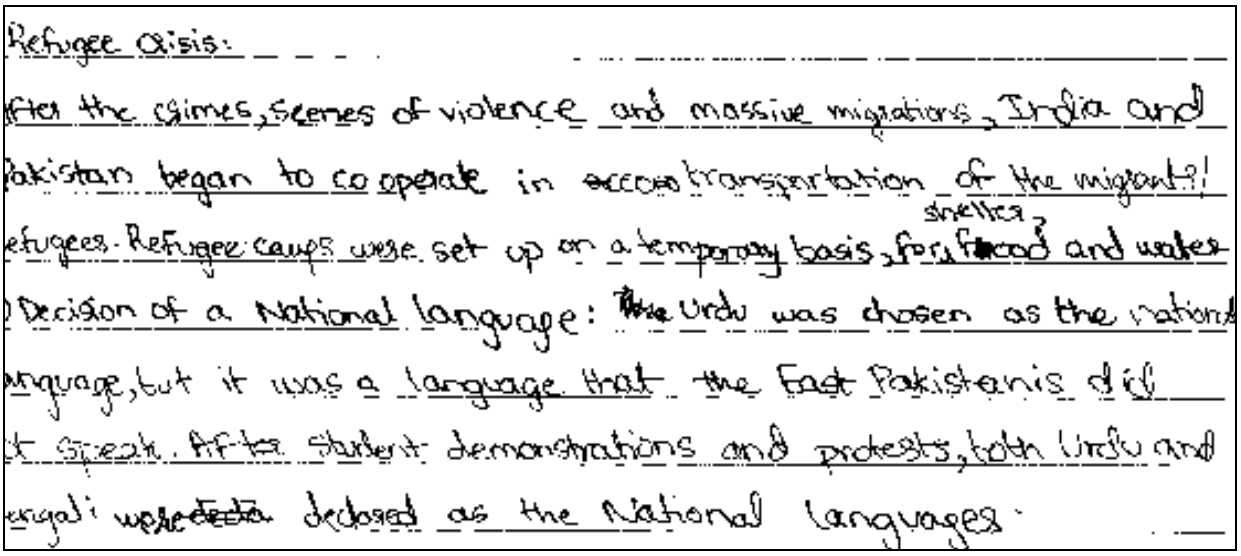

- Refugee Crisis
- Decision of a National Language

How was Pakistan able to deal with the given problems? Discuss.

Better responses mentioned the solutions which were implemented at the time of independence to overcome the given problems. Candidates were able to state the ways through which the problems were solved at that time. For refugee problems, candidates mentioned that Jinnah requested the entire nation to help and support in the accommodation of the refugees/ Jinnah moved his head quarter from Karachi to Lahore/ Refugee relief fund was set up and people were asked to donate generously etc.

For national language, majority of the candidates mentioned that Quaid-e-Azam declared Urdu as a national language because it did not have any regional affiliation.

Example in English Medium:

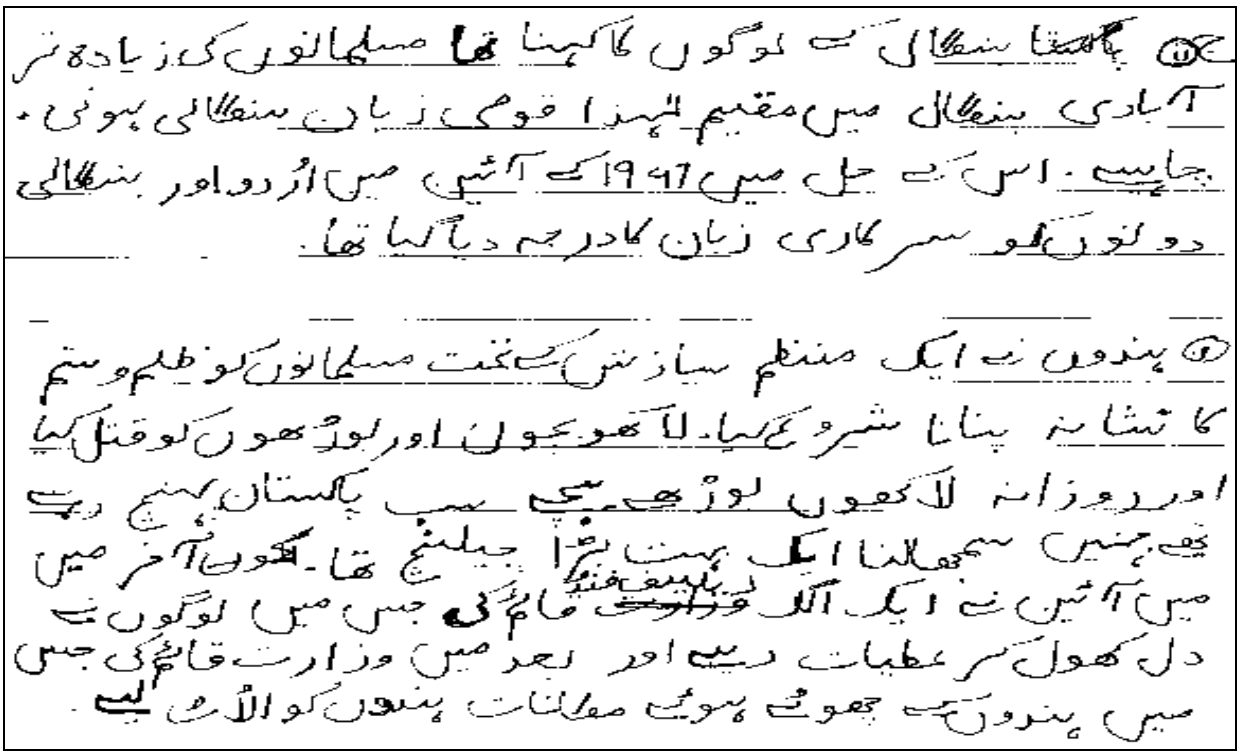

Refugee Crisis:

After the crimes, scenes of violence and massive migrations, India and Pakistan began to co operate in accomodation transportation of the migrants/ refugees. Refugee camps were set up on a temporary basis, for shelter, food and water.

) Decision of a National language: Urdu was chosen as the national language, but it was a language that the East Pakistanis did not speak. After student demonstrations and protests, both Urdu and Bengali were declared as the National languages.

Example in Urdu Medium:

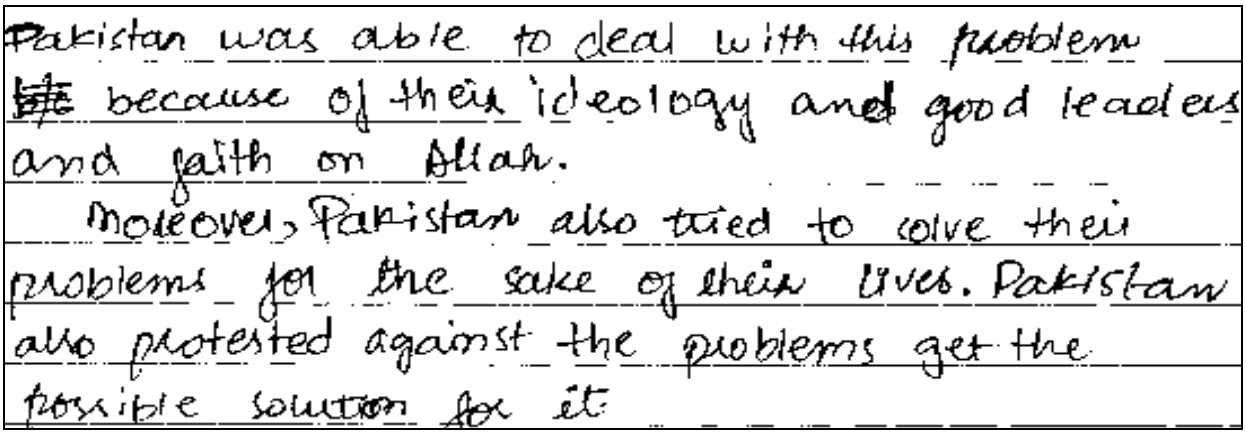

① پاکستانی بنگال کے لوگوں کا کہنا تھا مسلمانوں کی زیادہ تر آبادی بنگال میں مقیم لہذا قومی زبان بنگالی ہونی چاہیے۔ اس کے حل میں 1947 کے آئین میں اردو اور بنگالی دونوں کو سرکاری زبان کا درجہ دیا گیا تھا۔

② ہندوں نے ایک منظم سازش کے تحت مسلمانوں کو ظلم و ستم کا نشانہ بنانا شروع کیا۔ لاکھوں اور لوڑھوں کو قتل کیا اور روزانہ لاکھوں لوڑھے بچے سب پاکستان پہنچ رہے تھے جنہیں سنبھالنا ایک بہت بڑا چیلنج تھا۔ لگوں آخر میں میں آئین نے ایک الگ وزارت قائم کی جس میں لوگوں نے دل کھول کر عطیات دیئے اور بعد میں وزارت قائم کی جس میں ہندوں کے چھوٹے ہوئے مکانات ہندوں کو الاٹ کیے۔

Weaker responses reflected that the candidates seemed to have trouble in comprehending the question and hence, mentioned general points about the solution of the given problems. Candidates were not able to highlight the details about how the problems were solved. Candidates wrote generic and irrelevant points which were not at all appropriate as answers. For example, candidates mentioned that as Pakistan was based on Islamic ideology that is why the leaders were able to solve the issue. Some candidates highlighted the initial problems faced by Pakistan such as water canal dispute/ Kashmir issue and did not discuss the solutions of the given problems.

