AGA KHAN UNIVERSITY EXAMINATION BOARD

Notes from E-Marking Centre on HSSC-II English Compulsory Annual Examinations 2025

Introduction

This document has been produced for the teachers and candidates of Higher Secondary School Certificate (HSSC) Part II English compulsory. It contains comments on candidates' responses to the 2025 HSSC-II Examination indicating the quality of the responses and highlighting their relative strengths and weaknesses.

E-Marking Notes

This includes overall comments on candidates' performance on every question and *some* specific examples of candidates' responses that support the mentioned comments. Please note that the descriptive comments represent an overall perception of the better and weaker responses as gathered from the e-marking session. However, the candidates' responses shared in this document represent some specific example(s) of the mentioned comments.

Teachers and candidates should be aware that examiners may ask questions that address the Student Learning Outcomes (SLOs) in a manner that requires candidates to respond by integrating knowledge, understanding and application skills they have developed during the course of study. Candidates are advised to read and comprehend each question carefully before writing the response to fulfil the demand of the question.

Candidates need to be aware that the marks allocated to the questions are related to the answer space provided on the examination paper as a guide to the length of the required response. A longer response will not in itself lead to higher marks. Candidates need to be familiar with the command words in the SLOs which contain terms commonly used in examination questions. However, candidates should also be aware that not all questions will start with or contain one of the command words. Words such as 'how', 'why' or 'what' may also be used.

General Observations

Candidates demonstrated varying levels of understanding and skills. In Constructed Response Questions (CRQs), many showed a good grasp of textual analysis, accurately providing textual details required by the questions. Some candidates grasped the concept of the main idea of the text especially Text A. On the other hand. Candidates were able to draw the similarities in Texts A and B.

It is also important to expose candidates to a broad range of concepts such as logical, cultural, social, and philosophical to enhance their critical thinking and understanding. Candidates should also be encouraged to develop strategic approaches to answering prompts, with a focus on meeting the specific requirements of each question. Finally, attention should be given to proper paragraphing and structured layout, aligning with recognised academic standards.

When teaching diverse SLOs, candidates should be exposed to key skills essential for reading comprehension, such as making inferences (both implicit and explicit), referencing, citing textual evidence, identifying the author's intent or purpose, analysing mood and tone, and evaluating the reader's response. They should be guided to present valid points clearly with sound reasoning.

In grammar instruction, emphasis should be placed on understanding the contextual and lexical aspects of cloze passages, with focused attention on all parts of speech, especially articles, verbs and conjunctions. Additionally, candidates must use the proper format, tone, and structure for professional

and formal writing tasks such as résumés, cover letters, and formal letters. Finally, when approaching essay writing, candidates must be guided in addressing both complex and specific topics with a clear understanding of tone, audience, effective paragraphing, logical sequencing of ideas, and well-reasoned arguments.

The following is a description of the task and skills required for fulfilment of those tasks.

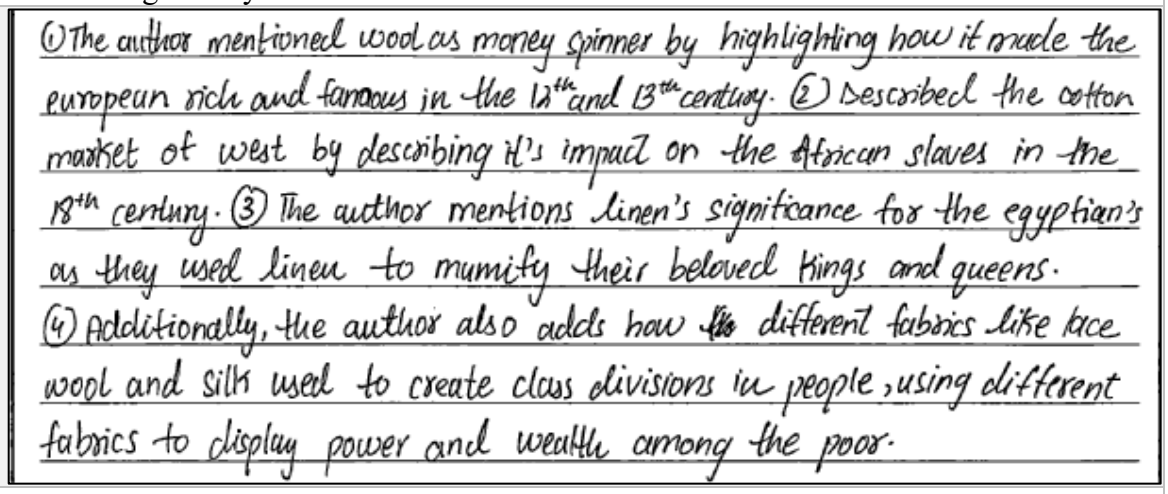

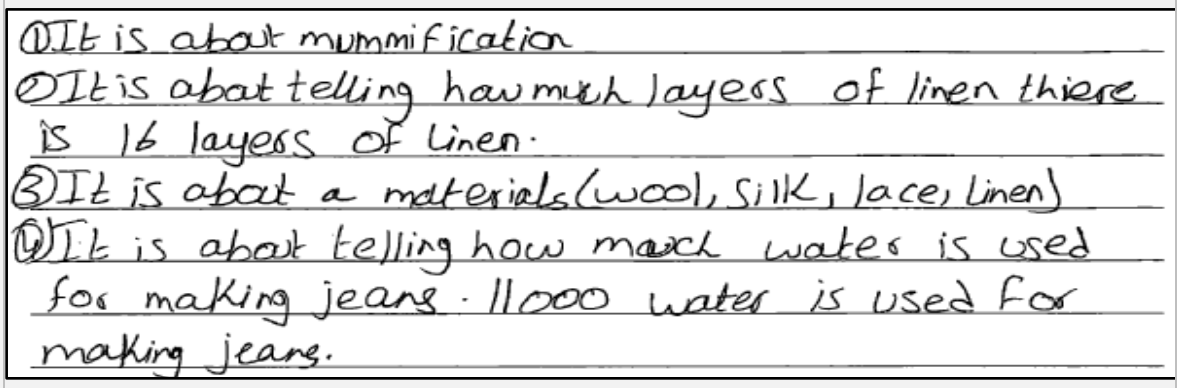

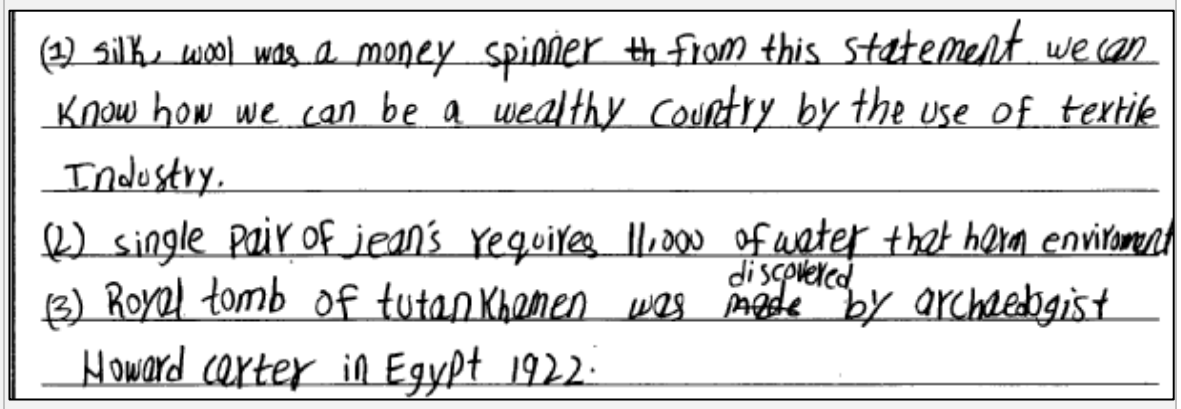

Question No	Question Type	Skills Assessed
1 (a, b, c, d, e)	CRQs on a reading passage	- Ability to understand a reading text on a literal level (main/ sub ideas) - Ability to understand a reading text on inferential level (opinions, evidence, reasoning, cause and effect, reading between the lines) - Reasoning skills
2	Cloze Passage	- Ability to read and understand the given text - Ability to provide missing information as per the context of a passage
3 (a, b) 4 (a, b, c)	Letter & Essay Writing	- Ability to develop a formal piece of writing with appropriate focus, organisation and purpose - Ability to describe, narrate, express, present the facts/ logic, explain the familiar topics/ situations - Ability to use accurate sentence structure. Connective devices, spellings, etc.

Note: Candidates' responses shown in this report have not been corrected for grammar, spelling, format, or information.

DETAILED COMMENTS

Constructed Response Questions (CRQs)

Question No. 1a	
Question Text	Mention any FOUR evidences in Text A that signify the use of historical information.
SLO No.	5.1.15
SLO Text	a. Analyse a situation: familiar events, situations and processes by identifying: i. Relational process: (relationship of cause and effect, comparison and contrast, problem and solution); ii. Opinions, facts, evidences, reasons and anticipating outcomes; iii. The relevance of an issue by relating it to personal or generalised experiences; b. Evaluate an argument: examine the credibility of an argument by: i. Evaluating the source of information and biases/ underlying assumptions; ii. Discussing the evidences given to support an argument; iii. Recognising cultural and historic relevance; iv. Evaluate the focus on logos (appeal to logic) as compared to pathos (appeal to emotions) or ethos (appeal to ethics).
Max Marks	4
Cognitive Level	*U
Checking Hints	1 mark for mentioning each evidence (4 required) Note: Do not award marks where candidates have mentioned the author's name or produced irrelevant answers or copied from the text.
Overall Performance	Overall, many candidates were able to achieve success provided evidences aligning with the criteria. Responses also highlighted the author's use of historical information, political, and cultural significance as well as environmental impact of fabrics and clothing. Overall observation also reflects candidates' limited exposure of citing evidences from passages as well as paraphrasing them in their own words, which can be mitigated by following relevant pedagogical strategies mentioned in the improvement rubric below.

Description of Better Responses	*Better responses* presented valid points with elaboration or paraphrased evidences from the text. They included the author's use of historical information highlighting fabrics significance in establishing social status in different centuries and civilisations, significance of fabrics on social classes and gender, and impact of such social norms in establishing slavery.
Image of Better Responses	 ① The author mentioned wool as money spinner by highlighting how it made the europeun rich and famous in the 13th and 13th century. ② Described the cotton market of west by describing it's impact on the African slaves in the 18th century. ③ The author mentions linen's significance for the egyptian's as they used linen to mumify their beloved kings and queens. ④ Additionally, the author also adds how ~~the~~ different fabrics like lace wool and silk used to create class divisions in people, using different fabrics to display power and wealth among the poor.
Description of Weaker Responses	*Weaker responses* presented either only one or no valid point at all such as not highlighting which textual details referenced to historical information. Instead, these responses only wrote what the text was about i.e., clothing materials.
Images of Weaker Responses	Example 01:  ①It is abaut mummification ②It is abaut telling haw much layess of linen thiere is 16 layess of Linen. ③It is abaut a materials(wool, silk, lace, linen) ④It is abaut telling how mauch wates is used for making jeans. 11000 water is used for making jeans.
	Example 02:  (1) silk, wool was a money spinner ~~th~~ from this statement we can know how we can be a wealthy country by the use of textile Industry. (2) single pair of jean's requires 11,000 of water that harm environment (3) Royal tomb of tutanKhamen was discovered ~~made~~ by archaeologist Howard carter in Egypt 1922.

Suggestions for improvement (Highlight all that apply)

Maximising SLO Achievement	Preferred Pedagogy** Used for this SLO	Assessment Strategies
• Identify the expectation of command words (use Command Word Guide) • Ensure the content is taught at the relevant cognitive level	• Story Board • Cause and Effect • Fish and Bone • Concept Mapping • Audio Visual Resources	• Past paper questions • Discussion on E-Marking Notes • AKU-EB Digital Learning Solution powered by Knowledge Platform https://akueb.knowledgeplatform.com/login

• Identify necessary content required (skills + concepts) • Review past paper questions on the concept • Utilise the resource guide for additional materials	• Think, Pair and Share • Knowledge Platform videos • Questioning Technique (Socratic approach) • Practical Demonstration ** For description of each Pedagogy, refer to Annexure A	
Any Additional Suggestion:		

*K = Knowledge U = Understanding A = Application and other higher-order cognitive skills

