AGA KHAN UNIVERSITY EXAMINATION BOARD

Notes from E-Marking Centre SSC-II Islamiyat Annual Examinations 2023

Introduction

This document has been prepared for the teachers and candidates of Secondary School Certificate (SSC) Part II (Class X) Islamiyat. It contains comments on candidates' responses to the 2023 SSC-II Examination indicating the quality of the responses and highlighting their relative strengths and weaknesses.

E-Marking Notes

This includes overall comments on candidates' performance on every question and *some* specific examples of candidates' responses which support the mentioned comments. Please note that the descriptive comments represent an overall perception of the better and weaker responses as gathered from the e-marking session. However, the candidates' responses shared in this document represent some specific example(s) of the mentioned comments.

Teachers and candidates should be aware that examiners may ask questions that address the Student Learning Outcomes (SLOs) in a manner that requires candidates to respond by integrating knowledge, understanding and application skills they have developed during the course of study. Candidates are advised to read and comprehend each question carefully before writing the response to fulfil the demand of the question.

Candidates need to be aware that the marks allocated to the questions are related to the answer space provided on the examination paper as a guide to the length of the required response. A longer response will not in itself lead to higher marks. Candidates need to be familiar with the command words in the SLOs which contain terms commonly used in examination questions. However, candidates should also be aware that not all questions will start with or contain one of the command words. Words such as 'how', 'why' or 'what' may also be used.

General Observations

The overall performance of the entire cohort in the examination indicates that the majority of candidates used their time effectively by offering relevant and focused responses that attempted to address the questions as instructed. Their responses demonstrated relevance and corresponded with the requirements. However, the candidates seemed were challenged in the question related to **compilation of Hadith** It was also observed that candidates struggled to construct their responses as per the **command words** used in the questions.

Note: Candidates' responses shown in this report have not been corrected for grammar, spelling, format or factual information.

• Understand the expectations of the command words • Look at the cognitive level • Identify the content that is required to answer that question (both in terms of understanding of concepts and any skills that may be required like analysing or evaluating) • Go through the past paper questions on that particular concept • Refer to the resource guide for extra resources	• Story Board • Cause and Effect • Fish and Bone • Concept Mapping • Audio Visual resources • Think, Pair and Share • Questioning Technique (Socratic approach) • Practical Demonstration ** For description of each pedagogy, refer to Annexure A	• Past paper questions • Discussion on E-Marking Notes • AKU-EB Digital Learning Solution powered by Knowledge Platform https://akueb.knowledgeplatform.com/login

Any Additional Suggestion:
When teachers teach a *Surah*, it is crucial to maintain a contextual approach, considering factors such as the era of its revelation, the intended addresses, and the primary themes addressed within the surah. By providing this contextual framework, candidates can better comprehend the historical and social backdrop of the surah, enabling a deeper understanding of its meanings and implications.

When teaching a Surah, teachers must prioritize understanding its context, including the era of its revelation, the intended addressees, and its primary themes. By providing this contextual framework, candidates can better comprehend the historical and social backdrop of the Surah, enabling a deeper understanding of its meanings and implications. Additionally, teachers should ensure that candidates grasp the command word used in the Student Learning Outcomes (SLOs) to align their learning objectives with the desired outcomes effectively.

Any Additional Suggestion:
When teachers impart the teachings of blessed Hadiths, it is essential to include the corresponding Hadith numbers and elucidate the crucial points within each Hadith. This practice empowers candidates to comprehend the significance of each Hadith and its related message more effectively. By referencing the Hadith numbers, candidates can access and revisit the Hadiths for further understanding and study. Additionally, teachers should ensure that candidates grasp the Command Word used in the Student Learning Outcomes (SLOs).

Question No. 2b	
Question Text	Explain the compilation of Hadith during the time of *Sahaba* (*RA*) in TWO points.
SLO No	6.1.2
SLO Text	Describe the collection and compilation of Hadith after the demise of the Holy Prophet (صلی اللہ علیہ وآلہ وسلّم).
Max Marks	2
Cognitive Level	U
Checking Hints	Give ONE mark for explaining the compilation of Hadith (TWO required).
Overall Performance	Overall, the question proved to be challenging for the candidates as most responses highlighted their lack of understanding regarding the process of compilation and verifying Hadiths during the time of the *Sahabas* (companions).
Description of Better Responses	The better responses highlighted the fact that the formal compilation of Hadiths was not carried out by the companions themselves. Instead, companions like Hazrat Abu Huraira (*RA*) personally compiled the *Ahadith*, whereas Hazrat Usman (*RA*) maintained the commandments for *Zakat*. Moreover, Hazrat Ali (*RA*) independently recorded the rules of charity, blood-money

	and other important teachings. These responses showcased a comprehensive understanding of the roles played by various companions in preserving and compiling the *Ahadith*.