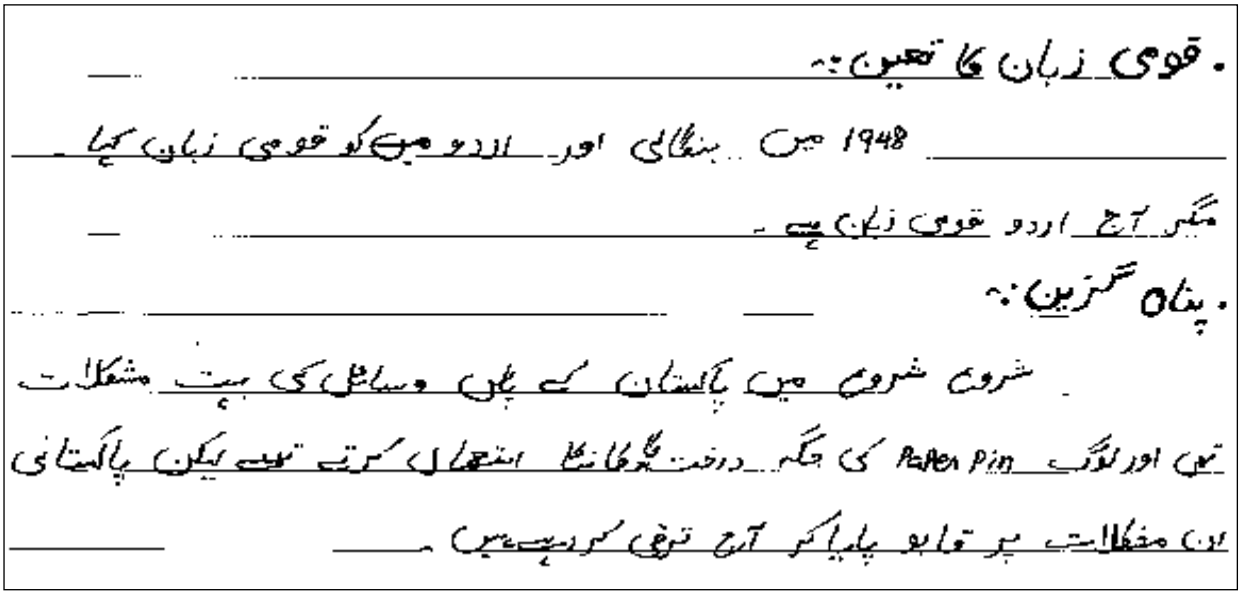

Furthermore, it was observed that some of the candidates were able to mention the solution of the refugee problem but were not able to respond to the problem of language issue, thus these candidates were not able to get full marks.

Example in English Medium:

Pakistan was able to deal with this problem ~~bfc~~ because of their ideology and good leaders and faith on Allah.

Moreover, Pakistan also tried to olve their problems for the sake of their lives. Pakistan also protested against the problems get the possible solution for it

Example in Urdu Medium:

۔ قومی زبان کا تعین:۔

1948 میں بنگالی اور اردو میں کو قومی زبان کہا

مگر آج اردو قومی زبان ہے۔

۔ بنا کر تین:۔

شروع شروع میں پاکستان کے پاس وسائل کی بہت مشکلات

تھیں اور لوگ Pallen Pin کی جگہ درخت کو گھانٹا استعمال کرتے تھے لیکن پاکستانی

ان مشکلات پر قابو پایا کر آج ترقی کر رہے ہیں۔

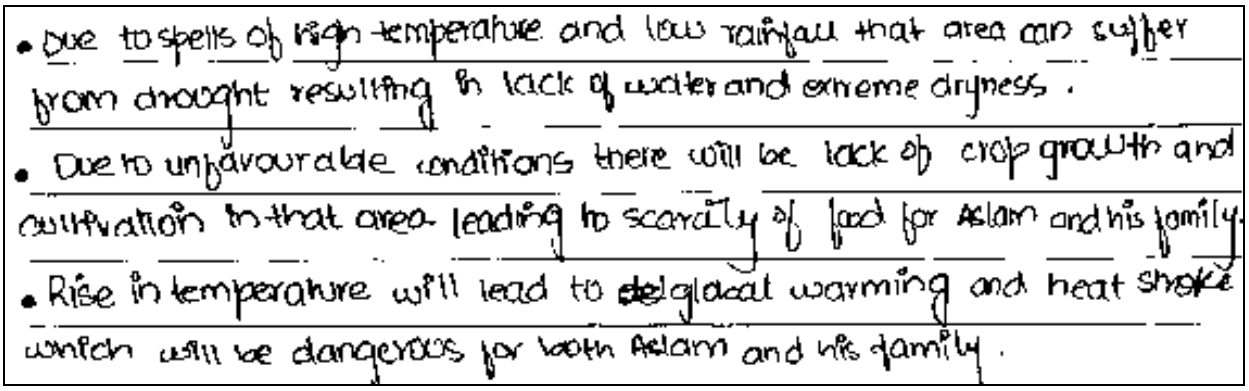

Question 5:

There has been a change in the annual average temperature in Aslam's locality which has risen from 35ºC to 45ºC and there is not much rainfall due to which fresh water reserves are depleting in the area. It is expected that the temperature will further increase in the years ahead.

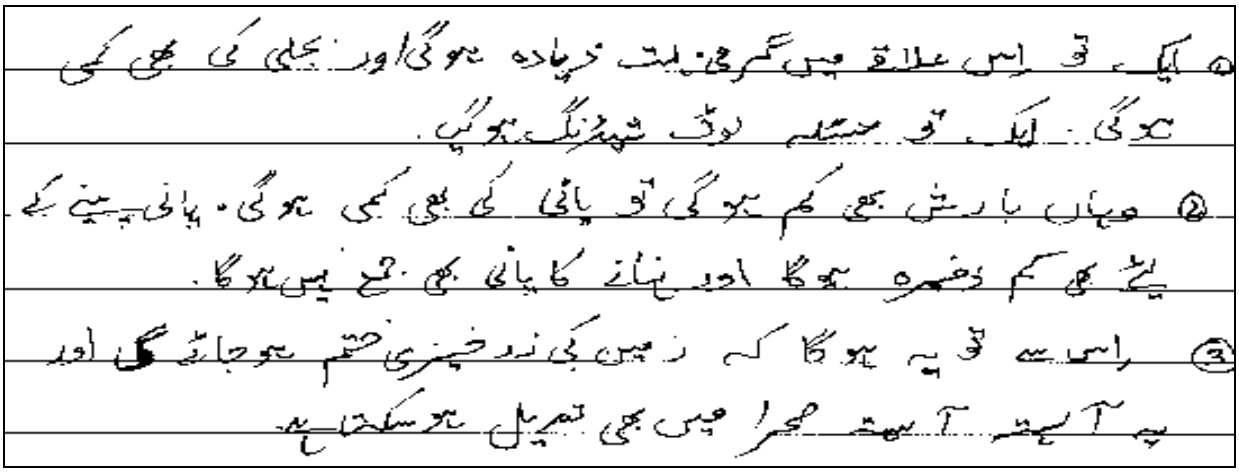

With reference to the given situation, what THREE problems could be faced by Aslam's family while living in that area?

Better responses identified the correct problems that Aslam's family faced due to the given situation, i.e. they will not be able to grow crops due to much heat/ Aslam's area can be victim of drought/ famine/ Aslam's family can suffer due to heatstroke/ Aslam's livestock can be in danger due to increased temperature of the area.

Example in English Medium:

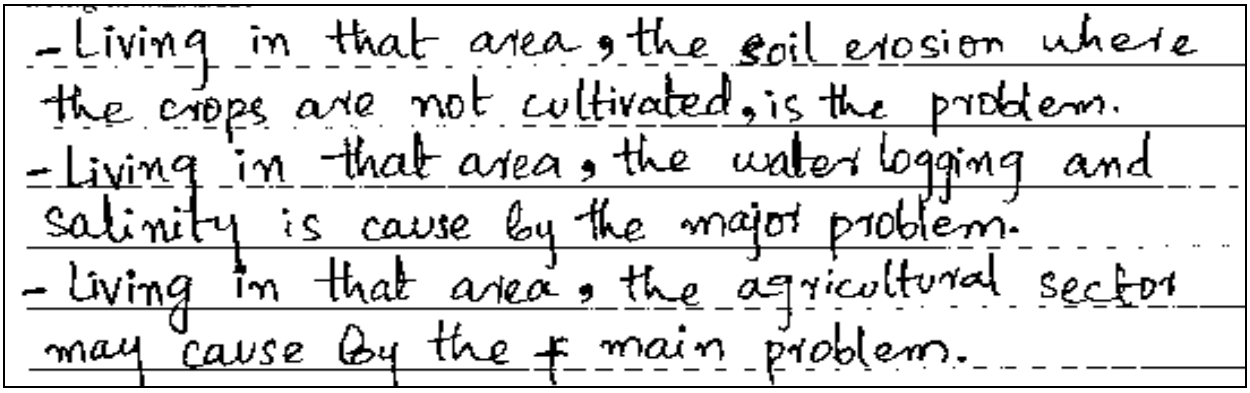

Example in Urdu Medium:

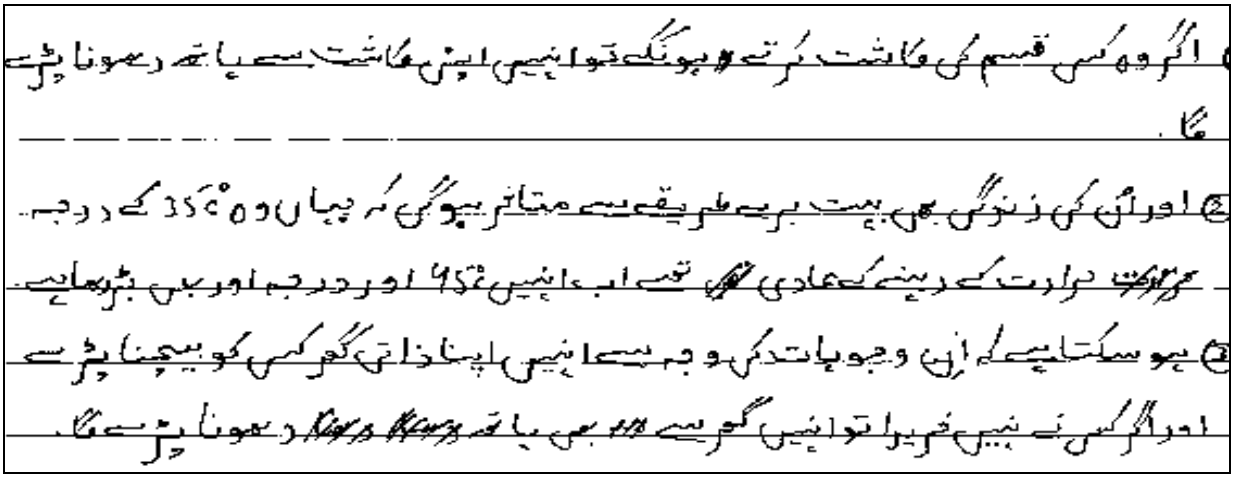

Weaker responses demonstrated that candidates did not follow the key words of the question and produced irrelevant answers. Some candidates talked about agricultural problems that can be faced by agricultural sector in Pakistan while others mentioned that due to increase in heat, global warming will increase. These responses also showed suggestions that Aslam's family should install tube well near the house/ Aslam's family should wear light clothes so that they will not feel hot.