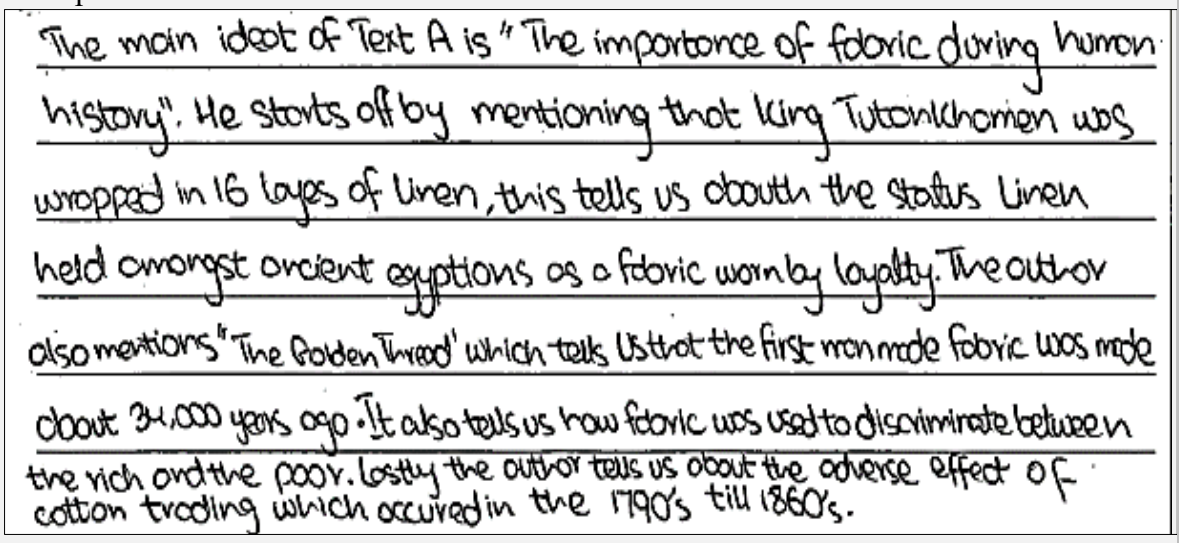

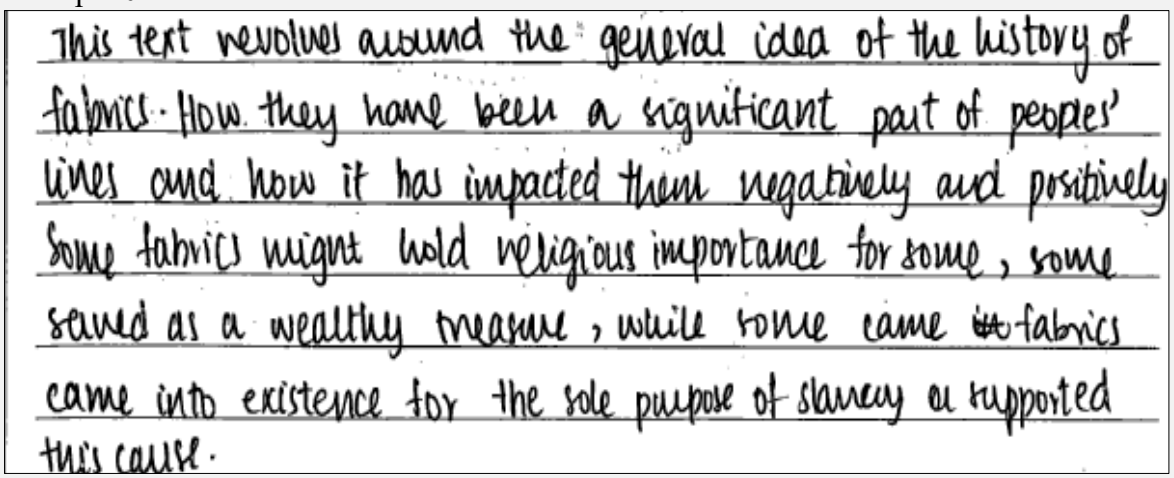

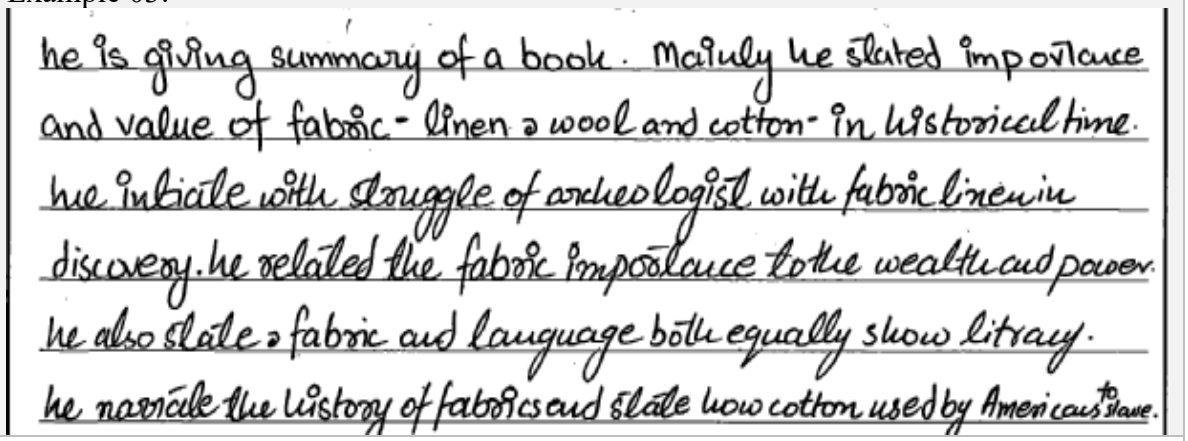

Question No. 1b	
Question Text	The author of Text A states that a single pair of jeans requires 11000 litres of water. This means that there are many fabrics and clothing items that pose a threat to the environment. Keeping in mind the issues of environment and the rising temperature of Earth, suggest TWO ways in which fashion can be made environmental friendly. Give a reason for each way.
SLO No.	5.1.6
SLO Text	Evaluate surface and implied meaning of a text by the help of contextual clues: a. Surface/ explicit meaning: respond to questions like who, what, where, when i.e. apparent phenomenon, issues or ideas. b. Implied meaning: respond to questions like why, how, to what extent i.e. underlying message, tone and motivation of author/ characters, possible outcomes/ solutions/ suggestions.
Max Marks	4
Cognitive Level	A
Checking Hints	1 mark for each way (2 required) 1 mark for giving a reason of each way (2 required) Note: 1. Do not award marks where the candidates have referred to one specific fabric without elaborating the need to mention the fabric. 2. Where the candidates have suggested a way out without understanding sustainability, do not award marks. 3. Award no marks if the candidate has copied from the text.
Overall Performance	Overall, candidates showcased good understanding of the questions and reflected good understanding of environmental sustainability. Overall observation also suggests that there were some candidates who could not grasp the concept of sustainability and environmental stability.
Description of Better Responses	Candidates with *better response*s successfully incorporated the theme of sustainability and environmental consciousness while staying aligned with the ideas presented in the passage. These responses often suggested practical approaches to reduce the negative environmental impact of fashion choices, such as promoting methods that support ecological stability. They also highlighted the importance of conserving natural resources like water during the design and production of fabrics and clothing. Additionally, the responses encouraged responsible consumer behaviour and the adoption of sustainable fashion practices.

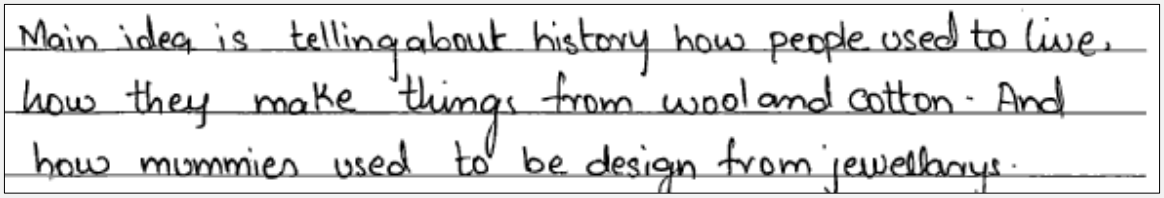

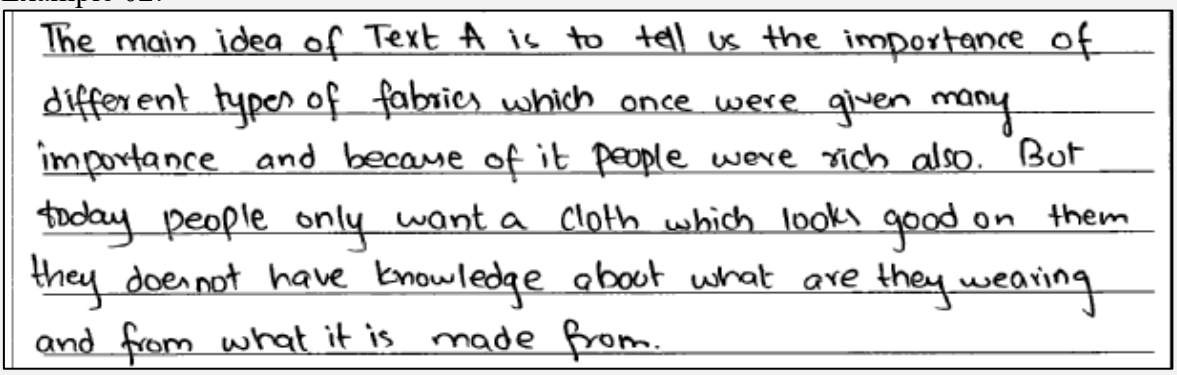

Image of Better Responses	1) Focus on the Element of Recycling : A study/research related to the darkside of fashion Industry says that half of the fashion products (cloths) are not sold and disposed in exact condition so I believe that excess material should be Recycled so It will control the transformation of raw products, minimizing use of machine ultimately reducing land and Air pollution (2) Selection of raw material : Instead of selecting harmful synthetic and artificial fibers Industries should focus on creating hand weaven/knitted fashion products reducing harmful toxicants in environment also It will control dependency on natural raw material like animal wool
Description of Weaker Responses	*Weaker response*s reflected presented points that did not take sustainability in account. These responses focused on the traditional clothing of various countries and ways to promote them. Some of the responses copied points from the text.
Images of Weaker Responses	Example 01: Each country, City. Area has their own tradition, Culture, way of living & ways of wearing different clothes. Everyone has their right to wear whateves they want to. Traditional Clothing represents ours culture & promotes ours culture. Each clothes represents culture. Like. Pakistan's traditional clothes fashion is shalwar & khameez which represents Pak. Example 02: * "Single pair of jeans requires 11000 litres of water" jeans are made up by cotton if if used more jeans in our daily life it would be difficult to maintain water in our earth. * used such clothing which does not need more amount of water, by this we can meintain of eevrth temperature.

• Identify the expectation of command words (use Command Word Guide) • Ensure the content is taught at the relevant cognitive level • Identify necessary content required (skills + concepts) • Review past paper questions on the concept • Utilise the resource guide for additional materials	• Story Board • Cause and Effect • Fish and Bone • Concept Mapping • Audio Visual Resources • Think, Pair and Share • Knowledge Platform videos • Questioning Technique (Socratic approach) • Practical Demonstration	• Past paper questions • Discussion on E-Marking Notes • AKU-EB Digital Learning Solution powered by Knowledge Platform https://akueb.knowledgeplatform.com/login
Any Additional Suggestion:		

Question No. 1c	
Question Text	Describe the main idea of Text A in your OWN words. Note: Avoid using or copying entire sentences or phrases from the text in your answers.
SLO No.	5.1.5
SLO Text	Discuss theme, main idea and supporting details.
Max Marks	3
Cognitive Level	U
Checking Hints	2 marks for describing the idea (1 mark for only identifying) 1 mark for using OWN words Note: Do not award marks if the candidate adds on information from the text or other sources rather than describe the main idea or has copied from the text.
Overall Performance	Overall, the question was approached with difficulty in comparison to other questions, but some responses reflected solid understanding of main idea and skill of paraphrasing the concept. Comparatively, few candidates were able to identify Text A as a review or author's intention to present information in relation to the theme of the Text.
Description of Better Responses	*Better responses* demonstrated a competent understanding of the question and effectively incorporated valid points clearly identifying the main ideas of the text, particularly emphasising the significance of the historical information provided. They also explored the impact of clothing fabrics on culture, human lifestyle, and the environment, showing an awareness of the broader implications of the topic. Additionally, these responses included well-reasoned explanations for identifying Text A as a book or article review, supported by relevant textual features and analytical insights.

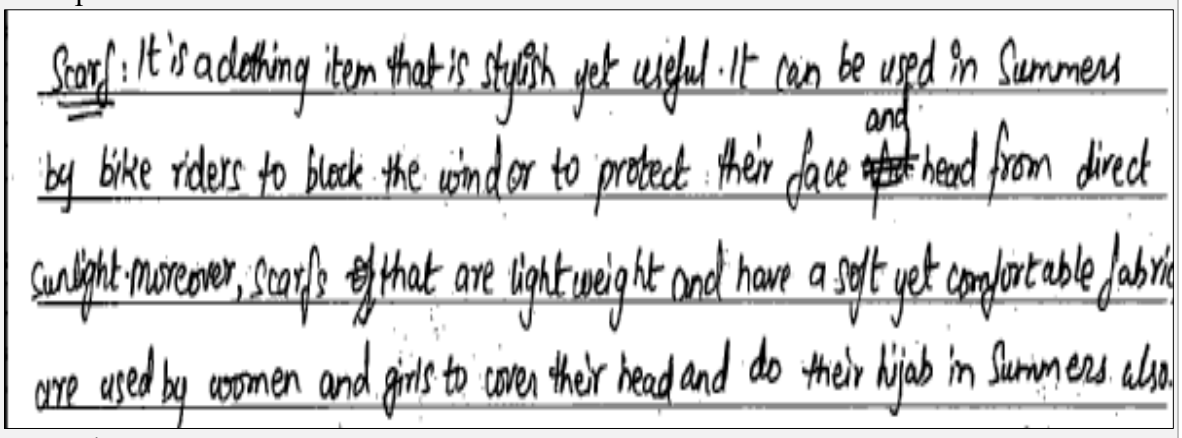

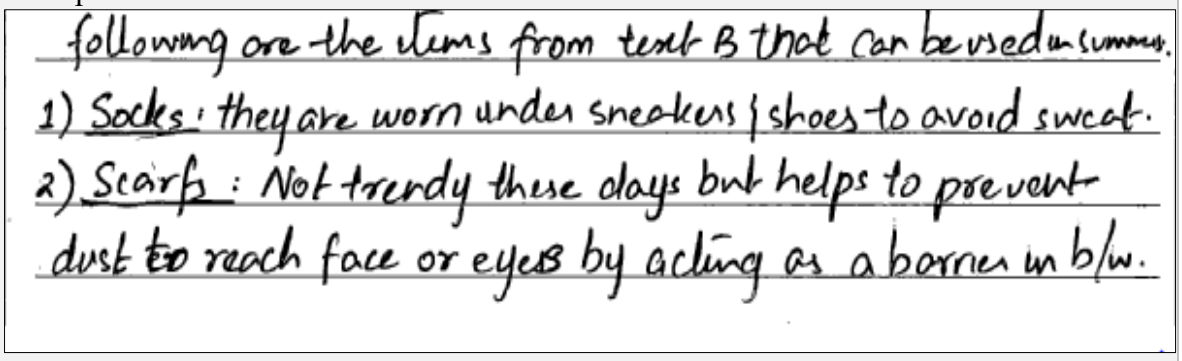

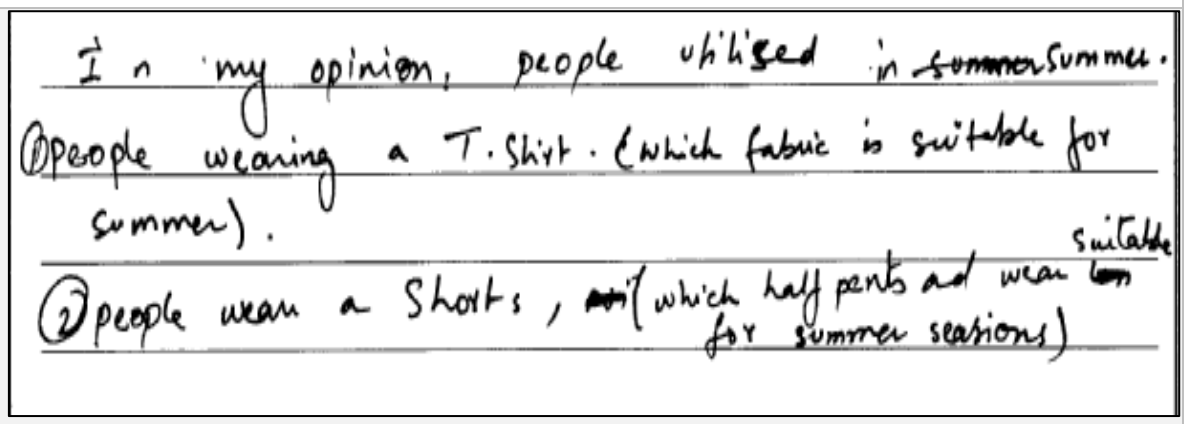

Images of Better Responses	Example 01:  The main idea of Text A is "The importance of fabric during human history". He starts off by mentioning that King Tutankhamen was wrapped in 16 layes of linen, this tells us about the status linen held amongst ancient egyptians as a fabric worn by loyalty. The author also mentions "The Golden Thread" which tells us that the first man made fabric was made about 34,000 years ago. It also tells us how fabric was used to discriminate between the rich and the poor. Lastly the author tells us about the adverse effect of cotton trading which occured in the 1790's till 1860's. Example 02:  This text revolves around the general idea of the history of fabrics. How they have been a significant part of peoples' lives and how it has impacted them negatively and positively Some fabrics might hold religious importance for some, some served as a wealthy treasure, while some came ~~in~~ fabrics came into existence for the sole purpose of slavery as supported this cause. Example 03:  he is giving summary of a book. Mainly he stated importance and value of fabric - linen & wool and cotton - in historical time. he intricate with struggle of archeologist with fabric linen in discovery. he related the fabric importance to the wealth and power. he also state a fabric and language both equally show litracy. he narrate the history of fabrics and state how cotton used by Americans to slave.
Description of Weaker Responses	*Weaker responses* presented invalid points, giving specific information from the text assumed as a main point. Other responses also added personal opinions and external information from outside the text such as ways people used to live and changes from the past to the present.