Description of Weaker Response	Overall, the candidates struggled to establish a clear connection between the compilation processes of Hadith and the era of the Companions. Instead of focusing on the editing practices during the time of the Companions, the responses were observed to discuss the editing that occurred in the second and third eras. Additionally, there were references to books like *Siha Sitta*, which are not relevant to the period of the Companions.
Image of Weaker Response	 Ans) 1) At that time the sahaba were dieing so they scared that the treasure of Hadith could lost so they started to go to centres and start collecting the ~~the~~ rest treasure of Hadith. 2) ~~The~~ Sahaba also started to told the hadith to others through their teaching centers.

Annexure A: Pedagogies Used for Teaching the SLOs

Pedagogy: Storyboard

Description: A visual pedagogy that uses a series of illustrated panels to present a narrative, encouraging creativity and critical thinking. It helps learners organise ideas, sequence events, and comprehend complex concepts through storytelling.

Example: In a Literature class, students are tasked with creating storyboards to visually retell a novel. They draw key scenes, write captions, and present their stories to the class, enhancing their reading comprehension and fostering their imagination.

Pedagogy: Cause and Effect

Description: This pedagogy explores the relationships between actions and consequences. By analysing cause-and-effect relationships, learners develop a deeper understanding of how events are interconnected and how one action can lead to various outcomes.

Example: In a History class, students study the causes and effects of the Industrial Revolution. They research and discuss how technological advancements in manufacturing led to significant societal changes, such as urbanisation and labour reform movements.

Pedagogy: Fish and Bone

Description: A method that breaks down complex topics into main ideas (the fish) and supporting details (the bones). This visual approach enhances comprehension by highlighting essential concepts and their relevant explanations.

Example: During a Biology class on human anatomy, the teacher uses the fish and bone technique to teach about the human skeletal system. Teacher presents the main components of the human skeleton (fish) and elaborates on each bone's structure and function (bones).

Pedagogy: Concept Mapping

Description: An effective way to visually represent relationships between ideas. Learners create diagrams connecting key concepts, aiding in understanding the overall structure of a subject and fostering retention.

Example: In a Psychology assignment, students use concept mapping to explore the various theories of personality. They interlink different theories, such as Freud's psychoanalysis, Jung's analytical psychology, and Bandura's social-cognitive theory, to see how they relate to each other.

Pedagogy: Audio Visual Resources

Description: Incorporating multimedia elements like videos, images, and audio into lessons. This approach caters to different learning styles, making educational content more engaging and memorable.

Example: In a General Science class, the teacher uses a documentary-style video to teach about the solar system. The video includes stunning visual animations of the planets, interviews with astronomers, and background music, enhancing students' interest and understanding of space.

Pedagogy: Think, Pair, and Share

Description: A collaborative learning technique where students ponder a question or problem individually, then discuss their thoughts in pairs or small groups before sharing with the entire class. It fosters active participation, communication skills, and diverse perspectives.

Example: In a Literature in English class, the teacher poses a thought-provoking question about a novel's moral dilemma. Students first reflect individually, then pair up to exchange their opinions, and finally participate in a lively class discussion to explore different viewpoints.

Pedagogy: AKU-EB Digital Learning Solution powered by Knowledge Platform
Description: Knowledge Platform is a digital platform that provides interactive and comprehensive subject matter related videos, games and other material which can be used to enhance the understanding of subject matter.
For details, please refer to Learn Smart Classroom by Knowledge Platform:

Pedagogy: Questioning Technique (Socratic Approach)

Description: Based on Socratic dialogue, this method stimulates critical thinking by posing thought-provoking questions. It encourages learners to explore ideas, justify their reasoning, and discover knowledge through a process of inquiry.

Example: In an Ethics class, the instructor uses the Socratic approach to lead a discussion on the meaning of justice. By asking a series of probing questions, the students engage in a deeper exploration of ethical principles and societal values.

Pedagogy: Practical Demonstration

Description: A hands-on approach where learners observe real-life applications of theories or skills. Practical demonstrations enhance comprehension, skill acquisition, and problem-solving abilities by bridging theoretical concepts with real-world scenarios.

Example: In a Food and Nutrition class, the instructor demonstrates the proper technique for filleting a fish. Students observe and then practice the skill themselves, learning the practical application of knife skills and culinary precision.

(**Note:** The examples provided in this annexure serve as illustrations of various pedagogies. It is important to understand that these pedagogies are versatile and can be applied across subjects in numerous ways. Feel free to adapt and explore these techniques creatively to enhance learning outcomes in your specific context.)