These responses reflected that there is a need for candidates to be exposed to questions based on real-life situation for better understanding and meeting the purpose of studying this particular subject.

Example in English Medium:

- Living in that area, the soil erosion where the crops are not cultivated, is the problem.
- Living in that area, the water logging and salinity is cause by the major problem.
- Living in that area, the agricultural sector may cause By the f main problem.

Example in Urdu Medium:

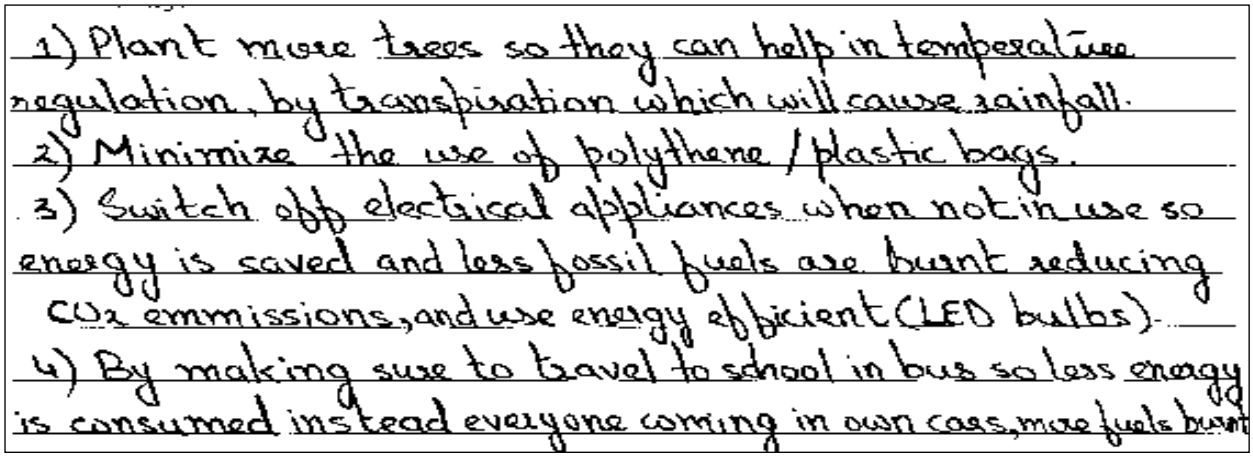

Question 6:

As a student, suggest any FOUR ways through which you can overcome the impact of global warming in the country.

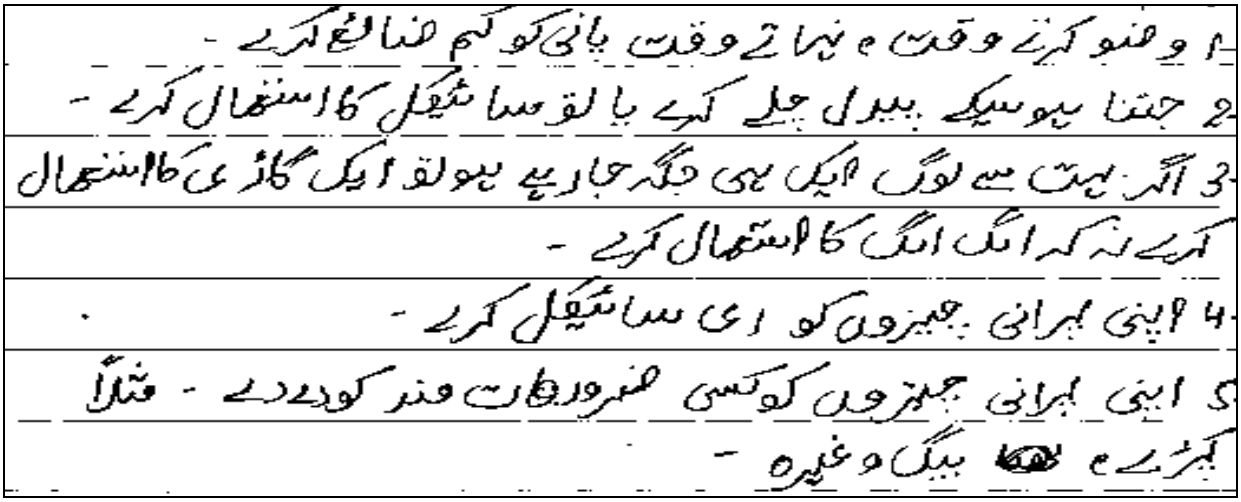

Better responses clearly mentioned the steps taken by a student to overcome the impact of global warming in Pakistan. Candidates' responses showed that they were able to comprehend the demand of the question and thus, were able to exhibit their initiatives that can be taken by them to reduce the impact of global warming in our country. Candidates mentioned the following ways: I will switch off the electrical appliances which are not in use/ I will use LED in my house/ I will use bicycle or will car-pool with my friends etc.

The highlight of these responses was that candidates were able to mention logical and practical steps to resolve the problem of global warming.

Example in English Medium:

1) Plant more trees so they can help in temperature regulation, by transpiration which will cause rainfall.
2) Minimize the use of polythene / plastic bags.
3) Switch off electical appliances when not in use so energy is saved and less fossil fuels are burnt reducing CO_2 emmissions, and use energy efficient (LED bulbs).
4) By making sure to travel to school in bus so less energy is consumed instead everyone coming in own cars, more fuels burnt

Example in Urdu Medium:

1 وضو کرتے وقت، نہاتے وقت پانی کو کم ضائع کرے۔
2 جتنا ہو سکے بیدل چلے کرے یا قومی سائیکل کا استعمال کرے۔
3 اگر بہت سے لوگ ایک ہی جگہ جا رہے ہو تو ایک گاڑی کا استعمال کرے نہ کہ الگ الگ کا استعمال کرے۔
4 اپنی پرانی چیزوں کو ری سائیکل کرے۔
5 اپنی پرانی چیزوں کو کسی ضرورتمند کو دے دے۔ مثلاً کپڑے، بیگ وغیرہ۔

Question 7:

Sarwar is an owner of less than one acre of land. He lives in a region of Upper Indus plains where the average temperature is 25ºC to 35ºC. There is a well-planned network of irrigation and the area also experiences an annual average rainfall of 1500mm. Moreover, his farm is located near an industrial area due to which he has access to a well-developed network of roads.

In light of the given situation, answer the following questions:

i. Identify the type of farming undertaken by Sarwar.

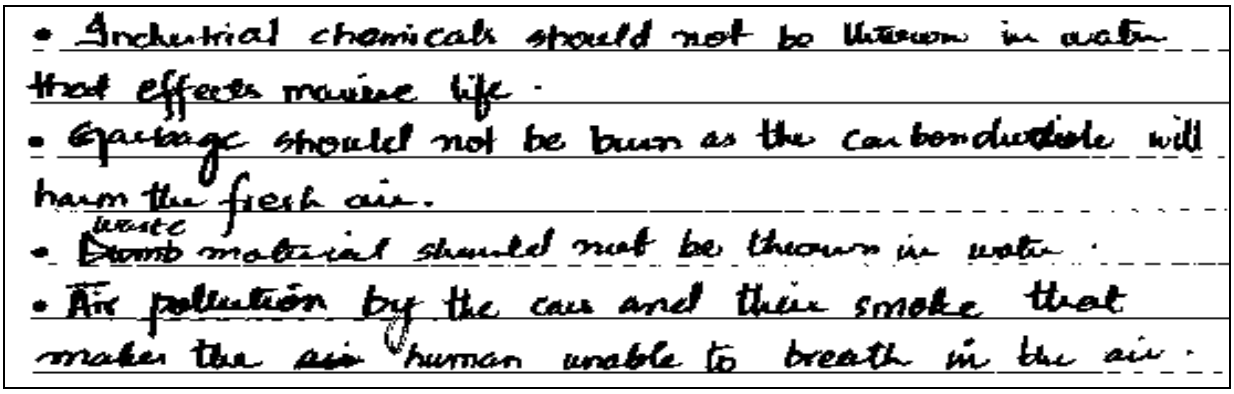

ii. Give ONE valid reason to support you answer.

iii. Identify the name of the crop that Sarwar can grow.

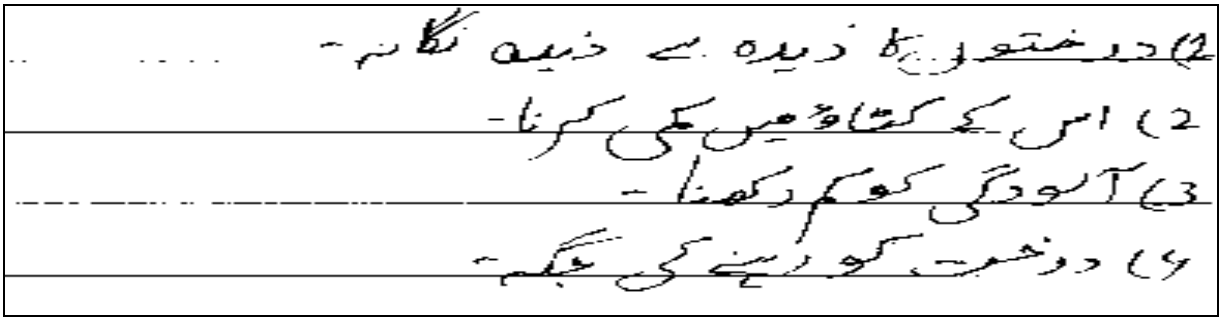

iv. Give any TWO natural factors and ONE human factor that supported you in identifying the crop in part iii.