Images of Weaker Responses	Example 01:  Main idea is telling about history how people used to live, how they make things from wool and cotton. And how mummies used to be design from jewellarys. Example 02:  The main idea of Text A is to tell us the importance of different types of fabrics which once were given many importance and because of it people were rich also. But today people only want a cloth which looks good on them they doesnot have knowledge about what are they wearing and from what it is made from.

Any Additional Suggestion:		

Question No. 1d	
Question Text	Text B shows some of the clothing items people use in winters. In your opinion, which item from the text can be utilised by people in summers and how?
SLO No.	5.1.8
SLO Text	Evaluate the issues/ ideas presented in the text with examples from everyday life.
Max Marks	2
Cognitive Level	A
Checking Hints	1 mark for identifying item 1 mark for giving the reason Note: Do not award marks if the candidate has copied from the text.
Overall Performance	Overall observation suggests lack of exposure or limited understanding of the question among candidates who viewed the clothing items to be worn in winter's only or listed other clothing items to be worm in summers which were not in the text.

Description of Better Responses	Candidates who provided *better responses* effectively selected items from Text B that could also be worn in summer, offering relevant suggestions and clear reasoning to support their choices. Many responses stood out by not only presenting more than one suitable item but also by highlighting the relevance and relatability of these items. The responses' thoughtful incorporation of personal, cultural, and social observations added depth and validity to their reasoning.
Images of Better Responses	Example 01:  Scarf: It's a clothing item that is stylish yet useful. It can be used in Summers by bike riders to block the wind or to protect their face and head from direct sunlight. moreover, Scarfs that are light weight and have a soft yet comfortable fabric are used by women and girls to cover their head and do their hijab in Summers also. Example 2:  following are the items from text B that can be used in summers. 1) Socks: they are worn under sneakers / shoes to avoid sweat. 2) Scarfs: Not trendy these days but helps to prevent dust to reach face or eyes by acting as a barrier in b/w.
Description of Weaker Responses	*Weaker responses* presented invalid points, identifying items outside Text B that in their opinions were appropriate for the summers such as t-shirts or shorts.
Images of Weaker Responses	 In my opinion, people utilized in ~~summer~~ Summer. ① people wearing a T-Shirt. (which fabric is suitable for summer). ② people wear a Shorts, ~~not~~ (which half pants are wear suitable for summer seasons)

Any Additional Suggestion:		

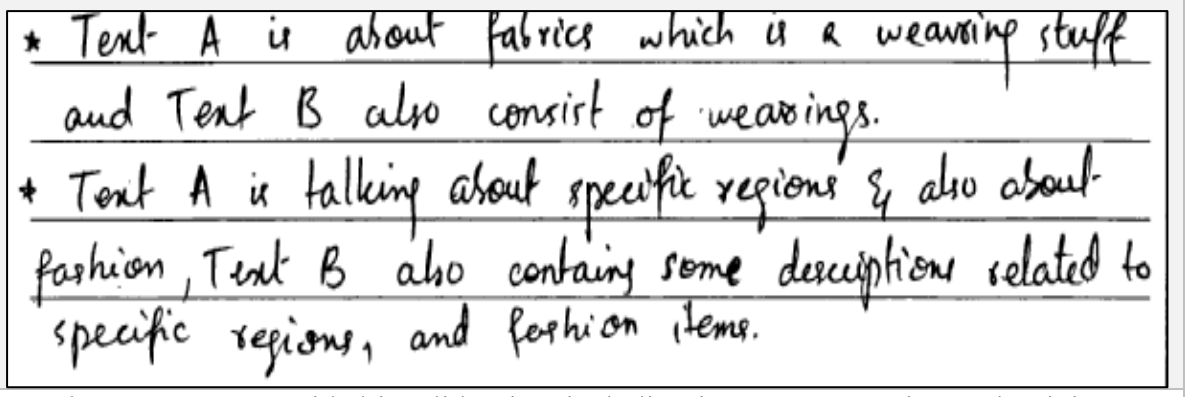

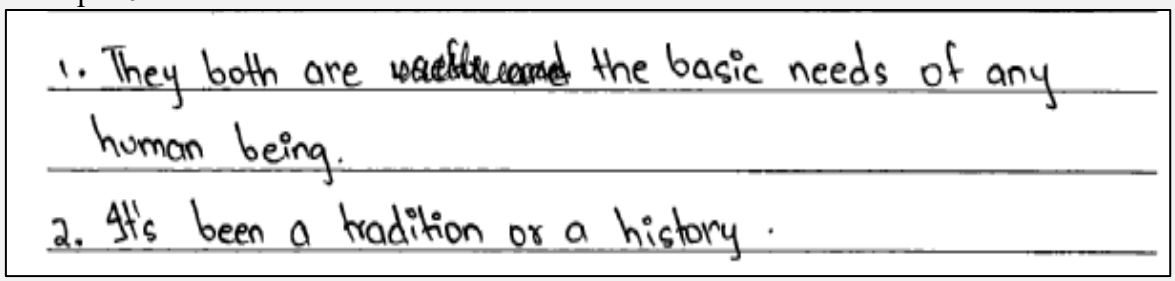

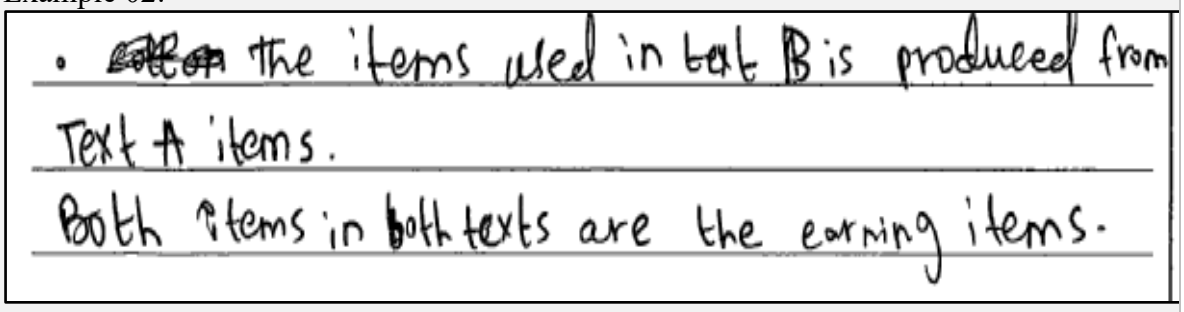

Question No. 1e	
Question Text	State, in TWO points, how the information is presented in Text B.
SLO No.	5.1.5
SLO Text	Discuss theme, main idea and supporting details.
Max Marks	2
Cognitive Level	U
Checking Hints	1 mark for stating each point (2 required) Note: Do not award marks if the candidate has mentioned their opinion about the text or has copied from the text.
Overall Performance	Overall, candidates provided reasonable commentary on the structure and form of Text B, demonstrating an understanding of its layout and the presentation typical of the text type. Many responses also addressed the impact of the text's presentation and information on the intended audience.
Description of Better Responses	*Better responses* presented ways in which the information is presented in Text B. These responses included thoughtful commentary on the language used and the structure of the information presented in the text. Some even identified the text as either pictorial, infographic or a checklist which was not the required by the question.

Images of Better Responses	Example 01: → The information is presented there in pictorial form which is so eye catching and intresting. → Easy lenguage is use, rather than to deliver the information, rather them complex sentenses or wordings. Example 02: ① Information in text B is presented in pictorial way with pictures to make it easy to understand. ② It is in a checklist format as a reminder to keep all these things for a comfortable winter and text is precise. Example 03: In text B, the infosmation is presented in the fosm of an infogaphic. It includes ① small, consice pasagraphs about the different types of clothing common in winters, and, ② graphical drawings/pictures of the described clothing item that aids the reader in effective visualization of the content.
Description of Weaker Responses	*Weaker responses* included invalid points, incorrect reasoning or opinions. In other weaker responses, candidates rather than identifying structural features of text B, presented elaboration of the theme of the text.
Images of Weaker Responses	Example 01: Text B states the use of all winter essential clothing items which includes, Toque which is our head warm Boots, and socks that would keep the cold away from our feet, Gloves to keep hands warm, Jacket to keep our body warm. Scarf adds a bit of fashion and closes the space for cold windflow into jacket. Example 02: our bodies are sensitive towards temperature, all winter wearing are shown to maintain good body temperature and to make sure the safety of body from external physical substance, as like by Boots.

Question No. 1f	
Question Text	Draw any THREE similarities between Texts A and B.
SLO No.	5.1.4
SLO Text	Synthesise information (treatment, scope and organisation of ideas) from two texts based on the same theme/ topic.
Max Marks	3
Cognitive Level	A
Checking Hints	1 mark for each similarity (3 required) Note: Do not award marks if the candidate has mentioned their opinion about the texts. Do not award marks if the candidate has copied from the text.
Overall Performance	Overall, candidates were able to draw similarity between both the texts, showcasing understanding of the theme and idea presented in them. Overall observation also suggests that many candidates did not take in consideration the nature of question or theme of the texts.
Description of Better Responses	B*etter responses* were able to successfully draw similarities between text A and B such as the mutual theme of both texts revolves around fabrics, its origins, and usage. The responses also elaborated on the similar features or text types, which contribute to the texts' comparable tone and purpose. They also commented on the texts' alignment in style and structure reflecting a consistent approach in delivering information, while suggesting that the tone and intent of both texts appear to be closely related i.e., they aim to inform or engage the reader in a similar manner.
Images of Better Responses	Example 01: 

	Example 02:  * Text A is about fabrics which is a weaving stuff and Text B also consist of weavings. * Text A is talking about specific regions & also about fashion, Text B also contain some description related to specific regions, and fashion items.
Description of Weaker Responses	*Weaker responses* provided invalid points including incorrect reasoning and opinions. In other weaker responses, candidates presented redundant elaboration based on information outside the presented text such as their own opinions about clothing items and ways in which the texts could have been better written.
Images of Weaker Responses	Example 01:  1. They both are ~~wearing~~ the basic needs of any human being. 2. It's been a tradition or a history. Example 02:  • ~~Both~~ The items used in text B is produced from Text A items. Both items in both texts are the earning items.

Extended Response Questions (ERQs)

