2019 & Learning only

Q.6. (Total 3 Marks)

Identify any THREE types of coal based on the descriptions given in the table.

S. No.	Description	Type of coal
1	It is formed from decaying vegetation, and is considered to be the precursor of coal. When dehydrated, it becomes an effective absorbent for fuel.	
2	It is a low ranking and highly volatile coal which is used mainly in power stations. It is often referred to as brown coal.	
3	It is widely used in the manufacturing of briquettes, and is also used in power stations, for heat and power applications in manufacturing, and to make coke. It is a dense, sedimentary rock which is usually black in colour, but can sometimes be a dark brown.	
4	It is hard, black and glossy, and as a natural smokeless fuel, it is primarily used for residential and commercial space heating.	
5.	It is a high ranking coal and is difficult to ignite. It is rarely used as fuel. It is mostly used in pencils, and as a lubricant in its powdered form.	

Q.7. (Total 3 Marks)

Name any THREE railway stations of Pakistan that connect Pakistan with its neighbouring countries.

1. _____

2. _____

3. _____

Q.8. (Total 3 Marks)

Air transport serves markets and supply chains that demand speed. Perishable goods such as foods, flowers and medicines are transported using shorter transit time.

Apart from these merits, it has also few demerits. List any THREE demerits of air transportation.

_____

_____

_____

_____

_____

_____

Q.9. (Total 3 Marks)

Explain any THREE economic and geographic reasons for setting up a sugar industry near the sugarcane field.

Q.10. (Total 5 Marks)

a. There are two main agents who are responsible for the formation of soil: Wind and Water.

Describe the TWO major types of soil which are formed on the mentioned basis. (2 Marks)

Alluvium soil

Aeolian soil

b. Describe any THREE types of soil found in Pakistan. (3 Marks)

Indus basin soil

Bongar soil

Khaddar soil

Indus delta soil

April/ May 2019 for Teaching & Learning only

Q.11. (Total 5 Marks)

EITHER

a. During the first three quarters of 2017, fish exports of Pakistan showed an increase by 12.2 % in quantity and 15.09% in value as compared to last year. Despite of this, it is contributing only 0.41% of the country's GDP.

(Source: https://pakobserver.net/fisheries-exports-contribute-276-269m-national-kitty/ Pakistan Observer, Economy Watch, July 31, 2017)

i. Write any TWO reasons for such a low share of fishing industry in Pakistan. (2 Marks)

ii. Suggest any THREE ways for improving the portion of fishing industry in Pakistan's GDP (gross domestic product). (3 Marks)

OR

b. Pakistan's current federal government plans to launch its own Green Pakistan programme. It aims to plant 10 billion trees in five years across the country.

With reference to the given statement, describe any FOUR effects of such vegetation to the economy of Pakistan. (5 Marks)

April/ May 2019 for Teaching & Learning only

Q.12. (Total 5 Marks)

EITHER

a. Modes of transportation play a vital role in the world trade and economic activities.

With reference to this statement, write THREE merits and TWO demerits of any ONE of the following:

- Railways
- Roadways
- Seaways

OR

b. Describe any FIVE factors that need to be considered before the establishment of an industry.

April/ May 2019
for
Teaching & Learning only

Q.13. (Total 6 Marks)

EITHER

a. Describe any FIVE factors responsible for the high growth rate of population in Pakistan.

OR

b. The population of the world has increased exponentially during 1920 to 2018. The increase in world population is three times greater than during the entire previous history of humanity. This increase in population is from 1.5 to 6.1 billion in just 100 years.

With reference to the given statement, discuss any THREE causes of such an increase in population globally.