Weaker Responses merely described general steps to be taken as a whole in a generic way. Candidates wrote that industrial waste should not be thrown. Candidates also highlighted in their responses that government should build greenhouse. Such responses reflected that the candidates seemed to have overlooked the word 'student' in the question and wrote ways that governmental institutions or society at large needs to take to combat the problem of global warming.

Example in English Medium:

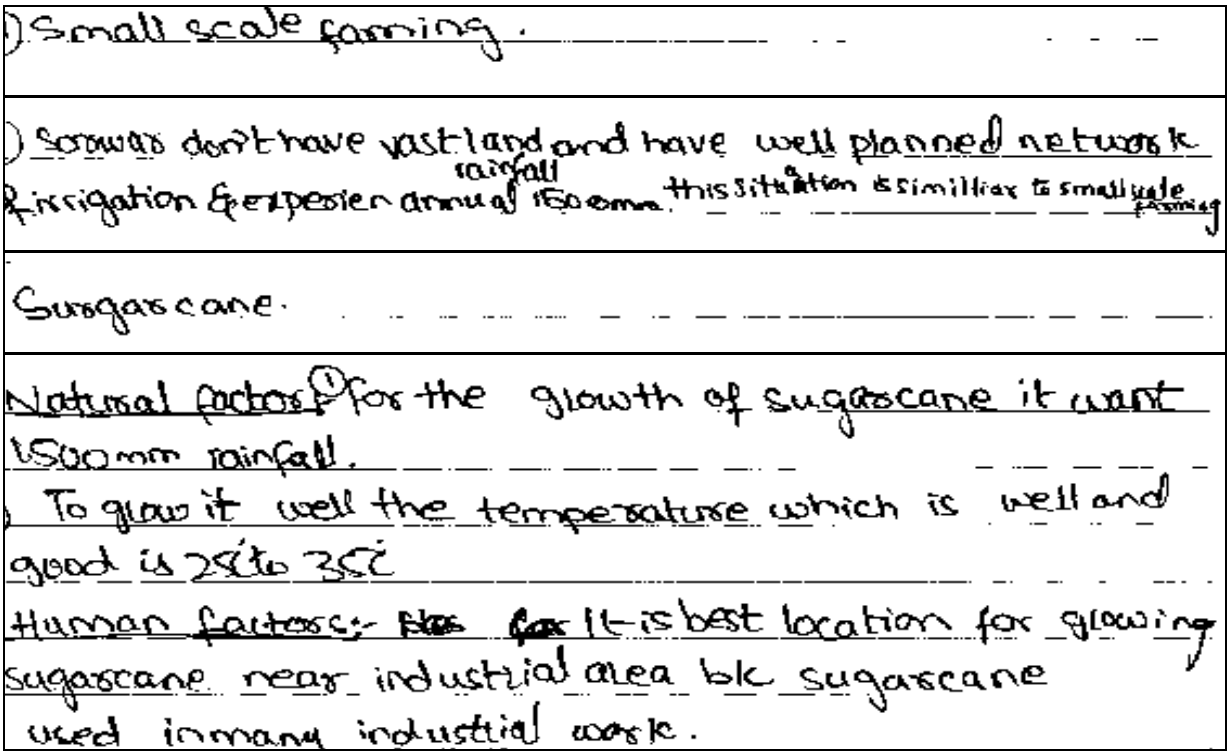

Example in Urdu Medium:

This was a situation based question that was given for the first time with reference to agriculture. Some of the candidates attempted it really very well.

Better responses clearly identified the type of farming done by the family from the given situation such as subsistence farming/ small scale farming or cash crop farming. Candidates were also able to justify their identifications by mentioning that the land was at 1 acre/ to grow for earning money/ to sell the crop in the market. Their responses also showed the correct understanding of the physical and human factors that are required to have such farming in the given scenario, for instance, to grow sugarcane, it is important to have 1500 mm of rainfall and temperature should be between 25^0 C to 35^0 C. Candidates also mentioned that human factors include proper system of irrigation, road networks and industries.

Example in English Medium:

) Small scale farming.

) Sorwas don't have vast land and have well planned network & irrigation & expesien annual rainfall 150 cms. this situation is similliar to small scale farming

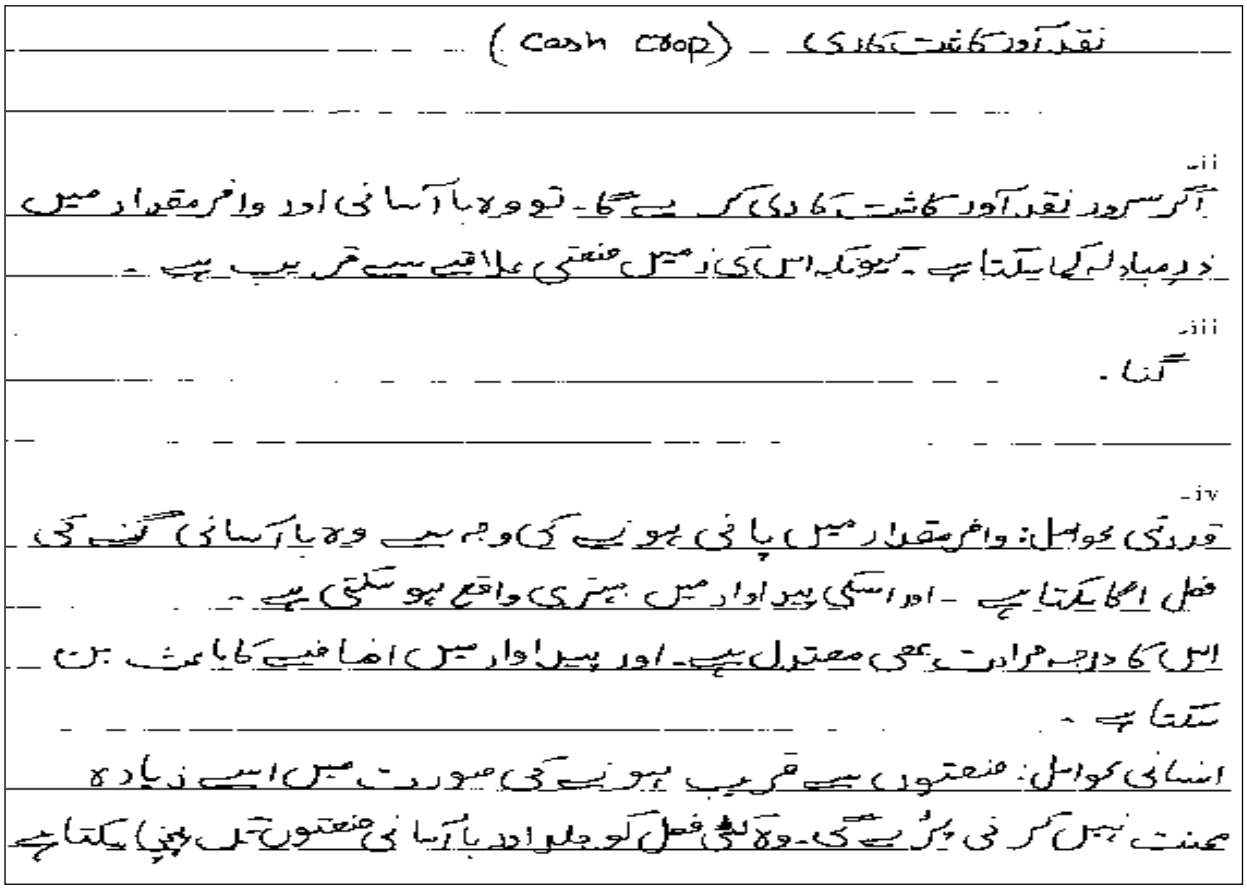

Sugarcane.

Natural factors for the glowth of sugarcane it want 1500 mm rainfall.

To glow it well the temperature which is well and good is 25 to 35 C

Human factors:- Nos for It is best location for glowing sugarcane near industrial area bk sugarcane used in many industrial work.

Example in Urdu Medium:

(Cash crop) نقد آور کاشت کاری

ii-
اگر سرور نقد آور کاشت کاری کرے گا۔ تو وہ با آسانی اور وافر مقدار میں زرمبادلہ کما سکتا ہے۔ کیونکہ اس کی زمین صنعتی علاقے سے قریب ہے۔