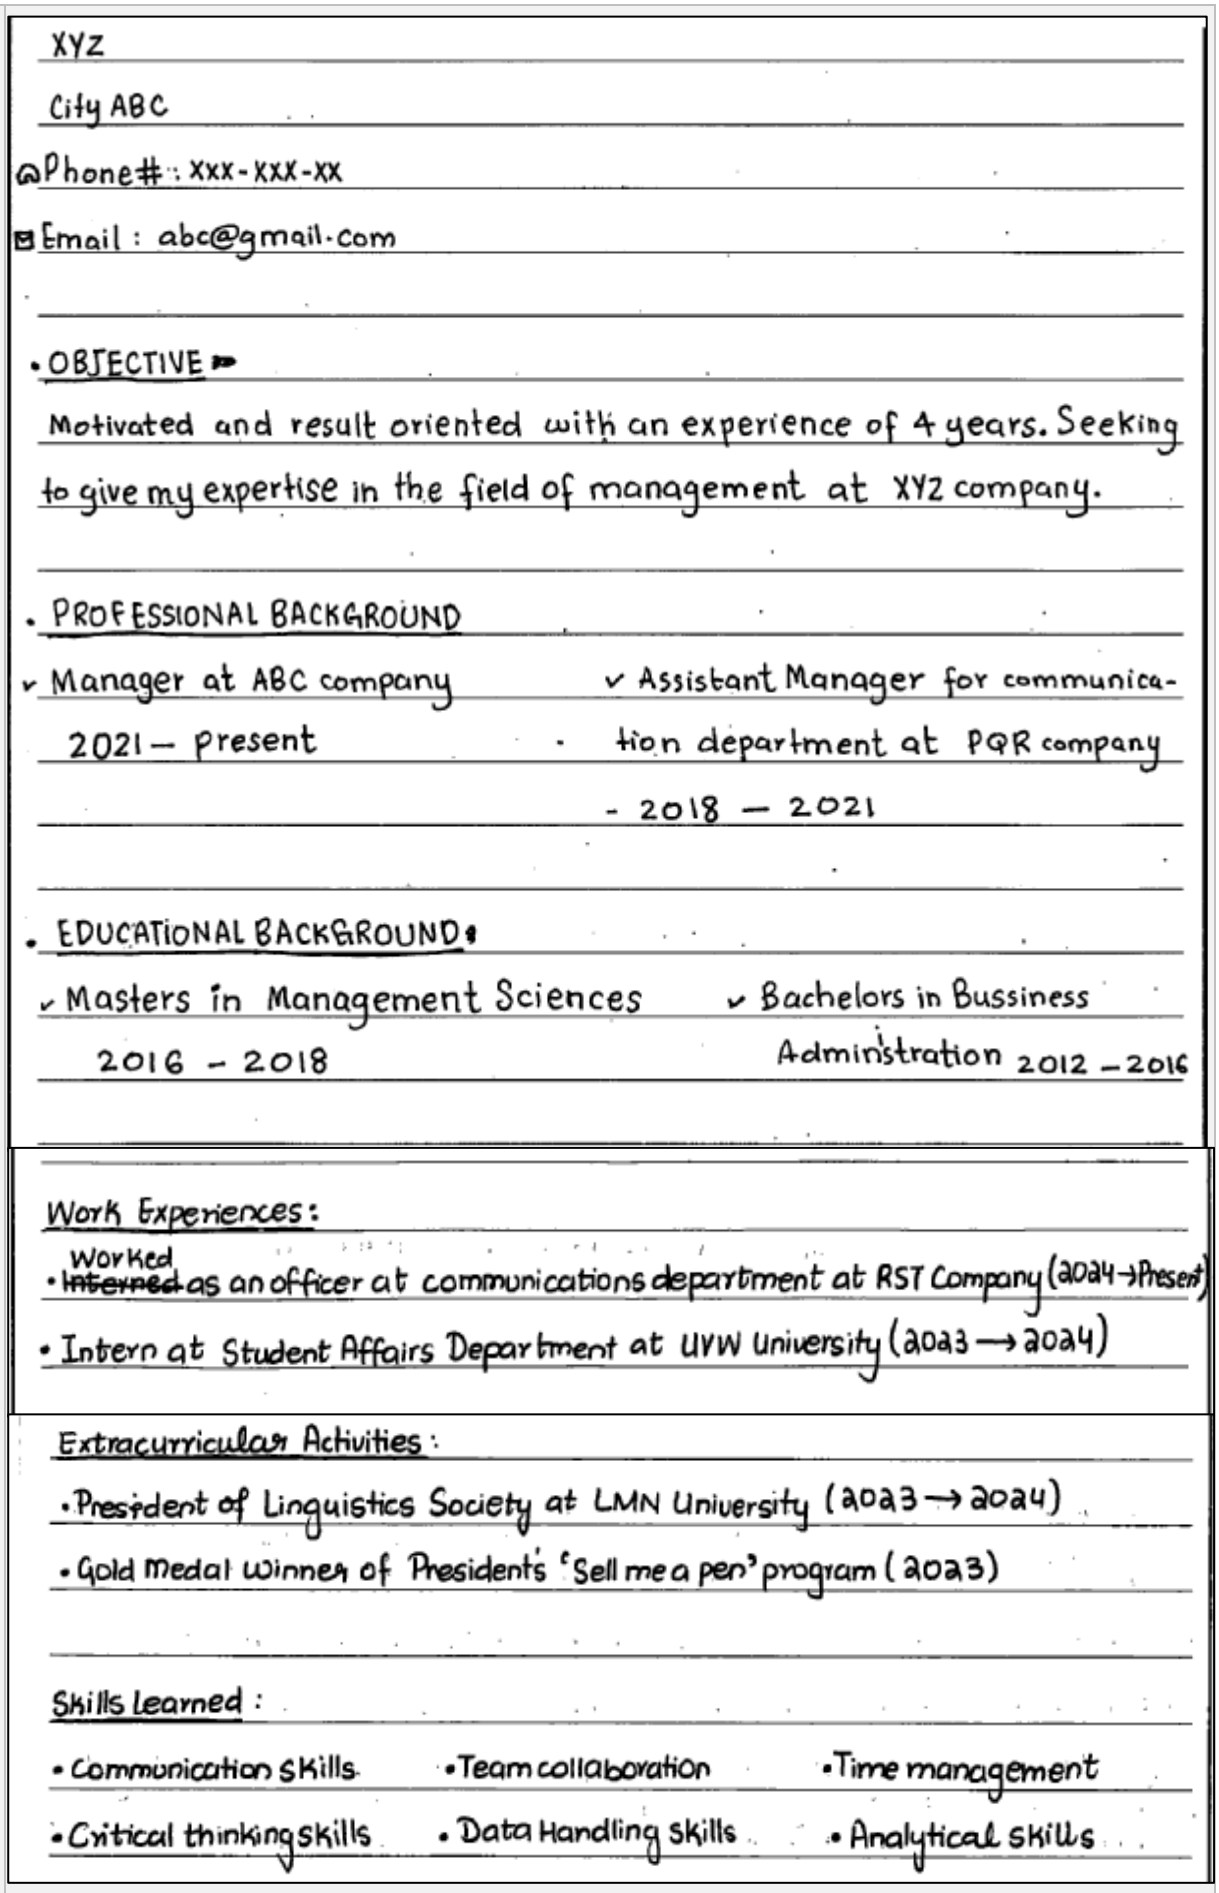

Extended response questions offered a choice between parts 'a' and 'b' in Q.3;

and between parts 'a', 'b', and 'c' in Q.4.

Question No. 3a	
Question Text	A reputable law firm is looking for a manager for its communications department. Compose a resume and a covering letter for the mentioned job vacancy. In your letter, - discuss TWO skills or previous experiences that show your suitability for the role. - describe a certified course or training you have taken that are aligned with the job description.
SLO No.	6.1.5
SLO Text	Write résumé and covering letter (in response to a job advertisement).
Max Marks	15
Cognitive Level	A
Checking Hints	**Content Relevance: 5 Marks** 1 mark for following the format of a resume (Objective/ Personal Statement, Academic Achievement, Professional Experience, Relevant Skills (Soft/ Technical), References) 1 mark for following the format of a letter (From, Date, To, Salutation, Body Paragraphing, Complimentary Close) 1 mark for discussing each skill or previous experience (2 required) (1 mark for only stating) 1 mark for describing certified course or training **Language Accuracy: 4 Marks** 1 mark for accuracy of spelling (at most three errors) 1 mark for the correct use of tenses (at most three errors) 1 mark for the agreement of subject and verb (at most three errors) 1 mark for placing punctuation marks appropriately: full stops, capital letters (where needed), commas and colon (at most three errors) **Impression: 6 Marks** Good (5-6) • Ideas are clearly expressed in a wide range of effective and/or interesting language. Ideas are expressed in a logical sequence. • Content reflects appropriate vocabulary, informal tone and style to take into account the nature of relationship with, and the interests of, the recipient. • A variety of sentence structures is used, mostly with control, in all paragraphs. • A range of connectives (if, because, and, but etc.) and cohesive markers (nevertheless, moreover, and therefore etc.) are used to provide details and expand ideas. Average (3-4) • Ideas are expressed clearly but comparatively the expression is plain or there are redundant phrases. • Content reflects appropriate vocabulary, style and tone but usually the ideas are not well connected or the relationship with the recipient is not taken into account. • A variety of sentence structures is used with moderate accuracy / internal consistency. • Few connectives are used to provide details and expand ideas. Below Average (1-2) • Sentence structures and language are repetitive or unclear and there are various errors.

	• Content represents generalized, redundant or disconnected ideas. The style, tone and vocabulary are inappropriate. • Ideas are difficult to interpret because of flawed language. • No internal cohesion or consistency observed.
Overall Performance	This was a popular choice amongst the candidates and overall, they demonstrated well-structured writing that reflected an understanding of the formal and professional nature of résumés and cover letters. Many showed familiarity with résumé formats, soft and hard skills, and job descriptions across various careers. However, some responses revealed limited understanding of the question, tone, structure, and requirements of the task.
Description of Better Responses	*Better responses* demonstrated strong résumé and cover letter writing skills, producing well-organised, structured, and coherent content. These responses used appropriate vocabulary, sentence structure, and tone in line with the formal and professional nature of the prompt. Candidates effectively incorporated key résumé components such as job objectives, work experience with specific tenures, educational background, relevant skills (both soft and hard), certifications, awards, and references. Many also included modern, in-demand skills such as human resource management, AI proficiency, data analysis, critical thinking, and language skills.

GHI Law Firm

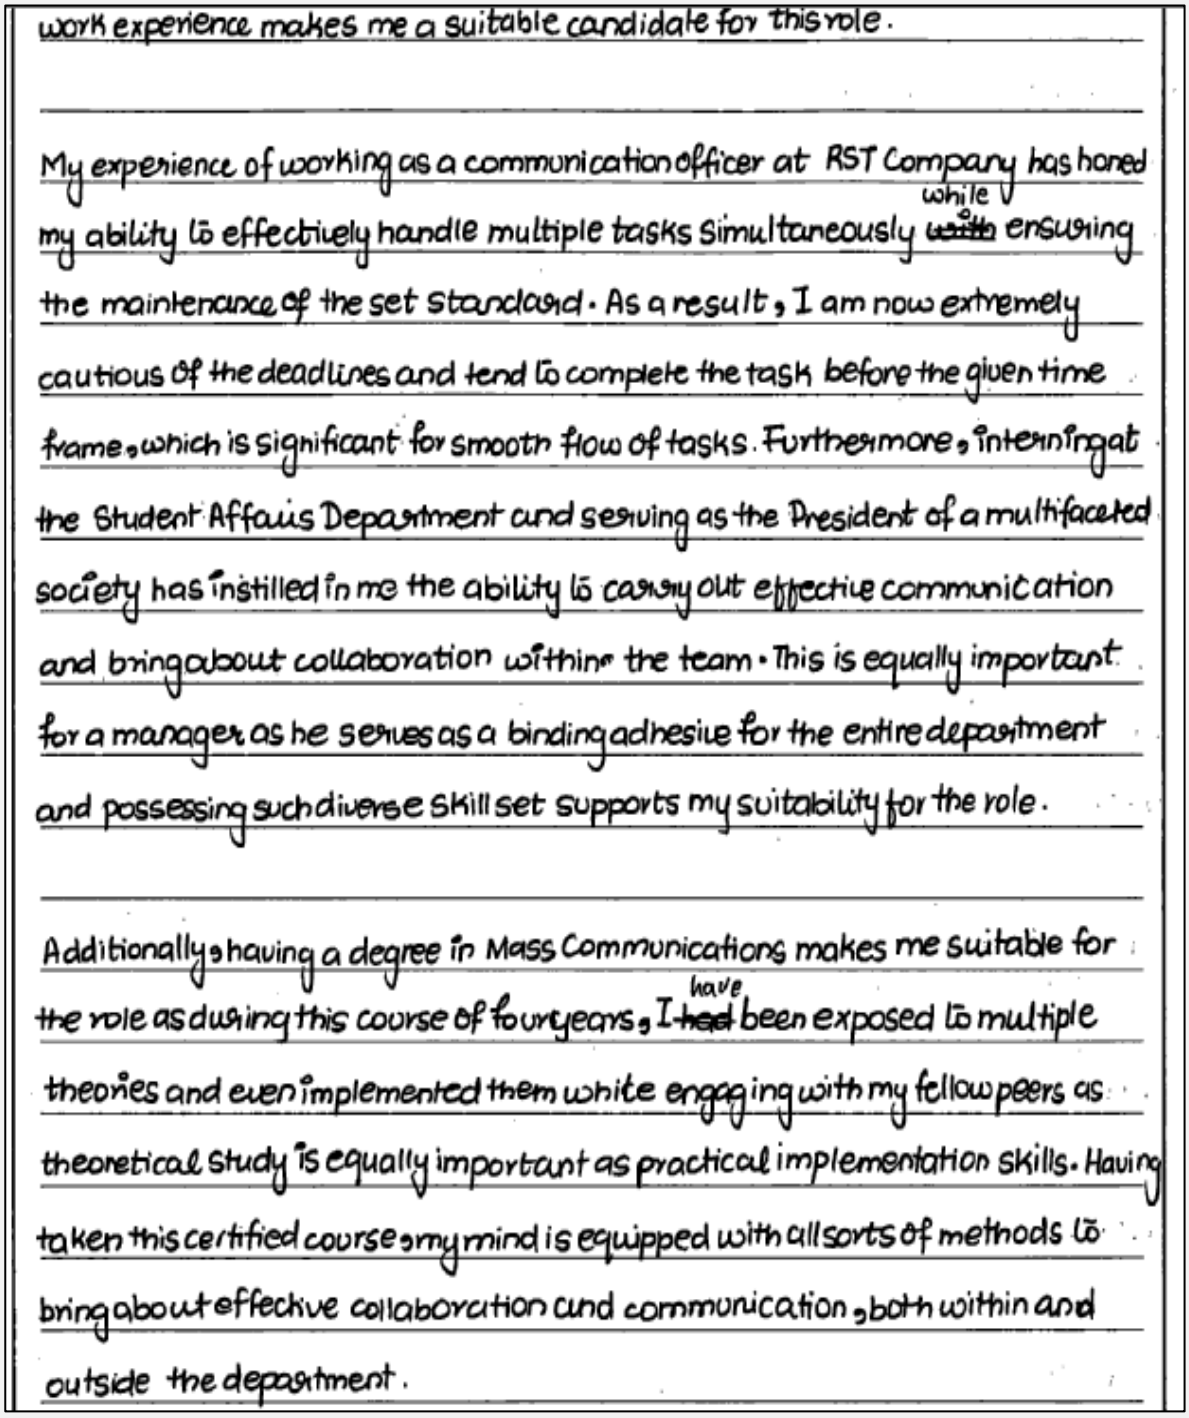

CDE Road

Karachi

Dear Sir,

Re: Application for the post of manager of communications department.

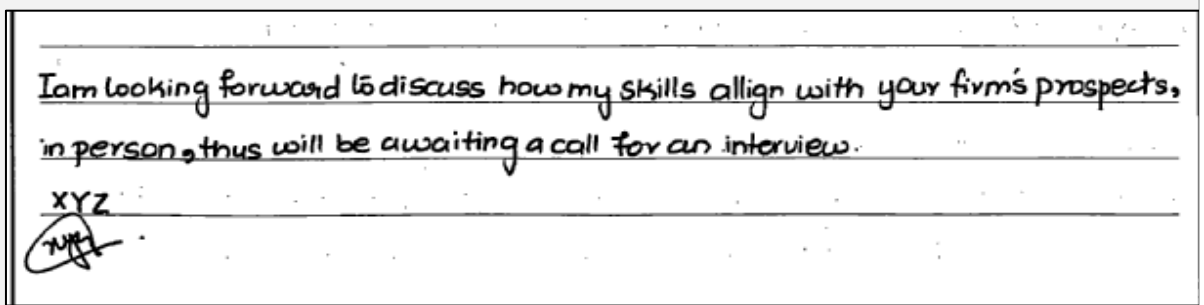

I am writing this to express my profound interest regarding the post of a manager for the communications department, as advertised. Despite being new to the professional world, my academic background complemented by my

work experience makes me a suitable candidate for this role.

My experience of working as a communication officer at RST Company has honed my ability to effectively handle multiple tasks simultaneously while ensuring the maintenance of the set standard. As a result, I am now extremely cautious of the deadlines and tend to complete the task before the given time frame, which is significant for smooth flow of tasks. Furthermore, interning at the Student Affairs Department and serving as the President of a multifaceted society has instilled in me the ability to carry out effective communication and bring about collaboration within the team. This is equally important for a manager as he serves as a binding adhesive for the entire department and possessing such diverse skill set supports my suitability for the role.

Additionally, having a degree in Mass Communications makes me suitable for the role as during this course of four years, I have been exposed to multiple theories and even implemented them while engaging with my fellow peers as theoretical study is equally important as practical implementation skills. Having taken this certified course, my mind is equipped with all sorts of methods to bring about effective collaboration and communication, both within and outside the department.

I am looking forward to discuss how my skills align with your firm's prospects, in person, thus will be awaiting a call for an interview.

Subject:- Applying for a Job.

Respected Sir/Madam;

~~I am a citizen of~~

I'm xyz, a citizen of xyz of your area. looking for a Job., ~~vacancy~~ As I saw the Job vacancy which you had ~~as~~ printed on the dawn news, I applyed for the Job because I think I would be the best person or best employe. for this Job, because I have good communication skills, I can handle people easily with my good quality of communication skills. I know how to handle people ~~with~~ who are hyper or both who are polite or impolite.

The previous job I did the experience was great ~~with her~~ because I work with them since 2020 almost 5 years the job were best for me and ~~I was~~ I was also happy because the Salary package and the boss both were amazing.

I ~~left~~ resigned from there because I ~~migrate from the Is~~ shifted from the area to the area and it ~~were~~ was very load for me that I resigned because ~~their~~ were many issue it was very long-distance from my & home. I work ~~thetr~~ there with ~~equed~~ for 5 years ~~with~~ my behavior with them were very good I respect all of them. I'm very friendly with everyone and I know how to work and I ~~can~~ cannot compromise with my work.

The certified course which I had done are → English language, ~~good~~ Communication Skills, how to handle with different kind of people. As you know communication skills are very important ~~for to~~ to handle people, there are different kind of communication skills, bad, good etc. As I also had a training on manager post in which they told us about our work about our post as ~~to~~ as they told us before we should do ~~our~~ hard work for this vancancy, to do ~~there~~ our work with justice and they also told us about the ~~persuded~~ Job we have to do with good communication skill. I think I would be the best for this job.

I will be grateful to you if you approved my job vacancy letter.

Yours Sincerly

Subject: "The future of hybrid learning in Pakistan – bright or doomed?"

The rapid digitalization of our world has introduced many new concepts in our lives, like automated banking, social media, automatic services, etc. One such concept is "Digital learning". While complete digital learning isn't implemented everywhere, 'hybrid learning' – a mixture of traditional and digital learning – has taken over our world. Now, every educational institute is introducing digital learning and looking for ways to incorporate it into their curricula. This is leading to advancements in education and curating new pathways for discovery. Now the question arises, that what is the future of Pakistan in terms of hybrid learning?