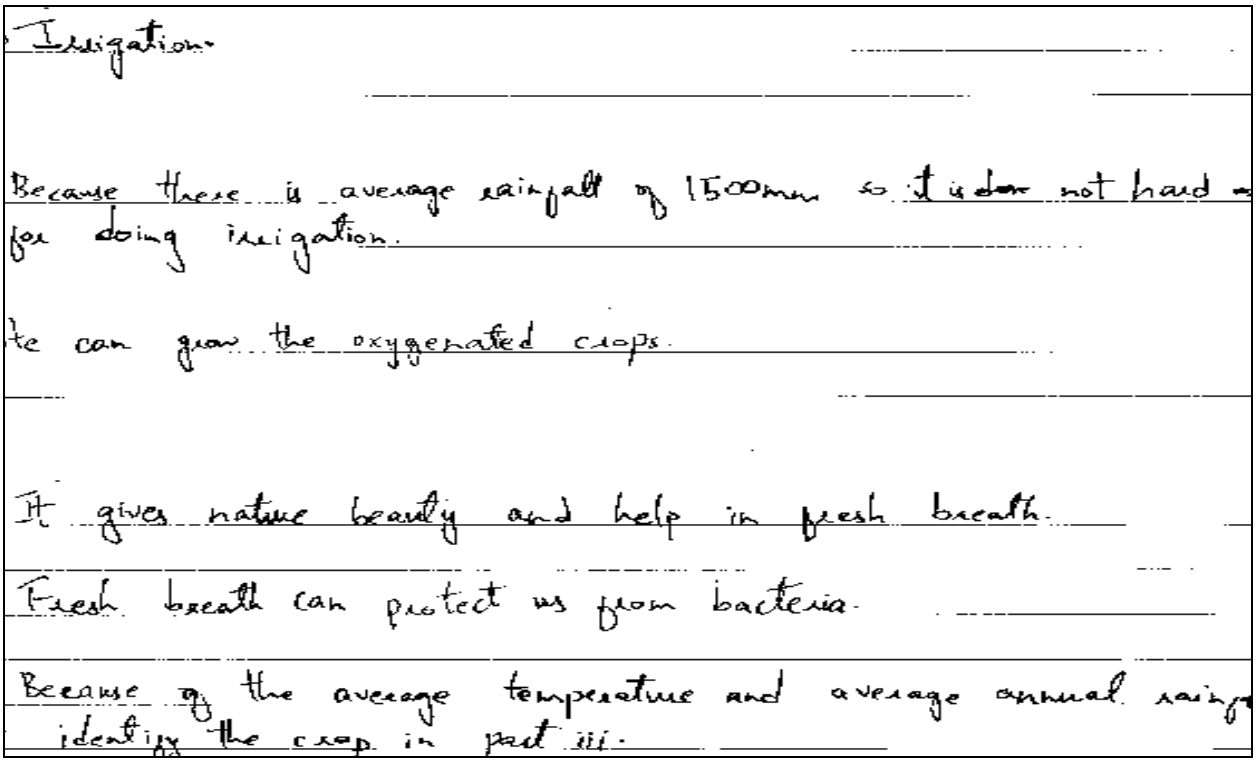

iii-
گنا۔

iv-
قدرتی محاصل: وافر مقدار میں پانی ہونے کی وجہ سے وہ با آسانی گنے کی فصل اگا سکتا ہے۔ اور اسکی پیداوار میں بہتری واقع ہو سکتی ہے۔ اس کا درجہ حرارت بھی معتدل ہے۔ اور پیداوار میں اضافے کا باعث بن سکتا ہے۔

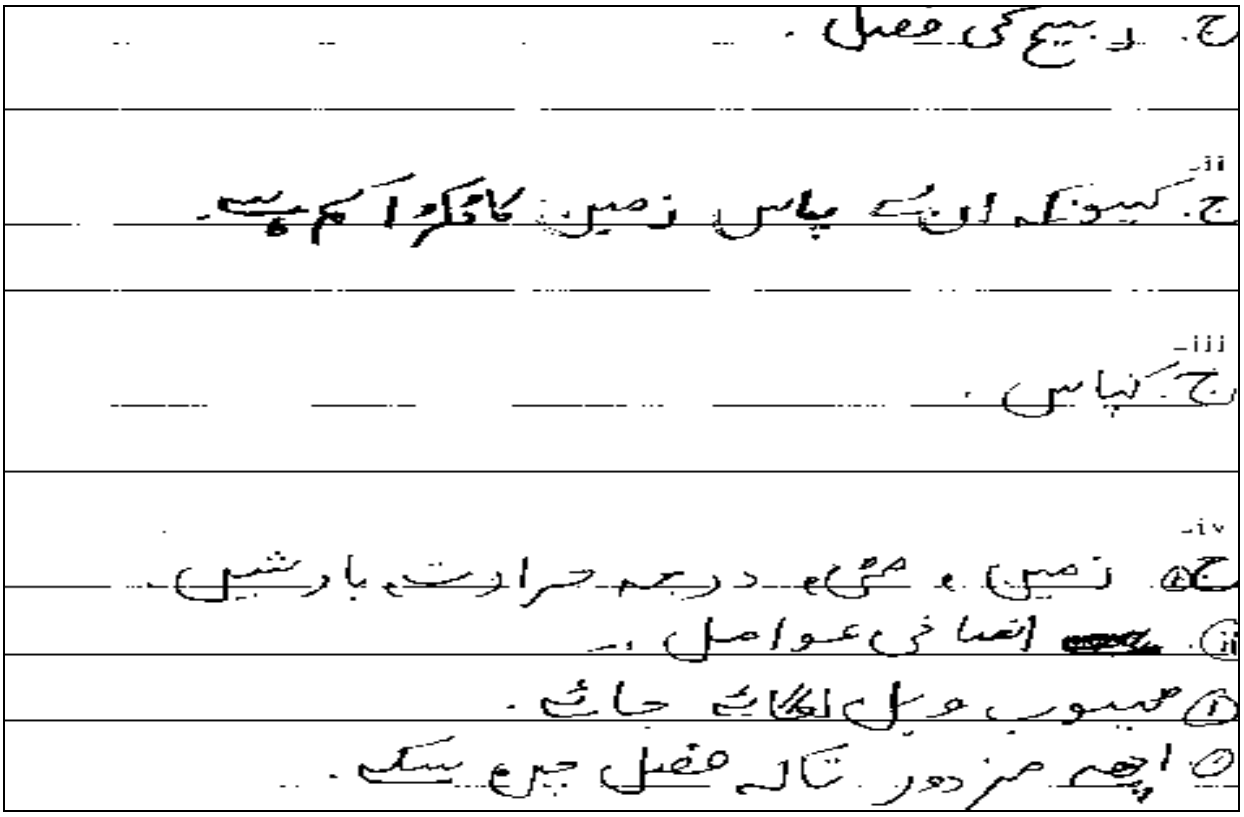

انسانی محاصل: صنعتوں سے قریب ہونے کی صورت میں اسے زیادہ محنت نہیں کرنی پڑے گی۔ وہ اپنی فصل کو جلد اور با آسانی صنعتوں تک پہنچا سکتا ہے

Weaker responses were not able to provide the specific answers related to the given scenario. It seemed that the candidates were not well versed with the area of land that was given in terms of acres. In addition, there seemed to be a bit of confusion regarding the difference between food crop and cash crop, and subsistence and commercial. Many responses chose commercial farming and the reason given was that as cash crop is grown there thus the farming has to be commercial/ large scale. This misconception needs to be cleared with the candidates during classroom discussions. Furthermore, candidates wrote that farmers grow oxygenated crop/ they have livestock to help them in their daily life activities. Coming to the part where the candidates were required to write about the natural and human factors, they just mentioned temperature, soil, rainfall without being specific about extracting the reason from the given situation.

Example in English Medium:

Example in Urdu Medium:

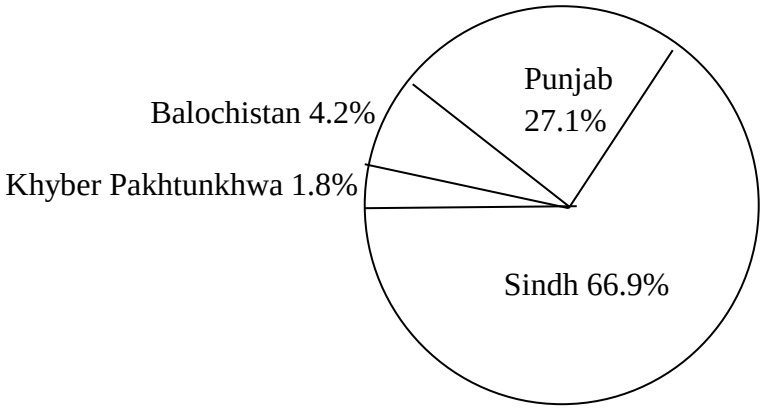

Extended Response Questions (ERQs)

This question offered a choice between part **a** and **b**. Part **a** was based on geography whereas part **b** was from history. Majority of the candidates attempted option **a** and did well**.**

Question 8a:

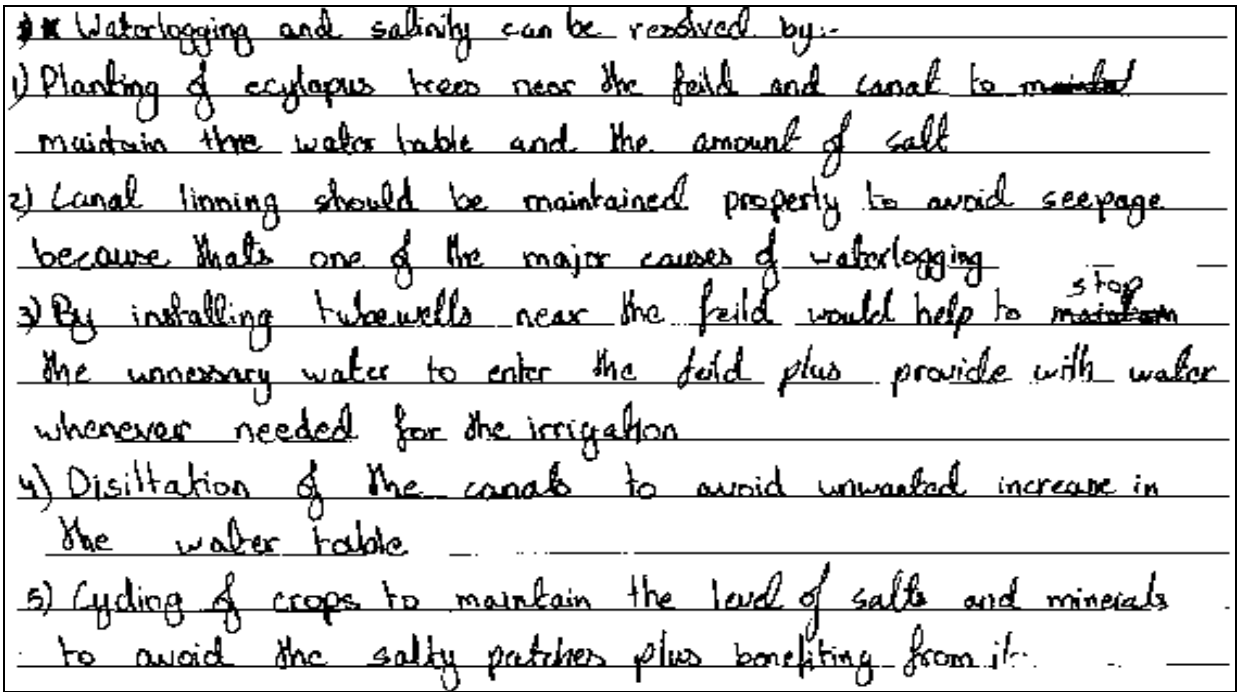

The given pie-chart shows the percentage of land affected by waterlogging in Pakistan by province.