Hybrid learning involves the utilization of digital resources in physical classrooms. It effectively combines the benefits of digital learning with education without depriving learners of their familiar [redacted] environment of traditional learning. Hybrid learning comes with [redacted] a vast corpus of advantages for both students and teachers. It allows for easy acquisition

advantages for both students and teachers. It allows for easy acquisition of resource material which is pretty useful in Pakistani classrooms. Pakistan being a developing country does not possess enough of a budget to accomodate all of its student population with proper learning material. With the help of hybrid learning, students can study through online books and videos in their classrooms. Teachers can also provide the students with learning resources from many useful websites on the internet, while the students can use platforms like Microsoft office, Canva, etc. to display their learning.

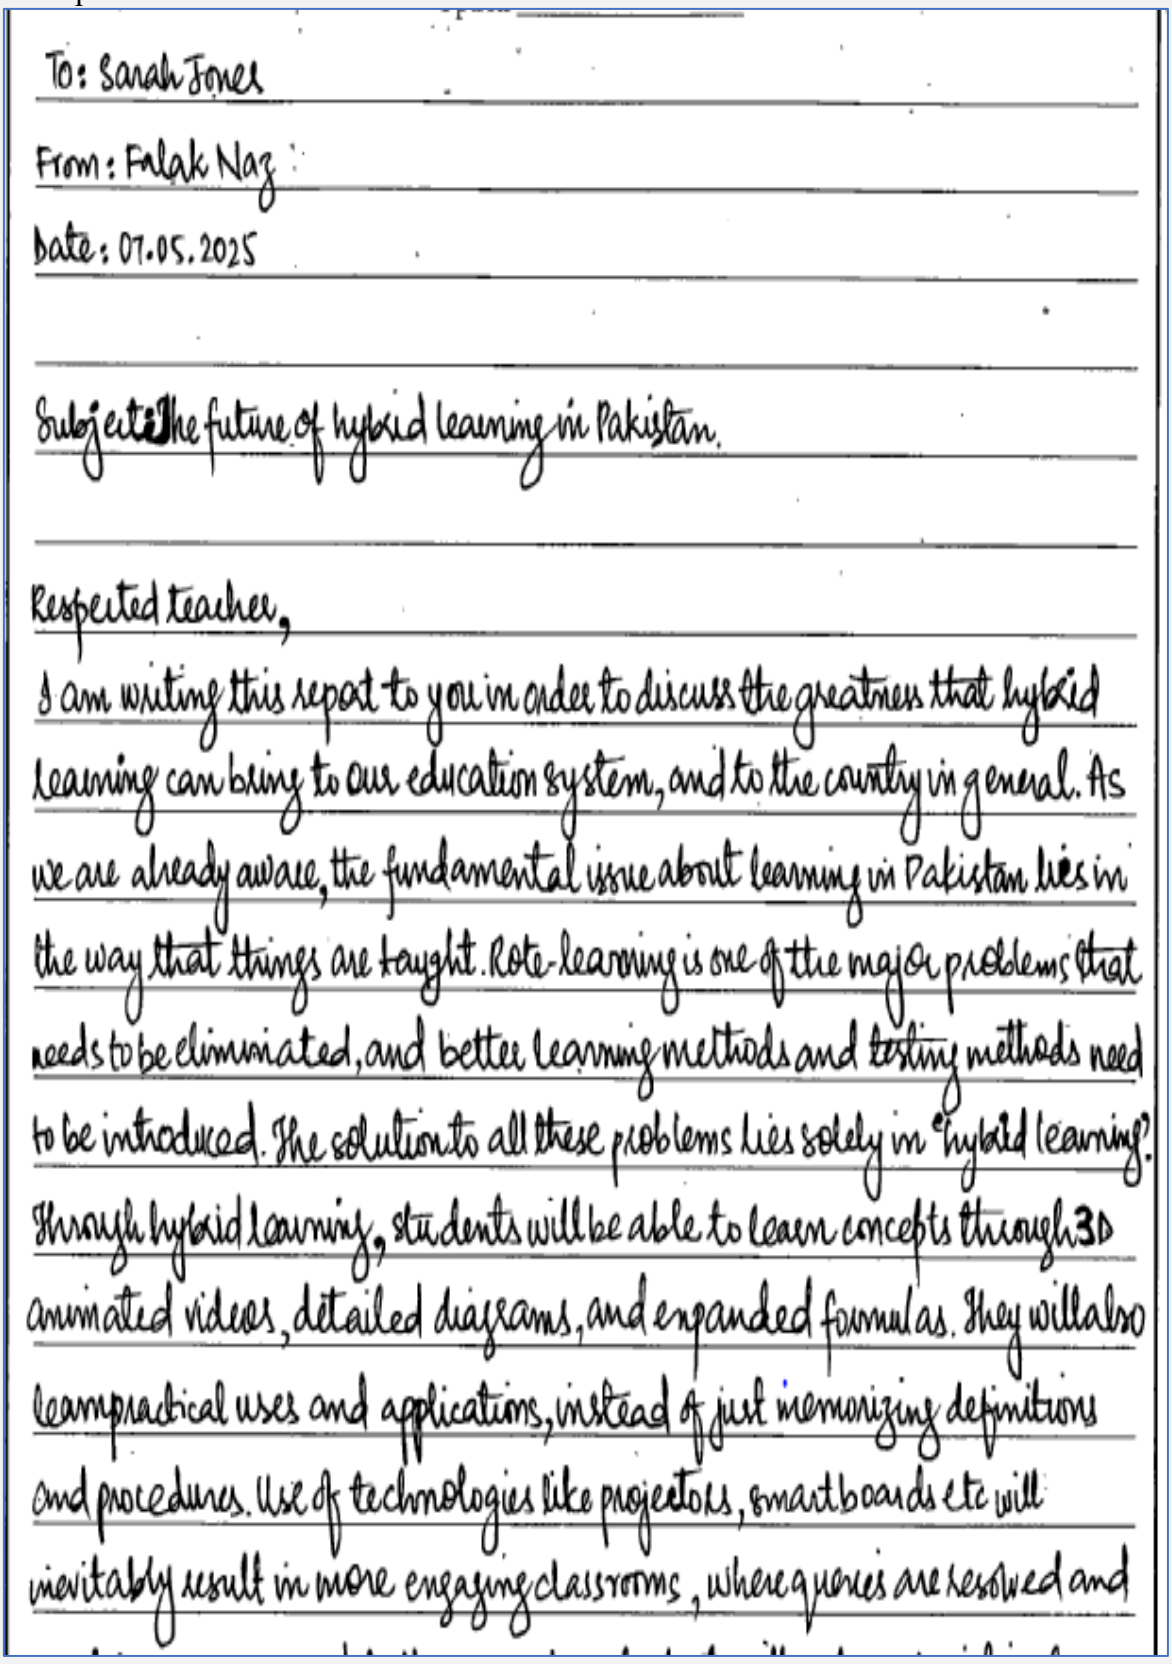

All of these benefits are pretty eye-catching, but this educational ease also comes with some challenges. The use of online resources in classrooms can lead to plagiarism in assignments. This can lead to dependence on online materials for work, and it also undermines a student's natural intellegence. It also poses risk to effective grading, in higher education sectors like high schools and universities, if the students plagirize their assignments.

To prevent these problems and address these challenges, educational institutes should regulate the inclusion of online learning in the classrooms. ① Restricted access lying only with the teacher can effectively regulate honest work performance. ② Transparency, when it comes to the usage of online materials will also be beneficial in preventing the students from plagiarism. ③ Limited access to online sites and prohibiting the use of AI in assignments can also lead to overcoming the formerly mentioned challenges.

In conclusion, I believe that hybrid learning is the need of our time. It can significantly alter our progress and help us reach new heights, but its use should be regulated, to prevent from unethical usage of online resources, and to promote ethical learning.

Yours' faithfully,

Example 02:

To: Sarah Jones

From: Falak Naz

Date: 07.05.2025

Subject: The future of hybrid learning in Pakistan.

Respected teacher,

I am writing this report to you in order to discuss the greatness that hybrid learning can bring to our education system, and to the country in general. As we are already aware, the fundamental issue about learning in Pakistan lies in the way that things are taught. Rote-learning is one of the major problems that needs to be eliminated, and better learning methods and testing methods need to be introduced. The solution to all these problems lies solely in "hybrid learning". Through hybrid learning, students will be able to learn concepts through 3D animated videos, detailed diagrams, and expanded formulas. They will also learn practical uses and applications, instead of just memorizing definitions and procedures. Use of technologies like projectors, smartboards etc will inevitably result in more engaging classrooms, where queries are resolved and

from their instructors. They can also use tactics like summarising long papers, making effective flashcards for quick revision, and make use of their photographic memories through AI tools.

Hybrid learning will also bring ease to teachers and instructors. They will be able to plan ~~too~~ and deliver lectures ~~more~~ effectively, inserting images and videos and using references from multiple online websites and books. They will also be able to conduct tests, quizzes, and other exams online, ensuring fair conduction and correction. Students and teachers won't have to carry heavy bags and books, since most of the data will be available offline.

One challenge that Pakistani students and teachers may face is the unavailability of resources and lack of technical knowledge. Most Pakistani schools and colleges, especially public ones do not ~~possess~~ acquire the kind of fianances required to support hybrid learning. This is due to the fact the education sector is not allocated the budget it actually requires, and even the allocated budget goes in the hands of corrupt officers. The government should increase the budget allocated to education by at least 40%, and make sure that there is a check and balance on where it is spent, and whether it is spent or not. The government should introduce hybrid learning in a few phases. In the first phase, all the white and blackboards should be replaced with smartboards. In the second phase, all the teachers who do not have a ~~same~~ gadget (smartphone, laptop computer) should be given free gadgets. In the third phase, the students should be given free gadgets.

If I see Pakistan's future in a learning method, I only see it in hybrid learning, since it is the only way we can eradicate ~~learning~~ traditional learning methods.

For further queries,

falaknaaz2007@gmail.com.

Description of Weaker Responses	Candidates with *weaker responses* did not provide complete reasoning about their stance on hybrid and physical classrooms. Some also chose to mention what advanced hybrid learning is without linking to the question asked. The overall structure of the report also reflects errors of punctuation and some spelling mistakes can be seen.

Subject:- Future of hybird learning in Pakistan

respected madam:-

hybird learning is one of the most fastest growing feild in Pakistan. because everyone is going for hybird and it will also save the expenese. we can make our life easier after learning hybird course it is a fasting growing feild and in upcoming time it goes also valued. student may have to learn hybird to apply for better future and teather have to lern hybird to teach the student also teach the importance of hybird in upcoming time.

Two challenges that may have lack of knowledge for this challenge you have to take course from another and take classes from them they will teach you advanced hybird learning and make you more efficient in this field this feild is very important because now everything is running on hybird so they have to learn in more better way so that they can perform well.

It is important for teacher so they can the student about hybrid learning why it is so much cimportant. and know it's very important to learn and put show some intrest over here

Regards

Question No. 4a	
Question Text	In this digital and fast paced world, there are studies that show that the percentage of people who read books has significantly decreased. Write an essay on the importance of reading books. In your essay, - discuss THREE benefits of reading books. - suggest TWO ways in which people can incorporate reading in their busy lives.
SLO No.	6.1.10
SLO Text	a. Support a thesis/ claim with specific rather than general reasons/ examples; b. Analyse ideas and evidence in a logical sequence; c. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing Claims, and create an organisation that establishes clear relationships among claim(s), counterclaims, reasons, and evidence; d. Evaluate credibility of opinions, facts and stated/ perceived beliefs with logic in argumentative texts; e. Use specific rhetorical devices to persuade (appeal to emotion and ethics, along with logic, use of analogies, examples or relating a personal experience); f. Defend opinions regarding social and current issues;
Max Marks	18
Cognitive Level	A
Checking Hints	**Content Relevance: 5 Marks** 1 mark for discussing each benefit (3 required) 1 mark for discussing each way (2 required) **Language Accuracy: 4 Marks** 1 mark for accuracy of spelling (at least three errors) 1 mark for the correct use of tenses (at least three errors) 1 mark for the agreement of subject and verb (at least three errors) 1 mark for placing punctuation marks appropriately: full stops, capital letters (where needed), commas and colon (at least three errors) **Impression Marking: 9 Marks** Good (9-7) • Ideas are clearly expressed in a wide range of effective and/or interesting language. Ideas are expressed in a logical sequence.

	• Content reflects appropriate vocabulary, informal tone and style to take into account the nature of relationship with, and the interests of, the recipient. • A variety of sentence structures is used, mostly with control, in all paragraphs. • A range of connectives (if, because, and, but etc.) and cohesive markers (nevertheless, moreover, and therefore etc.) are used to provide details and expand ideas. Average (6-4) • Ideas are expressed clearly but comparatively the expression is plain or there are redundant phrases. • Content reflects appropriate vocabulary, style and tone but usually the ideas are not well connected or the relationship with the recipient is not taken into account. • A variety of sentence structures is used with moderate accuracy / internal consistency. • Few connectives are used to provide details and expand ideas. Below Average (3-1) • Sentence structures and language are repetitive or unclear and there are various errors. • Content represents generalized, redundant or disconnected ideas. The style, tone and vocabulary are inappropriate. • Ideas are difficult to interpret because of flawed language. • No internal cohesion or consistency observed.
Overall Performance	Overall observation suggests this was a popular choice amongst the candidates, but it also reflected candidates' limited exposure and practice for analytical writings that requires reasoning even for a most known concept such as reading habits. Some candidates presented generalised understanding of reading without discussing its decline.
Description of Better Responses	*Better responses* showed a clear understanding of the prompt, presenting strong and well-reasoned arguments supported by personal and social observations. Candidates demonstrated good command of sentence structure, grammar, and vocabulary, resulting in coherent and well-structured writing. These responses included relevant examples to support the stated benefits of reading habits and effectively discussed their influence on personality development, skill enhancement, wisdom, intelligence, and overall improvement in concentration and focus. Additionally, candidates offered practical suggestions for incorporating reading habits into daily life, further strengthening the quality of their responses.

Image of Better Responses

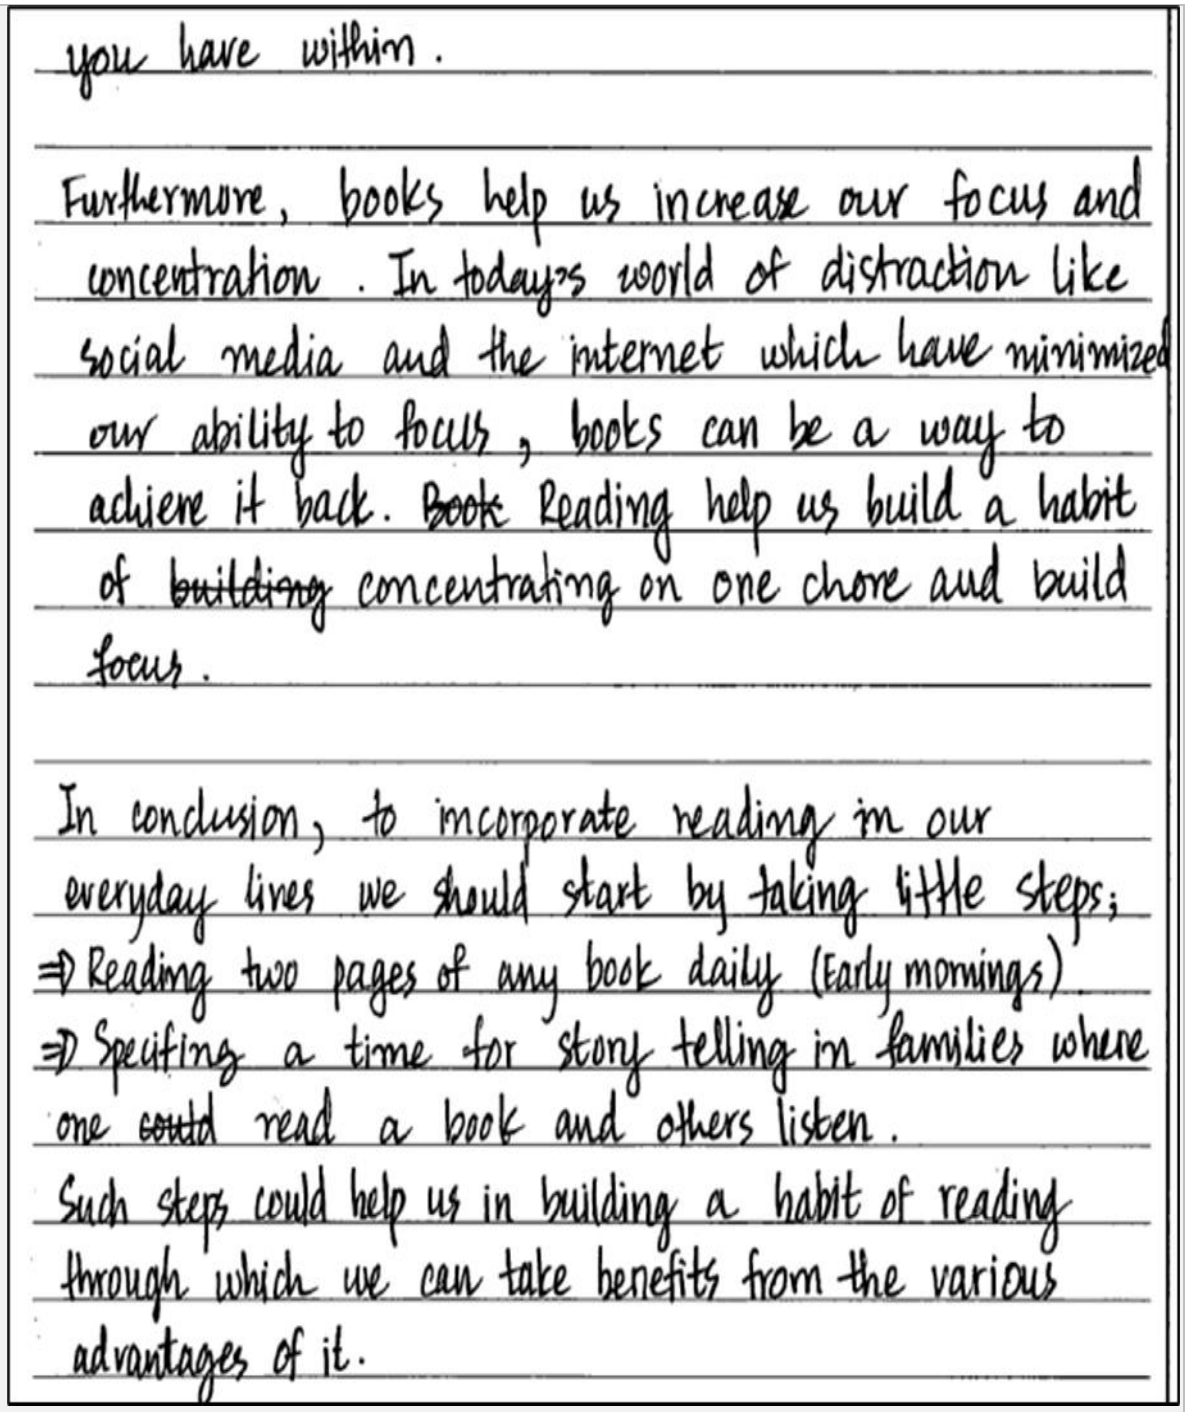

Option A

A Habit of Reading

Scientific and technological advancements have impacted humans widely. Among the many benefits, some disadvantages have also been seen with the passage of time. Changes are inevitable and it is vivid that many good habits of people have been forgotten. One such habit which has been undermined is book reading. Digitalization has erased book reading from our lives. However, Book reading has abundant benefits; ~~broad~~ it broadens our horizon, act as a source of wisdom and increase our concentration and focus.

Book reading is a great habit for personal development and growth. A Books usually contains various perspectives. It makes us look into the world with different angles. It makes us analyze a situation based on the different ways. Thus it helps us think out of the matrix. It releases us from the prison of limited horizon. It helps us widen the gateways for understanding things.

Secondly, book are the utmost source of wisdom. You can find knowledge about various topic whether its Science, Philosophy, mathematics, theology or religion. Everytime you read a book you ~~increase~~ add one more drop into the ocean of knowledge

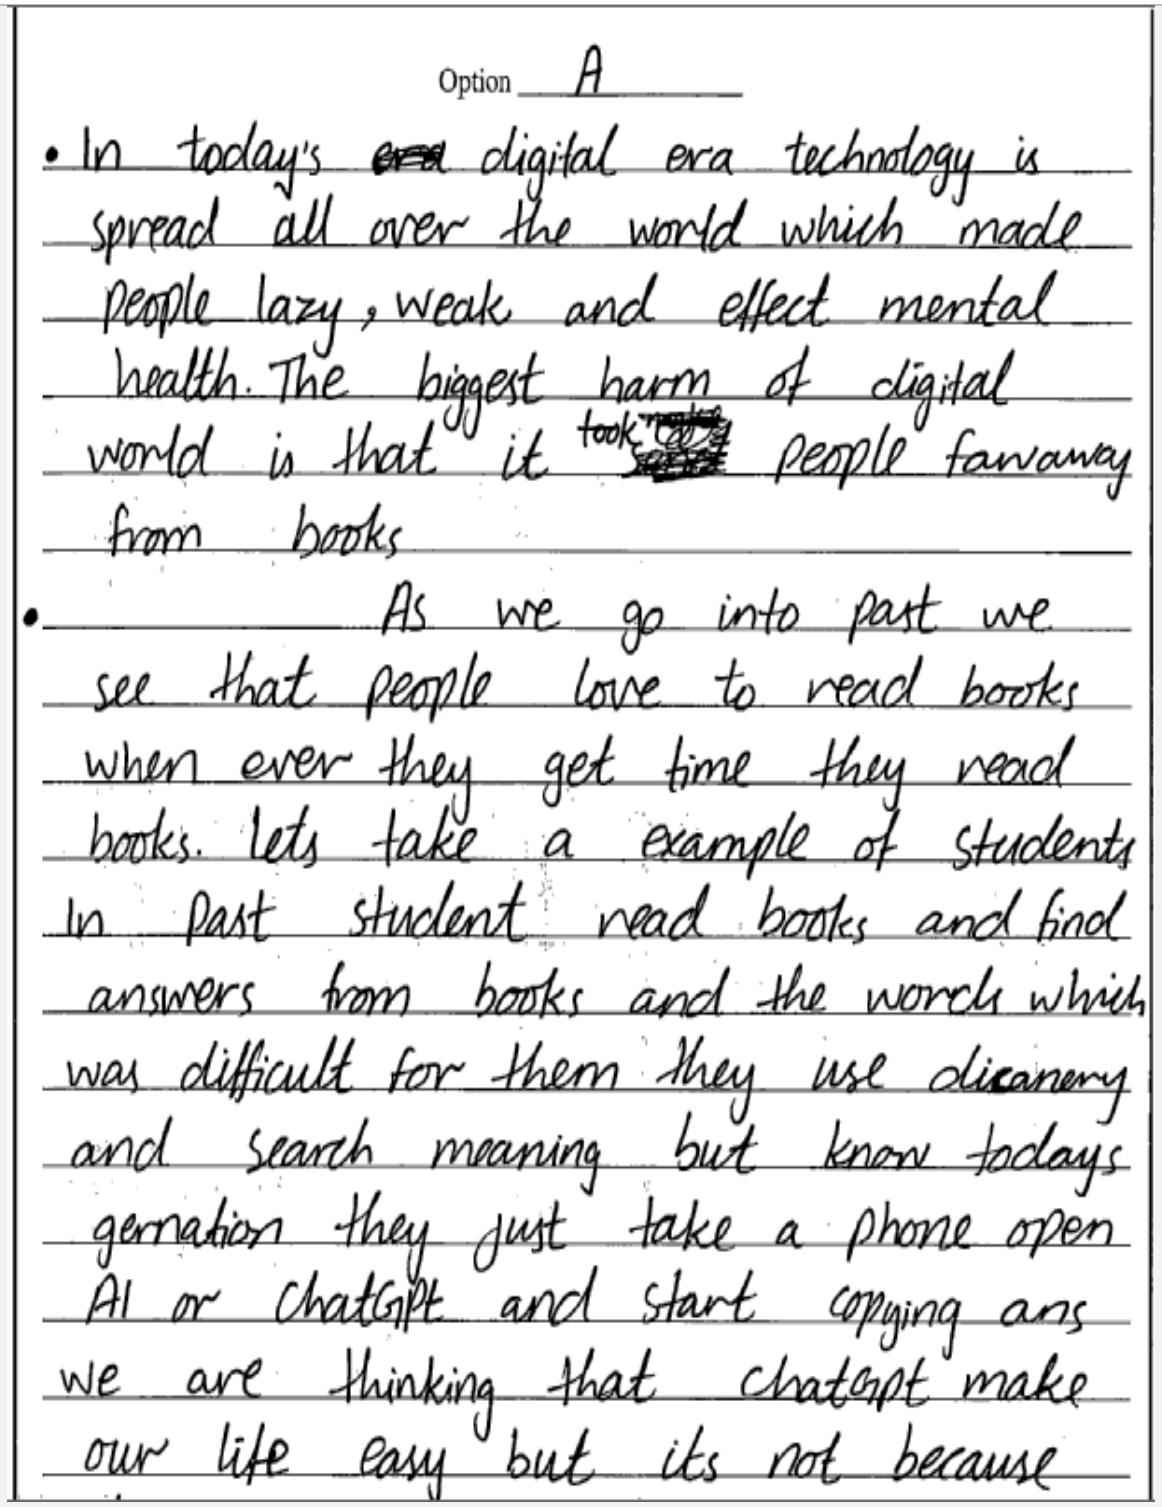

you have within.

Furthermore, books help us increase our focus and concentration. In todays world of distraction like social media and the internet which have minimized our ability to focus, books can be a way to achieve it back. Book Reading help us build a habit of ~~building~~ concentrating on one chore and build focus.

In conclusion, to incorporate reading in our everyday lives we should start by taking little steps;
⇒ Reading two pages of any book daily (Early mornings).
⇒ Specifing a time for story telling in families where one ~~could~~ read a book and others listen.
Such steps could help us in building a habit of reading through which we can take benefits from the various advantages of it.

Description of Weaker Responses	Candidates with *weaker responses* provided vague or incomplete points to their writings, some responses showcased weak sentence structures, spelling mistakes. Other weaker response candidates did not provide valid reasoning about the benefits of reading, suggestion or ways of improvement reading practices/ habits in their essays.

Image of Weaker Responses

Option A

- In today's ~~era~~ digital era technology is spread all over the world which made people lazy, weak and effect mental health. The biggest harm of digital world is that it took people fawaway from books

- As we go into past we see that people love to read books when ever they get time they read books. lets take a example of students In past student read books and find answers from books and the worch which was difficult for them they use dicanery and search meaning but know todays gernation they just take a phone open AI or ChatGpt and start copying ans we are thinking that chatgpt make our life easy but its not because

So Importance of reading books are it make your mind sharp, it will give your mind relevation and provide ~~peice~~ peice but how books are providing peice? If you are working of AI and studying 4-5 hour's in screen it will give you stress, mental and physical health problem.

- Books are best friend of people If you give time to books they will provide you knowledge, make your mind sharp and make you good person in society, As you see history the person who love books and (make a book) friend they got success in their ~~titles~~ lives books make a person perfect ~~peice~~ technology is not come by their self people read books search from books then it make our life easy. reading books makes your mind fresh and get you away from anxiety, depression. In today's world 8 out of 10 people are facing depression problem due to social media.

- So to just keep you fit and relax give your time to books read what ever you want to and give relaxation to your minds and eyes and body Moreover books plays an important role in human Success so reading books make you successful. books are the only best friends of human which make them success.

Below Average (3-1) • Sentence structures and language are repetitive or unclear and there are various errors. • Content represents generalized, redundant or disconnected ideas. The style, tone and vocabulary are inappropriate. • Ideas are difficult to interpret because of flawed language. • No internal cohesion or consistency observed.
Overall Performance	Overall, candidates presented impressive writings, with concrete understanding of the idea. Majority candidates incorporated narrative and reflective strategies skilfully in their responses.
Description of Better Responses	*Better responses* demonstrated a strong understanding of the prompt, characterised by well-developed paragraphs and a logical sequencing of ideas. These responses are marked by correct grammar, varied sentence structures, and the use of advanced vocabulary and figurative expressions. Candidates who produced high-quality responses often presented an impressive description of their academic journey from one of uncertainty to wholesomeness, including personal challenges and the pivotal role of a mentor who supported them through difficult times.

Images of Better Responses

Example 01:

Option b

* It may sound cliché, but at times it feels that you have finally hit the rock bottom. It feels that you are left stranded all alone in an endless void and darkness and you are so caught in a trance that nobody could pull you out of it. No matter how hard you try or thrash to escape the chains of academic pressure, ~~escape~~ they would not budge. It feels like you are running through a maze or a labyrinth trying to find an escape, but it all leads you back to square one.

Similarly, I have gone through these feelings so many times that if I were to count on my fingers, I would come up short. Throughout my college life, I have had my highs and lows which may seem normal from the frontside, but it hurts to acknowledge it. I have always been a golden student infront of the eyes of my family – the student who does not need nor require any assistance.

The worst part was that noone was aware of my difficulties. If I were to describe my second year of college in one word, it would be 'Hell'!

Scoring a distinction in any one of the subject was always my dream and to fulfil my dreams or goals, I could go to any length. I had started studying since day 1, clearing all my concepts, solving past papers and different questions from different websites to erase all doubts of not being able to succeed. I used

to wake up early in the morning trying to be productive by not only studying for my exams but also taking care of my mental health.

not only did I spend the entire year studying but I also participated in different extra curricular activities and competitions which I was very over the moon and eccentric for. And I succeeded in them. But for my academics, I scored very high in some subjects half of the time and very low in some subjects the other half of the time which crumbled my confidence.

Furthermore, at times my brain would 'short circuit' so bad that even for the easiest of tasks, my brain would immediately give up which was very far fetched of me. I could not even share my thoughts with anyone because my brain would trick me into believing this was all my fault, and that if I had tried a little more hard, the results could have been entirely different.

In the end when I could not take it any longer, I started seeking guidance from a therapist. He not only lend his ear to listen to my story but also gave suggestions to write down all my thoughts in a journal when I feel that my emotions could overpower me. This not only acted as a soothing balm on my wounds, but also changed me in one way or the other. It helped my brain expand and to look into things from a different perspective which put me at ease from the constant niggling feeling and helped me take one step at a time. I can now, glad to say, easily perform my tasks without my brain giving up on me.