What FIVE steps can be taken to overcome the problem and increase the production of crops per yield?

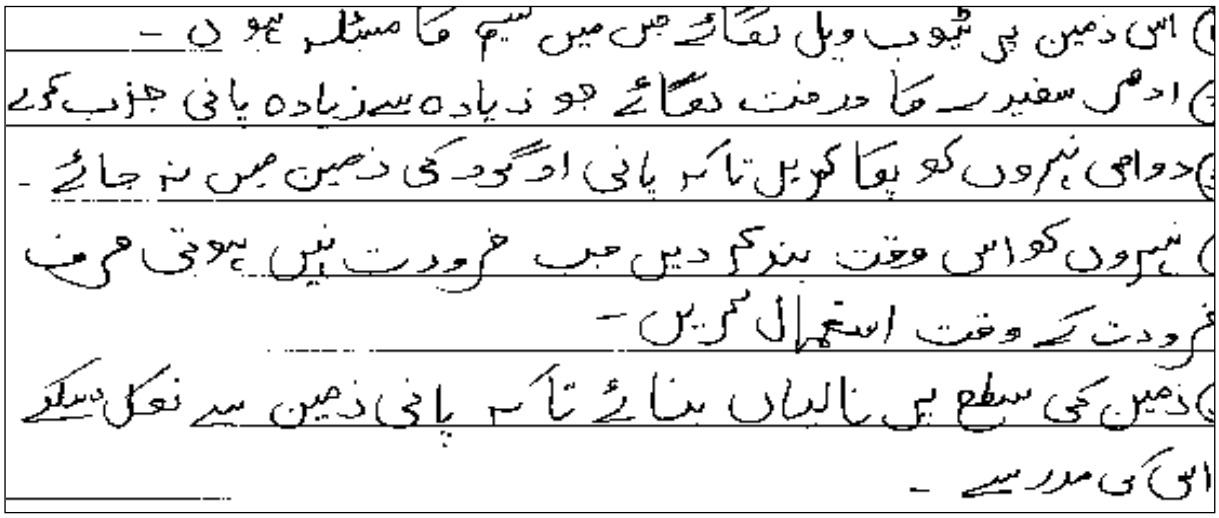

Better responses mentioned all the five steps to overcome the problem of water logging in our country and to increase the production of crops per yield. Candidates mentioned following steps; like plant eucalyptus tree/ cementing of the canals to control seepage of water/ canal closure on temporary basis so that water passes through only when needed for irrigation purposes/ install tube wells to lower the water-table. Some candidates also highlighted that if farmers use high yield of seeds and the use of chemical fertilisers, then the productivity of crops can be increased.

Example in English Medium:

Waterlogging and salinity can be resolved by:-
1) Planting of eucalyptus trees near the feild and canal to maintain the water table and the amount of salt
2) Canal linning should be maintained properly to avoid seepage because thats one of the major causes of waterlogging
3) By installing tubewells near the feild would help to stop the unnessary water to enter the feild plus provide with water whenever needed for the irrigation
4) Disiltation of the canals to avoid unwanted increase in the water table
5) Cyding of crops to maintain the level of salts and minerals to avoid the salty patches plus benefiting from it.

Example in Urdu Medium:

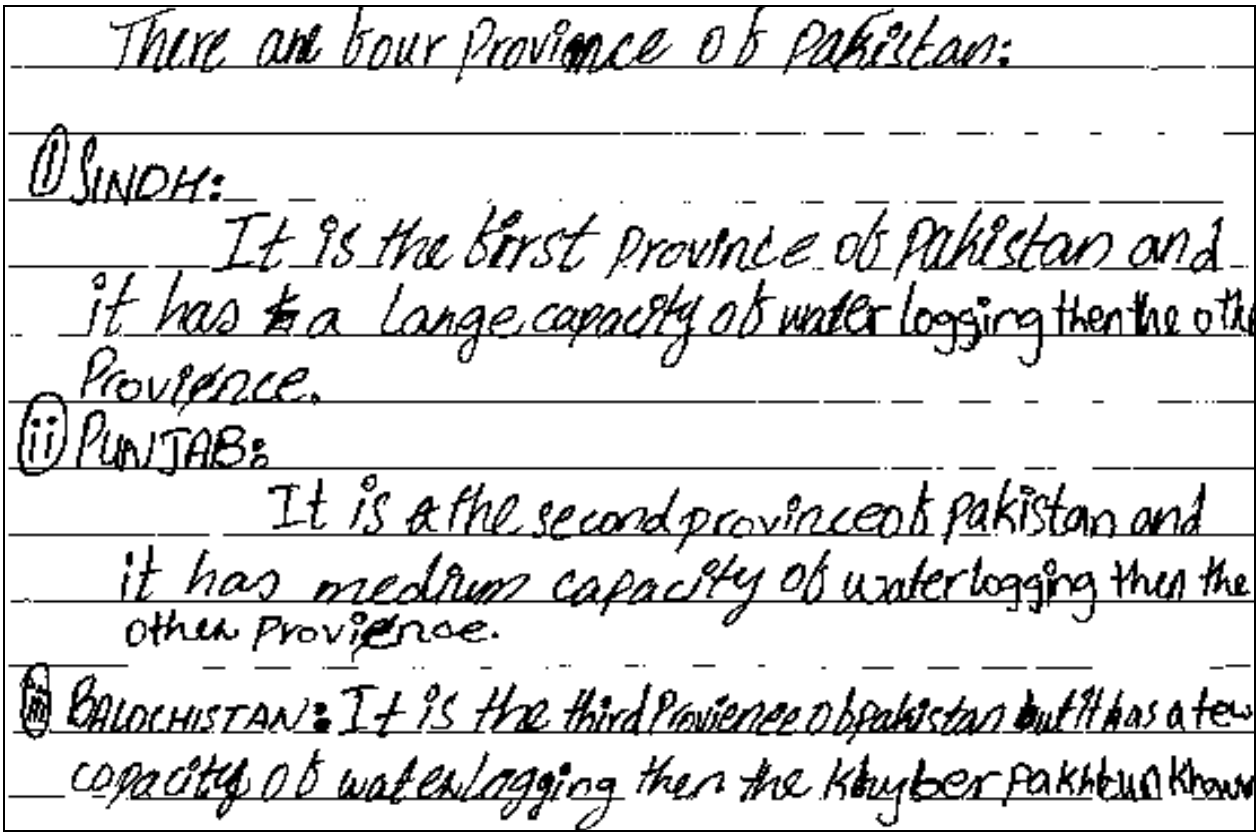

۱) اس زمین پر ٹیوب ویل لگائے جس میں سیم کا مسئلہ ہو ۔
۲) ایسی سفیدے کا درخت لگائے جو زیادہ سے زیادہ پانی جذب کرے
۳) دواطراف نہروں کو پکا کریں تاکہ پانی ادگرد کی زمین میں نہ جائے ۔
۴) نہروں کو اس وقت بند کر دیں جب فروت نہیں ہوتی مرف فروت کے وقت استعمال کریں ۔
۵) زمین کی سطح پر نالیاں بنائے تاکہ پانی زمین سے نکل سکے اس کی مدد سے ۔

Weaker responses failed to meet the demand of the asked question. Overall, candidates provided general points except for one or two relevant points. There were two different misconceptions found in these responses. For example,

firstly, some candidates mentioned the agricultural problems province by province according to the given pie chart and were unable to make connections between the stimulus and question. Candidates also discussed about the types of land in different provinces along with its growing crops that was not required. Also in terms of mentioning productivity, they mentioned mechanisation which is not the factor of increasing productivity per acre. Secondly, some candidates highlighted in their responses that government should install tube well/ provide high quality seeds and loans to the farmers so that they may overcome the given problem. Candidates also mentioned that the use of mineral resources can be helpful to resolve the given problem.

Example 1 in English Medium:

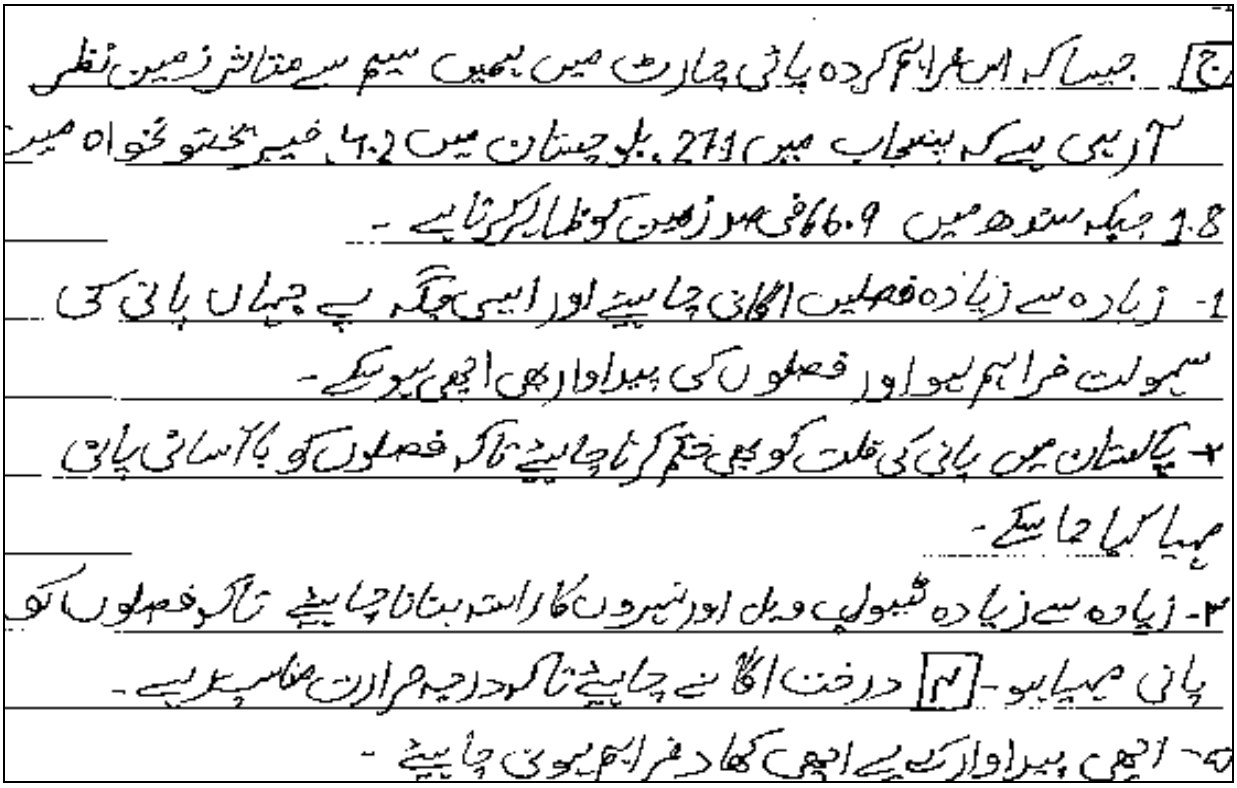

There are four Province of Pakistan:

(i) SINDH:
It is the first province of Pakistan and it has a large capacity of water logging then the oth Province.

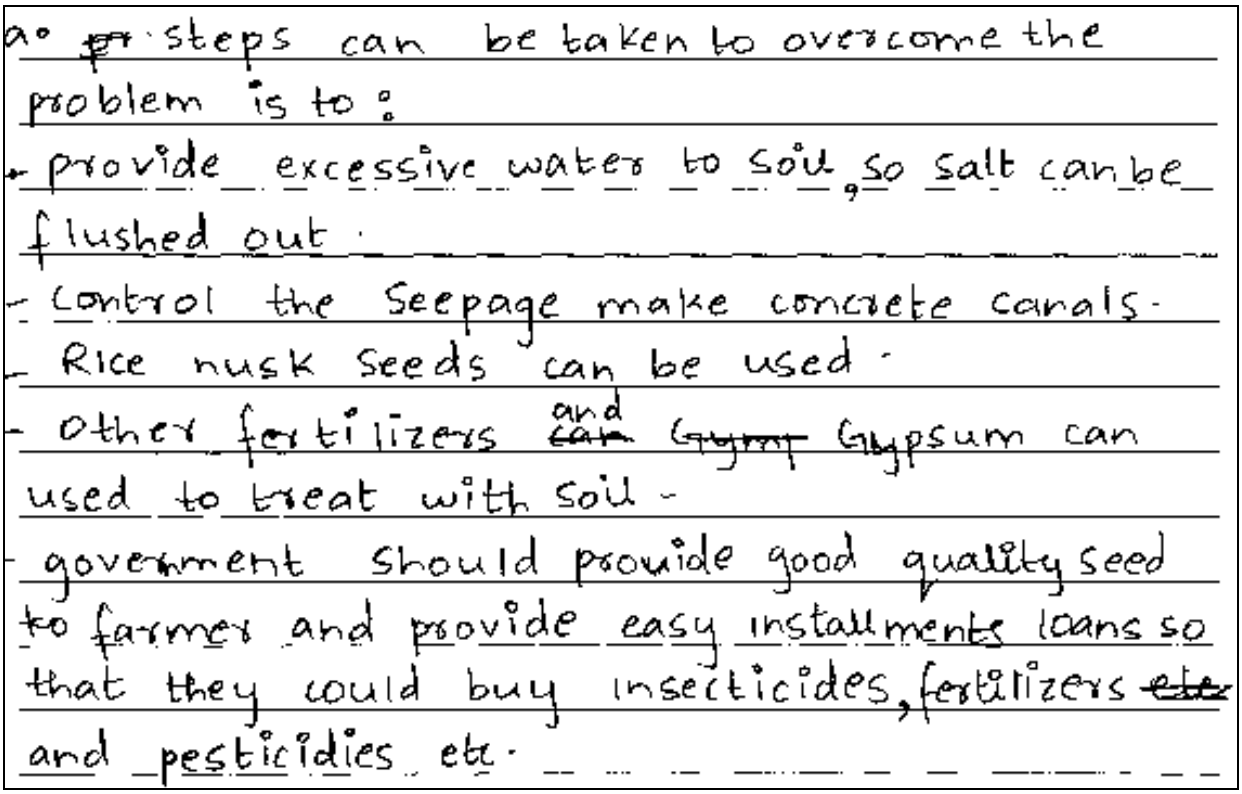

(ii) PUNJAB:
It is the second province of pakistan and it has medium capacity of water logging then the other Province.

(iii) BALOCHISTAN: It is the third Province of pakistan but it has a few capacity of waterlogging then the Khyber Pakhtun Khaw

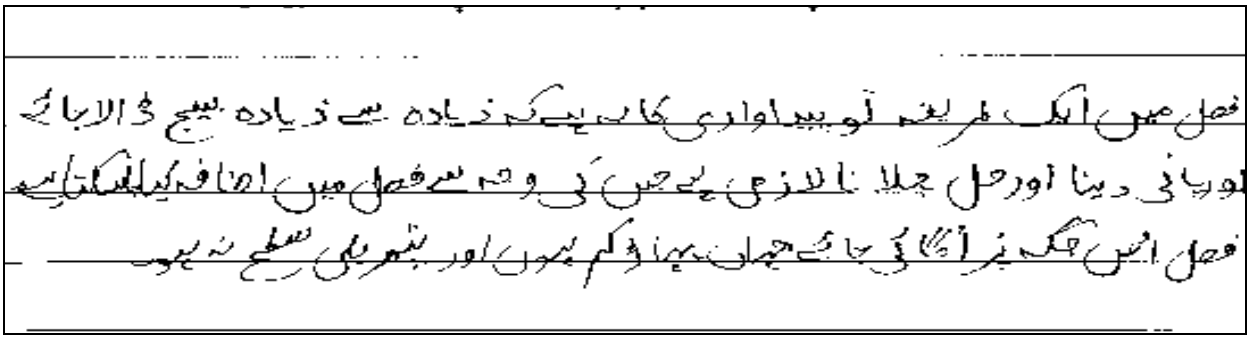

Example 1 in Urdu Medium:

Example 2 in English Medium:

Example 2 in Urdu Medium:

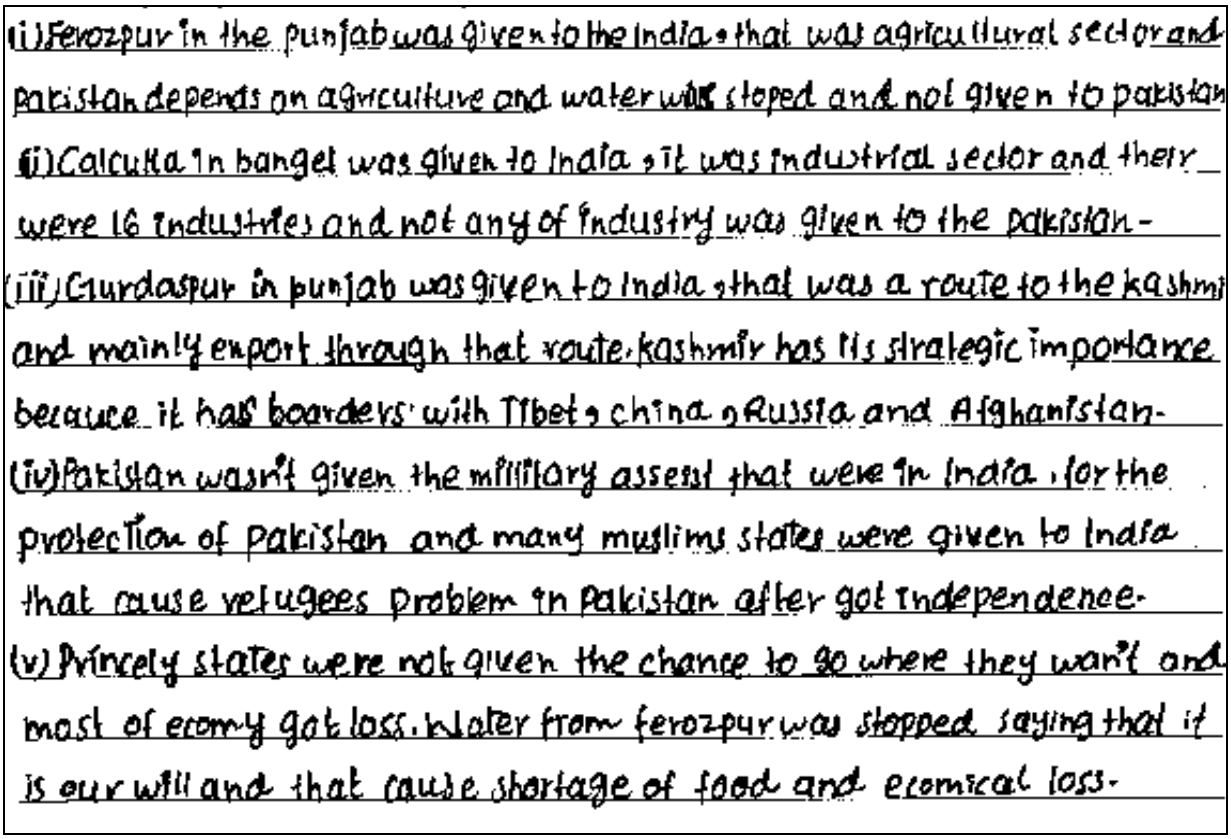

Question 8b:

Analyse any FIVE effects of unjust Boundary Commission on the economy of Pakistan.