Example 02:

Option b

A rollercoaster ride, I believe we've all been on one. Zooming through its tracks and sudden jolts to rattle the nervous system, we love the one that can make us scream the loudest.

Well, my academic life has been quite the same, but different in a way that I've fallen from this ride, not once nor twice but multiples of times. The horrific part being that I've to climb on it again with broken marks, a demotivated mind and bleeding emotions.

Flashing back to as long as I remember, I've been Praised for inhereting my grandfather's extra ordinary brain, making the roller coaster go steady and upwards. I never had to try, I just knew what to do and even if I didn't, it got to me in the first few sentences that flowed from my teachers' mouths. With the first one in my generation being to score 95+ till grade 3.

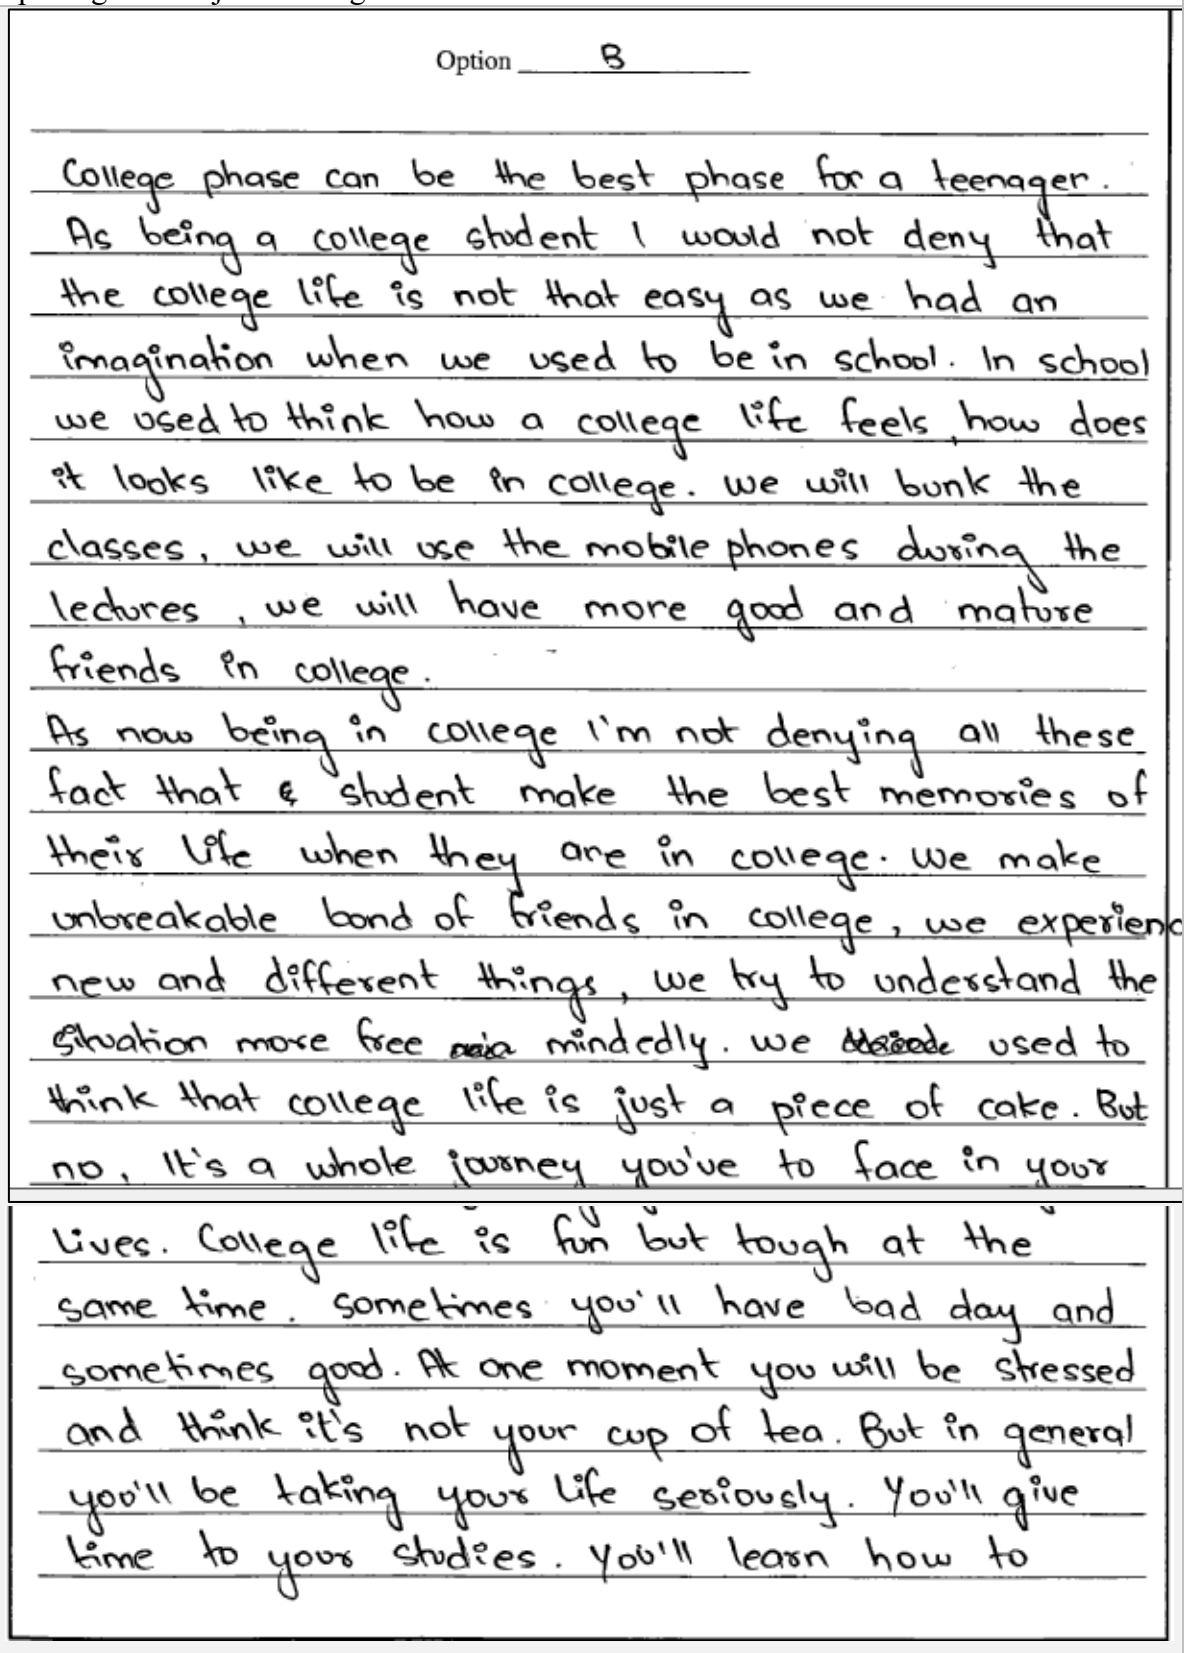

The rollercoaster's pace was increasing but I left my heart maybe two minutes before. Roller coasters never turn back a voice echoed in my brain. Forget what is gone and grab what you see next. The only problem was that I couldn't see! The wind was too fast, fast enough to not let me open my eyes. I was just going with the flow, my eyes shut with the wind's pressure and ~~my~~ the speed just a little too fast for my liking.

Suddenly it stopped, stationary for a minute, no wind, no movement. The ride has ended maybe? and just when I opened my eyes, we were at the Top of the ride. With no further warning, the roller coaster started to fall. I held on to the protection bar, clenched my eyes shut and this time I let out a scream, a loud one, enough to scar my throat and shred my lungs till they burst. The fall went on for 5 years. I could hear happy screams and people laughing but it was only me that shreiked from horror untill my voice started to hurt others, and they unlatched my belt and pushed me off the ride.

I was failing, every subject that came my way. From challenge #1
Maths to Arts, not once was spared from the wrath of my arrogant brain. Till Grade 8, where teachers gave in, told my parents that I was helpless and hopeless.

Watching every part of me bleed, I sat for a bit, reflected on my past. The challenge #2. fear of being called STUPID was the reason, I couldn't be called that, not even by my ownself. I quit things which I wasn't naturally good at, which was almost everything. I didn't want to be known as the girl who wasted her academic potential, so I sat back up, bandaged my wounds. I knew that the ride won't stop for me to sit back on it again. I reminded myself that I came from a family of women who are resilient in every way known to a man, and then I started to climb the track and catch the ride on my own. It didn't happen instantly, as a matter of fact, it took me 2 years to catch it. Right now, I'm riding it, still. ~~If/gave~~ and its safe to say that I did ~~become~~ get a hold of it. I am now not screaming because of ~~horror~~ but screaming in ~~its~~ horror's face.

The ride isn't pleasent, but I've learned how to enjoy it. The bold turns and sudden ~~turns~~ ones do ~~make~~ give me nausea and Yes I do question myself as to why did I ever get back to this agitating, blood boiling and nauseaus ride, but watching my fear stand below and witness me enjoy my life blows another level of peace into me, knowing it was only me, myself and I against all odds, I was the only one by myside has, will and forever make me proud.

Description of Weaker Responses	*Weaker responses* reflect no use of adjectives in describing the academic journey, an important criterion that seems to be ignored. Candidates with weaker responses presents two challenges such as the difficult times in college and challenges in making friends but did not mention the reference of a mentor or support. Such responses illustrated errors in spelling and subject-verb agreement.
Image of Weaker Responses	

Option B

College phase can be the best phase for a teenager. As being a college student I would not deny that the college life is not that easy as we had an imagination when we used to be in school. In school we used to think how a college life feels, how does it looks like to be in college. we will bunk the classes, we will use the mobile phones during the lectures, we will have more good and mature friends in college.

As now being in college I'm not denying all these fact that a student make the best memories of their life when they are in college. We make unbreakable bond of friends in college, we experienc new and different things, we try to understand the situation more free ~~ma~~ mindedly. we ~~used~~ used to think that college life is just a piece of cake. But no, It's a whole journey you've to face in your lives. College life is fun but tough at the same time. sometimes you'll have bad day and sometimes good. At one moment you will be stressed and think it's not your cup of tea. But in general you'll be taking your life seriously. You'll give time to your studies. you'll learn how to

manage several things at a one go.
You'll face different challenges while this journey, as I did. I hade a lot of stress during my final exams. I had no idea from where I should just start studying and from where to just break the ice. As we know that college life is very crutial for your career. College's result decides your future, it decides your next path. Thats why we have to and we should work hard to acheive good grades in college and decide our future as well as make our parents proud.

College life will be the one who will teach you alot of lessons, either it belongs to your personal life or about your studies. It'll teach you that if you want something you've to work hard for it.
During your exams you'll have sleepless nights, stressfull days but you don't lose courage. Study from resource pack, take guidance from your subject teacher, study from internet if needed, study from reference books. And appear in exam with full courage and motivation and believe on yourself and on a hard work you did. "College life is not easy yet not difficult

Suggestions for improvement (Highlight all that apply)

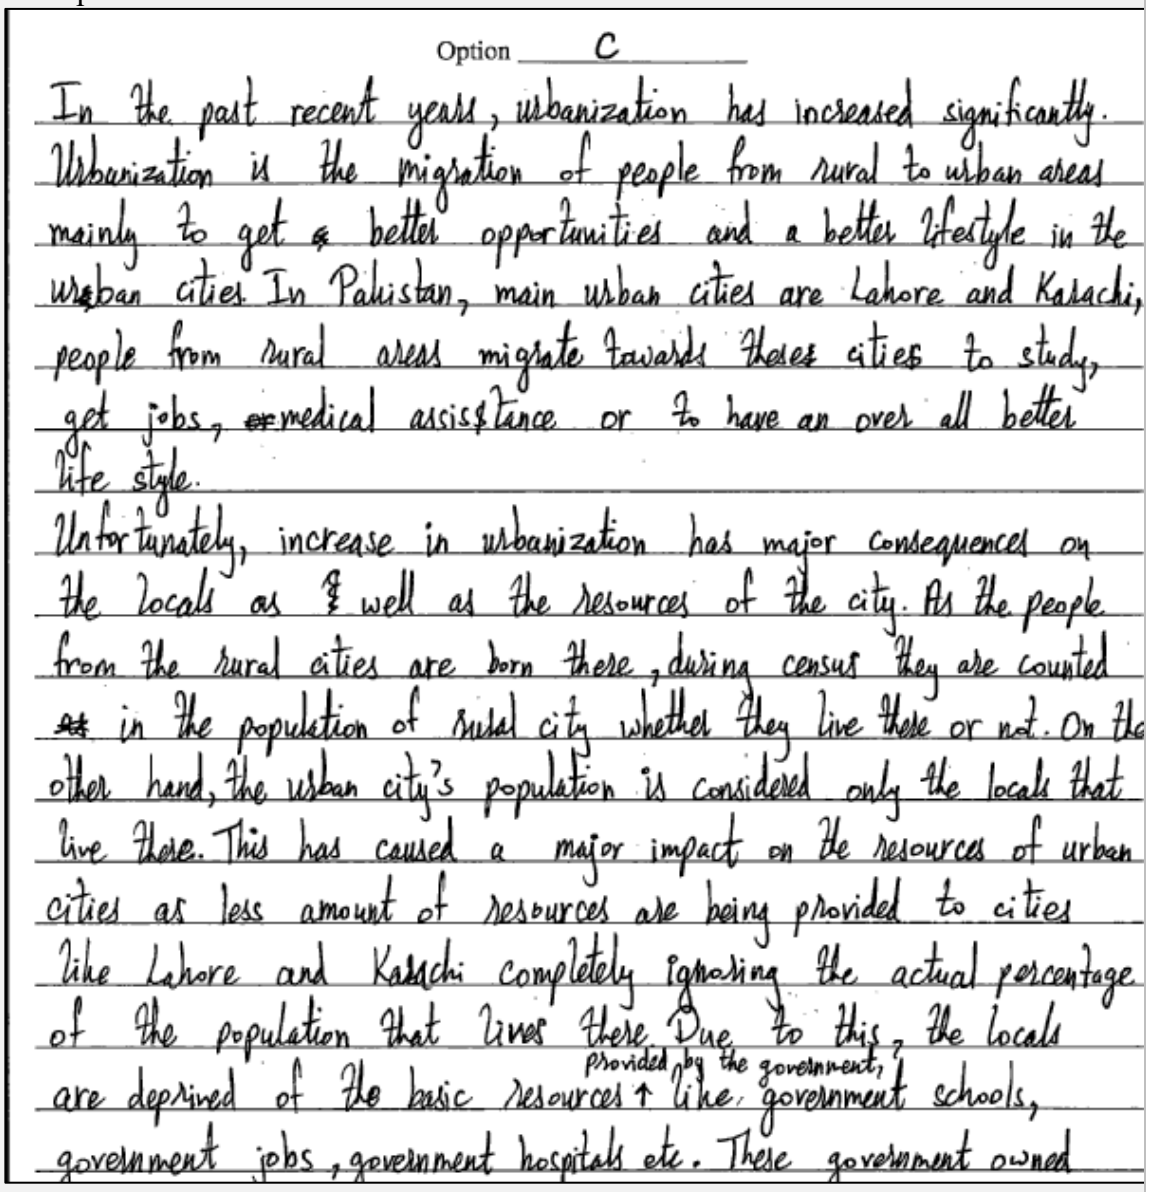

Maximising SLO Achievement	Preferred Pedagogy Used for this SLO	Assessment Strategies
• Identify the expectation of command words (use Command Word Guide) • Ensure the content is taught at the relevant cognitive level • Identify necessary content required (skills + concepts) • Review past paper questions on the concept • Utilise the resource guide for additional materials	• Story Board • Cause and Effect • Fish and Bone • Concept Mapping • Audio Visual Resources • Think, Pair and Share • Knowledge Platform videos • Questioning Technique (Socratic approach) • Practical Demonstration	• Past paper questions • Discussion on E-Marking Notes • AKU-EB Digital Learning Solution powered by Knowledge Platform https://akueb.knowledgeplatform.com/login

Question No. 4c	
Question Text	Urbanisation is an increase in the human population as a result of migration from rural to urban areas. It is one of the major causes that is adversely impacting the environment. Write an essay on the given issue. In your essay, - explain the reason why people are moving from rural to urban areas in great numbers. - analyse TWO consequences of urbanisation on the environment. - discuss TWO strategies to counter urbanisation and make the environment sustainable for the future.
SLO No.	6.1.11
SLO Text	Analyse a situation or issue (social, economic and scientific): a. relational process: (relationship of cause and effect, comparison and contrast, problem and solution); b. external conjunctions: relate a situation to other events or phenomenon/ real life events; c. internal conjunctions: elaborating and itemising steps (firstly… secondly .. next… finally); d. deducing the causes and consequences/ advantages and disadvantages/ strengths and limitations of a given happening or phenomenon with evidences.
Max Marks	18
Cognitive Level	A
Checking Hints	**Content Relevance: 5 Marks** 1 mark for explaining the reason 1 mark for analysing each consequence (2 required) 1 mark for discussing each strategy (2 required) **Language Accuracy: 4 Marks** 1 mark for accuracy of spelling (at least three errors) 1 mark for the correct use of tenses (at least three errors) 1 mark for the agreement of subject and verb (at least three errors) 1 mark for placing punctuation marks appropriately: full stops, capital letters (where needed), commas and colon (at least three errors)

	Impression Marking: 9 Marks Good (9-7) • Ideas are clearly expressed in a wide range of effective and/or interesting language. Ideas are expressed in a logical sequence. • Content reflects appropriate vocabulary, informal tone and style to take into account the nature of relationship with, and the interests of, the recipient. • A variety of sentence structures is used, mostly with control, in all paragraphs. • A range of connectives (if, because, and, but etc.) and cohesive markers (nevertheless, moreover, and therefore etc.) are used to provide details and expand ideas. Average (6-4) • Ideas are expressed clearly but comparatively the expression is plain or there are redundant phrases. • Content reflects appropriate vocabulary, style and tone but usually the ideas are not well connected or the relationship with the recipient is not taken into account. • A variety of sentence structures is used with moderate accuracy / internal consistency. • Few connectives are used to provide details and expand ideas. Below Average (3-1) • Sentence structures and language are repetitive or unclear and there are various errors. • Content represents generalized, redundant or disconnected ideas. The style, tone and vocabulary are inappropriate. • Ideas are difficult to interpret because of flawed language. • No internal cohesion or consistency observed.
Overall Performance	Overall, candidates with solid understanding of the concept opted for the given question. This preference reflected students' exposure and practice to writing on broad and complex concepts with valid reasoning and appropriate structures.
Description of Better Responses	*Better responses* showcased a clear and in-depth understanding of the topic by presenting valid and well-developed points. These responses demonstrated strong cohesion through the effective use of cohesive devices and a logical sequence of ideas, often structured through well-organised paragraphing. In some cases, candidates used bullet points to present key ideas more clearly and concisely. Such responses typically included appropriate elaboration on the causes of urbanization, identifying various contributing factors such as limited or scarce resources, lack of opportunities, religious or cultural restrictions, and climatic disasters or calamities. They also addressed the consequences and implications of urbanisation on cities, districts, and the environment, offering insightful analysis. Moreover, candidates proposed valid and reasonable suggestions for governments, authorities, and civilians on how to address and mitigate the issues arising from urbanisation.

Images of Better Responses

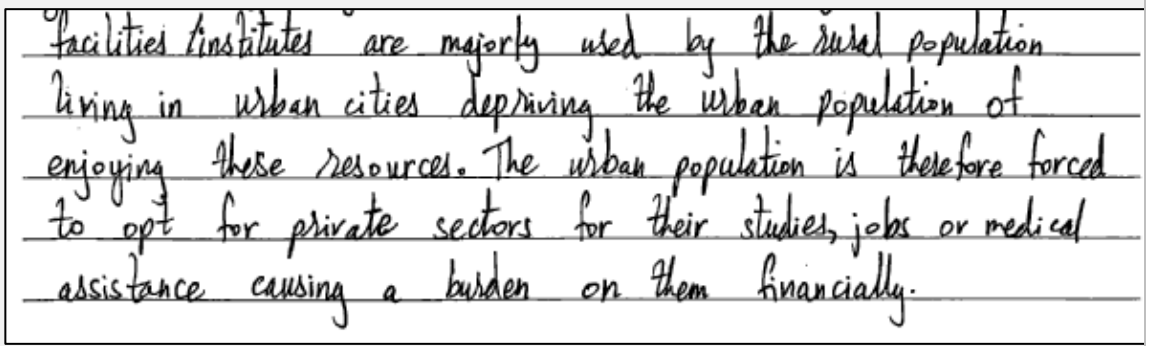

Example 01:

Option C

In the past recent years, urbanization has increased significantly. Urbanization is the migration of people from rural to urban areas mainly to get better opportunities and a better lifestyle in the urban cities. In Pakistan, main urban cities are Lahore and Karachi, people from rural areas migrate towards these cities to study, get jobs, medical assistance or to have an over all better life style.

Unfortunately, increase in urbanization has major consequences on the locals as well as the resources of the city. As the people from the rural cities are born there, during census they are counted in the population of rural city whether they live there or not. On the other hand, the urban city's population is considered only the locals that live there. This has caused a major impact on the resources of urban cities as less amount of resources are being provided to cities like Lahore and Karachi completely ignoring the actual percentage of the population that lives there. Due to this, the locals are deprived of the basic resources ↑ provided by the government, like government schools, government jobs, government hospitals etc. These government owned

facilities (institutes) are majorly used by the rural population living in urban cities depriving the urban population of enjoying these resources. The urban population is therefore forced to opt for private sectors for their studies, jobs or medical assistance causing a burden on them financially.

Moreover, urbanization causes increase in population leading to ~~lots~~ lack of residential facilities which results in people living in illegal areas or slums. The people who live there are usually poor and due to the unhygenic environment of slums they are more ~~prone~~ likely to getting ill and die because of improper medical help

It is the responsibility of the government to provide ~~better~~ proper facilities to its people. A few strategies that can be adopted by the government is; building of a proper educational system in rural areas, opening ~~so~~ hospitals in backward areas with proper equipments and medical staff as well as providing job opportunities to people of rural areas in their cities. ~~The~~ If these facilities are provided to people in their cities they won't feel the need to migrate to urban cities as their requirements will be fulfilled while living in their own cities. This will benefit everyone as the people of urban cities will also be able to enjoy the resources in their city without exhausting the resources.

Furthermore, the government should build residential small units to facilitate the migrators and prevent them from living in slums as it can lead to spread of various diseases, ~~to~~ to avoid the harm of urbanization.

Example 02:

Option C

Every citizen of a nation has the right to live a peaceful life and take good care of his family. Unfortunately, such opportunities are greatly confined to urban areas. The migration of people from rural to urban areas is known as "Urbanization." Concentration of people in specific areas not only disrupts daily life but it also causes environmental crisis.

No one likes to leave their home town or village but extreme conditions makes it difficult to survive. People migrate to urban areas seeking opportunities and make their lives better. Poor education, low employement rate and large families to feed are crucial factors causing urbanization. People don't realize that this rapid movement causes a decline in opportunities, even in urban areas. This causes them to illegaly live in slums and walk on the path of crime.

Firstly, the impact of urbanization is overpopulation. This overpopulation causes depletion of natural

resources like water, gas and food. High demands of electricity and these resources cause high use of non-renewable resources to generate them. This disrupts natural processes, increasing global warming, elevated CO_2 concentration and pollution.

Secondly, urbanization causes habitat destruction of animals. To meet high demand of living areas, deforestation is done, to make grounds for building infrastructure. This destroys habitats of animals like birds, forcing them to migrate to other regions. Deforestation also causes increase of harmful gases which contribute in phenomenas like global warming and natural disasters.

To counter these consequences, the government should reduce urbanization. This could be done by providing equal opportunities in rural areas. Schools should be built to provide education and adults should be given employement with healthy pays. This would reduce urbanization and ultimately reduce the need of excess non-renewable resources, contributing

	in making of a healthier environment. Furthermore, awareness campaigns must be initiated to educate people about the cons of urbanization and importance of family planning. This would help couples to understand that more children not only means more money makers but also more to take care of. By this initiative rate of urbanization would reduce and the need of de-forestation would ultimately decrease. In conclusion, urbanization is a negative force that affects a nation both environmentally and financially. Government should make sure to take initiatives to counter these problems and their causes. Only then a nation could strive in a much better and greener way!
Description of Weaker Responses	In *weaker responses*, candidates presented a few valid points related to the question and its topics; however, these responses reflected a limited understanding of the concept of urbanisation. A common misconception observed was the belief that urbanisation solely refers to the expansion of buildings and infrastructure, ignoring its broader social, economic, and environmental impacts. Additionally, many candidates made frequent errors in tense usage, subject-verb agreement, and punctuation, which further affected the clarity and accuracy of their responses.

Image of Weaker Responses

Urbanisation have been increased from passed 15 years and now it is increasing at a high rate. There are so many challenges due to urbanisation and we are facing right now.

Migration from rural to urban areas are because of lack of infrastructure, services and employement in rural areas. Due to urbanisation inflation is very high as now there is lack of recourses but population has increased, and many diseases are spreading because of high pollution and unwareness.

If urbanisation is not stopped, people living in urban areas has to face many problems. There will be shortage of employement, food e.t.c.

Many people come to urban areas for hospital service as there is no advance hospital in rural areas. Some people come for employement because in rural areas there is illeteracy and unawareness.

For making environment sustainable and to counter urbanisation first of all the people of rural areas have to be educated and literate. Government have to build hospitals, better education system and facilate them.

Unless we take this problem sesiosly it is difficult to overcome urbanisation but I believe this problem would be solved and the environment will breathe a fresh air.

Any Additional Suggestion:		

Annexure A: Pedagogies Used for Teaching the SLOs

Pedagogy: Storyboard
Description: A visual pedagogy that uses a series of illustrated panels to present a narrative, encouraging creativity and critical thinking. It helps learners organise ideas, sequence events, and comprehend complex concepts through storytelling.
Example: In a Literature class, students are tasked with creating storyboards to visually retell a novel. They draw key scenes, write captions, and present their stories to the class, enhancing their reading comprehension and fostering their imagination.

Pedagogy: Cause and Effect
Description: This pedagogy explores the relationships between actions and consequences. By analysing cause-and-effect relationships, learners develop a deeper understanding of how events are interconnected and how one action can lead to various outcomes.
Example: In a History class, students study the causes and effects of the Industrial Revolution. They research and discuss how technological advancements in manufacturing led to significant societal changes, such as urbanisation and labour reform movements.

Pedagogy: Fish and Bone
Description: A method that breaks down complex topics into main ideas (the fish) and supporting details (the bones). This visual approach enhances comprehension by highlighting essential concepts and their relevant explanations.
Example: During a Biology class on human anatomy, the teacher uses the fish and bone technique to teach about the human skeletal system. Teacher presents the main components of the human skeleton (fish) and elaborates on each bone's structure and function (bones).

Pedagogy: Concept Mapping
Description: An effective way to visually represent relationships between ideas. Learners create diagrams connecting key concepts, aiding in understanding the overall structure of a subject and fostering retention.
Example: In a Psychology assignment, students use concept mapping to explore the various theories of personality. They interlink different theories, such as Freud's psychoanalysis, Jung's analytical psychology, and Bandura's social-cognitive theory, to see how they relate to each other.

Pedagogy: Audio Visual Resources
Description: Incorporating multimedia elements like videos, images, and audio into lessons. This approach caters to different learning styles, making educational content more engaging and memorable.
Example: In a General Science class, the teacher uses a documentary-style video to teach about the solar system. The video includes stunning visual animations of the planets, interviews with astronomers, and background music, enhancing students' interest and understanding of space.

Pedagogy: Think, Pair, and Share
Description: A collaborative learning technique where students ponder a question or problem individually, then discuss their thoughts in pairs or small groups before sharing with the entire class. It fosters active participation, communication skills, and diverse perspectives.
Example: In a Literature in English class, the teacher poses a thought-provoking question about a novel's moral dilemma. Students first reflect individually, then pair up to exchange their opinions, and finally participate in a lively class discussion to explore different viewpoints.

Pedagogy: Questioning Technique (Socratic Approach)
Description: Based on Socratic dialogue, this method stimulates critical thinking by posing thought-provoking questions. It encourages learners to explore ideas, justify their reasoning, and discover knowledge through a process of inquiry.
Example: In an Ethics class, the instructor uses the Socratic approach to lead a discussion on the meaning of justice. By asking a series of probing questions, the students engage in a deeper exploration of ethical principles and societal values.

Pedagogy: Practical Demonstration
Description: A hands-on approach where learners observe real-life applications of theories or skills. Practical demonstrations enhance comprehension, skill acquisition, and problem-solving abilities by bridging theoretical concepts with real-world scenarios.
Example: In a Food and Nutrition class, the instructor demonstrates the proper technique for filleting a fish. Students observe and then practice the skill themselves, learning the practical application of knife skills and culinary precision.

(**Note:** The examples provided in this annexure serve as illustrations of various pedagogies. It is important to understand that these pedagogies are versatile and can be applied across subjects in numerous ways. Feel free to adapt and explore these techniques creatively to enhance learning outcomes in your specific context.)

Acknowledgements

The Aga Khan University Examination Board (AKU-EB) acknowledges with gratitude the invaluable contributions of all the dedicated individuals who have played a pivotal role in the development of the English compulsory HSSC-I E-Marking Notes.

We extend our sincere appreciation to Ms Sania Iqbal Siddiqui, Lead Specialist of English Language and Literature at AKU-EB, for her leadership and oversight of the e-marking process.

We particularly thank to Ms Hiba Zehra, Habib Girls' School, Karachi, for evaluating each question's performances, delineating strengths and weaknesses in candidates' responses, and highlighting instructional approaches along with recommendations for better performance.

We express our appreciation to our Senior Marker, Mr Malik Zeeshan Ahmed, Habib Public High School, Karachi for contributing to HSSC-II's e-marking notes.

Additionally, we express our gratitude to the esteemed team of reviewers for their constructive feedback on overall performance, better and weaker responses, and validating teaching pedagogies along with suggestions for improvement.

These contributors include:

• Zain Muluk, Manager, Examination Development, AKU-EB

• Munira Muhammad, Manager, Assessment, AKU-EB

• Dr Naveed Yousuf, CEO, AKU-EB