Better responses clearly mentioned the effects of unjust Boundary Commission on the economy of Pakistan with good explanations. Candidates were able to write valid points and analyse the effects appropriately. In such responses, candidates mentioned that as Calcutta was given to India, thus, Pakistan did not have any industry. As a result, raw materials found here were not utilised effectively/ Pakistan needs to spend more money on defence because of Kashmir issue. Candidates also highlighted that Pakistan has to pay for the water supply to continue its farming.

Example in English Medium:

(i) Ferozpur in the punjab was given to the India, that was agricultural sector and pakistan depends on agriculture and water was stoped and not given to pakistan

(ii) Calcutta in banget was given to India, it was industrial sector and their were 16 industries and not any of industry was given to the pakistan.

(iii) Gurdaspur in punjab was given to India, that was a route to the kashmir and mainly export through that route. kashmir has its strategic importance because it has boarders with Tibet, china, Russia and Afghanistan.

(iv) Pakistan wasn't given the military assest that were in India, for the protection of pakistan and many muslims states were given to India that cause refugees problem in pakistan after got independence.

(v) Princely states were not given the chance to go where they want and most of ecomy got loss. Water from ferozpur was stopped saying that it is our will and that cause shortage of food and ecomical loss.

Example in Urdu Medium:

باؤنڈری کمیشن کی ناانصافی سے پاکستان کی معیشت پر یہ اثر پڑا کہ

① اضلع فیروز پور کا علاقہ انڈیا کے حوالے کر دیا جو کہ تمام دریاؤں کی ہیڈورکس تھا جسکی وجہ سے ہندوؤں نے پاکستان کا پانی روک دیا جسکی وجہ سے ان کی زراعت کو نقصان ہوا۔

② کلکتہ بھی انڈیا کے حوالے کر دیا جو Provincial capital تھا۔

③ وہ سمندر کے قریب تھا جہاں سے درآمد اور برآمد آسانی سے ہو سکتی تھی۔

④ وہ صنعتی سرگرمیوں کا بھی مرکز تھا۔

⑤ وہاں جوٹ پٹ سن کی کاشت کاری ہوتی تھی۔ تو جو کہ انڈیا کے پاس چلے جانے سے معاشی نقصان اٹھانا پڑا۔

Weaker responses mentioned irrelevant points like effects of unjust Boundary Commission as a whole on the country. Candidates discussed the question in two different ways: Firstly, candidates responded this question on the basis of social, political and administrative effects of boundary commission on Pakistan which actually was not the demand of the question. They wrote that Pakistan was facing refugee problem and administrative issue.

Secondly, some candidates wrote suggestions related to the administrative working of government for the citizens. These responses were not applicable for this question. Candidates also mentioned that people started to fight among themselves; they were unable to get education. These type of answers showed that candidates did not read and understand the question well.

Example 1 in English Medium:

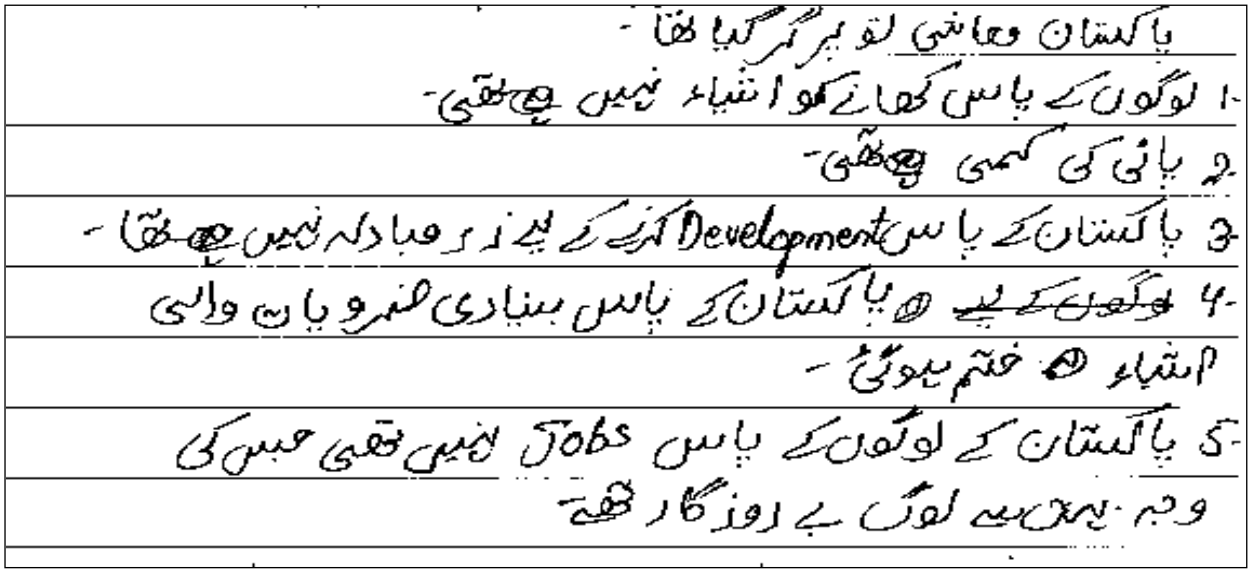

1) Economical Issue: As Calcutta was a muslim majority aswell as industrial and educational city was given to India which effected Pakistans economy.

2) Canal Water dispute: The main canal headworks and muslim majorit areas Ferozpur and Madhupur were given to India which effect the agriculture based economy of Pakistan.

3) Administrative Problem: Pakistan was to get 750 million but only got 200 million on which Gandhi went on hunger strike infavour of Pakistan so Nehru had to give 500 million more but still Pakistan didn't get 50 million which effected it development and economy.

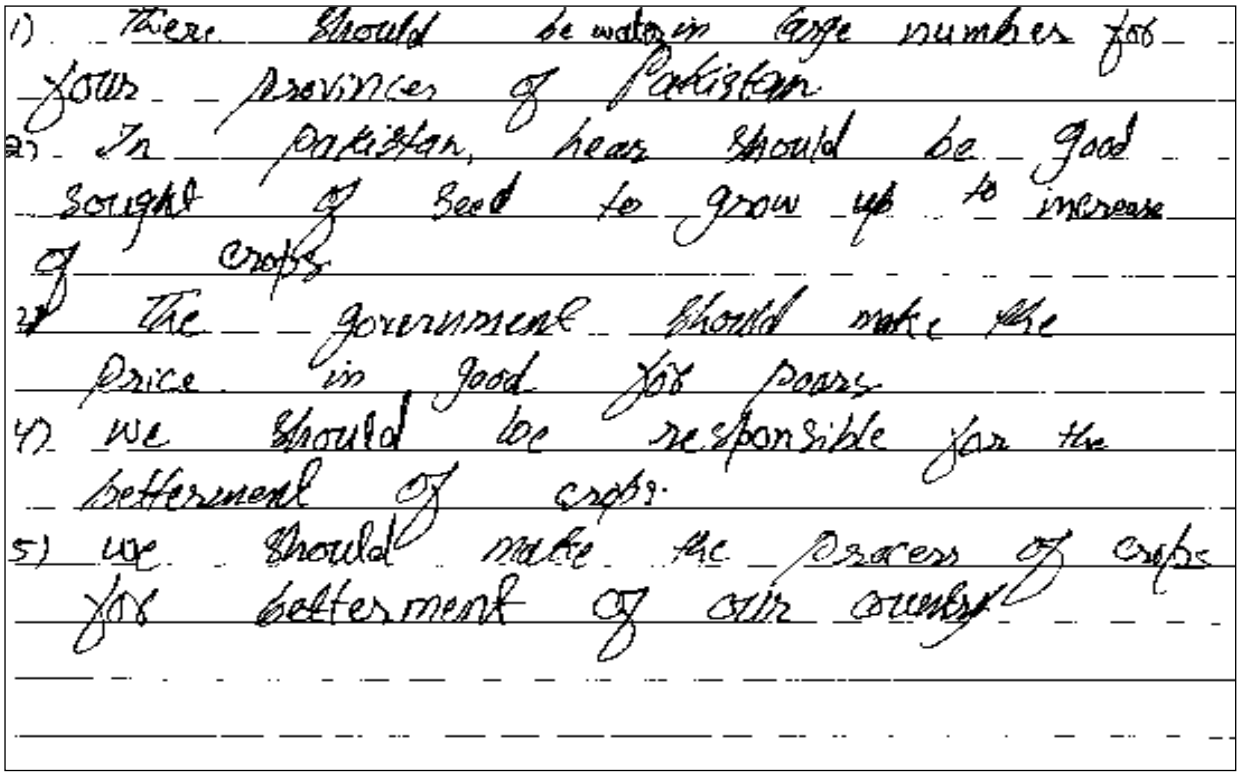

4) Refugee Problem: Millions of refugee migrated to Pakistan and it was an immedia problem to provide them food, shelter, clothing etc.

Example 1 in Urdu Medium:

پاکستان معاشی لحاظ سے بہت پیچھے رہ گیا تھا۔
1۔ لوگوں کے پاس کھانے کو اشیاء نہیں ہوتی تھی۔
2۔ پانی کی کمی ہوتی تھی۔
3۔ پاکستان کے پاس Development کرنے کے لیے زرمبادلہ نہیں ہوتا تھا۔
4۔ ~~لوگوں کے لیے~~ پاکستان کے پاس بنیادی ضروریات والی اشیاء ختم ہوگئی۔
5۔ پاکستان کے لوگوں کے پاس Jobs نہیں تھی جس کی وجہ سے بہت سے لوگ بے روزگار تھے۔

Example 2 in English Medium:

1) There should be water in large numbers for your provinces of Pakistan.
2) In pakistan, seeds should be good sorght of seed to grow up to increase of crops.
3) The government should make the price in good for poors.
4) We should be responsible for the betterment of crops.
5) We should make the peaces of crops for betterment of our country.

Example 2 in Urdu Medium:
